Terms and Conditions of Sale

1. This is a public auction and mail-bid sale held by Heritage Numismatic Auctions, Inc. a licensed and bonded auctioneer (the "Auctioneer"). **Although the Auctioneer may not withdraw any lot after a call for bids has been made with respect to that lot, the consignor of the property included in the lot may bid on and purchase the lot at the auction sale for his own account.** Notice of the consignor's liberty to bid is hereby made in accordance with Article 2 of the Texas Uniform Commercial Code. The purchase of a lot by consignor's bid shall obligate such consignor or pay a fee to the auctioneer.
2. The highest bidder acknowledged by Auctioneer shall be the buyer. In the event of any dispute between bidders, the Auctioneer may at his sole discretion immediately put the lot up for sale again. The Auctioneer's decision shall be final and binding upon all bidders.
3. A buyer's premium equal to 10% of the successful bid price will be added to each invoice, unless the purchase is made by a consignor's bid on the consignor's property in which case a separate fee may be added. The premium and the fee are payable by the buyer as part of the total purchase price.
4. All bids are to be per lot as numbered in this catalog, and no lots will be broken. The Auctioneer reserves the right to group two or more lots together and to withdraw, prior to a call for bids, any lot or lots from the sale. Bids will be accepted in whole dollar amounts only.
5. All sales are strictly for cash in United States dollars (no credit cards accepted) and are due and payable immediately upon receipt of the auction invoice or if payment is to be made at the auction sale, simultaneously with receipt of the coins. **The Auctioneer reserves the right to void a sale if payment in full of the invoice is not received by the Auctioneer within 15 days after the date of the invoice.** Lots delivered in the State of Texas and Maryland are subject to all applicable state and local taxes, unless appropriate permits are on file with us. Shipping, handling, and transit insurance charges will be added to invoices for the lots delivered by mail. Overseas buyers must furnish their own insurance during shipment.
6. If the auction invoice(s) submitted by the Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law until paid, and if the Auctioneer refers the invoice(s) to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by the auctioneer, including reimbursement for the time spent by attorneys employed by Auctioneer or its affiliates in the collecting of the debt, at a rate comparable to the hourly rate of independent attorneys. The courts of Dallas County, Texas shall have exclusive jurisdiction and venue over any suit initiated by the Auctioneer to collect delinquent invoice(s), and all bidders consent to in person jurisdiction of the courts of the State of Texas. In the event that a bidder's payment is dishonored or not made timely. Bidder shall pay the maximum statutory processing fees and late charges set by applicable state law.
7. Mail bidders who have not previously established credit must furnish satisfactory references well in advance of the sale date, or send a deposit of 25% of their bids which is applicable to purchases. Any portion of such deposit not used will be promptly refunded after the sale.
8. All bidders who have mailing addresses outside the United States of America, the Territories of the USA, Canada or Mexico, or have addresses through the U.S. Military, must deposit with the Auctioneer 25% of the total amount bid in United States dollars. Any portion of such deposit not used will be promptly refunded after the sale. Also, persons who have APO or FPO box numbers must deposit 25%.
9. The Auctioneer reserves the right to require payment in full before delivery of the merchandise to the buyer. **Bidder personally guarantees payment of all successful bid, and if a corporation, an officer or principal in the corporation agrees to personally guarantee such payment.** Title shall not pass to the successful bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the coins once they are in his possession. Risk of loss shall be borne by the buyer following shipment of the coins.
10. The Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid which, in his opinion, is not submitted in "Good Faith", or, as the case dictates, is not supported by satisfactory credit references, as the Auctioneer in its sole discretion shall determine. A bid is considered not made in "Good Faith" when it is made by an insolvent or irresponsible person, or a person under the age of eighteen. Regardless of the disclosure of his identity, any bid by a consignor or his agent is deemed to be made in "Good Faith". In the event a successful bidder fails to pay all amounts due, the Auctioneer reserves the right to resell the merchandise and the buyer agrees to pay for the reasonable costs of such a sale, including a 10% seller's commission, and also to pay any difference between the resale price and the price of his previously successful bid.
11. **The Auctioneer shall have a lien against the merchandise purchased by the buyer and any other property of the buyer then held by the Auctioneer to secure payment of the auction invoice(s) and any other amounts due the Auctioneer from the buyer, with respect to which the Auctioneer shall have all the rights of a secured credit under Article 9 of the Texas Uniform Commercial Code.** In addition, with respect to payment of the auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice.
12. **The Auctioneer shall have the right to offset the unpaid amount of any auction invoices(s) against any amount then due to the buyer by the Auctioneer or affiliates of the Auctioneer.**
13. No buy or unlimited bids will be accepted. Mail/FAX bidders will be awarded lots at approximately a 5-10% advance over the second highest bid. No additional commission (except for the buyer's premium) is charged for executing mail or FAX bids.
14. The Auctioneer cannot be responsible for your errors in bidding, so check your bid sheet carefully. When identical mail or FAX bids are submitted, preference is given to the first received. If a mail/FAX bidder and a floor bidder have called identical bids, the decision of the Auctioneer and declaration of the winning bidder is final. The Auctioneer is not responsible for executing mail bids received on or after the day the first lot is sold, **nor is the Auctioneer responsible for proper execution of bids submitted by telephone**, nor mail bids submitted in person once the auction begins. To insure the greatest accuracy, your bids should be entered on the standard bid sheet form and be received at the Auctioneer's place of business at least two business days in advance of the sale date.
15. Estimates will be given upon written request. It is recommended that bidders approach or exceed the estimates in order to increase the chances of bidding successfully.
16. **NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY ADJECTIVAL OR NUMERICAL DESCRIPTION CONTAINED IN THIS CATALOG.** Auctioneer is selling only such right or title to the coins being sold as Auctioneer may have by virtue of consignment agreements on the date of sale and disclaims any warranty of title to the coins. Any description of the coins contained in this catalog is for the sole purpose of identifying the coins, and no description of coins has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by the Auctioneer. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes.

Coins sold referencing a third-party grading service ("Certified Coins") are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that the Certified Coins are genuine. Certain warranties may be available from the grading services and the bidder is referred to the following services for details of any such warranties: American Numismatic Association Certification Service (ANACS), P.O. Box 182141, Columbus, Ohio 43218-2141; Hallmark Grading Service, Inc., P.O. Box 2879, Woburn, MA 01888; International Numismatic Society (INS), P.O. Box 66555, Washington, DC 20035; Numismatic Certification Institute, Inc., Heritage Plaza, Highland Park Village, Dallas, Texas 75205-2788; Numismatic Guaranty Corporation (NGC), P.O. Box 1776, Parispany, NJ 07045; Professional Coin Grading Service (PCGS), 4533 MacArthur, Suite D, Newport Beach, CA 92660.

All non-certified coins are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion. Grading is an art, not a science, and therefore the opinion rendered by the Auctioneer may not agree with the opinion of others (including trained experts), and the same expert may not grade the same coin with the same grade at two different times. Auctioneer has graded the non-certified coins, in the Auctioneer's opinion, to the current interpretation of the Auctioneer of the American Numismatic Association standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of ANACS, NCI, INS, PCGS, or any other grading service at any time in the future. Auctioneer offers no opinion as to the validity of a grade assigned by any third party grading service. Due to changing grading standards over time and to possible mishandling of coins by subsequent owners, the Auctioneer reserves the right to grade coins differently than shown on certificates from any grading service that accompanies the coins. For the same reason as stated above, the Auctioneer reserves the right to grade coins differently than the grades shown in the catalog should such coins be reconsigned to any future auction.

No lots may be returned without a written request by the successful bidder and the written approval of the Auctioneer. In the unlikely event of returning a lot, the mail bidder must notify Jim Stevens, Credit Manager, in writing of the bidder's intent, and such notice must be mailed within three (3) days of the mail bidder's receipt of the lot. Any lot that is to be returned (for any reason other than authenticity) must be received in our offices within 30 days from the date of sale. **AFTER THAT 30 DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN LACK OF AUTHENTICITY.** No Certified Coins may be returned because of possible differences of opinion with respect to the grade offered by any third-part organization, dealer, or service. There are absolutely no exceptions to this policy. Lots returned must be housed intact in the original holder. No lots purchased by floor bidders may be returned (including those bidders acting as agents for others). Late remittance for purchases may be considered just cause to revoke all return privileges.

17. Some of the coins in this sale may have been graded by the Numismatic Certification Institute (NCI, and affiliate of the Auctioneer).

The grading standards reflected in the Coin Dealer Newsletter (CDN) are stricter than NCI's and, accordingly, CDN prices in general significantly overstate the wholesale value of NCI graded coins. The Certified Coin Dealer Newsletter (CCDN), P.O. Box 11099, Torrance, CA 90510 is a better wholesale reference for NCI certified coins than the CDN.

Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a coin was broken out of a plastic holder and was resubmitted to another grading service or even the same service, the coin could come back a different grade.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.

The degree of liquidity for certified coins will vary according to general market conditions and the particular coin involved. For some coins there may be no active market at all at certain points in time.

18. The descriptions provided in this catalog are intended solely for the use of those bidders who do not have the opportunity to view the lots prior to bidding. All bidders who have inspected the lots prior to the auction will not be granted any return privileges, except for reasons of authenticity. It is presumed that all floor bidders have inspected the lots prior to bidding. **Therefore, lots purchased by floor bidders "as is" and may NOT be returned.** Floor bidders include those bidders acting as agents for others. No claims of any kind (except for reasons of authenticity) can be considered after the settlements have been made with the consignors. Any dispute after the settlement date, **March 22, 1994**, is strictly between the bidder and consignor without involvement or responsibility of the Auctioneer. The Auctioneer or affiliates may consign items to be sold in this auction sale, and may bid on those items or any other in the sale. **The Auctioneer or affiliates expressly reserves the right to modify its bids on these items or any others at any time based upon data made known to the Auctioneer or its affiliate.** In the event of an attribution error, the Auctioneer may, at the Auctioneer's sole discretion, correct the error orally at the sale, or, if discovered at a later date, to refund the buyer's money without further obligation. Under no circumstances shall the obligation of the Auctioneer to any bidder be in excess of the buyer's premium for any lot in dispute. If any disputes arise regarding payment or authenticity, or grading between bidder and Auctioneer, or any other matter pertaining to the sale the bidder, a participant or the Auctioneer the dispute shall be submitted, if otherwise mutually unresolved to binding arbitration in accordance with the rules of the Professional Numismatists Guild (PNG) or American Arbitration Association (A.A.A.). If an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. . An award granted in arbitration is enforceable in any court. By placing a bid, a bidder accepts these Terms and Conditions of Sale, and agrees to be bound.
19. Storage of purchased coins: Purchasers are advised that certain types of plastic may react with the coins metal and may cause damage to the coins. Caution should be used to avoid storage of coins in materials that are not inert.
20. **Other Provision.** Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any property by Auctioneer to bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the bidder and may not be assigned. Any statement made by the Auctioneer is a statement of opinion and does not constitute a warranty or representation. Any employee of Auctioneer may not alter the Terms of Sale, and, unless signed by a principal of Auctioneer, any alteration is null and void. The sale is not on approval.

In consideration of participation in the auction and the placing of a bid, a bidder expressly releases Auctioneer, its affiliates, the Consignor, or Owner of the Lot from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned grade or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Sale or otherwise, except as specifically declared herein; e.g., authenticity, typographical error, etc., and as to those matters, the rights and privileges conferred therein are strictly construed and exclusive remedy and shall be waived by Purchasers by non compliance to its express terms.

Hinweis für unsere deutschsprachige Kunden:

1. Ein Aufgeld von zehn Prozent (10%) wird allen Käufern zuberechnet.
2. Alle Rechnungen müssen in US Dollar bezahlt werden. Orderchecks müssen auf eine US Bank bezogen werden.
3. Jeder Käufer muss seine Rechnung vor Auslieferung bzw. Versand der von ihm gekauften Losen völlig bezahlt haben. Ausnahmen für die von uns bekannten Bieter können vor der Auktion ausgehandelt werden.
4. Die Lokalumsatzsteuer (Texas State Sales Tax) kann mit Vorliegen einer Handelsregistereintragung als Händler umgangen werden. Bei Versand entfällt jede Steuer. Käufer im Ausland werden jedoch darauf hingewiesen, dass die Zollformalitäten bei Einfuhr von Münzen in ihren eigenen Ländern von ihnen selbst erledigt werden müssen.

CompuBid™ gives you more “on-the-scene” bidding clout than you ever had before.

CompuBid™ is a people-to-people innovation that is, by far, the most advanced and helpful method of mail bidding available in the rare coin marketplace. No other auction company has anything that even compares with its simple sophistication and direct benefits to you.

It increases your chances of success.

CompuBid™ increases your chances of success over our standard mail bidding system and other conventional mail bidding systems in two ways: it increases your chances of bidding on more coins; it increases your chances of buying more of the coins you want.

It puts you where the action is.

The action is at the auction. And CompuBid™ puts you there. It gives you almost all the advantages of the people attending the auction. In fact, CompuBid™ gives you so much flexibility, it's as if you were attending the auction in person.

It maximizes your bidding dollars.

CompuBid™ enables you to bid on as many coins as you like, yet limit your total purchases to a specific amount. For example, you could bid on \$25,000 worth of coins, yet limit your total purchases to \$5,000. In this example, although you have the opportunity to bid on several coins that interest you, it is still possible to stay within your buying limits. This way, knowing that you have limited your bidding dollars to a specific amount, you can bid with more confidence and flexibility than ever before.

It evens the odds for you.

CompuBid™ equalizes your chances of bidding successfully against the bidders at the auction on the coins you want to buy. For example, assume you want to buy either a Seated dime for \$500 or a Seated quarter for \$950. You would bid on both coins in those amounts and place your bidding limit at \$950. If you bought the Seated dime for \$500, your bidding limit would be reduced to \$450 ($\$950 - \$500 = \$450$), which would be your new bid on the Seated quarter. However, if you did not buy the dime, then your bid of \$950 on the quarter would be accepted.

In another example, suppose you wanted to buy one gem proof Mercury dime for \$500. Assume there are three similar quality proof dimes in the sale, all with the same date and grade. You would bid \$500 on all three and limit your purchase to \$500. You would buy the first one to sell for \$500 (or less) and the other bids would be canceled.

It's a tested and proven success.

CompuBid™ has proven to be the most effective and useful auction mail bidding technique available. No other auction company has the advancements in mail bidding technology and documentation necessary to offer a service as important and historically significant as CompuBid™. In fact, CompuBid™ is so precise that Heritage Numismatic Auctions, Inc., unconditionally guarantees that you, the bidder, will not be liable for any purchase over your specific limit.

Mail Bidding At Auction

Mail bidding at auction is both fun and easy and only requires a few simple steps.

1. Look through the catalog, and determine the lots in which you have an interest.
2. Research the market value of these lots by checking price lists and other price guidelines.
3. Fill out your bid sheet, entering your maximum bid on each lot using your price research and your desire to own the lot (most coins at auction are one-of-a-kind, or are of special quality not normally found).

When bidding by mail, you frequently purchase coins at less than your maximum bid. Here is how a mail bid is recorded by our auctioneer:

Bids are recorded as they are received. Preference is given to the first bids received in case of a tie.

On the floor of the auction, bidding is opened at 5 to 10% above the second highest mail bid. This bid is submitted by our company acting on your behalf as the highest mail bidder. If the auctioneer recognizes no other bids from the floor, you are awarded the lot at the opening bid. If bidding proceeds from the floor, the company, acting as your agent,

registers bids in 5 to 10% increments over the previous bid. This process is continued until you are awarded the lot, or until the next bid is higher or equal to your maximum bid.

An example of this procedure is set forth under these conditions:

On lot 25, you submit a bid of \$100, and the second highest mail bid is at \$50. In this case, bidding on the floor starts at \$55, and is bid by our company on your behalf. If no other bids are submitted by the floor, you purchased the lot for \$55 even though you bid \$100. If other bids come from the floor, we bid for you in 5-10% increments, as set by the auctioneer, until we reach your maximum bid of \$100. If bidding has passed or equaled your maximum, we take no other action, and the bidding continues on the floor until the final bidder has been recognized by the auctioneer.

The official prices realized list that accompanies our auction catalogs is reserved for bidders and consignors only. We are happy to mail others one upon receipt of \$1.00. Written requests should be directed to Catherine DeRuby.

1. Name, Address, City, State, Zip

Your address is needed to mail your purchases. We need your telephone number to communicate any problems or changes that may affect your bids.

2. References

If you have not established credit with us from previous auctions, you must send a 25% deposit, or list coin dealers with whom you have credit established.

3. Lot Numbers and Bids

List all lots you desire to purchase; on the reverse are additional columns; you may also use another sheet. Under "Amount" enter the maximum you would pay for that lot (whole dollar amounts only). We will purchase the coin for you as much below your bid as possible.

4. Total Bid Sheet

Add up all bids and list that total in the appropriate box.

5. Indicate Your Limit

After you have totaled your bid sheet, determine how much you can budget to spend. Check the box for CompuBid™ and list your spending limit.

6. Sign Your Bid Sheet

By signing the bid sheet, you have agreed to abide by the Terms of Sale listed in the auction catalog.

7. FAX Your Bid Sheet

When time is short and you want to bid now, submit a Mail Bid Sheet on our exclusive CompuBid™ Fax Hotline. There's no faster method to get your bids to us *instantly*. Simply use the Heritage Fax Hotline number 214-520-6968.

HERITAGE NUMISMATIC AUCTIONS^{INC}

Dear Fellow Numismatist:

Welcome to another great Long Beach auction. Over the years, Heritage has been delighted with the participation of so many consignors and bidders at these sales. With its thirty years of tradition, Long Beach is the convention that others try and want to emulate.

The catalogue that you are holding represents the collections of many consignors. However, there is one very special consignment that represents well over half the value in this auction.

Thirty-five years ago, four friends from four different nations met in Caracas, Venezuela and jointly began work on an American gold collection. Their goal was to accumulate as many different U.S. gold coins as possible. It took 3 1/2 decades but the four friends assembled a collection of over 900 different gold coins from the United States.

These four collectors are Antonio Castagnetti, an Italian, who is 51 years of age; Rene Irigaray, 58, from Uruguay; Vladimir Gamboa, 52 a Venezuelan; and Luis Roche from Spain who is 53. Obviously, all four spent a great deal of their adult life in pursuit of this goal and all are extremely successful businessmen who have derived countless hours of pleasure from numismatics.

Approximately 70% of the collection is encapsulated in PCGS, ANACS, or NGC holders. The certified coins will be found in the first session of our auction on Thursday evening. Because of the magnitude and significance of this auction, I urge you to plan your viewing hours accordingly. Frankly, I expect an unparalleled response to this sale. So, if you plan to look, get to Long Beach early for this is one auction replete with rarities. Or, as a second option, make an appointment with Leo Frese or myself and come to our Dallas offices to inspect the lots. At a normal Long Beach sale, we'll get 300 floor bidders, but at this sale 450 would not surprise me!

It would be easier to list what is not in this auction than to list the highlights. Just so that you have an idea as to the accomplishments of these four gentlemen, consider these facts. Every gold dollar is present except for the 1849-C open wreath. That means, that yes, the 55-D, 56-D, 60-D, 61-D, and 75 are included. In the quarter eagles, there are seven different dates in the bust right series and eight examples of the 1821-1834 type. Virtually all of the elusive Charlotte and Dahlonega are also present.

In the Three Dollar gold series, 37 of the 44 issues are in this collection including the 1854-D and 1876. The Half Eagles are no less impressive. Believe it or not, this collection contains 31 issues between 1795 and 1833! Talk about value and rarity! And, of course, the Half Eagles also contain most of the C and D mint issues like the Quarter Eagles, as well as the prohibitively rare 1887 Half Eagle. Had Mr. Castagnetti, Mr. Irigaray, Mr. Gamboa, and Mr. Roche not been close friends, they would have never been so successful. By now you may be asking yourself what it costs to build such a collection. A lot of money, certainly, but also patience and knowledge. One just does not assemble such a collection as this overnight.

In the \$10 gold series, there are three Small Eagles from the Eighteenth Century and 6 Heraldic Eagle pieces. In the Cornet series, such rarities as the 1875 are included. Even in PCGS VF 30, this is a great coin. In the Indian Tens, there is a 1907 WE, a 1907RE, a 1920-S, and a 1930-S. Again, the completeness of this collection is amazing.

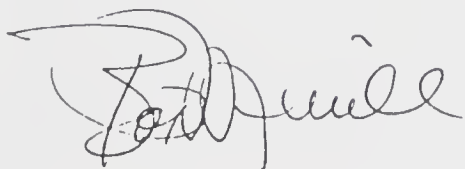

One of the highlights in the Double Eagle collection is the 1854-O which is graded XF40 by PCGS. But like all the other gold series, there are many scarce twenties in this collection including the 1855-O, 1861-S with the Paquet Reverse, 1871-CC, 1879-O, 1885, 1886, 1891, and 1891-CC.

You would expect the Saint Gaudens series to have High Reliefs, which of course it does, but this collection also contains a 1920-S, a 1921, a 1927-S, and a 1929. Even the two \$50 Panama Pacific Commemoratives are in this collection.

Is it any wonder why we are so excited about this sale? Now you know why it will take four sessions for this auction to be sold! Again, please make your plans early for Long Beach. This is an auction that will be crowded throughout lot viewing. If you plan to bid by mail, send your sheets in early.

One last point, this sale also contains many other fine numismatic properties in the silver and copper sections. Whether you want a Chain Cent, a Half Dime, or a Better Date Morgan, there is something for you in this auction. Get ready because a truly great sale is about to occur!

Sincerely,

A handwritten signature in cursive script, appearing to read "Bob Merrill". The signature is fluid and stylized, with a large initial "B" and a long, sweeping underline.

Bob Merrill

Public Auction Sale

FIRST SESSION

Thursday, February 3 at 7:00 p.m. (Lots 5001-5727)
Long Beach Convention Center, Auction Room Mezzanine
Long Beach, California

Color plates are located on pages 93-104.

A 10% Buyer's Premium Will Be Added To All Invoices

COMMEMORATIVE GOLD

- 5001 ANACS 1903 Louisiana Purchase/Jefferson AU 58; and a 1915-S Panama-Pacific gold dollar AU 50. (Total: 2 coins)
- 5002 PCGS 1904 Lewis and Clark MS 62. Popular commemorative issue. Attractive and affordable.

- 5003 PCGS 1915-S Panama-Pacific Quarter Eagle MS 65. Rich creamy luster. Well struck and defined for this issue. A desirable piece for any commemorative gold collection.

Affordable Pan-Pac Round

- 5004 PCGS 1915-S Panama-Pacific 50 Dollar Round AU 55. One of the most beautiful coins ever minted, the Pan-Pac fifties are coins with strong symbolic meaning. Stuck on the eve of America's involvement in the First World War, the Greek helmet is pushed on Liberty's head in a ready but not fully combative posture. The owl on the reverse signifies watchfulness. The surfaces on this always impressive issue are only faintly hairlined and exhibit traces of rose and violet iridescence about the peripheral lettering. (Photo)

Lightly Circulated Pan-Pac Octagonal

- 5005 NGC 1915-S Panama-Pacific 50 Dollar Octagonal AU 55. Minted in slightly larger numbers than the round commemorative of similar design (645 vs. 483 pieces), the equally massive octagonal piece adds dolphins about the borders symbolizing America's desire to keep the Panama Canal open throughout the term of the Great War. A bright yellow-gold example, completely lustrous, free of the often seen distractions, and with only a few trivial hairlines, most noticeable on the obverse. (Photo)

- 5006 PCGS 1916 McKinley MS 65. A strict gem, displaying particularly vibrant mint brilliance and lovely original color.
- 5007 PCGS 1917 McKinley MS 62. A richly colored example with a choice appearance.
- 5008 PCGS 1922 Grant MS 62. Splashes of rich yellow-gold patina on either side.

- 5009 PCGS 1922 Grant with Star MS 65. Pristine, satin-like surfaces, razor sharp in detail and free of any appreciable blemishes.
- 5010 ANACS 1926 Sesquicentennial AU 58. Light in color with no obvious marks.
- 5011 PCGS 1926 Sesquicentennial MS 64. Shimmering brilliance and just a couple of pinpoint marks from gem quality.

GOLD DOLLARS

- 5012 PCGS 1849 AU 55; and an 1853-O AU 55. A nice pair of early gold dollars. (Total: 2 coins)
- 5013 ANACS 1849 AU 58. Open Wreath. Rich golden-orange obverse.

- 5014 PCGS 1849-D AU 50. Popular first year Dahlonega issue and a particularly bold strike in Liberty's hair for the date. Generally mark-free with much underlying luster.
- 5015 ANACS 1849-O Fine 15; 1851 AU 55; and an 1852 AU 55. (Total: 3 coins)

5016 NGC 1850 MS 64. An appealing mint state specimen, with shimmering brilliance and only a hint of scuffiness in the left obverse field. As a date, the 1850 is far from a common Type One gold dollar at this grade level. Population: 3 in 64, 7 higher.

5017 ANACS 1850-D XF 45. According to Akers, the 1850-D is very scarce in all grades and seldom seen in even extra fine condition. This piece has sharp detail and does not display the weak strike, planchet laminations or die breaks that are common to the date.

5018 ANACS 1850-O AU 50. Easily the rarest Type 1 New Orleans gold dollar. Appealing luster with problem free surfaces.

5019 ANACS 1851-C VF 30. Good detail with some luster still visible.

5020 ANACS 1851-O AU 58. A sharp strike, just a touch of wear from uncirculated.

5021 ANACS 1852-C XF 40. Charlotte gold dollars are very difficult to obtain in all grades. This piece has clean surfaces with all of the characteristics common to the date.

5022 NGC 1852-C MS 63. An elusive Charlotte mint gold dollar, one of just 9,434 pieces struck, but one that does occasionally surface in AU or better condition. The present example displays some of the normally seen striking and planchet deficiencies about the central devices and better than average luster. Rare at this grade level. Population: 1 in 63, 1 higher.

5023 PCGS 1852-D VF 30. Akers indicates that the 1852-D is a rare coin in all state of preservation. The sharp detail and generous luster of this coin may lead one to conclude that this coin has been very conservatively graded.

5024 ANACS 1852-O AU 58. Scattered coppery-gold overtones.

5025 PCGS 1853 AU 58. Clean and lustrous.

5026 NGC 1853-D AU 55. A rare and often poorly produced D-mint issue, displaying ample luster in the protected areas and typical weakness in Liberty's hair. Struck from an original mintage of 6,583 pieces, with only a few dozen known at the AU or higher grade level.

5027 ANACS 1854 Type One MS 61. Razor sharp with vibrant color and luster.

5028 ANACS 1854-S XF 40. A clean, evenly worn example, one of just 14,632 pieces struck.

5029 ANACS 1854 Type Two XF 45. Richly colored with noticeable die clashing on either side.

5030 ANACS 1855 Type Two AU 50. Bright surfaces with considerable luster remaining.

5031 PCGS 1855 Type Two MS 61. A solid mint state coin that has all the luster of a gem with some reddish accents of color around the outer devices of each side. Well struck on the obverse with slight softness on the middle digits of the date on the reverse, as usual. An exceptionally good buy in a mint state Type Two.

5032 ANACS 1855-O VF 30. Clean surfaces that reveal a generous amount of hidden luster on the reverse. The only New Orleans issue of the Type Two design.

5033 ANACS 1856-S/S Type Two XF 45. The best manufactured branch mint Type II gold dollars and the popular double mintmark variety. This example exhibits sharp detail and clean fields.

5034 ANACS 1856 AU 50. Upright 5. Pleasing golden-orange color. The scarcer of the two 1856 varieties in AU and better condition.

5035 ANACS 1856 AU 55. Slanted 5.

Condition Census 1856-D Gold Dollar

- 5036 PCGS 1856-D AU 55. Undoubtedly one of the finest known examples of this rare (mintage: 1,460 pcs.) Dahlonega gold dollar, exceeded only by a PCGS AU 58 among certified examples. The surfaces display rich golden color and are somewhat prooflike, with the usual weakness in the hair region and better than normal sharpness in the date. The specialist in this series will, no doubt, be poised and ready when this outstanding '56-D comes up for bidding. (Photo)
- 5037 ANACS 1857 AU 58; 1858 AU 55; 1861 AU 58; 1873 Open 3, AU 58; and an 1874 AU 58. A decent, high-grade circulated group. (Total: 5 coins)
- 5038 PCGS 1858-S XF 40. A difficult issue with an low mintage of only 10,000 pieces. Rich reddish-orange color on both sides.
- 5039 PCGS 1859 AU 58. Repunched 9. Slightly scarcer issue. Good luster but there is a disfiguring scratch across the cheek of Liberty.
- 5040 ANACS 1859-S VF 20. A scarce, underrated issue.
- 5041 PCGS 1860 MS 61. Scarce in mint state. 2 graded with only 12 higher.

- 5042 PCGS 1860-D VF 35. Long recognized as one of the true rarities in the gold dollar series, with perhaps fewer than 40 survivors from a paltry mintage of 1,566 pieces. Like all known specimens, this coin is poorly struck overall and particularly indistinct on the left side of the obverse. The planchet, however, appears of superior quality to most. Overall, an above-average representative of this elusive Dahlonega issue.
- 5043 ANACS 1860-S XF 40. Sharp detail with clean surfaces.

Last Regular Issue Dahlonega Gold Dollar

5044 **PCGS 1861-D XF 45.** Fairly well struck with light rose highlights and considerable underlying luster. A major gold dollar rarity, struck from an unknown but undoubtedly tiny mintage under Confederate authorization. While mint state examples occasionally surface in major collections, the overall population of 1861-D gold dollars is probably less than 30 pieces. Add to that rarity the historical significance of this issue and the result is one of the most sought-after dates in the series. (Photo)

5045 **ANACS 1862 MS 60.** Bright and lustrous.

5046 **NGC 1862 MS 61.** Sharply struck.

5047 **PCGS 1863 AU 50.** One of the rarest gold dollars. Of the 6,200 minted, it is estimated that perhaps only 50 pieces remain in all grades. This piece has the detail and luster of a much higher grade. A tiny striking flaw on the reverse may have led the grading service to its overall opinion of AU-50.

5048 **ANACS 1865 VF 20.** Another tough date and VERY conservatively graded.

5049 **ANACS 1866 XF 45.** Good luster with clean, problem-free surfaces.

5050 **ANACS 1867 AU 50.** Mintage of just 5,200. Sharp detail with highly reflective, prooflike surfaces.

5051 **ANACS 1868 AU 55.** Deep, prooflike fields.

5052 **PCGS 1870 AU 58.** Extremely bright and flashy. No one would raise an eyebrow if they found this coin in a holder with a mint state grade. Trends \$450 in AU-50, \$950 in MS-60 (12/6).

5053 **ANACS 1870-S MS 60.** Semi-prooflike with a needle sharp strike on both sides. One of just 3,000 pieces struck in this final year of San Francisco mint gold dollar production, with the 100 or so surviving examples generally grading AU 50 or better.

5054 **ANACS 1871 MS 62.** This coin presents the extraordinarily vivid luster characteristic of the date and has a somewhat better strike than the average. Trends \$800 in MS-60, \$2,000 in MS-63 (12/6).

5055 **ANACS 1872 XF 45.** Sharp detail and reflective surfaces.

5056 **PCGS 1872 MS 65.** A scarce and popular issue that has a low mintage of only 3,500 pieces. High grade pieces are scarce and this is the only MS 65 certified by PCGS, although there are 11 pieces in higher grades. This is a lovely piece that has bright semi-prooflike fields and considerable orange-gold color. Trends \$9750 (12/6)

5057 **NGC 1873 Closed 3 AU 55.** One of the rarest coins in the series and certainly one of the most unpublicized. Of 1,800 business strikes minted, perhaps fifty examples survive. This piece exhibits the normal deep prooflike fields with good detail and only a tiny bit of rub. Trends \$1,400 in AU-50, \$3,500 in MS-60 (12/6).

One of Probably 24 in Mint Condition

- 5058 NCI 1875 MS 60. One of the most acclaimed dates in the gold dollar series, and why not? It boasts a mintage of just 400 coins and as few as 2 dozen pieces are thought to exist in mint state condition. Like all business strikes of the date, a tiny "spine" projects down from Liberty's throat and the fields display a prooflike finish, accentuating trivial scuffiness in the fields. With its combination of notoriety and rarity, the 1875 is one of the most desirable gold dollar issues. (Photo)

5059 ANACS 1876 AU 50. Typical prooflike surfaces with strong detail.

5060 ANACS 1877 AU 55. Popular due the mystique of the 1877 issues.

5061 ANACS 1878 MS 62. One of the more difficult dates of the late issue gold dollars. This piece has mostly creamy, yellow gold luster with just a trace reflectivity on the obverse. A pleasantly appealing coin. Trends \$825 in MS-60, \$1,775 in MS-63 (12/6).

5062 ANACS 1879 AU 50. A former prooflike showing only minimal wear. One of just 3,000 business strikes issued.

5063 ANACS 1881 MS 60. Watery surfaces, lightly hairlined on the obverse. Another limited mintage date, one of just 7,620 pieces struck.

5064 ANACS 1883 AU 55. Quite frosty, with pleasing color and luster. Modest mintage of only 10,800 business strikes.

5065 ANACS 1884 AU 55. A bright prooflike specimen, just a touch of rub from uncirculated. Just 5,230 business strikes were coined.

5066 ANACS 1886 AU 50. A few pinpoint marks are seen in the obverse field. Tiny business strike mintage of 5,000 pieces.

5067 PCGS 1888 MS 61. Satin luster with reflective surfaces.

5068 ANACS 1889 AU 58. Final year of issue and a date that is actually easier to locate in MS 63 or better condition.

PROOF GOLD DOLLAR

Rare Early Proof Gold Dollar

- 5069 PCGS 1857 PR 63. Formerly sold as lot 1369 in Paramount's session of Auction '85 (7/85), flip accompanies, where it was described in part as, "A very 'flashy' proof with outstanding brilliance and color. Some light hairlines in the fields on both sides as well as lint marks (as made) but the overall look of the coin is really excellent...the 1857 is a major rarity in proof...of the perhaps 15 pieces struck, only 8-10 are still known to exist." (Photo)

EARLY QUARTER EAGLES

- 5070 ANACS 1798 VF 30. 5 Berry Reverse. Widely spaced date. Bright green-gold surfaces with hints of rose-violet. A few trivial scratches are noted on the reverse. This variety, part of a total mintage of 1,094 pieces, is by far the scarcer of two varieties for the year (the other being the 4 berry design), with perhaps as few as 20-30 pieces known.

- 5071 ANACS 1802/1 VF 30. A high end specimen for the grade, with suggestions of luster in the protected areas of the reverse. An elusive issue, although the second most common of its type, one of just 3,035 pieces minted.

- 5072 ANACS 1806/4 Good 4. A long circulating gold piece is a rarity from this period when most gold coins were either retained in higher grade or shipped overseas and melted. Clean surfaces with honest wear. An affordable bargain for the type collector.

Lovely Bust Right Quarter Eagle

- 5073 PCGS 1807 AU 53. Final year of the Capped Bust Right series and the date that is most often available to collectors for type purposes. The strike is reasonably sharp, displaying only the normal softness on the eagle's neck and shield. Much luster remains, with nearly the full complement on the reverse. (Photo)

- 5074 NGC 1821 XF 45. First year of the new design, after a hiatus of 13 years, the 1821 is a rare coin with a mintage of 6,448 pieces. This is a choice example that is well struck and shows some minimal wear on the highpoints of the devices. The surfaces have a deep orange-gold color with even deeper coppery-reddish accents on the design features. There are no large or distracting marks, and this coin does not show the often-seen planchet depression on the cheek or guide lines between the letters.

- 5075 **PCGS 1825 AU 50.** Distant Fraction. Even though the 1825 has a mintage of only 4,434 pieces, it is the most available issue of the type, which says a great deal about the absolute and relative rarity of Capped Head Left quarter eagles as a series. This piece is slightly above average for surviving examples of this year. The striking quality is strong with virtually none of the weakness sometimes seen. The fields are prooflike, as is often the case, and overall the piece has a bright yellow-gold color. Minimally abraded as well with no mentionable defects.

- 5076 **ANACS 1826 VF 20.** A rare and important Capped Head Left quarter eagle. It is generally considered a toss-up whether the 1826 is the key issue in the series or the 1827. The 1826 certainly has the more impressive mintage figure, with a scant 760 pieces struck. It is also one of the lowest mintages in the entire quarter eagle series. This piece shows even wear on the highpoints, but fortunately does not appear to have suffered any softness of strike, thus leaving the coin with fairly good details for the grade. The fields have a deep reddish color while the devices are a sharply contrasting yellow-gold. There are a couple of shallow scratches in the right obverse field and two digs around the area of the date.

- 5077 **PCGS 1829 XF 40.** First year of the slightly modified type, this piece is typical for the date with an excellent strike, partially prooflike fields, and vivid yellow color. Unlike many of the other dates of the type, this issue was saved in *relatively* large numbers. That is not to say it is a common coin, however, as probably no more a hundred examples still survive in all grades. There are several small field marks on the obverse and just the faintest bit of reddish color on either side.

Mint State, Small Planchet Quarter Eagle

- 5078 **PCGS 1830 MS 60.** The 1830 is possibly the most available issue of the Small Planchet type with a small number of mint state pieces having been certified. This coin is well struck in all areas except the juncture of the eagle's wing and shield. The fields are semi-prooflike and there are a few small marks scattered about each side that are consistent with the grade. (Photo)

- 5079 **PCGS 1831 XF 40.** A scarce, low mintage issue with only 4,520 pieces struck. This coin has somewhat soft detailing in the centers, and unlike many examples seen, does not have any trace of reflectivity in the fields. Light in color and showing no detracting abrasions on either side. Housed in a badly cracked PCGS holder that will need to be replaced soon.

Exquisite AU 1832 Quarter Eagle

- 5080 NGC 1832 AU 58. Remarkably well struck for the date and also far above average in terms of condition with the average example only grading XF 41. The fields are brightly reflective and the pale greenish-gold color seen over both sides shows little variation in hue. Lightly marked with the only noticeable surface flaw being a vertical planchet depression in the field above the eagle's head. (Photo)
-

- 5081 PCGS 1833 XF 40. The 1833 is the second rarest date in the 1829-34 Capped Head Left series of quarter eagles, trailing only the revered 1834. This piece is about average for the issue at the XF 40 level. The centers are softly defined and there are several small facial marks on Liberty, otherwise a very clean, problem-free coin. Pale reddish color is noted at the margins.
-

CLASSIC QUARTER EAGLES

- 5082 PCGS 1834 Classic VF 30. Deep reddish color surrounds the devices on the obverse.
-

- 5083 PCGS 1834 Classic MS 60. Sharply struck with faint remnants of a prooflike finish still evident in the fields. The greenish-gold color is lightly accented by an overlay of pale reddish patina in the fields. Small, but numerous, marks are noted across each side. Scarce in mint condition.
-
- 5084 PCGS 1835 VF 30. A bit flat on the high points, probably the result of both strike and wear.
- 5085 PCGS 1836 VF 30. Original surfaces.
- 5086 ANACS 1836 AU 55. A strong strike with much of the mint frost still intact and splashes of coppery-gold color over both sides.
- 5087 PCGS 1838 XF 40. Clean and sharp.

Gem 1838 Quarter Eagle

5088 **PCGS 1838 MS 65.** Classic quarter eagles have an enduring charm for collectors of U.S. gold. It is a short series from 1834 to 1839, the coins are very scarce in AU and better condition, and the series seems to perennially be undervalued. The 1838 is a scarce date in any condition and it is extremely rare in the upper reaches of mint state. This is a frosty coin with an even layer of reddish patina over both sides. The strike is full on the hair curls of Liberty and there is very little loss of detail on the reverse. An outstanding type coin as well as one of the finest examples of this scarce date. Population: 3 in 65, only 1 finer. (Photo)

5089 **ANACS 1839 VF 20; 1840-O F 12, weakly struck; 1843-O Small Date VF 30; 1851 XF 45; and an 1851-O XF 45.** (Total: 5 coins)

5090 **PCGS 1839-D VF 25.** The (more accurately described) 1839/8-D Quarter Eagle is rare in any grade and is additionally popular as the only Dahlonaga example for the Classic Head type. This piece exhibits decent strike and detail, and would enhance either a date or type collection.

LIBERTY QUARTER EAGLES

5091 **ANACS 1840-C VF 20.** Very scarce in all grades. This coin exhibits only honest, even wear.

5092 **ANACS 1841-C XF 40.** An overlooked and underrated date. Any strictly graded extra fine coin is rare. This date is known for its generally wretched strike and planchet problems. The coin offered here is both well struck and problem free.

5093 **ANACS 1842-C Fine 12.** This date is invariably seen with a bluntly struck reverse eagle and, to a lesser extent, weakness in the hair of Liberty. Considering these points and the overall scarcity of this issue, a more generous grade could easily be considered.

5094 **ANACS 1842-D VF 30.** Well struck on a decent planchet, a rare circumstance for the issue. Very rare in all grades, the 1842-D does not always receive deserved recognition of its true rarity. When presented at auction, however, it routinely realizes prices exceeding guidebook listings of the time. Trends \$1,500 in VF-20, \$2,950 in XF-40 (12/6).

5095 **ANACS 1842-O VF 30.** Clean surfaces. Trends \$525 in VF-20, \$1,350 in XF-40 (12/6).

5096 **PCGS 1842-O VF 35.** An average example of this scarce, low mintage issue. The centers are softly impressed, as always, and there are only slight handling marks on either side. Light yellow-gold color. Trends \$525 in VF 20, \$1,350 in XF 40 (12/6).

5097 **ANACS 1843-D Fine 12.** Honest, even wear on a good planchet.

5098 **PCGS 1843-O VF 30.** Large Date, Plain 4. A clean, well balanced example of this scarcer variety, with suggestions of luster on the reverse.

5099 **NGC 1843-O XF 45.** Small Date. This is the most commonly encountered New Orleans quarter eagle and is even occasionally available in higher grades. This piece has muted orange-gold color and is well defined in most areas, showing no distracting surface blemishes.

5100 **PCGS 1843-O AU 53.** Large Date. The scarcer of the two varieties, but because the grading services do not recognize the variety, the Small and Large Dates of 1843 have been overlooked by many collectors. This piece has distinctive greenish-gold color and shows good detailing throughout with no large or distracting blemishes. A high grade survivor and rare as such with AU pieces rated a high R.6 or low R.7.

5101 **PCGS 1844 AU 53.** A much above-average example of this rare Philadelphia issue, one of just 6,784 pieces struck. The few surviving pieces generally grade Fine to VF or, on occasion, XF at best. The strike, particularly on the obverse, is quite strong and only a minor amount of softness is noticed to the left of the shield on the reverse. The surfaces are light in color and retain a good detail of hidden luster. Condition census for the date, with neither major grading service having graded a mint state specimen and only half a century-old auction records, when grading could really be inconsistent, for two uncs. Trends \$2,750 in AU 50.

- 5102 **ANACS 1844-C XF 40.** Among the rarest of C-mint Quarter Eagles. Mintage was interrupted when a burglar raided and burned down the Mint in June, 1844, and did not resume until 1846. The issue is typically weakly struck, and with the generous amount of luster this example displays, the XF-40 grade could be deemed quite conservative. Trends \$1,700 in XF-40, \$6,750 in AU-50 (12/6).
- 5103 **ANACS 1845 AU 50.** Vibrant luster with clean surfaces.
- 5104 **ANACS 1846 XF 45.** Surprisingly rare in any grade, this issue is seldom encountered in even extremely fine. This piece exhibits good luster, and sharp detail. Trends \$875 in XF-40, \$2,050 in AU-50 (12/6).
- 5105 **ANACS 1846-C Fine 12.** A great rarity in all grades. This coin exhibits only honest wear.
- 5106 **PCGS 1847 VF 25;** and an **1875-S XF 45.** Both are nice, problem-free examples. (Total: 2 coins)
- 5107 **ANACS 1847-D XF 45.** Although the estimated surviving population of this coin is 90 - 100 pieces, it is very difficult to acquire in the XF and above range. With this coin's excellent luster and minimal wear, it will probably inspire spirited bidding above the XF level. Trends \$1,150 in XF, \$2,450 in AU-50 (12/6).
- 5108 **ANACS 1847-O XF 40.** Dies rotated almost 180 degrees. Clean and problem free.
- 5109 **NGC 1847-O AU 50.** An elusive New Orleans issue despite its rather high mintage, with pieces grading above XF only infrequently seen. Invariably softly struck, the present example more than typifies the normal amount of weakness in the centers, being struck from a very advanced state of dies.
- 5110 **ANACS 1848 Fine 15.** Long considered a rarity, the 1848 is legitimately scarce in all grades. This piece has strong VF detail on the obverse, albeit, a bit weak on the back.

- 5111 **NGC 1848 AU 55.** The low-mintage 1848 (7,497 pieces) has long been considered a rarity in the Liberty quarter eagle series. This is perhaps a bit overplayed in lesser grades, but AU and better examples of this date are legitimately rare. The coin offered here retains considerable prooflikeness in the protected areas and is tinted an even orange-gold on the obverse. Trends \$2,600 in AU 50, \$7,750 in MS 60 (12/6).

Affordable "CAL." Quarter Eagle

- 5112 **ANACS 1848 CAL. VF 30.** The CAL. quarter eagle is one of the most famous and popular of all coins of the denomination. Many consider it to be the first commemorative coin as the 1,389 pieces were all struck from the newly discovered deposits of California gold ore found along the American River. This is a pleasing, mid-range piece that has no blemishes one would really consider to be of singular importance. Deep reddish-russet toning surrounds the devices on each side.
- 5113 **ANACS 1848-D XF 45.** A sharp strike with considerable underlying brilliance. Slightly above-average for this very difficult Dahlonega quarter eagle, one of just 13,771 pieces struck.
- 5114 **ANACS 1849 XF 45.** Bold, evenly struck surfaces with only a few light marks grouped on Liberty's neck. A much underrated issue in slightly above-average grade.
- 5115 **PCGS 1850 AU 53.** Uncommonly clean for a circulated coin, the greenish-gold surfaces are well struck at the peripheries but softly impressed on the eagle.

5116 **ANACS 1850-O AU 50.** A scarce and underrated O-mint quarter eagle that is far better than the average specimen encountered. Usually this issue is heavily abraded and low grade. This coin, however, shows small remnants of luster around the devices and there are a few small marks in the obverse fields. Rich orange-gold color overall with the usual "blurry" details in the centers of each side.

5117 **PCGS 1851 AU 55.** Sharply struck, even on the reverse, and showing good remaining luster and minimal handling marks.

5118 **ANACS 1851-C VF 35.** Pleasing original color with only a trace of scuffiness on the obverse. Another low-mintage C-mint (14,923 pcs.), typically found in VF or less.

5119 **ANACS 1851-D XF 45.** Very rare with an original mintage of only 11,264 pieces, the '51-D is almost never found in strict AU, making this choice XF a very desirable, near-condition census coin. Typically, the reverse is weak at the dentils and on the eagle's claws and neck feathers, but otherwise well defined, especially on the obverse. Clean and problem-free with subtle golden-orange highlights on the reverse.

5120 **NGC 1851-O AU 55.** Doubled Date. A scarce date and especially elusive when one is seeking a coin finer than XF. In AU the '51-O quarter eagle is considered a high R.6 issue. This piece is sharply defined in all areas except the center of the eagle, and shows deep coppery-golden color overall with a steely-blue outlining the devices. Trends \$1,200 in AU 50, \$5,500 in MS 60 (12/6).

5121 **ANACS 1852 AU 55; 1852-O VF 35; 1854-O VF 30; 1855 AU 50; and an 1860 XF 45.** A decent group of early Liberty quarter eagles. (Total: 5 coins)

5122 **PCGS 1852-C XF 40.** Very scarce in all grades with only 9,772 pieces struck. This coin has far fewer abrasions than usual and appears to have been struck from a well prepared planchet. A bit indistinct in the centers, as usual, with a light reddish outline around the devices.

5123 **PCGS 1852-D XF 40.** A rare and highly regarded Dahlonega quarter eagle that was struck in very limited quantities with only 4,078 pieces produced this year. As usual, the eagle's plumage around the shield is a bit indistinct, but overall the greenish-gold surfaces are well defined and show only slight handling marks.

5124 **PCGS 1852-O XF 40.** Very clean surfaces overall with attractive coloration. A scarcer issue than is generally believed that may have been extensively melted. Softly impressed in the centers. Trends \$400 (12/6).

5125 **ANACS 1854 AU 58.** Yellow-gold color and showing evidence of die clashing on the reverse.

5126 **NGC 1854 MS 63.** Sharply defined, except on the eagle's leg, with choice surfaces and traces of die clashing in the upper reverse field. A premium example of this popular date.

Classic Dahlonga Rarity

5127 **ANACS 1854-D XF 45.** The 1854-D is a classic rarity with a mintage of only 1,760 pieces that attained a great deal of respect in the early part of the century, and thus has decades of recognition from advanced collectors. It is also a monumental condition rarity with pieces such as this one being the finest most collectors can ever hope to acquire (with few in better grades and very rarely offered). While softly struck on the eagle surrounding the area of the shield, this piece is no softer than most other branch mint gold of the period, and it certainly has cleaner surfaces than many other comparably graded gold coins from the 1850s. The only mark we see that can be used as an identifier for tracing the pedigree is a small planchet depression between star 2 and the chin of Liberty. Light reddish color can be seen in the fields on each side. Trends \$5,250 in XF 40, \$11,500 in AU 50 (12/6).

5128 **PCGS 1854-O AU 53.** Struck from unclashed dies, and quite scarce as such, this piece has rich golden-orange color and is well defined in most areas. A fairly common date in most grades but in AU the '54-O is considered a mid R.6 issue.

5129 **ANACS 1855-C VG 8.** A well worn, yet problem-free example, one of a mere 3,677 pieces struck. Affordable quality, but still a very collectible '55-C quarter eagle.

5130 **PCGS 1855-D VF 25.** The '55-D is the rarest Dahlonga quarter eagle, a good indication of which can be inferred from its tiny mintage of only 1,123 pieces, today only an estimated 35 examples may still exist. It is conditionally rare also with coins above VF being very rare. This coin is softly defined on the eagle's plumage with a bit of weakness on the hair curls of Liberty, as usual. The surfaces have a hazy reddish color and there are no mentionable defects on either side.

5131 **ANACS 1856 AU 58.** Well struck and close to mint condition.

5132 **ANACS 1856-C VF 20.** Bright surfaces, evenly worn on both sides. The 1856-C is a scarce and underrated issue, perhaps even more than its mintage of 7,913 would suggest.

Another Elusive Dahlonga Quarter Eagle

5133 **PCGS 1856-D XF 40.** The '56-D is one of the rarest of all issues from the Dahlonga mint as one can easily see from its miniscule mintage of only 874 pieces. This coin falls just outside the condition census with the finest piece certified being an MS 60 by NGC. It shows the diagnostically weak strike on the feathers of the eagle, but otherwise the only flaws on the coin are a couple of faint scratches in the reverse fields. There is a long streak of coppery color in the upper reverse field that could be used to trace the pedigree of this important coin. Trends \$9,150 (12/6).

- 5134 ANACS 1856-O XF 40. An extremely sharp coin for the grade, with rose-violet accents peripherally and on the eagle's wings. Just 21,100 pieces were struck of this underappreciated New Orleans quarter eagle.
- 5135 NGC 1856-O XF 45. A scarcer O-mint quarter eagle that is especially elusive (and expensive) any finer than XF. This is a choice piece with bright surfaces and a good strike on the obverse and only slight softness on the reverse. Trends \$1,000 in XF 40, \$2,950 in AU 50.
- 5136 ANACS 1856-S XF 45. Sharply defined with only a few pinpoint marks in the right reverse field. Scarcer as a date than other quarter eagles of similar or slightly lower mintage.
- 5137 ANACS 1857 AU 58. Bright yellow-gold color and sharply struck except on the eagle's left leg.

Low-Mintage Dahlonga Quarter Eagle

- 5138 PCGS 1857-D AU 55. A very scarce date, but considerably easier to locate than most other Dahlonga quarter eagles in choice condition. The mintage is impressively low with only 2,364 pieces minted, and most examples are well struck with near-complete denticulation, as on this piece. Bright surfaces with no mentionable or distracting abrasions. Trends \$3,850 in AU 50, \$11,500 in MS 60. (Photo)
- 5139 ANACS 1857-S XF 45. A bit brighter in appearance, particularly on the obverse, than the 1856-S, but similar in both grade, mintage, and scarcity.
- 5140 PCGS 1857-S AU 53. Faint reflective fields surround the clean devices of this scarce San Francisco issue.
- 5141 ANACS 1858 AU 50. Extremely sharp with an eye appealing, original appearance. As a date, the 1858 is underrated and most often found in XF or AU condition.

- 5142 ANACS 1859 AU 50. Sharply struck throughout and a scarcer P-mint quarter eagle.

One of Only 60 In Existence

- 5143 PCGS 1859-D AU 50. Rare final year of issue for Dahlonga quarter eagles, with as few as 60 pieces estimated to have survived from a tiny mintage of only 2,244 coins. This is a bright piece with distinctive reddish color around the peripheries. The strike is soft, as usual, and there are a few small marks scattered across both sides. (Photo)
- 5144 ANACS 1859-S VF 30. The bright surfaces on this underrated S-mint display modest wear on the high points and no obvious distractions. From a mintage of 15,200 coins, the relatively few survivors are almost invariably low grade.
- 5145 ANACS 1860-C VF 30. A better strike than most of this invariably weak Charlotte issue, one of just 7,469 pieces minted in this final year of C-mint quarter eagle production.
- 5146 PCGS 1860-S VF 35. Rich orange-gold coloration. A difficult S-mint quarter eagle, usually found well worn.
- 5147 ANACS 1861 AU 55; 1862 XF 45; 1871 XF 45; 1873 Closed 3, XF 45; and an 1878 XF 40. All attractive and pleasing coins. (Total: 5 coins)

5148 NGC 1861 MS 64. An exceptionally pleasing and highly lustrous coin. 1861 quarter eagles can hardly be considered as rare, but in this condition such a coin is a significant offering for the gold specialist. Earlier dates such as this one are an excellent value because of the general scarcity of most issues in the higher grades of mint state before 1880. This piece is fully detailed and, as mentioned, the mint luster is outstanding. There are no detracting blemishes on either side.

5149 PCGS 1861-S VF 30. Deep reddish-gold overtones mask a few stray hairlines on the obverse. A once overlooked S-mint (mintage: 24,000) that in XF or higher condition emerges as a truly scarce issue.

5150 PCGS 1862 XF 40. Reddish color.

5151 PCGS 1862/1 XF 45. A very scarce issue that was only discovered in 1962. Since that time the population of known pieces has increased by approximately one coin per annum. This is a select example that is virtually free from any post-striking defects. The devices are sharply defined and there is just the slightest bit of reddish color on either side. With a magnifier the underdigit is easily seen. Trends \$2,100 in XF 40, \$5,500 in AU 50.

5152 ANACS 1865-S Fine 12. An extreme condition rarity among Liberty quarter eagles, rated fourth in average grade by Akers in the entire series. So the appearance of a Fine is not too far below the norm for this scarcer date.

5153 PCGS 1865-S VF 35. A very scarce coin in all grades and generally not located any finer than VF. This piece has unusually bright surfaces and shows the striking softness that is normally associated with this issue. Trends \$350 in VF 20, \$1,000 in XF 40 (12/6).

5154 ANACS 1866-S VF 20. Perhaps half a grade higher in terms of overall wear, but the central devices appear somewhat weakly struck. Scarce any finer.

5155 PCGS 1866-S VF 25. A scarce coin that is rarely seen above the VF level. This piece has a miserably weak strike on the reverse, but overall the coin is original and shows no large or distracting blemishes. Trends \$435 in VF 20, \$1,300 in XF 40 (12/6).

5156 PCGS 1866-S VF 30. Scarce as a date in any condition. This piece represents a choice circulated example.

5157 ANACS 1868-S VF 20; 1871-S VF 35; 1872-S VF 30; 1873-S XF 40; 1877-S XF 40; 1878-S XF 40; and an 1879-S VF 30. A well-balanced run of middle dates from the San Francisco mint. (Total: 7 coins)

Tied for Finest Known

5158 PCGS 1868-S MS 62. While not one of the great rarities among S-mint quarter eagles, the '68-S is, nevertheless, a very scarce coin that is decidedly rare in AU or better. This piece is tied for finest known honors with one other coin, both of which were graded by PCGS. This piece is sharply struck in all areas except the eagle's left leg, as usual, and there are only a couple of small marks, most of which are on the obverse. There is a peculiar flattening of the denticles on each side. We are not sure if this is characteristic of all '68-S quarter eagles, or if there was some die problem with this particular coin or die run. (Photo)

5159 ANACS 1869 XF 45. Very scarce in all grades and usually not seen finer than XF. Well struck with deep reddish color.

5160 PCGS 1869 AU 58. The present coin is one of 3 pieces graded as such with no uncirculated specimens having been graded by PCGS. Frosty golden color lies over the semi-reflective fields. Rarely offered in such high grade.

5161 PCGS 1869-S VF 30. An original coin with clean surfaces and much reddish color, however, the strike is mushy in the centers, as always. Trends \$335 in VF 20, \$675 in XF 40.

5162 PCGS 1869-S VF 35. Luster remains around the devices.

5163 ANACS 1869-S XF 40. Another scarce S-mint, displaying bright, evenly worn surfaces. Struck from a mintage of just 29,500 coins.

Highest Certified 1870 Quarter Eagle

5164 **NGC 1870 MS 61.** A scarce, low mintage issue with only 4,520 pieces struck. Rarely seen above XF, this piece currently stands as the finest example known with none in higher grades by either of the major certification services. This is a fully struck coin that displays deeply reflective fields on both sides, as often seen on this issue. There are numerous small contact marks on the coin, but the only distinctive feature is a light alloy spot near the reverse rim at 11 o'clock. Trends \$4,100 in MS 60 (12/6).

5165 **PCGS 1873 Open 3 AU 55.** Sharply struck.

5166 **PCGS 1873 Open 3 AU 58.** A choice frosty example with light golden overtones.

5167 **PCGS 1873 Open 3 AU 58.** Fully struck with almost complete mint luster.

Extremely Rare 1875 Quarter Eagle

5168 **PCGS 1875 XF 45.** With a mintage of only 400 pieces, the 1875 quarter eagle is an issue whose rarity has spread beyond those who specialize in rare gold. It has the second lowest mintage of all quarter eagles, second only to the 1854-S. It is extremely rare, but earlier estimates of only 15-20 pieces extant (Akers) appear to be low. Perhaps a more accurate estimate would be in the range of 20-25 coins. This is a very sharply struck piece that shows innumerable small abrasions across the surfaces (as would be expected of an XF coin). These small abrasions tend to obscure almost all of the original prooflikeness in the fields, faint remnants of which can be still seen around some of the devices. There is also a rich reddish patina that clings to the design elements that gives the coin an attractive and colorful appearance. Few pieces have come on the market recently, and this appearance may represent the only opportunity the advanced collector will have this year to purchase this rare and highly coveted coin.

5169 **PCGS 1875-S XF 40.** An attractive coin for the grade with rich color and no detracting blemishes. Scarcer issue and very elusive in better grades.

5170 **NGC 1876 VF 20.** A scarcer date with an impressively low mintage of only 4,176 pieces. Softly defined in the centers with original surfaces and showing a shallow scratch or two on each side.

5171 **ANACS 1877 VF 35.** Fairly lustrous for the grade with rose-violet highlights about the stars and lettering. Always popular as a date because of its tiny mintage of just 1,652 pieces.

5172 **PCGS 1878 MS 62.** A choice example with thick, frosty luster.

5173 **ANACS 1879 AU 58; 1891 AU 50; 1893 AU 50; 1895 AU 58; and an 1896 AU 50,** rich red color. (Total: 5 coins)

- 5174 ANACS 1880 AU 50. A colorfully tinted prooflike specimen, overlaid in rich golden-orange hues. Very scarce as might be expected from such a low-mintage (2,996 pcs.) date.

Elusive 1881 Quarter Eagle

- 5175 PCGS 1881 AU 50. One of the rarest and most popular of all Coronet quarter eagles, the 1881 has a very low mintage of only 640 pieces. It is infrequently encountered with most survivors in the XF-AU grade range. This piece shows little of the diagnostic softness on the eagle's leg but there are significant portions of prooflikeness in the fields. Lightly abraded with an attractive deep reddish caste to the surfaces. Trends \$6,500.
- 5176 PCGS 1882 XF 45. Problem-free surfaces with fields that are bright with the remnants of an original prooflike finish. Scarce, low mintage issue.
- 5177 ANACS 1883 AU 55. Mintage of just 1,920 business strikes. This piece exhibits the excellent strike and prooflike surfaces common to this issue. At AU-55, it is slightly better than the average grade encountered (XF-45 to AU-50), and a prized acquisition for the collector of the series.
- 5178 PCGS 1884 XF 40. Low mintage of only 1,950 pieces.
- 5179 ANACS 1886 AU 50. Typical excellent strike as well as prooflike surfaces. At 4,000 mintage, it is still a scarce piece, although AU-50 is the average grade encountered.
- 5180 PCGS 1887 AU 55. Prooflike fields. Scarce date.
- 5181 ANACS 1888 AU 58. Well struck as is typical with creamy orange-gold luster. At 16,001 business strikes minted, it is still a premium coin grading somewhat higher than the average encountered of XF-AU.

- 5182 NGC 1893 MS 66. Sharply defined throughout with silky, satin-like luster. The olive-golden surfaces have taken on a slight tinge of pinkish-rose on each side and there is only the most trivial evidence of contact with other coins in the reverse fields. An exceptionally attractive type coin. Population: 3 in 66, none are finer.
- 5183 PCGS 1894 MS 61. Prooflike surfaces. Mintage of just 4,000.
- 5184 ANACS 1897 AU 55; 1898 MS 60; 1899 MS 60; and a 1901 AU 55. (Total: 4 coins)
- 5185 PCGS 1897 MS 62. Beautiful color. Looks much finer.
- 5186 ANACS 1900 MS 62. Rich, creamy luster.
- 5187 ANACS 1902 AU 58; 1904 MS 61; and a 1905 AU 58. The last two coins are loaded with luster. (Total: 3 coins)
- 5188 ANACS 1903 MS 62. Creamy gold with pretensions to MS-63.
- 5189 ANACS 1903 MS 63. Bright and flashy. An excellent example of type.
- 5190 ANACS 1906 MS 62. Creamy luster with strong claim to a higher grade.
- 5191 PCGS 1907 MS 62. Frosty.

PROOF LIBERTY QUARTER EAGLE
Fabulous Proof 1894 Quarter Eagle

- 5192 PCGS 1894 PR 65. A glittering proof example of this scarcer date. Of the 122 pieces struck probably no more than 42-44 remain today and are identifiable as proofs. This is certainly a visually arresting example. The surfaces have an unfathomable depth of mirrored reflectivity and there is a slight, but noticeable, cameo contrast between the fields and devices on each side. On the reverse there is evidence of partially unfinished die work as the fields show myriad die striations that were not completely polished out of the die before striking. The surfaces appear technically perfect and there is a rich orange-gold patina that covers both sides of this lovely coin. (Photo)
-

INDIAN QUARTER EAGLES

- 5193 ANACS 1909 AU 58; 1912 AU 50; 1914 AU 58; 1926 AU 55; and a 1927 AU 58, choice. (Total: 5 coins)
- 5194 ANACS 1910 MS 62. Bright and attractive.
- 5195 ANACS 1911 MS 61; 1913 MS 61; 1915 MS 61; 1928 MS 60; and a 1929 MS 61. A nice group of Indian quarter eagles. (Total: 5 coins)
- 5196 ANACS 1911-D AU 50. Even light wear. A collectable example of this sought after key date.
- 5197 PCGS 1914-D AU 50; and a 1925-D AU 55. Both are lustrous and attractive. (Total: 2 coins)
- 5198 PCGS 1914-D MS 61. Well struck but a trifle baggy and showing excellent color.
- 5199 PCGS 1925-D MS 62. Soft satin luster.
- 5200 PCGS 1928 MS 62. Satin luster.

THREE-DOLLAR GOLD PIECES

- 5201 ANACS 1854 VF 20. Smooth, even wear.
- 5202 ANACS 1855 AU 50. Good luster and clean surfaces make this an excellent representative of the type.
- 5203 ANACS 1856 AU 50. While the 1856 is not one of the better dates of the series, it is decidedly more difficult to acquire in AU than the common dates. This piece exhibits good luster and an above average strike.
- 5204 ANACS 1856-S VF 20. This piece offers the collector an opportunity to acquire an affordable Three Dollar Gold piece from the San Francisco mint. Smooth, even surfaces show only moderate wear and hints of luster remain around the devices.
- 5205 PCGS 1856-S XF 40. While the least scarce S-mint Three Dollar Gold piece, the average grade encountered is only VF-30. This piece exhibits above average strike, smooth fields and decent luster.
- 5206 ANACS 1857 XF 45. While not rare, this well struck piece is not common in this grade. Exhibiting a good share of luster and light, even wear, it will make a fine addition to a date collector's set.

- 5207 PCGS 1857 MS 60. One of the more available of the early dates in the three-dollar series, the 1857 is usually found well circulated and strict mint state coins are quite scarce. This piece shows the usual striations seen on this issue and the strike is somewhat soft on the upper hair curls and bow knot.
- 5208 ANACS 1859 XF 45. At 15,558 mintage, the 1859 is far from common. This clean, smooth and lustrous example is typically well struck and would fit well into any assemblage of circulated Three Dollar Gold pieces.
- 5209 ANACS 1860-S VF 30. An extremely scarce issue. While this coin matches the average grade encountered, the condition census includes coins grading as low as AU-50 and there is only one known uncirculated piece. This coin exhibits even wear and clean surfaces.
- 5210 ANACS 1861 XF 40. A popular Civil War issue. With a mintage of 5,959, the date is hard to come by and this coin is slightly above the average encountered grade of VF-35. Sharply struck with light, even wear.
- 5211 ANACS 1862 AU 50. Another popular Civil War issue of some scarcity. With a mintage of 5,750, circulated pieces are available, but certainly not in great supply. This piece exhibits good luster and strike, with the diagonal striations typical of the issue.

- 5212 ANACS 1863 MS 60. Usually only seen in VF or XF condition, this is pleasing mint state coin with good luster characteristics. The fields show heavy clash marks with a bold outline of Liberty's profile on the reverse, but there are no die striations as usually seen on this issue. Rich orange-gold color with just a few small contact marks and several tiny planchet flakes.
- 5213 PCGS 1866 XF 45. One of the more commonly available threes from the 1860s, and a difficult issue to locate any finer than XF. This choice piece has deep orange-gold color and good remaining luster for the grade. Mintage of just 4,030.
- 5214 PCGS 1867 AU 53. A scarcer issue with a mintage of only 2,650 pieces. Semi-prooflike fields with deep orange-gold color.

- 5215 NGC 1868 AU 50. One of the more common dates from the 1860s, but usually not seen any finer than XF. This is a well struck coin that has slight reflectivity in the fields and a few small marks scattered throughout with a soft accent of reddish color on the high-points.
- 5216 ANACS 1870 XF 40. Of a mintage of 3,500, Akers estimates that only about 250 business strikes remain in all grades. At XF 40, this coin matches the average grade encountered, but they are not encountered all that often. This even and lightly worn example should be acquired while it is available.
- 5217 ANACS 1871 XF 40. With a mintage of just 1,300, the 1871 Three Dollar Gold piece is a marginal rarity according to Akers. Circulated pieces such as this one are available, but one has to search diligently. This piece is well struck with typical prooflike surfaces and medium yellow luster, and might have been more generously graded.

- 5218 ANACS 1872 AU 50. The 1872 has a low mintage of only 2,000 coins struck for commercial purposes. As usual, this piece shows much reflectivity in the fields, and there are no distracting blemishes on either side. Not quite as scarce as the mintage might indicate, but still a desirable coin.

Original Closed 3 Three Dollar

5219 PCGS 1873 Closed 3 AU 50. The Closed 3 1873 is one of the great rarities in the three-dollar series. Its mintage was unrecorded for some unknown reason but by extrapolating from the number of survivors seen, Akers estimates that somewhere in the range of 200-300 pieces were struck—an impressively low mintage. The Closed 3 coins are generally considered to be originals while the Open 3s are most likely restrikes. Most Closed 3s are circulated to some extent, like this coin, and it appears that only 1 piece may be extant in strict mint condition. This is a clean, problem-free coin that shows no distracting marks. The fields have a hint of semi-prooflikeness as usual and, also as usual, the strike is somewhat ill-defined on the highpoints of the design. Deep orange-gold color. Trends \$8,750. (Photo)

5220 ANACS 1874 AU 58. Partially proof-like with cleans fields and a nice overall appearance.

5221 ANACS 1878 AU 58. Choice with considerable luster.

5222 ANACS 1879 XF 45. This date has a low mintage of only 3,030 pieces. A nice circulated example with faintly reflective fields.

5223 PCGS 1881 MS 62. The 1881 has the lowest official mintage in the series with only 500 pieces struck, and is the fourth rarest Philadelphia business strike. This piece has prooflike fields, as always, with just a bit of light cartwheel intermixed. There are a few small contact marks on each side, the strike is sharply defined, and there is just a bit of orange-gold color on the obverse with contrasting yellow-gold on the reverse. Population: 1 in 62, 1 finer. (Photo)

5224 PCGS 1882 MS 60. A very scarce date with an impressively low mintage of only 1,500 business strikes. Well struck with light color and mild reflectivity in the fields.

5225 PCGS 1885 VF 35. Very scarce with only 800 pieces minted. This is a lightly handled coin that shows deep russet toning surrounding the devices.

5226 ANACS 1888 AU 55. Considerable amounts of luster still remain.

5227 ANACS 1889 AU 50. The present coin is a nice example of this scarce last year issue with a diminutive mintage of only 2,429 pieces. Difficult to locate at any grade level.

PROOF THREE-DOLLAR GOLD PIECE

Tied For Finest Known

5228 PCGS 1881 PR 65. Proofs of this date, while diagnostics are well known, have the unusual trait of showing just a bit of cartwheel in the fields. Of the 54 proofs struck only an estimated 25 pieces still survive today. This is certainly one of the finest examples known of this rare date. The surfaces have a hazy patina that shows a bit of steel-blue and several shades of red, and there is an alloy spot on the lower wreath above the right ribbon end. Of the greatest importance to the advanced gold collector. Population: 3 in 65, none are finer. (Photo)

EARLY HALF EAGLES

S over D Reverse

- 5229 ANACS 1795 Small Eagle XF 45. B. 4-D. This is the second variety with the S over D reverse of 1795. This piece is well defined for the grade with no obvious or detracting abrasions and no adjustment marks. Medium orange-gold color overall with a hint of deeper reddish patina surrounding the devices. An attractive example of this popular, early five. (Photo)

- 5230 PCGS 1798 Large Eagle VF 20. Large 8, 13 Star Reverse. B. 3-E. A much scarcer variety and considered by Breen thirty years ago to be an R.7. This piece has even wear over the highpoints and shows numerous horizontal adjustment marks in the center of the obverse and a second group through LI(BERTY) on the rim. Light in color with softly defined centers. The PCGS insert has this labeled as a Small Eagle variety, but this is obviously an error.

- 5231 PCGS 1798 Large Eagle XF 45. Small 8. B. 4-F. Seen less often than the Large 8 coins, this example has rich reddish-coppery color and shows several parallel adjustment marks on the hair curls in the center of the obverse. Well defined in most areas and showing only the marks that are consistent for a coin of this grade.

- 5232 ANACS 1799 XF 45. B. 1-A. An especially choice example of this somewhat scarcer early half eagle. The surfaces are devoid of any but the most trivial abrasions, and there is a pronounced reddish color on each side. Well struck in general with just the slightest softness in the center of each side.

- 5233 ANACS 1800 XF 40. B. 1-C. Identifiable by the blundered M in AMERICA, and a scarcer variety as such. Slight softness of details on each side, the surfaces overall are a bit bright, and there is a pronounced reddish color around the outer devices. A few shallow scratches are noted in the fields, but these have little impact on the overall "look" of the coin.

- 5234 ANACS 1802/1 VF 20. B. 1-A. Bright surfaces with a significant accent of deep reddish color on each side. An affordable, low grade example of this popular gold overdate.

Lovely Early Half Eagle

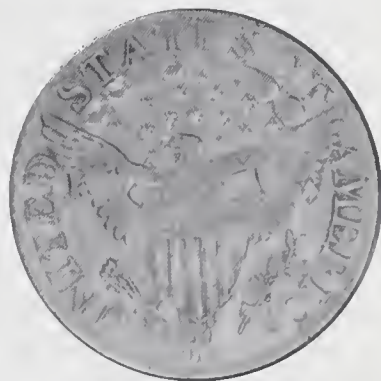

- 5235 ANACS 1803/2 AU 50. B.1-C. Reasonably well struck with only slight softness on the hair curls and eagle's talons. There are a few diagonal adjustment marks in the center of the obverse and only a couple of contact marks on either side worthy of note. Medium yellow-gold color with just the slightest orange accent on the high-points. (Photo)

- 5236 PCGS 1804 XF 45. Small 8 Over Large 8. B. 1-A. A choice example for the grade that is strongly detailed in the centers. There are several adjustment marks in the center of the obverse, but these do not have any significant impact on the overall desirability of the piece.

- 5237 PCGS 1805 AU 53. B. 2-B. Sharply struck with bright surfaces that retain much original luster. The only detracting features on this coin are a series of vertical adjustment marks on the figure of Liberty and a couple of curved scratches in the upper right obverse field. (Photo)

- 5238 PCGS 1806 XF 40. Round Top 6. An original example of this rather common, but popular, early gold type coin. This is an original coin that has a look that assures the viewer that this piece has never been monkeyed with. Well defined on the obverse with only slight softness in the center of the reverse. There is a light accent of rose patina surrounding the devices, and the surfaces overall show no distracting blemishes.

- 5239 ANACS 1806 AU 50. Round Top 6. Quite a nice coin for the grade. The surfaces retain much original mint luster in the protected areas and there are no large or distracting blemishes on either side. Well struck, the coin has a pleasing accent of light reddish patina in the fields. Round Top 6 fives are one of the most easily obtainable of all early gold coins.

- 5240 PCGS 1806 AU 53. Pointed Top 6. B.2-B. This variety is characterized by the large D in UNITED and wide A in AMERICA on the reverse and the top of the 6 which is buried in the bottom of the bust of Liberty. This type Breen called "very rare." This piece shows only slight evidence of the characteristic weakness in the centers this type is known to show. In the center of the reverse there are a series of vertical adjustment marks that are very shallow, and if the coin is tilted just so seem to almost disappear. Otherwise, free from any disturbing surface marks, and showing mellowed yellow-gold color overall. (Photo)

- 5241 PCGS 1807 Bust Right XF 40. B. 1-A. Unlike the vast majority of 1807 half eagles, this piece is sharply struck in the centers, showing almost full detail, this being especially noteworthy on an XF coin. There are a few very faint adjustment marks on the obverse rim from 2 to 3 o'clock. The greenish-gold color overall shows a faint accent of light red at the margins. Good value in an early gold coin.

- 5242 NGC 1807 Bust Left MS 64. This is a blue chip coin that should fit neatly into anyone's collection or investment portfolio. As with most examples of this date, the features are very sharply struck with pinpoint detailing on the hair curls and each feather on the eagle fully articulated. The mint luster is outstanding, being undisturbed by any but the most insignificant surface marks. There is a distinctive spot of deep violet-blue-russet color at the back of the hair curls, an alloy spot probably, that would serve as a ready marker for anyone wishing to trace the pedigree of this important early gold coin. Population: 2 in 64, 2 finer. (Photo)

- 5243 **ANACS 1808 AU 55.** Wide 5 D. B. 4-B. While not especially difficult as a date, the 1808 is quite elusive in high grades. This piece is especially well defined in all of the design areas. Overall, the coin has a bright yellow-gold color with a peripheral accent of reddish-coppery color on each side.

- 5244 **ANACS 1809/8 AU 50.** This coin has a lot of snap for the grade. The surfaces are a bright golden-yellow with moderate amounts of luster still to be seen in the protected areas. The strike is exceptionally bold with finely detailed hair curls on Liberty and complete radials on all the stars. Minimally abraded as well.

- 5245 **PCGS 1810 Small Date, Large 5 AU 50.** B. 2-D. A scarce early five and the fourth rarest issue of the type. This is an especially well struck piece with strong detailing throughout and generous portions of luster seen around the devices. Clean and problem-free.

- 5246 **ANACS 1810 Large Date, Large 5 XF 45.** The most common of the four varieties of 1810 half eagles, this piece shows slight rubbing on the hair curls and eagle's plumage, but has retained quite a bit of mint luster around the devices. Clean overall and a good value in this early type.

- 5247 **ANACS 1811 XF 45.** Small 5. Deep reddish-coppery color characterize this attractive gold coin. The strike is sharp and much of the mint luster still remains. The only detracting feature on the coin are a couple of marks on the face of Liberty.

- 5248 **PCGS 1811 AU 55.** Tall 5. A slightly scarcer variety, the Tall 5 coins are considerably more elusive in higher grades than their Small 5 counterparts. This coin is quite choice with most of the mint luster remaining. The greenish-gold surfaces are minimally abraded and the strike is exceptionally strong in almost all areas.

5249 NGC 1812 MS 63. Final year of the type and one of the more popular dates in the Bust Left series. This is an especially choice example that is clean and problem-free with excellent mint luster. The only detracting feature we can find is a softness of detail on the eagle's neck, left wing, and leg. Sure to be of great interest to the many collectors of early U.S. gold. Population: 5 in 63, only 1 finer. (Photo)

5250 PCGS 1813 AU 50. First year of the modified John Reich design, and as far as this type is concerned, one of the more easily located dates. There is slight rubbing in the fields and the strike is quite strong for the date with only a couple of localized areas of weakness. Pleasing color with a faint outline of red around the devices.

5251 ANACS 1814/3 AU 55. Considerably scarcer than the 1813 in all grades, the 1814/3 is usually only seen in VF or XF condition with AU and better coins being quite elusive. This piece has an above average strike with good peripheral details as well as well defined centers. There are a number of small abrasions peppered across each side, but the coin has good remaining luster and much deep reddish patina surrounding the peripheral devices. (Photo)

5252 ANACS 1818 AU 50. B-6470, STATESOF spelled as one word, listed in the Breen reference as "very rare." First year of the slightly modified design and scarcer than the 1813. This piece shows a number of small abrasions on each side. The strike is soft in the centers and overall the coin has a muted golden-orange color with deeper reddish accents around the margins.

5253 PCGS 1820 XF 45. Square Base 2. Well struck on both sides with light yellow-gold surfaces that show only the slightest bit of reddish patina. A clean and generally problem-free example of this difficult early type coin.

Scarce Lustrous 1823 Half Eagle

- 5254 PCGS 1823 AU 53. While a rare coin in the context of gold coins in general, the 1823 is one of the more easily located dates in this very elusive series. This piece is slightly above average in grade for the date with bright yellow-gold surfaces that are accented by a light reddish patina on the highpoints of the design. There are a few scattered field marks (mostly on the reverse) and much original luster remains. (Photo)

Mint State Small 5D 1830 Five

- 5255 ANACS 1830 MS 61. Small 5 D. As with all the dates from 1829 until the cessation of the series in 1834, the 1830 is a very rare coin, and this piece is significantly finer than the 40-50 survivors that Akers estimates may still be extant. Well defined in general, the surfaces overall are a bright yellow-gold. The only mentionable abrasion is a long, curving mark in the field above the eagle's head. The highwater mark for this date was the Garrett specimen which fetched \$23,000 some 15 years ago. (Photo)

CLASSIC HALF EAGLES

- 5256 PCGS 1834 Plain 4 VF 35. An original coin that is softly struck on the hair curls.
- 5257 ANACS 1834 Plain 4 XF 40. A nice circulated example of this scarce gold type coin.
- 5258 PCGS 1834 Plain 4 XF 45. An original coin with good color.
- 5259 PCGS 1835 VF 25. Smooth surfaces.
- 5260 PCGS 1835 VF 25. Sharp detail for grade.
- 5261 ANACS 1836 VF 20. Evenly worn with clean surfaces.

- 5262 PCGS 1836 XF 45. Light yellow-gold color and well struck in the centers.
- 5263 ANACS 1837 XF 40. Nicely struck with pleasing detail and a nice overall appearance.
- 5264 PCGS 1838 VF 35. A nice circulated example of this scarcer gold type coin.
- 5265 PCGS 1838 VF 35. Very choice for the grade.
- 5266 ANACS 1838 XF 45. Luster still surrounds the devices of this scarce gold type coin.

LIBERTY HALF EAGLES

- 5267 ANACS 1839 VF 30; 1843 XF 45; 1844 XF 45; 1845 XF 40; 1846 XF 45; and an 1847 XF 40. A pleasing group of early Liberty half eagles. (Total: 6 coins)
- 5268 ANACS 1839-D VF 30. A scarce date with a mintage of less than 20,000 pieces. Scarce Dahlonega such as this one are always in demand.
- 5269 NGC 1840 AU 53. An unusually high grade example of this scarce and underrated Philadelphia issue. A considerable amount of luster covers the faintly reflective fields.

- 5270 ANACS 1840-C XF 40. A scarce Charlotte half eagle in all grades that is quite elusive in XF or better condition. This piece is typical for the issue with softly defined hair curls on the obverse and indistinct detailing on the eagle's plumage. Rated as a high R.6 in XF.
- 5271 ANACS 1840-O Narrow Mill XF 45. Quite interesting as the first year which New Orleans issued half eagles. An attractive, sharply struck example.
- 5272 PCGS 1841-C XF 45. Choice and sharply struck with tremendous detail and eye appeal. This scarce Charlotte issue is rarely located in such a choice high grade.
- 5273 ANACS 1841-D XF 45. This rare Dahlonega issue is seldom seen in any condition. The present piece is much nicer than the average specimen of this date. A nice upper-circulated grade example of this rare early issue.

- 5274 ANACS 1842-C Large Date XF 40. A rare issue in its own right, although overshadowed by its Small Date counterpart. This piece shows slight evidence of the often-seen softness of central details, there are no large or distracting blemishes on either side, and none of the lintmarks and other mintmade planchet defects that can be so troubling on this issue.
- 5275 ANACS 1843-C VF 20. A rare Charlotte Mint issue which is seldom offered at any grade level. Nearly as rare as the earlier Charlotte issues. A nice, problem-free circulated specimen.

- 5276 NGC 1843-D AU 53. One of the more available D-mint fives, this piece has pleasing greenish-gold color, is well brought up, and shows only minor abrasions. Only four mint state pieces have been certified from both services.
- 5277 ANACS 1843-O Small Letters VF 30. As a rare coin in any grade, this variety is always in demand by collectors. Quite choice for the grade with pleasing color and attractive surfaces.
- 5278 ANACS 1843-O Large Letters XF 40. A nice example of this scarce early date New Orleans issue which is quite difficult to locate in higher grades.
- 5279 ANACS 1844-C VF 20. With a mintage of only 23,631 pieces, this is a very scarce low mintage Charlotte issue. The present coin is a respectable circulated example of such.
- 5280 ANACS 1844-D VF 20. A pleasing circulated example of this very scarce Dahlonega issue. Evenly worn with pleasing surfaces for the grade.
- 5281 ANACS 1844-O XF 45. A pleasing example of this scarce early date New Orleans issue which is not often located in any grade.
- 5282 PCGS 1846-C VF 35. Very rare in any grade with a mintage of only 12,995 pieces. The present piece is choice and original with pleasing color and surfaces.
- 5283 ANACS 1846-D VF 35. Scarce as a low mintage Dahlonega issue which is always in demand by collectors. A choice, problem-free example.
- 5284 PCGS 1847 AU 55. Clean, frosty surfaces.
- 5285 ANACS 1847-C XF 40. A nice example of this scarce Charlotte Mint issue. Much nicer than the average example one would locate of this date.

- 5286 PCGS 1847-D AU 50. A conditionally scarce Dahlonega half eagle that is usually not seen in AU condition. This piece is sharply defined on all but the eagle's neck feathers. The devices are outlined by a deeper russet patina that is also seen within the deeper recesses of the design elements.
- 5287 ANACS 1848 AU 50; 1849 VF 20; 1851 AU 50; 1852 AU 50; 1853 XF 45; 1855 AU 50; and an 1856 XF 45. A nice group of early Philadelphia Liberty half eagles. (Total: 7 coins)
- 5288 ANACS 1849-D XF 40. Rare in all grades. Tremendous eye appeal for the grade with sharp detail and clean surfaces.

- 5289 NGC 1850 AU 58. A surprisingly difficult P-mint that is actually scarcer than several of the mintmarked issues of the era. The '50-P is very elusive to locate in AU or better condition with Akers having only recorded the appearance of 3 such coins in auctions between 1944 and 1978. This piece has bright golden-orange surfaces that are lightly abraded. The strike is fully brought up in all areas. Trends \$2,650 in AU 50, \$6,000 in MS 60 (12/6).

- 290 ANACS 1850-D Fine 15. Among the rarest Dahlonga issues in the series. Pleasing for the grade with nice, even wear. As one would expect to find on most specimens of this date, the mintmark is very weak.
- 291 PCGS 1851-C VF 35. Choice and free of problems with pleasing color and surfaces. Very scarce in any grade. A rare issue with a mintage of only 49,176 pieces.
- 292 ANACS 1851-D VF 30. A choice, high-end example of this very difficult Dahlonga issue. Quite attractive with choice color and surfaces.
- 293 ANACS 1852-C VF 35. Choice for the grade with pleasing surfaces and very faint reflectivity around the devices.
- 294 PCGS 1852-D VF 35. Choice for the grade with pleasing surfaces. A scarce Dahlonga issue.
- 295 ANACS 1853-C XF 45. Very rare in all grades. Their present piece is surprisingly well-struck for the date. Faint reflectivity hides underneath the clean surfaces of this rare piece.
- 296 ANACS 1853-D XF 40. While this date is typically found weakly struck in the centers, the present coin is sharply struck. Very choice for the grade with pleasing surfaces and color.
- 297 ANACS 1854 XF 45. Sharply struck with pleasing detail and a considerable amount of luster for the grade. Quite difficult to locate for a Philadelphia issue from this period.

- 5298 ANACS 1854-C XF 40. Weak Mintmark. A scarce and underrated Charlotte issue that is quite difficult in XF or better condition. This is a minimally abraded coin that has subdued golden-orange color and shows slightly weak detailing throughout.
- 5299 ANACS 1854-O XF 40. Very scarce in all grades and quite popular as a New Orleans issue. Pleasing for the grade with nice color and smooth surfaces. As expected for the date, their present piece is sharply struck.
- 5300 PCGS 1855-C VF 25. Sharply struck for a Charlotte Mint issue from this period. With a mintage of only 39,778 pieces, this date is elusive at any grade level.
- 5301 PCGS 1855-S VF 25. A date which is rare in any grade and virtually impossible to locate in high grades. The present piece is pleasing overall and evenly worn with only a few trivial abrasions. A date which is perhaps even rarer than the Dahlonga and Charlotte issues from the same year.
- 5302 PCGS 1856-C VF 25. With minimal detractors about the surfaces, the present piece is quite choice for the grade. The strike on this piece could be considered above average for the date with much fine detail still present. With a mintage of merely 28,457 pieces, this date is obviously rare in any grade.
- 5303 PC1 1856-S VF 30; ANACS 1878-S AU 50; ANACS 1879-S XF 40; ANACS 1880-S XF 40; and an ANACS 1881-S MS 62. (Total: 5 coins)
- 5304 PCGS 1857 AU 55. Quite choice with frosty luster and pleasing surfaces. This underrated date should be considered a very scarce coin at any grade level.

- 5305 NGC 1857-C AU 53. When found, the usually encountered 1857-C is only VF with XF pieces being quite scarce. In AU this date is quite rare, meriting a mid-R.7 rating with an estimated 7-8 pieces believed extant. This coin is well defined in the center of the obverse with slight softness on the eagle and peripheral stars. Small marks are scattered across both sides with a couple of more noticeable scrapes in the upper reverse field.
- 5306 ANACS 1857-D XF 40. As the lowest mintage Dahlonga Mint half Eagle to this point, this is obviously a very scarce issue. The present piece displays the typical soft strike but is nice for the grade and has an attractive overall appearance.
- 5307 ANACS 1857-O VF 30. This date represents the last No Motto Half Eagle minted in New Orleans. Very high-end for the grade level and quite difficult to locate as such. More difficult to find in choice grade than any other Half Eagle in the 1850s.
- 5308 ANACS 1858 VF 30. This date leads a long run of low mintage Philadelphia issues. With a diminutive mintage of 15,136 pieces, this coin is obviously rare in any grade. Some expected abrasions are seen about the surfaces of the present piece.
- 5309 PCGS 1858-C XF 45. Very rare as a date in any grade. Sharply struck with clean surfaces that are accented by a touch original luster.
- 5310 PCGS 1858-D VF 30. As expected for the date, the present coin has a slightly weak strike within the central areas. However, this is an elusive date which is seldom found in any grade. Pleasing in appearance with clean surfaces and attractive uniform color.
- 5311 PCGS 1858-S Fine 12. Very scarce as a date with a mintage of only 18,600 pieces. Evenly worn with smooth surfaces and an attractive appearance. Rarely offered at any grade level.

- 5312 ANACS 1859 AU 50. A very scarce Philadelphia half eagle with an impressively low mintage of only 16,814 pieces. Rarely seen above XF, this piece has bright yellow-gold surfaces and is well struck in all areas except on the neck of the eagle. Trends \$2,250 (12/6).

- 5313 **PCGS 1860-C XF 40.** A very scarce Charlotte half eagle that has the third lowest mintage of the series with only 14,813 coins struck. This piece is somewhat above average for the issue with rich golden-orange color and a minimally abraded obverse. The reverse is, of course, ill-defined having been struck from the improperly annealed die first used in 1859. A low R.6 issue in XF.
- 5314 **ANACS 1860-D VF 30.** Nice for the grade considering the typical soft strike for this issue. Less than 15,000 pieces were minted, making this an obviously elusive date. The present piece is a nice circulated representation of this rare Dahlonega issue.
- 5315 **ANACS 1861 AU 50; 1878 AU 55; 1879 AU 50; 1880 AU 50; and an 1881 MS 61.** (Total: 5 coins)

Rare 1861-D Half Eagle

- 5316 **PCGS 1861-D XF 40.** A rare and historically important branch-mint issue that had an unknown (but small) number of coins struck under the auspices of the Confederacy. This is a very pleasing coin for the grade with good detailing on the devices (except the usual softness on the reverse). There are a couple of marks on the obverse that are not severe, and overall the surfaces have a lovely mottled coppery-reddish and steel-blue patina. Trends \$6,950 (12/6).
- 5317 **ANACS 1862-S Fine 12.** While virtually non-existent in higher grades, this piece is one of the true rarities within the series. The present piece is a nice, evenly worn example of this very rare issue.

Finest Known 1865-S, And The Only Known Mint State Example

- 318 NGC 1865-S MS 60. A scarce issue overall, the 1865-S is very rare above VF, and was previously unknown above XF. According to Akers research done some years ago, the '65-S ranked second among all Coronet fives according to average grade, the average coin grading only Fine-18. This piece is far and away the finest known with no other mint state pieces certified by the major services. The coin is well struck with bright yellow-gold surfaces and only the most trivial abrasions on either side. (Photo)

- 5319 PCGS 1866-S No Motto Fair 2. Quite scarce as a date with a mintage of only 9,000 pieces. The obverse is heavily worn while the reverse has nearly full rims. In any case, this is an interesting example of this scarce issue.
- 5320 ANACS 1866-S Motto VF 20. A very scarce San Francisco issue. The present piece is a nice representative with minimal detractors and a pleasing overall appearance.
- 5321 NGC 1867-S Fine 12. Very rare in any grade. This date is among the rarest in the series with an average grade that ties for 2nd in rarity. A few expected surface abrasions are noted for accuracy, but overall a pleasing specimen of this rarity.
- 5322 ANACS 1869-S VF 20. A nice representation of this scarce San Francisco issue.
- 5323 NGC 1869-S VF 30. While extremely rare in grades above XF, the present date is a very scarce coin at any grade level. A pleasing, problem-free example.

Semi-Prooflike 1870 Half Eagle

- 5324 PCGS 1870 AU 50. A rare With Motto half eagle that is almost as difficult as the much better (and even lower mintage) 1869. Only 4,000 pieces were struck and AU specimens such as this are rarely encountered and strict mint state pieces are unknown. This piece shows just a touch of softness in the centers. The fields are semi-prooflike and there is just a slight bit of reddish color in the fields. (Photo)
- 5325 ANACS 1870-CC VG 8. A very rare Carson City issue with an average grade lower than that of any other coin in the series. Choice for the grade with a few expected abrasions and overall nice eye appeal. Only 7,675 pieces were minted.
- 5326 ANACS 1871-S Fine 15. A nice example of this scarce, low mintage San Francisco issue. Attractive for the grade with clean surfaces.

Near Gem 1872 Five Dollar; Tied For Finest Known

5327 NGC 1872 MS 64. With a mintage of only 1,660 pieces it is not surprising that the 1872 five is a rare coin in all grades. A small number of uncirculated pieces turned up in 1958, and this piece is obviously from that small hoard, such pieces being characterized by somewhat prooflike fields. This coin is tied for finest known honors with one other piece, that one having been certified by PCGS. As mentioned, the fields are semi-prooflike. There is just a bit of striking softness in the centers and the surfaces overall are amazing free from post-striking impairments. An outstanding example of this scarce, low mintage issue. (Photo)

- 5328 ANACS 1872-S VF 20. A respectable representative of this very scarce San Francisco issue. Difficult to locate at any grade level whatsoever. Pleasing surfaces and color make this an attractive example.
- 5329 PCGS 1873 Open 3 AU 50. Scarce variety. Difficult to locate in grades above XF.
- 5330 ANACS 1873 Closed 3 AU 50. A considerable amount of frosty luster still surrounds the devices of this scarce piece. Truly a rare coin at this grade level with only 5 uncirculated specimens having been graded to date.
- 5331 ANACS 1874 VF 20. Scarce Philadelphia issue with a mintage of only 3,508 pieces.
- 5332 PCGS 1874-CC VF 25. Evenly worn with clean surfaces.

- 5333 ANACS 1877-CC XF 40. Pleasing original coin with a few light scratches in the left obverse field. Akers states that strict XF examples are extremely rare and he has seen only one as high as AU.
- 5334 PCGS 1878-CC Fine 12. Scarce date and difficult to locate in any grade. This example is evenly worn with no detracting marks and pleasing original toning.
- 5335 NGC 1878-S AU 50. While readily available in VF or XF, this issue is quite difficult to acquire in AU and above. This piece has good luster with just a bit of wear on the high points.
- 5336 ANACS 1879-CC VF 20. Popular Carson City issue with a mintage of 17,281.
- 5337 ANACS 1880-CC VF 30. Smooth surfaces and no detracting marks.
- 5338 PCGS 1881/O XF 40. Popular overdate variety with much remaining luster and claims to a higher grade.
- 5339 ANACS 1881-CC VF 20. Smooth fields and even wear.
- 5340 ANACS 1882 MS 62; 1883 AU 58; 1884 XF 40; 1885 MS 60; 1886 AU 50; 1888 XF 45; 1891 AU 58; 1892 AU 58; 1893 AU 55; and an 1894 MS 62. Some attractive coins in this lot. (Total: 10 coins)
- 5341 ANACS 1882-S MS 60; 1883-S AU 50; 1884-S XF 45; 1885-S XF 45; 1886-S MS 61; 1887-S AU 58; 1888-S VF 35; 1892-S XF 45; 1893-S AU 58; and an 1897-S XF 45. A long run of San Francisco half eagles. The 1886-S is nice for the grade. (Total: 10 coins)
- 5342 PCGS 1882-S MS 62. Satiny with pinpoint sharpness and only a few trivial facial marks. A not-so-common issue, rarely found above MS 63.
- 5343 ANACS 1884-CC XF 45. Pleasing original coin with light wear and much remaining luster.
- 5344 PCGS 1890 XF 40. Bright orange-gold color and not completely struck up. Low mintage of only 4,200 pieces.
- 5345 ANACS 1890-CC XF 45. Sharply struck with clean surfaces.
- 5346 ANACS 1891-CC AU 58. Flashy and brilliant with a slight trace of wear.
- 5347 ANACS 1892-CC AU 55. Affordable example of this popular Carson City issue.
- 5348 ANACS 1893-CC XF 40. Last year of issue for Carson City half eagles.
- 5349 ANACS 1893-O AU 50; and an 1894-O XF 45. The last half eagles struck in New Orleans. (Total: 2 coins)
- 5350 PCGS 1894-S VF 35; 1895 MS 60; 1900 MS 60; 1907 MS 60; and a 1908 AU 55. (Total: 5 coins)

- 5351 PCGS 1895-S XF 45. Hard to find date. Clean and lustrous.
- 5352 ANACS 1896 AU 58; 1897 MS 60; 1901 MS 60; 1902 AU 50; 1904 XF 45; 1905 AU 55; and a 1906 AU 50. (Total: 7 coins)
- 5353 ANACS 1898 MS 61; 1899 MS 61; and a 1903 MS 61. (Total: 3 coins)
- 5354 ANACS 1898-S XF 45; 1900-S AU 58; 1904-S XF 45; 1905-S XF 45; and a 1906-S XF 40. (Total: 5 coins)
- 5355 ANACS 1899-S MS 61; 1901-S MS 62; 1902-S MS 62; 1906-D MS 60; and a 1907-D MS 62. An well-balanced group late-date Liberty half eagles. (Total: 5 coins)
- 5356 ANACS 1900 AU 58.
- 5357 ANACS 1901/0-S MS 61. Popular overdate variety with flashy luster and a sharp strike.
- 5358 PCGS 1903-S MS 62. Frosty luster with a good look that hints of a higher grade.

PROOF LIBERTY HALF EAGLE

Affordable Proof Only 1887 Half Eagle

- 5359 PCGS 1887 AU 50. The 1887 is the only date in the series that was struck only as a proof. Only 87 pieces were produced and of that number perhaps 30 survive today. Quite a few are impaired or circulated, such as this coin, which is actually a good thing for collectors as it places a number of coins in their hands that would not otherwise be obtainable. The original proof surfaces are greatly subdued and are only apparent around the devices. There are numerous small abrasions on each side, but none are singularly distracting. There is also a rich reddish patina that gives the coin an added bit of eye appeal. Trends \$12,500 (12/6).

INDIAN HALF EAGLES

- 5360 ANACS 1908 AU 50; ANACS 1909 AU 58; PCGS 1912 AU 58, deep brownish-gold toning; ANACS 1914 EF 45; and an ANACS 1915 AU 55. (Total: 5 coins)
- 5361 PCGS 1908 MS 62. Satin luster.
- 5362 ANACS 1908-D XF 40; 1909-D AU 58; 1909-D MS 61; 1910-D AU 55; and a 1914-D VF 30. A nice group of Denver-mint Indian half eagles. (Total: 5 coins)
- 5363 ANACS 1908-S AU 55. Scarce date with a mintage of 82,000 pieces.

5364 PCGS 1909 MS 62. Clean.

5365 PCGS 1909 MS 62. Good luster and strike.

- 5366 ANACS 1909-O AU 50. One of the premier rarities in the five-dollar Indian series, and one that is seldom found any finer than AU, when it is found at all. As always, the mintmark is softly defined. The surfaces retain a fair amount of luster and show a few small marks here and there, and each side is outlined with a deep reddish-coppery accent of patina.
- 5367 ANACS 1909-S AU 58. Clean surfaces with just a trace of wear.
- 5368 ANACS 1910 MS 61. Good luster with no major marks.
- 5369 ANACS 1910-S MS 60. Scarce date in mint state. This example sharply struck with clean fields and no major marks.

5370 PCGS 1910-S MS 65. This is a very rare five Indian to locate in mint state. In gem condition, it is the only MS 65 certified by either of the major grading services and none have been certified any finer, making this the undisputed **FINEST KNOWN** coin of the pieces graded to date (12/93). This is a fully struck coin with pinpoint detailing in all areas. The surfaces are smooth and virtually unblemished with only a couple of minor marks noted in the obverse field in front of the nose of the Native American. Soft frosted luster covers the surfaces and there is an even layer of light reddish-gold color over both sides. Trends \$46,500 (12/6). (Photo)

5371 ANACS 1911 MS 61. Good luster with a minimal number of marks.

5372 PCGS 1911 MS 65. While the 1911 is one of the more commonly encountered dates in the series, it is an important condition rarity in gem condition. Only 4 coins have been so graded by PCGS. This piece has smooth, lustrous surfaces. The face of the Indian is especially free from post-striking impairments, and the only noticeable marks on the coin are a few minor luster grazes in the reverse fields. Rich reddish color accents both sides of this lovely gem. (Photo)

5373 ANACS 1911-D XF 45. Scarce date with a mintage of only 72,500 pieces. Evenly worn with clean fields.

5374 ANACS 1911-S AU 50. Clean surfaces and even wear.

5375 NGC 1911-S MS 60. Better date in uncirculated.

5376 NGC 1911-S MS 60. Premium date. While readily available in circulated grades, Akers sees the issue as very scarce in mint state. This piece exhibits satin luster with minimal contact marks and rub for the grade.

5377 NGC 1912 MS 62. Shimmering luster and few appreciable surface marks.

One of Only 2 PCGS MS65 Certified 1912 Half Eagles

5378 PCGS 1912 MS 65. Like the 1911 above, the 1912 is really just a common date in lower grades, but is an impressive condition rarity in gem condition with only 2 pieces certified as such by PCGS with none finer. As typical for the issue, the surfaces have a mild granularity with a soft satiny texture. Light reddish-gold color overall, the devices are sharply defined in all areas and the coin shows virtually no abrasions, giving the piece a suggestion of an even higher grade. (Photo)

5379 ANACS 1912-S AU 55. Slight wear with a few scattered marks on the reverse.

5380 PCGS 1912-S MS 61. A scarce and highly respected date in mint condition. PCGS population only 7 with 13 graded higher.

5381 ANACS 1913 MS 60. Good luster with a small scuff mark on the reverse.

5382 ANACS 1913-S XF 45; 1914-S XF 40; and a 1916-S AU 50. The first two coins display pinkish-gold color. (Total: 3 coins)

5383 PCGS 1914 MS 62. Smooth satin luster.

5384 PCGS 1914 MS 62. Quite scarce in nice uncirculated grades. Frosty luster.

Gorgeous 1915 Half Eagle

5385 PCGS 1915 MS 64. Sharply struck with highly lustrous surfaces that show a significant area of deeper reddish-coppery color splashed across the peripheries of each side.

5386 ANACS 1915-S XF 45. Even wear and no major major marks.

- 5387 **PCGS 1916-S MS 65.** While the '16-S is not the noted rarity it once was due to the appearance of a hoard in Central America several years ago, the hoard coins have not any impact on the availability of gems. Only one other piece has been so graded by PCGS, and none are finer. This coin has soft, frosted luster and is slightly granular. The surfaces have a pronounced reddish color and the only marks one notices at all are a few tiny ones in the reverse fields. (Photo)

- 5388 **ANACS 1929 MS 61.** The 1929 is the rarest five-dollar Indian from the standpoint of total number of coins available in all grades. Most were melted in 1934 with fewer than a hundred coins remaining today. This is a well stuck piece that has bright mint luster and shows a number of small abrasions on either side. (Photo)

EARLY EAGLES

Affordable Early Eagle

5389 PCGS 1795 VF 20. B. 2-A. Softly struck in the centers with just the slightest bit of light reddish color at the margins. There are a few smaller marks on either side, as one might expect from the grade, but none are of singular note. However, there are several adjustment marks in the center of the reverse. Well worn, but an affordable example of this very popular first design type. (Photo)

The Rarest Date in Small Eagle Type

5390 NGC 1797 Small Eagle XF 40. The final issue of the Small Eagle type and the rarest of the three dates. As Akers points out only the 1798/7 7x6 Stars had fewer auction appearances. Breen estimates a survival percentage of only 1.5% which would translate to approximately 54 coins in all grades. This piece has bright orange-gold surfaces and is generally well struck with some loss of details noted in the centers. Lightly abraded overall with a couple of small marks in the right obverse field. Trends \$23,000 (12/6). (Photo)

- 5391 **PCGS 1797 Large Eagle XF 40. B. 2-C.** First year of the heraldic eagle type and a median rarity in the series. This variety is characterized by the "cross" star arrangement on the reverse and the alignment of the second and eighth stars toward the eagle's eye. A much scarcer variety, this coin has pleasing greenish-gold color and shows just a trace of light reddish patina on the highpoints of the central devices on each side. There are a few small field marks on each side, none of which are large enough to mention individually.

- 5392 **ANACS 1800 XF 40. B. 1-A.** A very scarce and generally overlooked early ten with a mintage of only 5,999 pieces. The rarity of this date is no doubt due in part from the early breakage of the obverse die. There also seems to have been a high attrition rate for this date with only 2% estimated to have survived. This piece is actually quite well defined for the grade with good details on the hair as well as on the eagle's breast feathers. The greenish-gold color overall is accented by a light reddish tint around the devices. There are a few handling marks on each side, but the only one of note is a long, shallow scratch in the right obverse field that extends onto the neck of Liberty.

Lightly Circulated 1801 Ten

- 5393 **PCGS 1801 AU 53. B. 2-B.** While the 1801 may not be a rare date within the series of Heraldic Eagle tens, it is always a popular coin with collectors because of the appeal of early gold. This piece has an exceptionally bold strike with finely drawn hair strands and complete feather detail on the breast of the eagle. The surfaces are quite clean with only the smallest handling marks evident and the reverse is semi-prooflike. An attractive early gold coin. (Photo)

Rare 1803 Ten Dollar With Extra Star

- 5394 PCGS 1803 MS 62. Large Reverse Stars, Extra Star in Cloud. B. 1-E. A rare variety that has a most unusual feature. On the cloud on the extreme right, below the letter F, there is a small star that was impressed in the die, lying entirely within the borders of the cloud itself. We cannot think of another variety in any series where this happened in exactly this manner. The only similar occurrence was on the 1799 B-3 dollar that has two stars partially buried beneath the clouds. As such it is quite rare and remained unknown until Harry Bass discovered this feature in 1966.

The strike on the coin is exceptionally bold with only faint softness showing on the breast feathers of the eagle immediately above the shield. There are a few very faint adjustment marks on the obverse, but these do little to affect the overall appeal of the coin, and there are only a few scattered marks elsewhere on the piece. Overall one notices a muted greenish-gold color that is accented with a faint blush of reddish-coppery tone around the rims. A very attractive early ten and surely one of the finest examples of this rare variety known. Population: 11 in 62, 3 finer. (Photo)

LIBERTY EAGLES

- 5395 PCGS 1838 VF 25. First year of the popular two-year type with the modified bust of Liberty. Evenly worn with deep reddish color around the peripheries and a few larger field marks on the reverse.

- 5396 NGC 1839 Large Letters XF 40. Type of '38 tens are very scarce items in better grades, as any advanced gold collector can attest, and are seldom seen any finer than XF. This piece is well struck in the centers but has rather fuzzy peripheral details. The surfaces are lightly abraded and have a distinctive outline of light reddish patina surrounding the devices.

- 5397 ANACS 1840 XF 40. Pleasing surfaces and even wear.

- 5398 ANACS 1841 XF 45. Evenly worn with a few small marks in the right obverse field and a small rim cut reverse.

- 5399 ANACS 1842 Large Date XF 45. Some remaining luster and a small cut below the date.

- 5400 PCGS 1843 VF 20 and a 1844-O VF 30. A decent pair of early Liberty eagles. (Total: 2 coins)

- 5401 ANACS 1843-O XF 45. A more elusive issue than is often believed because of its large mintage of 175,162 pieces. This coin is moderately scarce in XF and quite rare in AU or better. Very lustrous for the grade with a noticeable splash of deep rose color on the reverse.

- 5402 ANACS 1844 XF 40. The 1844 ten is an exceptionally scarce ten with a low mintage of only 6,361 pieces, a mintage that, in this case, is a good indicator of how rare this date really is. Part of the reason this issue is so rare is because of the hard times the country experienced from 1838-44, years of unemployment and starvation. The 1844 is considered "prohibitively rare" in XF by Breen. This piece is well defined for the grade and shows innumerable small bagging marks, the only one of note being a hit in the upper reverse field below the A in STATES. Light rose color accents the otherwise orange-gold surfaces.

- 5403 ANACS 1845 XF 40. A scarce and conditionally elusive date that is generally only seen in VF or XF. This piece is somewhat softly defined and there are quite a few abrasions on each side, several of which are located on the cheek of Liberty as well as the fields. Trends \$2,050 (12/6).

- 5404 ANACS 1845-O VF 20. This is the typical grade for this scarce date, with higher condition pieces being quite difficult to locate. Bright surfaces with full sharpness in the centers.

- 5405 PCGS 1846-O VF 25. Evenly worn with a few scattered marks.
- 5406 ANACS 1847 XF 40; 1849 VF 30; 1851 XF 40; 1852 XF 45; 1855 XF 45; 1856 XF 40; and an 1860 VF 30. A neat lot of No Motto Liberty eagles. (Total: 7 coins)
- 5407 ANACS 1847-O XF 40. Some remaining luster.
- 5408 ANACS 1848 XF 45. Smooth surfaces and even wear.
- 5409 PCGS 1848-O VF 30. An original coin with no major marks.
- 5410 ANACS 1850 Large Date XF 40. Pleasing appearance with original surfaces.

Finest Known 1850 Large Date Ten

- 5411 PCGS 1850 Large Date MS 63. Of obvious importance to both the specialist as well as the type collector, this is the finest known Large Date 1850 certified by the major services out of a total of 9 pieces in all the grades of mint state. Frosted mint luster with rich orange-gold patina that shows an occasional flash of lilac. The reverse dies were striated prior to striking. Somewhat softly struck in the centers. An important and valuable No Motto ten. Trends \$19,500 (11/15). (Photo)
- 5412 ANACS 1850-O VF 20. Another scarce O-mint ten, free of obvious marks and exhibiting just enough detail to qualify as a VF.
- 5413 ANACS 1851-O XF 45. Traces of remaining mint luster.

- 5414 NGC 1853/2 AU 50. A very scarce issue with fewer than 40 pieces known, none of which grade mint state. This is a well struck piece with remnants of original luster still seen around the devices as well as a hint of light rose patina at the peripheries. There are a few small abrasions noted on the face of Liberty, otherwise, just light marks consistent with the grade.
- 5415 ANACS 1853-O VF 35. Nearly XF with semi-prooflike surfaces on the reverse.
- 5416 ANACS 1854 XF 45. Smooth surfaces and pleasing appearance.
- 5417 ANACS 1854-O Small Date VF 30. Even wear with no major marks.
- 5418 ANACS 1854-S XF 45. Boldly struck with just a couple of minor scuffs in the obverse field. Better than average condition for this No Motto ten.

Incredibly Rare 1855-S

- 5419 PCGS 1855-S XF 40. A very rare and highly respected issue with an original mintage of only 9,000 pieces. Of the very few known examples, only 2 have been certified by the services in AU. This coin has deep golden-orange color and shows a few small scattered abrasions, none of which are singularly distracting. This lot should be of great interest to gold collectors as so few pieces are available in any condition. Trends \$4,400.

5420 ANACS 1857 XF 40. Original surfaces and few marks.

5421 ANACS 1857-O XF 40. Well defined in the centers for a coin from this era and in this grade, the surfaces show a number of small to medium sized marks with a couple of more obvious ones in the reverse fields. The '57-O has the third lowest mintage of any New Orleans eagle of this type and is rare in all grades, but prohibitively so above XF.

5422 PCGS 1857-S VF 35. Lightly worn with claims to a higher grade.

Important 1858 Eagle

5423 ANACS 1858 VF 30. The 1858 ten-dollar is one of the legendary rarities in the No Motto series. It has been widely recognized as an important and valuable coin for many decades and most collections are lacking an example. Only 2,521 pieces were struck and estimates of survivors vary widely from a low of 12-15 (Breen) to a high of 25-30 (Akers). This piece is typical for the issue as it is rather conspicuously bagmarked and not in high grade. There is a warm rose colored accent of color on each side that is quite attractive. The two most identifiable features that might aid in tracing the pedigree of this important coin are a horizontal mark above the 13th star on the obverse, and a rim ding at 5 o'clock on the reverse. Trends \$5,600 in VF 20, \$12,000 in XF 40.

5424 PCGS 1858-O VF 30. Mintage of 20,000 pieces.

5425 ANACS 1859 VF 30. Evenly worn with a few inconsequential marks.

5426 ANACS 1860-O VF 35. Tough date to find in any grade. This piece is evenly worn with no major marks.

5427 ANACS 1861 AU 50. Lightly worn with lots of remaining luster.

5428 ANACS 1862 XF 45. A scarce No Motto ten of which only 10,995 pieces were struck. This is a well struck coin with light red-dish-gold color and only a few small marks on either side, all of which are consistent with the grade.

5429 PCGS 1863-S VG 10. Very difficult date to find in any condition. This example has no major problems, just nice even wear.

Very Rare 1866-S No Motto Eagle

- 5430 ANACS 1866-S No Motto XF 40. The 1866-S No Motto is one of the rarest dates in the entire series of Coronet tens, only the 1875 and 1864-S are seen with less frequency. While rare in all grades, it is prohibitively rare in XF or better. This piece has a distinctive deep orange-gold color and is lightly abraded for the grade with only one noticeable mark, that being an angling mark in the field in front of the nose.

- 5431 ANACS 1868-S XF 40. An extreme rarity in the Coronet series, Akers did not know of the existence of any AU or better '68-S tens. Since the publication of his reference work, only 4 coins have been certified by the major services above XF. This is a rather pleasing coin for the grade, unlike the rather rough NGC (40) that we sold in October of last year. Medium orange-gold color and somewhat softly impressed on the highpoints of the design with small portions of luster seen around the outer devices.

- 5432 PCGS 1869 VF 25. A very rare With Motto ten with an impressively low mintage of only 1,830 business strikes. At the VF level this is a respectable coin that is rarely seen any finer. The features are evenly worn and there are a few stray marks seen here and there but nothing of singularly distracting importance. The first we have sold in well over a year.

- 5433 LOT WITHDRAWN

5434 NGC 1870 XF 40. Normal 0. Another rare, early With Motto ten. The mintage was a scant 3,990 business strikes and the date is rarely seen above XF. This is a nice coin for the grade with good color, few marks, and just a bit of striking softness in the centers.

5435 PCGS 1871-S Fine 12. A difficult date to find, rarely seen in grades above VF. This example has clean surfaces and delicate original toning.

5436 ANACS 1872 VF 20. The 1872 ten is one of the premier rarities in the entire Coronet series of tens. Only 1,620 coins were struck and Breen estimates that perhaps only 10-12 survive today in all grades. While not a high grade coin, this is a respectable VF piece that has light reddish color and the small, but numerous, abrasions one would normally expect to find on a coin of this grade. Sure to be of great interest to many collectors as well as dealers who specialize in collector coins.

5437 ANACS 1872-S VF 30. Even wear with a light scratch in the left obverse field. Rarely seen in grades better than XF.

5438 ANACS 1873-CC VF 20. A very rare CC five that is one of the great condition rarities as well. To quote David Akers, "There are a number of specimens below the VF grade but only a few better." This coin has been well known to collectors as a major rarity for many years. In 1960 New Netherlands sold a VF that realized an impressive \$140! Softly struck in the centers, as usual, this is an exceptionally clean coin that shows no mentionable marks on either side.

5439 ANACS 1873-S VF 20. Very scarce with an original mintage of only 12,000 pieces. This piece is quite clean overall and shows a light reddish tinge to the surfaces. Softly struck, as usual.

5440 ANACS 1874 AU 55; 1878 XF 45; 1879 AU 55; 1880 VF 30; 1886 AU 55; 1887 XF 45; 1888 AU 55; 1890 XF 45; 1896 AU 58; 1901 AU 58; 1902 AU 50; and a 1904 AU 58. (Total: 12 coins)

Extremely Rare 1875 Eagle; Only 5-6 Business Strikes Known

5441 PCGS 1875 VF 30. The 1875 ten-dollar is one of the rarest and most desirable of all U.S. gold coins, regardless of denomination. Only 100 business strikes were produced, and estimates of survivors range from 5-6 pieces (Akers) to 4-6 (Breen). This coin is diagnostically correct as a business strike, conforming to the characteristics as set out in Breen (1988).

This is a pleasing, mid-range coin, not the finest and not the worst known—and there are a couple of miserably low grade pieces known. The fields still retain much prooflikeness, although the flash has been diminished considerably by the handling incurred in the channels of commerce. There is one distinctive surface impairment that should enable one to easily trace the pedigree of this important rarity: a vertical planchet lamination that runs down the face of Liberty. This lamination should show up in photographs in old catalogs. Undoubtedly the rarest gold coin in this huge collection from a long-time collector in South America to be offered in this sale. Trends \$35,000 (12/6). (Photo)

- 5442 PCGS 1876-S VF 30. A rare and underappreciated With Motto ten whose mintage of 10,000 pieces is the second lowest among S-mint tens (second to the 1860-S). It is also one of the unsung condition rarities in the series with very few pieces in XF or better. This is a pleasing mid-range coin whose surfaces are free from any meaningful abrasions. Well defined on the devices with light reddish color.

- 5443 PCGS 1877-CC VF 35. A rare and highly desirable Carson City ten with a mintage of only 3,332 pieces, third lowest of any eagle from this mint. As usual, the hair curls around the face of Liberty are softly defined and there are a few small, insignificant abrasions on each side. Rich orange-gold color with small bits of steely-blue interspersed throughout.
- 5444 ANACS 1877-S VF 30. Scarce date to find and underrated according to Akers. This example is very pleasing with a few scattered marks.

- 5445 ANACS 1878-CC Fine 12. While the mintage is similar to the 1877-CC, this issue is even rarer and is exceptionally difficult to find in decent shape. Several big name collections in the past have contained coins that were no better than this well worn specimen. The surfaces have a rich orange-gold color overall with a significant overlay of bright pink over the highpoints of the design elements. Trends \$2,150 (12/6).

- 5446 ANACS 1878-S XF 40. A rare issue in all grades that is generally unavailable any finer than XF. This piece is well struck throughout with much reddish color surrounding the devices and no detracting blemishes on either side.

Very Rare 1879-CC Eagle
One of Only 10-12 Coins Known

- 5447 ANACS 1879-CC VF 30. The '79-CC has the lowest mintage of all Carson City tens with only 1,762 pieces struck. Of that number only an estimated 10 to 12 coins survive, most of which are in low grades. This piece is very softly struck in the centers, but shows surprisingly strong peripheral details. There is a rich reddish-violet patina that is splashed around the margins of each side, and the only mark of note is a horizontal scratch out from the coronet on the obverse.
- 5448 ANACS 1879-S AU 50; 1898-S AU 58; 1900-S AU 50; 1901-S MS 61; 1902-S AU 55; and a 1903-S AU 50. (Total: 6 coins)
- 5449 PCGS 1880-CC VF 35. Popular Carson City issue. Lightly worn with some remaining luster and claims to a higher grade.
- 5450 ANACS 1880-O XF 40. Pleasing surfaces with some remaining mint luster.

- 5451 PCGS 1880-S AU 58; 1881-S AU 55; 1885-S AU 50; 1887-S AU 55; 1894-S VF 25; and an 1897-S XF 40. An attractive group of middle-date S-mint eagles. (Total: 6 coins)
- 5452 ANACS 1881 MS 60; 1882 MS 61; 1893 MS 62; 1895 MS 61; 1898 MS 60; 1903 MS 60; 1905 MS 61; and a 1907 MS 60. Some attractive mint state pieces here. (Total: 8 coins)
- 5453 ANACS 1881-CC VF 35. Original surfaces with a light wipe on the right reverse field.
- 5454 PCGS 1881-O VF 25. Scarce date with a mintage of only 8,350 pieces.
- 5455 ANACS 1882-CC VF 30. One of the most underrated of Carson City eagles with a mintage of only 6,764 pieces.
- 5456 ANACS 1882-O XF 40. Tough date to find in any grade, almost unobtainable above EF. This example is lightly worn with a few scattered marks.
- 5457 ANACS 1882-S AU 58. Lots of luster with just a trace of wear.
- 5458 ANACS 1883 MS 61. Lustrous but baggy.
- 5459 PCGS 1883 MS 61. Semi-prooflike with only a hint of scuffiness in the fields. A most appealing example of this scarcer issue, almost never seen finer than MS 63.
- 5460 ANACS 1883-CC VF 20. Even wear with no major marks.
- 5461 ANACS 1883-S XF 45; 1884-S XF 45; 1889-S XF 40; 1893-S XF 40; and an 1896-S XF 40. (Total: 5 coins)
- 5462 ANACS 1884 AU 55. Lustrous but slightly worn.
- 5463 ANACS 1884-CC VF 20. Clean surfaces and no major marks.
- 5464 ANACS 1885 AU 55. Very lustrous but a trace of wear.
- 5465 PCGS 1886-S MS 61. Clean surfaces with one scuff mark in the left obverse field.
- 5466 ANACS 1888-O XF 45; 1897-O AU 50; 1901-O XF 40; 1903-O AU 55; and a 1906-O AU 50. A good group of New Orleans \$10 Libs. (Total: 5 coins)
- 5467 ANACS 1888-S MS 61. Brilliant luster and sharply struck.
- 5468 ANACS 1889 XF 40. Mintage of only 4,485 pieces.

- 5469 **ANACS 1890-CC MS 60.** A scarce issue in all grades but especially elusive in mint condition. This is a lustrous and sharply struck example that shows a few small marks scattered across each side.
- 5470 ANACS 1891 MS 61. Lustrous with no detracting marks.
- 5471 PCGS 1891-CC AU 55. Bright luster with a good strike.
- 5472 PCGS 1892 MS 60. Soft satin luster.
- 5473 ANACS 1892-O AU 58. Lots of luster with a slight trace of wear.
- 5474 ANACS 1892-S AU 58. Bright, flashy luster. Trends \$325 in AU-50, \$525 in MS-60 (12/6).
- 5475 ANACS 1893-O AU 55. Medium yellow luster. Good strike for O-mint. Trends \$365 in AU-50, \$700 in MS-60 (12/6).
- 5476 PCGS 1894 MS 62; 1897 MS 61; and a 1906 AU 55. (Total: 3 coins)
- 5477 ANACS 1894-O AU 55. Popular O-mint. Trends \$365 in AU-50, \$2,350 in MS-60 (12/6).

- 5478 ANACS 1895-O AU 58. Another flashy O-mint example with some claims to MS status. Trends \$310 in AU-50, \$775 in MS-60 (12/6).
- 5479 ANACS 1899 MS 62. Medium yellow to orange luster.
- 5480 ANACS 1899-O AU 58. One of the scarcest of the late date O-mint Eagles. This coin exhibits deep prooflike surfaces on both sides. Trends \$355 in AU-50, \$925 in MS-60 (12/6).
- 5481 ANACS 1899-S MS 61. Flashy and perhaps deserving of a more generous grade.
- 5482 ANACS 1900 MS 62. Bright, medium yellow luster.
- 5483 ANACS 1901 MS 62. Well struck.
- 5484 ANACS 1901-S MS 63. Typical flashy, yellow gold cartwheel. The 1901-S is unsurpassed for blast, hence, its overwhelming popularity as an example for type.
- 5485 ANACS 1904-O MS 60. Bright and well struck if somewhat baggy.
- 5486 ANACS 1905-S AU 50. tough date in AU although common in lower grades.
- 5487 ANACS 1906-D MS 60; 1907-D XF 40; and a 1907-S XF 40. (Total: 3 coins)
- 5488 **ANACS 1906-S MS 62.** Extremely flashy. Might merit consideration for a higher grade. Trends \$775 in MS-60, \$4,250 in MS-63 (12/6).

Gem Cameo Proof 1886 Eagle – Tied For Finest Known

5489 NGC 1886 PR 65. A stunning white on black cameoed proof. This coin has it all: exceptional eye appeal, confirmed rarity, and tied for finest known status. If one were to look very closely a few very slight, wispy hairlines (not from cleaning) could be discerned, but these really have very little effect on the overall eye appeal of this marvelous coin. As stated, there is a stark cameo contrast on each side that gives the coin an immediate, but lasting, eye appeal. Of the 60 proofs struck in 1886 only 15 to 20 pieces are believed to exist still today. This piece is tied with one other PR 65 (certified by PCGS). A must-see coin for the advanced gold enthusiast. (Photo)

INDIAN EAGLES

- 5490 ANACS 1907 No Motto MS 60, No Periods. Popular first year of issue. This coin has good yellow-gold luster and a pleasing appearance.
- 5491 ANACS 1908 No Motto AU 55; 1908-D No Motto AU 55; and a 1915 AU 55. (Total: 3 coins)
- 5492 ANACS 1908 Motto MS 61. Good luster and overall appearance.

Gem 1908 Eagle

- 5493 PCGS 1908 Motto MS 65. One of the more commonly encountered dates of the type, the 1908 With Motto is a coin that has always been popular with collectors both because of its availability in high grade and because of its status as the first year of the With Motto type. This is an extraordinarily lovely piece. The strike is complete in all areas of the design and the satiny luster has a light yellow-gold color. There are no mentionable surface defects and the coin really has suggestions of an even higher grade. (Photo)
- 5494 ANACS 1908-D Motto XF 40; 1909-S/S VF 30; 1909-S EF 45; 1910 EF 45; and a 1911 VF 30. A nice assortment of dates including an interesting variety. (Total: 5 coins)
- 5495 ANACS 1908-S XF 45. Akers calls the 08-S a scarce date in any grade. Mintage 59,850.
- 5496 ANACS 1909 AU 58; 1909-D AU 50; and a 1932 MS 61. Three choice examples. (Total: 3 coins)
- 5497 PCGS 1910-D MS 62. Decent luster and surfaces.
- 5498 ANACS 1910-S AU 58. Generally found in VF-XF condition. Much scarcer in higher grade. Trends \$490 in AU-50, \$1,300 in MS-60 (12/6).
- 5499 PCGS 1911 MS 62. Well defined with deep golden-orange color.

- 5500 ANACS 1911-D AU 50. At 30,100, the lowest mintage of the series. Generally seen only in VF and XF according to Akers. A top acquisition for the date collector.
- 5501 ANACS 1911-S AU 55. 51,000 mintage. Another tough date to acquire in high grade. Very lustrous. Trends for \$775 in AU-50, \$1,550 in MS-60.
- 5502 ANACS 1912 MS 60. Soft, medium yellow luster.
- 5503 ANACS 1912-S AU 58. Creamy luster with only the slightest rub. Trends \$475 in AU-50, \$900 in MS-60 (12/6).
- 5504 ANACS 1913 MS 60. Satin luster.
- 5505 ANACS 1913-S AU 50. Akers calls the 13-S one of the rarest Indian Head Eagles; rarely available, and VF or XF when it is. Good luster with slight, even wear. A great opportunity for the astute date collector.
- 5506 ANACS 1914 MS 62 and 1914-D MS 62. (Total: 2 coins)

- 5507 NGC 1914-D MS 64. One of the more commonly encountered branchmint issues, the '14-D is actually a good bit scarcer in high grade than other truly common dates in the series such as the 1932, 1926, and 1910-D. This is a lovely, high-end coin that has finely granular surfaces and is covered with a light accent of rose patina over both sides. The only marks we notice are a couple of small ones in the left obverse field. But for these, the coin would surely grade MS 65.
- 5508 ANACS 1914-S AU 55. Akers calls the 14-S scarce in any grade. Orange-gold luster and pleasing. Another good selection for the date collector.
- 5509 ANACS 1916-S AU 58. Popular date. Very flashy with some claim to mint state status.

Incredibly Rare 1920-S Ten

5510 ANACS 1920-S AU 50. The 1920-S is one of the great rarities of the series. Apparently most of the mintage was melted and coins in XF and AU are very elusive and definitely worthwhile for the advanced collector. Breen believes that the 1920-S is rarer than even the 1930-S and the 1933, although in our experience it does not carry quite the same cachet as these later dates. This piece has bright surfaces and is obviously missing luster in the fields, but the actual rub on the highpoints is held to a minimum. Softly struck, as usual, this is most apparent at the top of the eagle's wing. (Photo)

5511 ANACS 1926 MS 61. Good luster and strike.

Choice and Elusive 1930-S Ten

5512 PCGS 1930-S MS 63. The 1930-S is one of the well known, almost legendary rarities from this very rare series. Almost the entire mintage was melted, and the few pieces that escaped the melting pot were saved by collectors which accounts for this coin's unavailability in circulated grades. This is a very attractive and conservatively graded coin for this series. The bright satiny luster shows only the slightest evidence of coin-to-coin contact, and this is mostly only obvious in the reverse fields. Well struck throughout with greenish yellow-gold color and just a touch of light rose in the fields. (Photo)

LIBERTY DOUBLE EAGLES

5513 ANACS 1850 AU 55. Popular type coin for first year of regular issue. Much better than the average grade encountered (VF-35). Trends \$1,075 in AU-50, \$3,650 in MS-60 (12/6).

5514 ANACS 1850-O VF 20. Initial year and third most common among O-mint twenties. This piece displays even wear and original rose-violet accents.

5515 ANACS 1851 XF 45. Sharp and lustrous.

5516 ANACS 1851-O XF 40. Not extremely scarce, but highly sought after due to the overall shortage of O-mint \$20 coins. Even wear with a few small contact marks.

5517 ANACS 1852 XF 45; 1853 XF 45; 1854 XF 45; 1860 XF 45; 1871-S XF 45; 1874-S XF 45; and an 1875 XF 45. (Total: 7 coins)

5518 ANACS 1852-O XF 45. Another popular O-mint \$20. Very lustrous and perhaps deserving of consideration for a higher grade. Trends \$775 in XF-40, \$2,950 in AU-50 (12/6).

5519 ANACS 1852-O AU 50. Faint glimmers of prooflikeness on the reverse. The majority of this second most common O-mint grade XF or less, and only at the AU level does it become difficult to locate.

5520 PCGS 1853-O VF 30. Scarce in all grades according to Akers. Even wear with some luster remaining. A few tiny nicks on the reverse are not particularly distracting.

Legendary 1854-O Double Eagle

5521 PCGS 1854-O XF 40. A famous rarity among New Orleans double eagles, one of just 3,250 pieces originally produced. It is estimated that as few as 25 specimens exist today in all grades, placing it second among O-mint twenties in scarcity. Most examples grade VF to XF and show heavy abrasions. Not so with this evenly worn specimen. Trends \$27,500. (Photo)

5522 PCGS 1854-S VF 35; 1857 VF 30; 1877-S AU 53; and an 1878-S AU 53. A nice lot of San Francisco mint coins. (Total: 4 coins)

5523 ANACS 1855 XF 40; 1858-S VF 35; 1865 XF 40; 1866 XF 40; and an 1867-S F 15. (Total: 5 coins)

Rare New Orleans Double Eagle

5524 PCGS 1855-O XF 40. Lightly abraded with much of the original luster intact. The 1855-O, while not drawing the attention received by the New Orleans issues in the preceding and following years, is a very scarce coin in its own right, particularly when it comes to condition rarity. The present example is certainly above-average for the date and should encounter strong bidder interest.

5525 ANACS 1856 AU 50. Akers calls the 1856 a very elusive date, generally obtainable only in VF or XF. This scarce AU example exhibits plenty of luster and smooth surfaces.

5526 ANACS 1856-S AU 50. The surfaces in this high grade specimen are especially sharp and free of all but the most insignificant marks. There are blushes of attractive pinkish color in the protected areas.

5527 ANACS 1857-S XF 45. Quite lustrous for the grade with perhaps only a few too many obverse abrasions to qualify as an AU.

5528 ANACS 1858 AU 50. A scarcer P-mint twenty, especially when located in AU or better condition. The bright surfaces display considerable sharpness and only a few moderate abrasions in the fields.

5529 ANACS 1858-O XF 40. Richly colored with noticeable prooflike qualities found in the protected areas of the reverse. The 1858-O is of median rarity when compared to the thirteen New Orleans double eagle issues, with a mintage of 35,250 pieces.

Elusive 1859 Twenty

- 5530 NGC 1859 AU 50. A once underappreciated issue, struck from a mintage of 43,597 coins, that is now recognized as a true rarity in AU and an almost unobtainable date in true mint state. This piece is head and shoulders above most known specimens, with pleasing color and few appreciable marks.

- 5531 NGC 1860-O VF 35. Another truly scarce New Orleans double eagle, with a tiny number of predominately low-grade survivors from the original mintage of 6,600 pieces. Despite extensive wear, the bright surfaces do retain some prooflike flash on the reverse, where pin scratches are well concealed and hardly detract.
- 5532 ANACS 1860-S AU 55. Strictly graded AUs are very scarce according to Akers. The 1860-S is one of the rarest Double Eagles from the San Francisco Mint. Lustrous and desirable. Trends \$1,050 in AU-50, \$8,250 in MS-60 (12/6).

- 5533 ANACS 1861 MS 61. While the 1861 may be the most easily obtainable Type 1 \$20 Liberty, it is highly prized for its Civil War date and overall good appearance. Good strike and bright, medium yellow luster.

- 5534 NGC 1861 MS 62. Bold and satiny with few appreciable marks in the fields. Important as an uncommonly high grade representative of the Type One design.
- 5535 ANACS 1861-O VF 30. Highly sought Civil War issue of the New Orleans Mint. May have been struck under Federal or Confederate auspices. Mintage of just 17,741. Even wear with somewhat baggy obverse and typical weakness at the base of the date. Trends \$1,250 in VF-20, \$3,500 in XF (12/6).
- 5536 ANACS 1861-S XF 40. Fairly clean with ample luster for an XF coin. As a date, the 1861-S is of moderate scarcity with most pieces topping out at this grade level.

Popular Paquet Reverse

- 5537 PCGS 1861-S Paquet VF 30. An original, defect-free example of this elusive issue, with rose-violet accents about the stars and lettering. The scarcest of all San Francisco mint double eagles, the present example is typical quality for the few known specimens. Trends \$5,250 in VF 20, \$14,500 in XF 40.

- 5538 **ANACS 1862-S AU 50.** One of the rarest dates from the San Francisco Mint. Akers says the average 1862-S is both well worn and bag marked, and that an accurately graded AU is rare. Lustrous with fewer than average bag marks and light wear.
- 5539 **ANACS 1863 XF 40.** Another scarce P-mint, showing only modest wear and significant luster in the protected areas of the reverse.

- 5540 **ANACS 1863-S AU 55.** A conditionally rare S-mint twenty, almost always seen in VF to XF grades. This piece exhibits nearly complete luster and a noticeable lack of abrasions. Only a handful of mint state examples have been graded by the major services. Trends \$1,250 in AU 50, \$8,500 in MS 60.

- 5541 **ANACS 1864 XF 40.** Another scarce Civil War era issue from the Philadelphia mint, being only moderately worn and displaying strong suggestions of luster.

- 5542 **ANACS 1865-S XF 45.** The surfaces are a light yellow-gold, showing only a few trivial marks in the obverse field.

- 5543 **ANACS 1866-S Motto XF 45.** First year of Type 2 style. One of the rarest S-mint issues. Lustrous and sharply defined. Trends \$1,150 in XF-40, \$3,500 in AU-50 (12/6).

- 5544 **ANACS 1867 XF 45.** Good luster with clean fields and even wear.

- 5545 **ANACS 1868-S XF 45.** Another tough early S-mint date. Usually found well worn in VF, this very lustrous piece would be a fine addition to a date collection. Trends \$850 in XF-40, \$1,650 in AU-50 (12/6).

- 5546 **PCGS 1869 XF 40.** Exceptional luster and detail for the grade. Could well be considered for AU.

- 5547 **ANACS 1869-S AU 55.** Most specimens available in XF or less according to Akers. This highly lustrous piece can easily grace a more discriminating collection. Trends \$1,450 in AU-50, \$7,900 in MS-60 (12/6).

- 5548 **ANACS 1870-S AU 55.** Listed as very scarce in AU by Akers. This highly lustrous piece exhibits minimal friction and leads one to question whether a higher grade might be merited. A pleasing coin. Trends \$715 in AU-50, \$7,900 in MS-60 (12/6).

- 5549 **NGC 1871 XF 45.** One of the rarest P-mint \$20 according to Akers. This coin has good luster and very light wear. A few small nicks and bag marks may have kept it from receiving a higher grade. Trends \$950 in XF-40, \$1,750 in AU-50 (12/6).

- 5550 **NGC 1871-CC VF 35.** A doubly rare Carson City issue, both in absolute terms and conditionally where it is actually among the most elusive of all double eagles. Just 17,387 pieces were struck and the few known pieces nearly invariably grade XF or less, with a low end VF being the norm. This piece is somewhat generously abraded, like most, and falls just a hair short of XF detail. An important CC twenty for the specialist.

- 5551 **PCGS 1871-S XF 40.** An original coin with good definition, just showing the usual complement of small marks across each side.

- 5552 **ANACS 1872 AU 50; 1879 AU 55; 1902-S AU 55; and an 1880-S AU 55.** A nice lot of lightly circulated coins. (Total: 4 coins)

- 5553 **PCGS 1872 AU 55.** Sharply struck with almost complete mint luster remaining.

- 5554 **ANACS 1872-S AU 50; 1879-S AU 58; 1888 AU 55; and an 1899-S AU 58.** (Total: 4 coins)

- 5555 **ANACS 1873 Closed 3 XF 40.** This variety is one of the rarest P-mint \$20 according to Akers. Clean surfaces with traces of mint luster. A must for the date collector.

- 5556 **PCGS 1873 Open 3 AU 55.** Well struck with much bright mint luster remaining.

- 5557 **PCGS 1873 Open 3 MS 60.** Brilliant with yellow-gold luster. A bit baggy, but not distractingly so. An excellent type coin.

- 5558 **ANACS 1873-CC VF 35.** Mintage 22,410. This coin matches the average grade encountered at VF-35. Even wear with luster remaining around the devices. Trends \$975 in VF-20, \$1,750 in XF-40 (12/6).

- 5559 **PCGS 1873-S Closed 3 AU 55.** Great luster.

- 5560 **ANACS 1873-S Closed 3 AU 55.** Excellent yellow-gold luster.

- 5561 **PCGS 1874 AU 55.** Slightly baggy, but with outstanding luster.

- 5562 **PCGS 1874-CC XF 40.** Smooth with good luster for the grade.

- 5563 **ANACS 1874-CC XF 45.** A moderately scarce CC issue that is quite elusive any finer than Choice XF. This is a pleasing, well struck coin with clean features and subdued coloration.

- 5564 **ANACS 1875-CC XF 40.** Sharply struck with traces of mint luster.

- 5565 **ANACS 1875-CC MS 60.** Well struck with semi-reflective fields. There are numerous small marks scattered over both sides, none of which are of singular importance. A popular issue as it is a Carson City product as well as a Type Two twenty.

One of The Finest 1875-CC Double Eagles

- 5566 NGC 1875-CC MS 63. As a date, the 1875-CC seems to pop up once or twice in virtually every auction, but those specimens invariably grade XF 40 to MS 60. Their combination of Type Two design and Carson City vintage makes them popular with type collectors and beginning Carson City buffs alike. Unlike the occasional MS 60 offered, the present coin has managed to escape the numerous abrasions found on nearly all uncirculated pieces seen in the past few years. The devices are very well defined and quite frosty, exhibiting minimal coin-to-coin contact. We certainly would not hesitate to call this one of the finest known for the issue. Population: 2 in 63, none higher (by either PCGS or NGC). (Photo)
- 5567 PCGS 1875-S AU 50, deep orange-gold color; 1880-S XF 45, slightly reflective fields; and an 1898-S AU 53, pleasing color and clean. (Total: 3 coins)
- 5568 PCGS 1875-S AU 55; 1882-S AU 55; and an 1883-S AU 55. All three pieces are lustrous and have no major marks. (Total: 3 coins)
- 5569 ANACS 1876 AU 58. Great luster with only the tiniest amount of rub.
- 5570 PCGS 1876-CC VF 25. Even wear.
- 5571 ANACS 1876-CC XF 40. Hazy surfaces with a strong underlying rose tint. One of the more commonly found CC twenties, especially in this grade.

5572 PCGS 1876-S AU 55, baggy on the obverse; 1900 AU 58, a nice near-mint coin; and a 1906-D AU 55, well defined features. (Total: 3 coins)

5573 ANACS 1876-S MS 60. Brilliant and flashy, but a bit baggy. A great type coin for an uncirculated set.

Mint State Type Two Twenty

- 5574 PCGS 1876-S MS 62. Vibrant color and luster, with only a few wispy hairlines keeping it out of the coveted MS 63 class. The 1876-S is the second most common Type Two issue at this grade level, but the catch is virtually all other dates of this design are either very scarce or exceedingly rare as an MS 62 and almost unheard of any finer. Population: 25 in 62, 4 higher.
- 5575 PCGS 1877 AU 55. Sharply struck with bright mint luster. Looks like a bagmarked MS 60.
- 5576 ANACS 1877 MS 61; 1894 MS 61; 1896 MS 61; and an 1897 MS 61. A choice grouping of lustrous coins. (Total: 4 coins)
- 5577 ANACS 1877-CC XF 45. First CC-mint of the third type. Clean surfaces and smooth. Trends \$975 in XF-40, \$1,750 in AU-50 (12/6).
- 5578 PCGS 1878 AU 58. Fully struck with bright yellow-gold color and excellent remaining mint frost.
- 5579 ANACS 1878 MS 60; 1889-S MS 60; 1894-S MS 60; and an 1895-S MS 60. All pieces are lustrous with no major marks. (Total: 4 coins)

Semi-Prooflike 78-CC

5580 ANACS 1878-CC AU 50. Semi-prooflike with more than enough luster to qualify as an AU and few appreciable marks. Much finer than the typical 1878-CC twenty offered for sale, already the fourth scarcest in the series of Carson City double eagles. Mint state examples of this difficult issue are almost non-existent, so the appearance of a strict AU ranks this lustrous specimen at or certainly near condition census. (Photo)

5581 PCGS 1879 AU 53. There are a few more noticeable marks on the obverse.

5582 ANACS 1879-CC XF 40. A clean, well balanced specimen, one of just 10,708 pieces struck and at the upper end of most '79-CC double eagles known to exist, with even AU's considered quite rare. Trends \$2,850.

5583 PCGS 1880 XF 40. Prooflike obverse. Well struck with minimal wear.

5584 PCGS 1881 VF 20. A particularly well worn example of this low-mintage (2,260 pcs.) rarity, the first in a string of seven briefly minted dates from the Philadelphia mint. The obverse exhibits several old cuts, the most noticeable extending down Liberty's cheek into the field above star 1. It is estimated that fewer than 30 pieces are extant, with XF 40 being the average grade.

5585 PCGS 1881-S AU 50, deeper orange color; ANACS 1882-S AU 55; and an ANACS 1896-S MS 60, prooflike. (Total: 3 coins)

5586 PCGS 1881-S AU 58; 1887-S AU 58; and an 1890-S AU 58. A nice lot of three lightly circulated coins. (Total: 3 coins)

5587 ANACS 1882-CC VF 30. An affordable CC-mint type coin.

5588 ANACS 1883-CC AU 58. Sharply defined and displaying few appreciable surface marks, with only the slightest rub visible on the obverse. The occasional mint state example is only of average quality, so this very choice AU would be an affordable compromise without sacrificing up too much. Trends \$1,200 in AU 50, \$7,750 in MS 60.

5589 PCGS 1883-S AU 50, well struck; 1889-S AU 58, lovely coloration and close to mint state; and a 1904 MS 61. (Total: 3 coins)

5590 ANACS 1884-CC XF 45. Lustrous and smooth with clean fields.

5591 PCGS 1884-S MS 60 and a 1904 MS 61. Both coins are flashy but have some marks. (Total: 2 coins)

5592 ANACS 1884-S MS 61. Well struck with pleasing color. Scarce any finer.

Popular and Elusive 1885 Twenty

5593 NGC 1885 AU 55. The 1885 twenty is one of the few high visibility dates in the Coronet series that is immediately recognizable by most collectors as a very rare date. There are quite a few undervalued and overlooked issues in the series, but only a few have the historic importance over decades of public auction appearances to command consistently high prices when offered. The mintage of 828 pieces is the first clue one has to the rarity of this date. From that original mintage Breen estimates that only 12-15 actually survive today. Most are in the AU grade range with a few low-end Uncs known also. This piece shows especially strong striking details and the fields have considerable reflectivity. Trends \$16,500 in AU 50, \$45,000 in MS 60. (Photo)

- 5594 PCGS 1885-CC VF 25. Very rare with a mintage of only 9,450. This coin has deep prooflike fields. Its surfaces are a bit scuffy, but exhibits the detail of a much higher grade. Trends \$975 in VF-20, \$1,800 in XF-40 (12/6).
- 5595 PCGS 1885-S MS 60. The light, pinkish centers are surrounded by much deeper orange-gold peripheral color.
- 5596 NGC 1885-S MS 60. Frosty and original.

Another Elusive Double Eagle

- 5597 ANACS 1886 XF 40. A former prooflike specimen, fairly typical for the few known examples of this obviously elusive double eagle issue. Just how rare is the 1886? Even the paltry mintage of just 1,106 pieces does not accurately portray its real scarcity. Most of those have been melted or lost over the years, leaving fewer than 20 pieces in existence today. In this remarkable run of Liberty twenties, few are held in higher esteem than the very rare 1886. (Photo)

5598 PCGS 1887-S MS 60. The surfaces show some darker accents on the highpoints of the devices.

5599 ANACS 1888-S MS 61; 1896-S MS 61; and an 1898-S MS 61. (Total: 3 coins)

5600 ANACS 1889 MS 60. Mintage of just 44,111, but not as rare (in lower grades) as that might imply. Uncirculated pieces like this one, however, are truly scarce. Bright yellow-gold luster with a good look that is not overly impaired by the expected bag marks.

- 5601 ANACS 1889-CC VF 35. Even wear with traces of mint luster remaining.
- 5602 PCGS 1890 AU 50. Brilliant and flashy.
- 5603 PCGS 1890-CC XF 40. Desirable CC-mint coin with even wear, smooth surfaces and a good amount of mint luster remaining.
- 5604 PCGS 1890-CC AU 50. A very pleasing coin for the grade with deeper color on the obverse than reverse, minimally abraded.

Prooflike 1891

- 5605 ANACS 1891 AU 50. Deeply prooflike, even after 10 points of wear, not uncommon for this elusive P-mint, one of just 1,442 pieces struck. Of the two dozen or so 1891 twenties offered over the past half century (probably a good estimate of its business strike population), most have graded either XF or AU. Neither PCGS or NGC has graded a mint state coin, though a few are reported to exist. Still, this must be considered one of the finest pieces likely to enter the market for quite some time. (Photo)

5606 **PCGS 1891-CC XF 40.** The third scarcest Carson City twenty, following only the 1870-CC and 1871-CC. The surfaces display even wear and hints of semi-prooflike luster about the devices. One of just 5,000 minted and certainly more pleasing than the typical XF example.

5607 **PCGS 1891-S MS 61.** Sharply struck.

5608 **ANACS 1891-S MS 61; 1892-S MS 61; and an 1897-S MS 61.** A choice group of San Francisco Mint issues. (Total: 3 coins)

5609 **ANACS 1892-CC VF 30.** Definitely choice with light, even wear and excellent detail.

5610 **ANACS 1893 MS 62; 1899 MS 62; 1900 MS 62; and a 1904-S MS 62.** A nice lot of lustrous coins. (Total: 4 coins)

5611 **NGC 1893-CC MS 61.** A very choice example for such a modest uncirculated grade, with eye appealing peripheral color and no singularly distracting surface marks. The 1893-CC, while struck in modest numbers (18,402 pcs.), can be obtained fairly readily in grades up to MS 61, but seldom finer.

5612 **ANACS 1893-S MS 62; 1895 MS 62; and a 1900-S MS 62.** (Total: 3 coins)

5613 **PCGS 1896-S MS 62.** Frosty.

5614 **ANACS 1897 MS 60 Repunched Date; 1901 MS 60; 1901-S MS 60; and a 1903-S MS 60.** All four coins are lustrous but baggy. (Total: 4 coins)

5615 **ANACS 1898 MS 60.** Definitely a scarce date according to Akers, with average quality mint state coins very scarce. This coin is a real blazer, with both a great cartwheel and reflective, mirrored fields.

5616 **ANACS 1899 MS 62.** Bright yellow-gold color.

5617 **PCGS 1900 MS 63.** Fully struck and quite clean for a 63.

5618 **ANACS 1902 AU 58.** A scarce date, although perhaps not quite as scarce as its mintage of 31,254 might indicate. Good luster and strike. Trends \$615 in AU-50, \$1,275 in MS-60 (12/6).

5619 **PCGS 1903 MS 63.** Good color with bright, lustrous surfaces.

5620 **ANACS 1903 MS 63.** Creamy yellow-gold luster affords this coin a very appealing look.

5621 **NGC 1903 MS 65.** While a relatively common coin in lower grades, the 1903 is a scarce item in strict gem condition. This fully struck coin has a pronounced reddish color with several darker alloy spots on each side. The surfaces are very clean and free from any troubling abrasions. Population: 15 in 65, none finer.

5622 **PCGS 1904-S MS 63.** A nice, inexpensive type coin.

5623 **ANACS 1905 AU 50.** Rarest of the 20th century P-mint \$20 according to Akers. Prooflike surfaces with minimal wear.

5624 **ANACS 1905-S MS 61.** Brilliant medium yellow luster provides a great look. Scarce in uncirculated according to Akers.

5625 **ANACS 1906 AU 58.** Another scarce P-mint date. Good luster with just a bit too much obverse scuff for an uncirculated grade.

5626 **ANACS 1906-D MS 61; 1906-S MS 62; 1907 Liberty MS 61; 1907-D MS 61; and a 1907-S MS 60.** (Total: 5 coins)

5627 **PCGS 1907-D MS 61.**

PROOF LIBERTY DOUBLE EAGLE

Type Two Proof Double Eagle; One of 45 Struck

5628 PCGS 1876 PR 61. Only 45 proofs were struck of this popular Centennial issue, and of that number an estimated 8-10 pieces are believed to survive today. Even in PR 61 this is a magnificent coin. The fields are deeply reflective with strong mint luster on the devices providing a stark cameoed contrast on each side. There are a few noticeable hairlines in the fields, but these are a relatively minor consideration in the overall grade of the coin. The single most detracting feature on the piece is a long curved scratch in the left obverse field in front of the chin and mouth of Liberty. Despite its grade and this detracting feature, this is still a significant proof twenty and one that should be of interest to a great many prospective bidders. (Photo)

SAINT-GAUDENS DOUBLE EAGLES

5629 ANACS 1907 High Relief XF 45. Flat Rim. Bright surfaces with a couple of rim dings here and there. Sure this piece was used in a bezel or as a pocket piece at one time, but the allure of a High Relief Saint goes beyond condition.

Popular Mint State High Relief

5630 PCGS 1907 High Relief MS 63. Wire Rim. Well struck with pleasing, satiny luster. There are a few shallow luster grazes, mostly located in the right obverse field, that account for the grade of the coin. A pleasing example overall with good eye appeal. (Photo)

5631 PCGS 1907 Arabic Numerals MS 60; 1909-S MS 62; 1910 MS 62; 1913-D MS 61; and a 1916-S AU 58. (Total: 5 coins)

5632 PCGS 1908 No Motto MS 63. Well struck for date.

5633 ANACS 1908 No Motto MS 63; 1908-D Motto MS 63; 1924 MS 63; and a 1925 MS 63. (Total: 4 coins)

5634 ANACS 1908-D No Motto XF 45; 1909 AU 55; 1910-D AU 58; 1910-S AU 50; 1911-D AU 55; and a 1911-S XF 45. (Total: 6 coins)

5635 PCGS 1908-D No Motto MS 63. Nice satin luster.

5636 PCGS 1908 Motto MS 63. Well struck with good luster. Scarcer issue.

5637 PCGS 1908-D Motto MS 65. An exceptionally clean example of this scarce and underrated issue. The mint frost shows light pinkish-rose color with a subtle interplay of steel-blue on the devices. A must-see Saint for the specialist.

5638 ANACS 1908-S MS 61. A very scarce date in all grades and especially difficult in mint condition. Only 22,000 pieces were minted. Well struck with small marks peppered across both sides.

5639 PCGS 1909 MS 63. Shimmering mint luster with few appreciable marks on either side. The obverse, if considered separately, grades a full point finer. Some pricing guides do not put the 1909 on equal ground with the overdate of the same year, but it is every bit as rare in MS 63 condition and even more elusive in higher grades. Population: 14 in 63, 2 higher.

5640 PCGS 1909 MS 64. An exceedingly difficult condition rarity, rated a high R.7 by Akers in MS 64. This is a very strong, borderline gem whose obverse is finer than the reverse. Fully struck and remarkably clean overall with light, attractive greenish-yellow gold color. One of the finest pieces known of this scarce issue. Population: 2 in 64, none are finer.

5641 ANACS 1909/8 AU 58. A very popular coin due to its clear overdate. This example exhibits even, medium yellow luster with only the lightest amount of rub on the high points. Trends \$800 in AU-50, \$1,950 in MS-60 (12/6).

5642 PCGS 1909/8 MS 62. Rich golden-orange color with numerous small marks.

Mint State Overdate Twenty

5643 **PCGS 1909/8 MS 63.** Satiny and quite clean for the grade, with appealing yellow-gold patina about the margins. The 1909/8 is most often seen in XF or AU condition, often enough that it doesn't carry a significant premium. The situation changes quite drastically at the uncirculated level, where true mint state coins are few and far between. The appearance of an MS 63 is indeed rare as there are not nearly enough select examples to satisfy the demand of Saint-Gaudens collectors. Population: 14 in 63, 7 higher. (Photo)

5644 **ANACS 1909-D AU 58.** The fourth lowest mintage for the series at 52,500 and difficult to locate in any grade. This piece has soft, flowing luster. The slight hints of wear do little to detract from its beauty. Trends \$750 in AU-50, \$1,500 in MS-60 (12/6).

5645 **PCGS 1909-D MS 63.** A very scarce early mintmarked Saint that is seldom seen in any grade of mint state. Well struck with good color and luster and a few small marks scattered across both sides.

5646 **PCGS 1909-S MS 63.** Frosty.

5647 **PCGS 1910 MS 63.** Harder date.

5648 **PCGS 1910-D MS 63.** Attractive.

5649 **PCGS 1910-S MS 63.** Frosty and clean.

5650 **ANACS 1911 MS 60; 1920 MS 60; 1922 AU 58; and a 1927 MS 61.** (Total: 4 coins)

5651 **NGC 1911 MS 64.** Sharply struck with sparkling lustrous surfaces. Scarce in such superior condition. Population: 41 in 64, 2 finer.

5652 **PCGS 1911-D MS 64.** Super obverse. Frosty and clean.

5653 **NGC 1911-D MS 65.** Well struck with attractive satin surfaces. A premium date in this high grade.

5654 **PCGS 1911-S MS 63.** Nice frosty look.

5655 **ANACS 1912 MS 60.** A blazing, yellow-gold cartwheel with minimal contact marks. A bit of rub is evident, but not so much as to preclude thoughts that a more generous grade was in order.

5656 PCGS 1912 MS 65. An exceptionally difficult Saint in high grades, whose availability has not been significantly increased by the presence of a couple of mostly lower grade hoards that have entered the market over the past thirty years. This is an outstanding gem example that displays frosted mint luster and streaks of light reddish color around the peripheries. Very minimal abrasions, especially for the issue, and strong eye appeal throughout. Population: 6 in 65, only 1 finer. (Photo)

5657 ANACS 1913 MS 60. Medium yellow-gold luster with the normal amount of contact marks for the grade.

5658 PCGS 1913 MS 63. Sparkling lustrous surfaces and slightly abraded as this issue is wont to be found. Scarce and rarely seen any finer. Population: 30 in 63, 12 finer.

5659 PCGS 1913-D MS 63. Smooth and desirable.

5660 PCGS 1913-D MS 65. A scarce D-mint Saint that Akers rates as two to three times scarcer than the 1910-D or 1914-D. Very scarce in high grades, only 24 gems have been certified by PCGS. This is a fully struck piece with lovely satin-like luster and light rose tinted color.

5661 ANACS 1913-S AU 58. Third lowest mintage for the series. Quite flashy with some consideration for a mint state grade merited. Trends \$735 in AU-50, \$1,300 in MS-60 (12/6).

5662 PCGS 1913-S MS 63. A scarcer issue with a well known mintage of only 34,000 pieces. Seldom is the '13-S found any finer than MS 62 with Akers rating MS 63s as a low R.6. This is a fully struck coin that shows a few small to medium sized abrasions on each side. Population: 25 in 63, 7 finer.

5663 NGC 1914 MS 61. Better date.

5664 ANACS 1914 MS 61. One of the more difficult P-mint \$20 to acquire. Decent luster with the normal amount of contact marks.

5665 NGC 1914-D MS 63.

5666 NGC 1914-D MS 65. Fully struck with matte-like surfaces and bright satiny luster. A premium example of this popular date.

5667 ANACS 1914-S MS 62; 1915-S MS 62; 1923 MS 62; and a 1926 MS 62. (Total: 4 coins)

5668 NGC 1914-S MS 63. Above average frost.

5669 ANACS 1915 AU 58. Medium yellow luster.

5670 NGC 1915 MS 63. A very scarce issue even in MS 63, with Akers rating such coins a low R.6. Well struck with pronounced granularity and a few small, scattered abrasions. Trends \$2,000.

Gem 1915 Saint

5671 NGC 1915 MS 65. A rare Saint in mint condition with gems being especially elusive. Akers rates the 1915 in gem condition as a high R.7. This piece is well struck in most areas with satiny luster and attractive orange-gold color that displays a few reddish-coppery spots on each side. Population: 5 in 65, none finer. (Photo)

5672 ANACS 1915-S MS 64. A beautiful coin with some pretensions to a higher grade.

5673 NGC 1916-S MS 65. Very sharply struck with fine grain matte-like surfaces and pleasing light orange-gold luster that shows just a tinge of light olive. A popular mintmarked Saint.

5674 PCGS 1920 MS 62. Tougher date in uncirculated.

Rare 1920-S Double Eagle

5675 PCGS 1920-S XF 40. Bright green-gold surfaces, moderately worn like most known examples of this extreme condition rarity. Much of the original luster is intact within the sun's rays and lettering. Mint state 1920-S Saints are so elusive that they can almost be considered unobtainable, so an XF or AU is what even most specialists have to settle for. Trends \$6,250. (Photo)

Premier 1921 Saint

5676 PCGS 1921 AU 58. An obviously original coin with frosty surfaces and golden-orange peripheral highlights. Although the slightest rub on the high points accurately keeps this pleasing example from mint state status, its eye appeal is such that most will find it more attractive than the occasional MS 60 to MS 62 piece. The 1921 is both an elusive date and one of the premier condition rarities in the series of Saint-Gaudens twenties, with only five pieces certified in MS 60 or higher grade by PCGS. (Photo)

5677 PCGS 1922 MS 63. Lustrous.

5678 ANACS 1922-S MS 60. A moderately scarce date that was considered a rarity until the early 1950s. Flashy, but a bit baggy.

5679 PCGS 1922-S MS 63. A slightly scarcer mintmarked Saint from the 1920s that shows lovely variegated color with only a couple of tiny alloy spots in the center of each side. An attractive coin for the grade.

5680 PCGS 1923 MS 63. Frosty and scarce in this grade.

5681 PCGS 1923-D MS 64. Good luster and clean surfaces.

5682 PCGS 1923-D MS 65. Super clean surfaces with the gorgeous golden luster unique to this date and mint.

5683 NGC 1924 MS 64. Frosty and smooth.

5684 ANACS 1924-D AU 58. Scarce to rare because the majority of late date, mintmarked Saint Gaudens pieces were melted in the 1930s. Pleasing satin luster with just a hint of rub. Trends \$1,100 in AU-50, \$2,700 in MS-60 (12/6).

5685 NGC 1924-D MS 61. Rather extensively abraded and not fully struck, but still, a fully lustrous example of this scarce and desirable mintmarked Saint.

R-7 1924-D Saint

5686 NGC 1924-D MS 64. In terms of overall rarity, the 1924-D is a median rarity in the series, but is very elusive in high grades with Akers rating MS 64 coins as a low R.7. While the surfaces of this coin are far from technical perfection with several small marks and luster grazes over both sides, the coin has an undeniable charm that is seldom seen on this or any other date in the series. The features are fully struck and the luster is bright and frosted with a distinctive two-toned color scheme consisting of bright yellow-gold overlaid by a rich reddish-orange in the fields. Population: 5 in 64, 1 finer. (Photo)

5687 NGC 1924-S AU 53. Once considered possibly the rarest \$20 Saint Gaudens, discovery of some small hoards in Europe has led it to its more proper designation as scarce. Nice luster with clean surfaces and relatively little rub.

5688 **PCGS 1924-S MS 63.** At the MS 63 level the 1924-S is occasionally available and, as such, lies just outside the condition census. Any finer and it is virtually unobtainable with almost all known higher grade pieces locked up in major gold collections. This is an average coin for the grade with the usual bagmarks one would expect. The mint frost is thick and shows bright yellow-gold color overall accented by a rich layer of reddish-orange over the high-points and scattered through the fields. Population: 27 in 63, only 3 finer.

5689 **PCGS 1925 MS 63.** Rich satin luster.

5690 **PCGS 1925 MS 64.** Well struck with clean surfaces.

5691 **PCGS 1925 MS 65.** Blazing luster and clean surfaces.

5692 **NGC 1925-D MS 60.** A slightly baggy example with above-average luster for this scarce, mass-melted issue.

Lovely 1925-D Saint

5693 **NGC 1925-D MS 64.** Scarcer than the '24-D, the '25-D is a condition rarity above MS 63 with Akers rating MS 64s as a low R.7 in that lofty grade. Perhaps it is too brief a statement to simply say "Nice coin" for a description of this piece. But that is undoubtedly just what will be said at lot viewing for this sale. The mint luster is simply superb, being bright and frosted, with only the slightest interruptions over the surfaces. Definitely a high-end example of this rare Saint. Population: 5 in 64, none are finer. (Photo)

- 5694 ANACS 1925-S AU 50. Better struck than most of this elusive issue, with obvious but light wear on the highest points. Most of the satiny brilliance in the recessed areas is still in evidence. Very scarce.

- 5695 NGC 1926-D MS 60. The 1926-D is a very rare mintmarked issue from the 1920s and one that has remained unaffected by the hoards of other dates that have surfaced in Europe over the past four decades. The usually encountered specimen is no better than MS 60 or 61 with finer pieces of the highest order of rarity in the series. This is a fully lustrous example with ample bagmarks for the grade and well, if not fully, struck. Population: 4 in MS 60, 12 finer.

- 5696 PCGS 1926-S MS 62. A scarce, but still obtainable, mintmarked Saint from the mid-1920s. This is a lustrous, well struck coin with good color and relatively clean surfaces that is unfortunately marred by a long scrape along the left obverse rim.

- 5697 NGC 1927 MS 66. Bright, shimmering, lustrous surfaces, the coin overall has superb eye appeal and the features are noticeably free from all but the most minute post-striking impairments.

Rare 1927-S

- 5698 PCGS 1927-S AU 58. A frosty specimen, very well defined and lacking the die breaks often seen on this rare issue. The 1927-S, while not the stopper in the Saint-Gaudens series that it was before the days of European gold shipments to the United States in the last three decades, can still be considered one of the ten scarcest dates, with the vast majority of pieces having been melted in the 1930s. Trends \$5,500 in AU 50, \$13,000 in MS 60. (Photo)

Important Uncirculated 1927-S

5699 ANACS 1927-S MS 61. A very rare Saint in all grades and, like the 1926-D, an issue that has never turned up in quantities of more than two or three pieces at a time from Europe. Akers estimates that fewer than 60 mint state examples may exist, while Breen believed that as few as 15 are known. This is a fully uncirculated piece that shows a few moderate sized abrasions, the most obvious ones being a pair on the the upper portion of Liberty's left leg, another below the branch, and a small rim nick at 6 o'clock on the reverse. (Photo)

5700 ANACS 1928 MS 64.

Significant 1929 Double Eagle

5701 PCGS 1929 AU 55. Lot 1691 from Superior's October, 1992 Adams and MacMillan Sale, with the description: "Key date in the series, evidently most of this issue was melted in the 1930s. Only a few hundred examples may have survived this vast meltdown, with survivors typically in higher grades like the present coin. Here, the surfaces are lustrous. They show typical light bagging, but nothing heavy. Best of all, close to 95% of the original luster is present, suggesting the coin may have never circulated at all, but was kept in a coin cabinet by some farsighted early collector." (Photo)

A Second Quality Example

- 5702 **ANACS 1929 MS 64.** The 1929 is the first in the end-of-the-series rarities in the Saint-Gaudens series. It is the most obtainable of these issues, but nevertheless, a rare date of which approximately 60 examples may exist in all grades. It is only above MS 63 that the 1929 becomes a significant condition rarity with Akers giving MS 64 coins a low R.7 rating. This is a lovely coin with clean, problem-free surfaces, good color, and good luster. An important date as well as a condition rarity that should interest many specialists in this widely collected series. (Photo)

CALIFORNIA FRACTIONAL GOLD

- 5703 **PCGS 1854 Liberty Head Octagonal Quarter Dollar AU 53.** BG-104, High R.5. This Frontier & Deviercy quarter dollar has deep spotty color with semi-prooflike fields and there is a long scratch on each side.
- 5704 **PCGS Undated (1852-3) Liberty Head Round Quarter Dollar MS 62.** BG-204, R.6. This F&D quarter dollar is the only Period One coin with the denomination abbreviated DOLL. Deep reddish-gold color and quite appealing. One of the finest examples known.
- 5705 **PCGS 1853 Liberty Head Round Quarter Dollar MS 62.** BG-218, Borderline R.8. Struck by Frontier & Deviercy for Gaime, Guillemot & Co. (GG). This variety was unknown to Kenneth Lee and an example could not be found for photographic purposes for the Breen-Gillio reference. One of only three pieces believed extant, this coin is fully struck and shows a lovely iridescent color on each side and reflective fields. This is the only BG-218 certified by PCGS. A very rare coin and an important offering for the California gold specialist.
- 5706 **PCGS Undated (1852-4) Liberty Head Round Quarter Dollar AU 55.** BG-221, R.4. Undated type with elegantly styled Liberty in a circle of eleven stars, the reverse displays the denomination over a six-pointed star. Struck by Antoine Nouizillet, Die State I. Deep olive-gold and rose color on each side.
- 5707 **PCGS Undated (1852-4) Liberty Head Round Quarter Dollar MS 62.** BG-222, R.4. Die State II. A Nouizillet quarter dollar whose greenish-gold color has taken on a bit of reddish patina in the fields.
- 5708 **PCGS 1854 Liberty Head Octagonal Half Dollar MS 62.** BG-306, R.5. Flashy prooflike surfaces with splotches of deeper reddish-gold coloration on either side.
- 5709 **PCGS 1856 Liberty Head Octagonal Half Dollar MS 62.** BG-311, R.5. Exceptionally well executed Antoine Nouizillet coin with a bold "N" below the reverse ribbon tie, four pairs of berries on each side of the wreath. The bold prooflike surfaces glow with a rich yellow-gold color highlighted by splashes of sparkling rose and lilac toning.
- 5710 **PCGS 1853 Liberty Head Round Half Dollar AU 58.** BG-409, R.5. Die State III. "D.N." under the head recalls the short-lived Deriberpe-Nouizillet partnership, Breen writes. Deeply toned and choice on the obverse.
- 5711 **PCGS 1854 Liberty Head Round Half Dollar MS 62.** BG-424, R.8. M. Deriberpe issue with 14 obverse stars and a heavy bisecting die crack which may explain the excessive rarity of this short-lived variety. David Doering could find no example to photograph for either edition of his California gold book. Breen could trace only two: the Lee coin and the Comstock piece. Deep green-gold color with significant areas on each side where the lamination has flaked away. Evidence of extensive die rust is noted as well.
- 5712 **PCGS 1856 Liberty Head Round Half Dollar MS 62.** BG-434, R.5. Large Liberty head by A. L. Nouizillet. Rose-lilac reflective gold, a remarkably sharp strike adds to this coin's outstanding visual appeal.
- 5713 **PCGS 1853 Liberty Head Octagonal Dollar AU 55.** BG-505, R.5. Frontier & Deviercy issue with Liberty in a circle of ten stars, and an off-center "FD" under the dotted circle on the reverse. Rich electric blue color and boldly struck.
- 5714 **PCGS 1853 Liberty Head Octagonal Dollar AU 58.** BG-530, R.4. A Nouizillet issue with "N" at the base on the reverse. Reflective old-gold surfaces and sharply struck.
- 5715 **PCGS 1855 Liberty Head Octagonal Dollar AU 58.** BG-533, R.5. The only Nouizillet & Routhier Liberty octagonal dollar, and an issue that is usually only found in VF through AU condition. Well struck, the unusual steely-silver toning is a result of the natural silver alloy that is naturally occurring in California gold ore.
- 5716 **PCGS 1854 Liberty Head Octagonal Dollar XF 40.** BG-534, R.7. A delightful example of the very rare "Eagle Without Scroll" reverse by an unknown maker. A distinctive Roman nose on Liberty is another unusual characteristic of this sought-after rarity. Breen traces only seven examples. The Auction '80 piece, which was an ex-jewelry item with a loop removed, realized \$2,600. This piece has rose-gold color, porous surfaces, and a scratch in the lower left obverse field.
- 5717 **PCGS 1868 Liberty Head Octagonal Quarter Dollar MS 61.** BG-711, R.5. Deep golden-orange, blue, and rose toning cover each side of this Frontier & Co. Period Two coin.

- 5718 PCGS 1873 Liberty Head Octagonal Quarter Dollar MS 64. BG-727, Low R.6. Broad head struck by Frontier & Bellemere, the reverse has a wreath without berries. Sharply struck with faint die polishing marks in the fields. Pleasing, somewhat darker, color overall.
- 5719 PCGS 1864 Liberty Head Octagonal Quarter Dollar AU 55. BG-735, R.5. Finely formed Liberty head with the point of the bust extending to the rim. Struck in the crude style of Robert B. Gray & Co., successors to Nouizillet & Routhier. Deep reddish-coppery color with patches of blue at the margins. Much luster remains.
- 5720 PCGS 1873 Liberty Head Round Quarter Dollar MS 64. BG-817, R.4. Broad head, 13 stars, well formed date. The same neatly designed and executed reverse was later used for round Washington quarters by Frontier and Bellemere. Wonderful light orange-gold color with concentric die polishing marks in the fields.
- 5721 PCGS 1872 Washington Head Round Quarter Dollar MS 63. BG-818, High R.5. Frontier & Bellemere's only round Washington piece, well done head in a circle of 15 stars, neatly designed reverse with a well-formed fraction and wreath. Pale gold with a faint green tint of native California ore. This type has set major auction records. The gem in the Grafton sale realized \$3,100.
- 5722 PCGS 1860/50 Liberty Head Round Quarter Dollar MS 61. BG-819, R.5. Robert B. Gray Co. design, the obverse die was shattered and shows two bisecting die cracks. Pleasing yellow-gold color.

- 5723 PCGS 1869 Liberty Head Round Quarter Dollar AU 55. BG-826, R.5. Die State II. Robert Gray design with archaic bulging eye suggesting an ancient Greek coin. The obverse is somewhat bubbled and the coin overall has a deep gray-blue patina.
- 5724 PCGS 1880 Indian Head Octagonal Half Dollar MS 63. BG-954, R.5. Probably struck by Herman J. Brand. Prooflike with lovely mottled color on the reverse and several spots of grease (as struck) on the trailing hair of the Indian.
- 5725 PCGS 1870 Liberty Head Round Half Dollar AU 55. BG-1024, R.4. One of Robert B. Gray Company's "Undated Stock Reverses" with low C in CAL, no berries or ribbons on wreath. Deep gray patina.
- 5726 PCGS 1871 Liberty Head Round Half Dollar AU 58. BG-1026, R.5. Small Liberty head with no lower lip, G high above date; paired with a rare undated stock reverse of Robert B. Gray & Co. This example has deep silvery-blue toning and may be one of the finer pieces known.
- 5727 PCGS 1880/70 Indian Head Round Half Dollar MS 60. BG-1067, R.5. Die State I with the underdigit plainly evident. Rich prooflike fields and pale yellow-gold color combine with a needle-sharp strike to add to this coin's powerful visual appeal.

CURRENCY

- 5728 Two interesting, old-time albums, one titled "United States Notes" and the other "Fractional Currency". Contained in the first album are the \$1 and \$2 Legal Tender issues, Series 1862 both AG; \$1 Silver Certificates, Series 1899 and Series 1923 VG to VF; \$2 Federal Reserve Bank of New York, Series 1918 Fine; \$10 Gold Certificate, Series 1922 VG-Fine; \$1 Dominion of Canada, Series 1911 Fine; and (5) Confederate notes generally low grade. In the second album there are (31) U.S. fractionals of several different denominations and series; (5) pieces of Continental currency; and an 1808 Vermont State Bank 50 cent promissory note. (Total: 49 items)
- 5729 Fr-16, \$1 Legal Tender, Series 1862 AU. A technically new note downgraded by a couple of trivial tears along the bottom margin. Bright, fresh colors.
- 5730 Fr-18, \$1 Legal Tender, Series 1869 Fair; Fr-37, \$1 Legal Tender, Series 1917 Good; Fr-39, \$1 Legal Tender, Series 1917 Good; Fr-57, \$2 Legal Tender, Series 1917 Good; Fr-224, \$1 Silver Certificate, Series 1896 Good-VG; Fr-235, \$1 Silver Certificate, Series 1899 Good; Fr-280, \$5 Silver Certificate, Series 1899 Good-VG; (7) small size \$2 bills; \$1 HAWAII surcharge note Fine; and (3) different denominations of low grade fractional currency. (Total: 18 notes)
- 5731 Low Grade Common Notes. Includes: Fr.39, \$1, AG with sharp folds and a partial tear on one fold; Fr.60, \$2, Good; Fr.236, \$1 Black Eagle, AG; Fr. 237, \$1, AG; Fr.237, \$1, VF; and a Fr. 238, \$1, VF with some staining. (Total: 6 notes)
- 5732 Fr-60, \$2 Legal Tender, Series 1917 CU; Fr-256, \$2 Silver Certificate, Series 1899 CU; and Fr-785, \$20 Federal Reserve Bank of Cleveland, Series 1918 Choice CU. (Total: 3 notes)
- 5733 Fr-61, \$5 Legal Tender, Series 1862 CU. First Obligation. Bright, fresh colors and crisp corners, being fairly well centered.
- 5734 Fr-63, \$5 Legal Tender, Series 1863 AU+. Second Obligation. An essentially new note showing only a faint diagonal wrinkle to the right.
- 5735 Fr-64, \$5 Legal Tender, Series 1869 CU. The colorful first printing of the popular "woodchopper" note, with the numeral in the center and roman numerals at the corners on the separate reverse design.

- 5736 Fr-119, \$5 Legal Tender, Series 1901 XF-AU. A well centered bison note, exhibiting decent color and no noticeable distractions.
- 5737 Fr-129, \$20 Legal Tender, Series 1878 AU. Slight yellowing in the centers, but no obvious creasing. A high grade early legal tender.
- 5738 Fr-224, \$1 Silver Certificate, Series 1896 AU. A well centered Educational \$1, with sharp colors and no obvious creasing.
- 5739 Fr-247, \$2 Silver Certificate, Series 1896 VF. The popular \$2 Educational note displaying many attributes of an XF, but slight fraying in the upper left corner and several pinholes reduce the grade.
- 5740 Fr-253, \$2 Silver Certificate, Series 1899 Fine; Fr-237, \$1 Silver Certificate, Series 1923 XF; Fr-874, \$5 Federal Reserve, Series 1914 VF; and Fr-1173, \$10 Gold Certificate, Series 1922 Good-VG. (Total: 4 notes)
- 5741 Fr-282, \$5 Silver Certificate, Series 1923 CU. A well preserved "porthole" note, with rich coloration and broad margins.
- 5742 Group of Fr. 1600-1602 \$1 Silver Certificates. Includes: (8) CU; (6) AU; (3) XF; (3) Fine-VF; and (13) AG-Good. (Total: 33 notes)
- 5743 Hawaiian Overprints. \$1, Fr. 2300, included are: (6) CU, (4) XF-AU, and (12) average circulated. \$5, Fr.2302: (2) VF-XF. \$10, Fr. 2303, included are: (2) CU, (1) AU, and (1) Fine. \$20, Fr. 2304: (1) Fine. \$20, Fr. 2305: Good. (Total: 29 notes)
- 5744 Small Group of Fr. 2400 \$10 Gold Certificates. Includes (1) CU; (1) AU; and (1) XF. (Total: 3 notes)
- 5745 Small Group of Fr. 2402 \$20 Gold Certificates and a \$20 National. Includes: (1) CU; (1) AU; (1) XF; and (1) \$20 National, from the Journal Square N.B., Jersey City, Series of 1929, Good. (Total: 4 notes)
- 5746 Four pages of various currency that includes two pieces of Continental Currency, four obsolete notes, a \$20 Confederate note, six fractional notes, and two error small size U.S. notes of \$1 and \$5 denominations. (Total: 15 notes)

EARLY PROOF SET

- 5747 1942 six-piece proof set that includes both the Type One and Type Two nickels, averaging PR 63 in grade. (Total: 6 coins)

ROLLS

- 5748 A choice BU roll of 1955-D/S nickels, one with ANACS papers dated 4/10/85 for grade and authenticity as MS 65/65. (Total: 40 coins)

- 5749 BU Mercury Dime Rolls. Quite an extraordinary offering of these popular, obsolete type coins. Spot checking a couple of the rolls shows them to be unsearched for full bands, and the coins all appear to be brilliant. Included are the following rolls: (1) 1943; (1) 1943-S; (7) 1944; (3) 1944-D; (2) 1944-S; (3) 1945; and (3) 1945-D. (Total: 20 rolls)

- 5750 (4) 1962 dime rolls; (3) 1963 dime rolls; 1958-D half dollar roll; and a 1962-D half dollar roll, all grading MS 60 to MS 63. (Total: 8 rolls)
- 5751 1955 quarter roll, 1957-D half dollar roll, and a 1960 half dollar roll, all MS 60 to MS 63 examples. (Total: 80 coins)
- 5752 1955 BU quarter roll; 1960-D BU half dollar roll; and a roll of circulated '21 Morgan and Peace dollars. (Total: 80 coins)
- 5753 BU half dollar rolls: 1949, 1952, 1953, 1954, 1959, 1959-D, 1960, 1960-D, 1961, 1963, 1971, 1971-S proof, 1974-D, and a 1979-D. (Total: 14 rolls)
- 5754 1954 and 1956 uncirculated half dollar rolls, both obviously original with colorfully toned end coins. (Total: 40 coins)
- 5755 A group of Brilliant Uncirculated Franklin half dollar rolls that includes: 1955, 1956, 1957, 1958, 1961, and 1962. Average grade is MS 63. (Total: 6 rolls)
- 5756 More Brilliant Uncirculated half dollar rolls that include: 1960, 1961-D, 1962, 1962-D, 1963, and 1963-D. (Total: 6 rolls)
- 5757 Three rolls of mixed date Morgan dollars grading AU 50 to MS 60. A few slightly better issues are included. (Total: 60 coins)
- 5758 Three rolls and nine extra (69 total) mixed date Morgan dollars, 56 of which are dated before 1921. Five pieces grade AU while the others are MS 60 or better. (Total: 69 coins)
- 5759 Four mixed date rolls of MS 60 or better Morgan dollars, the vast majority being minted prior to 1921. (Total: 80 coins)
- 5760 A roll of 1881-O dollars, all brilliant and grading MS 60 to MS 63. (Total: 20 coins)
- 5761 A roll of 1884 dollars AU 50 to MS 60; a roll of 1900-O dollars AU 55 to MS 60; and a roll of 1902-O dollars AU 55 to MS 60. (Total: 60 coins)
- 5762 1884-O BU dollar roll, all MS 60 to MS 63; 1885-O BU dollar roll, averaging MS 63 in grade; 1898-O BU dollar roll, MS 60 up to and including several grading MS 64; and a 1922 BU dollar roll, mostly MS 60 examples. (Total: 80 coins)
- 5763 A roll of XF-AU 1891 dollars; a roll of 1921 Morgan dollars AU to MS 60; a roll of 1934-PD Peace dollars VF-AU; and a roll of 1935 Peace dollars VF-AU. (Total: 80 coins)
- 5764 Two rolls of 1921 Morgan dollars, all MS 60 or better including one interesting roll of nicely toned examples; and a roll of 1922 Peace dollars, at least MS 60 in grade. (Total: 60 coins)
- 5765 Four original BU rolls of 1923 dollars, all grading MS 60 to MS 64. (Total: 80 coins)
- 5766 Three rolls of original BU 1923 dollars and a mixed roll of common Peace dollars, all MS 60 to MS 64 examples. (Total: 80 coins)

PROOF, MINT, AND YEAR SETS

- 5767 1950 proof set, all grading PR 63 to PR 65. (Total: 5 coins)
- 5768 Proof Sets: 1950, (2) 1954, 1958, and a 1960 Small Date. (Total: 5 sets)
- 5769 Proof Sets: 1954, 1955, 1957, 1958, 1959, 1960, (2) 1961, (2) 1962, 1963, (2) 1964, 1965 SMS, 1970-S Small Date, and a 1976-S. Mint Sets: 1985, 1990, and a 1991. Also a 1971-S and 1972-S BU lke dollars and a BU Wartime nickel set. (Total: 22 items)
- 5770 Proof Sets, Mint Sets, and Blue lkes. Proof Sets: (2) 1955; (4) 1956; (5) 1957; (9) 1958; (5) 1959; (6) L.D. 1960; (1) S.D. 1960; (10) 1961; (8) 1962; (9) 1963; and (13) 1964. Mint Sets: (4) 1959; (6) 1961; (4) 1962; (2) 1963; (6) 1965 SMS; (7) 1968; (5) 1969; (5) 1970; (6) 1971; (5) 1972; (10) 1973; (7) 1974; (8) 1975; (7) 1976 three-piece silver; (10) 1976; (6) 1977; (8) 1978; (5) 1979; (5) 1980; (5) 1981; (2) 1989; and (2) 1991. Blue lkes: (6) 1971; (9) 1972; (5) 1973; and (80) 1974. (Total: 297 sets)
- 5771 Proof Sets: (2) 1956, 1957, (2) 1958, (5) 1959, (3) 1962, and a 1963. Some are in original cellophane and others in plastic. (Total: 14 sets)
- 5772 Proof Sets: (2) 1956, (2) 1957, (2) 1958, 1959, and a 1960. Mint Sets: 1958 (non government, one of each in a Raymond board), (3) 1962, (7) 1963, and (5) 1964. Also, proof Franklin half dollars dated 1955, 1956, 1961, 1962, and (2) 1963. (Total: 30 items)
- 5773 Proof Sets. Included are the following: (3) 1959; (1) 1960 Large Date; (1) 1960 Small Date; (53) 1962; and (6) 1963. (Total: 64 sets)
- 5774 1960 proof set; 1964 proof set; (5) 1992-S proof sets; (5) 1992-S silver proof sets; (40) 1970 mint sets with the half dollar removed; 1976 3 pc. mint set; 1985 mint set; and (30) 1987 mint sets. (Total: 84 sets)

- 5775 Proof Sets. Thirty (30) each of: 1961, 1962, 1963, and 1964 proof sets. (Total: 120 sets)
- 5776 Proof Sets. Fifty (50) each of: 1961 and 1962 proof sets. (Total: 100 sets)
- 5777 Proof Sets and lke Dollars. Of the proof sets, the following are included: (6) 1966 SMS; (3) 1967 SMS; (6) 1968; (9) 1969; (11) 1970; (7) 1971; (5) 1972; (10) 1973; (10) 1974; (10) 1975; (5) 1976; (9) 1977; (5) 1978; (10) 1979; (7) 1980; (4) 1981; (6) 1982; (5) 1983; (4) 1989; and (1) 1991. Brown lkes: (1) 1971; (3) 1972; (3) 1973; and (6) 1974. Also included are (2) 1982 Washington halves. (Total: 148 sets)
- 5778 Proof Sets: 1968-S, (4) 1969-S, 1973-S, 1974-S, (3) 1975-S, 1976-S, 1977-S, (2) 1978-S, 1979-S, 1980-S, (3) 1981-S, 1982-S, (3) 1986-S, 1988-S, 1989-S, (2) 1991-S, and (2) 1992-S silver. Mint Sets: (2) 1959, 1962, 1963, 1967 SMS, 1972, (2) 1973, 1974, 1975, (2) 1976, (2) 1977, (2) 1978, 1979, 1980, (2) 1981, (5) 1989, 1990, and (2) 1992. Also, 1973-S BU lke dollar, (2) 1974-S BU lke dollar, 1974-S BU lke dollar, (4) 1979-PDS SBA sets, (6) 1980-PDS SBA sets, and a 1986 Statue of Liberty three-piece proof set with gold. (Total: 72 items)
- 5779 1970 proof set with a No S dime in the original case of issue. (Total: 1 set)
- 5780 Proof Sets: (3) 1970-S, (3) 1973-S, (2) 1975-S, 1976-S, 1976-S 3 pc., 1977-S, 1978-S, 1979-S, (4) 1981-S, (21) 1982-S, (9) 1983-S, and (4) 1984-S. Mint Sets: 1958 (non government, one of each), 1959 (non government), 1964 year set, 1965 SMS, 1966 SMS, (3) 1967 SMS (one cracked in two), (3) 1970, 1972, (5) 1973, 1976, (4) 1976 3 pc., 1979, (2) 1980, (15) 1981, (18) 1982-P Souvenir Sets, (6) 1982-D Souvenir Sets, 1982 (non government), 1982 uncirculated set that includes the 7 varieties of cents, (6) 1983-D Souvenir Sets, and (5) 1987. (Total: 128 sets)

MODERN ISSUES

- 5781 (5) 1971-S BU lke dollars; (3) 1972-S BU lke dollars; 1974-S BU lke dollar; (2) 1971-S Proof lke dollars; (6) 1972-S Proof lke dollars; (2) 1973-S Proof lke dollars; (10) 1982-D BU George Washington half dollars; (30) 1982-S Proof George Washington half dollars; 1984-S Prestige proof set; and a 1992-S Proof Olympic half dollar. (Total: 61 items)
- 5782 1983-S Olympic proof silver dollar; 1986 three-piece Statue of Liberty proof set with gold; 1987 two-piece Constitution uncirculated set with gold; and a 1988 two-piece Olympic uncirculated set with gold. (Total: 8 coins)
- 5783 1984-S Olympic proof silver dollar; 1986 three-piece Statue of Liberty uncirculated set with gold; 1988 two-piece Olympic proof set with gold; and a 1989 three-piece Congressional uncirculated set with gold. (Total: 9 coins)
- 5784 Modern Proofs. Includes: (1) 2-piece 1986 Statue of Liberty set with dollar and half dollar; (1) six-piece Statue of Liberty set in wooden box with two of each coin design including gold; (1) 1986 Gold Eagle one-ounce proof; (1) 1987 Constitution dollar; (6) 1988 Olympic dollars. (Total: 10 sets)
- 5785 A set of BU 1986 American Gold Eagles consisting of the 1/10 ounce, 1/4 ounce, 1/2 ounce, and one ounce. (Total: 4 coins)
- 5786 Six 1987 Constitution four-piece sets in the original boxes of issue, including both mint state and proof examples of the silver dollar and half eagle. (Total: 24 coins)
- 5787 Bill of Rights Sets: (3) three-piece proof sets of Madison coins including a half dollar, dollar, and five-dollar gold. (Total: 3 sets)

SETS, PARTIAL SETS, AND MISCELLANEOUS

- 5788 A complete Dansco set of U.S. major type coins including a supplemental Bicentennial and Susan B. Anthony page. The four commemoratives included in the optional four spaces are an Oregon, Pilgrim, Lexington, and George Washington. Grades range from Good to MS 60 and PR 63 on some of the more modern issues. Importantly, the two Seated dollar varieties grade VF 20. A very presentable, if a bit abbreviated, set of U.S. type. (Total: 72 coins)
- 5789 Large Cents. A partial set of 27 Large cents 1801-1856. All are lower grade, Fair-Fine in condition. Two Hard Times tokens are also included. (Total: 29 items)
- 5790 Partial small coin type set AG-VF that includes (2) half cents, (4) large cents, (5) small cents, two-cent piece, three-cent nickel, three-cent silver, (5) half dimes, (5) nickels, (5) dimes, and (4) quarters; a set of (9) Morgan and (7) Peace dollars VF 20-MS 60, almost all different dates; and a set of Eisenhower dollars complete from 1971 to 1978. (Total: 3 sets)

- 5791 A partial set of Indian cents, mostly Fine or better and including the following dates: 1857, 1858 Large Letters, 1858 Small Letters, 1859, 1860, 1862, 1864 Bronze, 1865, 1867, 1872, 1873, 1875, 1876, and 1880-1909. Also two partial sets of Lincoln cents, one through 1940 that does contain a 1909-S, 1914-D, and 1931-S, and a more sparsely populated two album set from 1909-1974. Finally an AU-BU short set of Mercury dimes, missing only the 1942-S and 1945-S. (Total: 4 sets)
- 5792 Set of Indian Cents. A well matched circulated set missing only the 1856 and the so-called overdate of 1869. Most dates are Good-VG with a couple of Fines. The 1877 is Good and the 1909-S is VF. A nice set. (Total: 1 set)
- 5793 Partial Set of High Grade Indian Cents. A mostly AU-BU set that is solid from 1880 to 1909 (except for the 1909-S) and includes 13 pre-1880 issues (the '58 F.E. is VF).
- 5794 A partial set of Lincoln cent that does contain the majority of key issues through 1940 (except for the 1922 No D) and a number of nice uncirculated pieces in the mid to late 1930s. Numerous dates from 1940 to 1992 are missing, most notably the doubled dies and proof-only issues. (Total: 1 set)
- 5795 A set of Lincoln cents from 1909-1964. The only slot missing is the 1909-S V.D.B.. The 1922 Plain is the weak reverse variety with a shadow of a mintmark. Highlights include a 1909-S XF 40 and a 1955/55 doubled die AU 50. Condition is generally above-average, VG to MS 60 on the early dates and XF or better after 1940. (Total: 155 coins)
- 5796 A complete set of Matte Proof Lincoln cents from 1909 to 1916, averaging PR 63 in grade. The 1912 has an attractively toned obverse and a full red reverse while the 1916 is nearly full red with excellent vibrancy to the surfaces. The remaining pieces, including the very scarce 1909 V.D.B., are mostly red and brown, a couple having some light spots as one would expect. Formerly lot 4092 from the 1985 ANA Sale. (Total: 9 coins)
- 5797 A set of Mercury dimes, mostly Good or better with the exception of the 1916-D which is a weak AG. No overdates are included. (Total: 77 coins)
- 5798 Four partial sets of Washington quarters, all including a mixture of BU and circulated examples. Highlights include 1932-D and 1932-S G-VG, 1932 MS 63, and (2) 1934 MS 63. (Total: 196 coins)
- 5799 A set of BU Jefferson Wartime nickels and a set of BU Franklin half dollars, both well matched MS 63 or better sets. (Total: 46 coins)
- 5800 A set of Mercury dimes complete, including the P-mint overdate. All of the coins grade Good or better with light cleaning, with later issues significantly finer. Eleven additional 1945-S Micro S and a 1942-S double die (?) are included at the end of the set. (Total: 90 coins)
- 5801 A bright, lustrous set of Mercury dimes lacking only the 1916-D and the overdates. Keys issues such as the 1921, 1921-D, and 1926-S are cleaned VF-XF examples while the balance of the set grades XF 40 to MS 60. Seven extra pieces are included at the end of the album. (Total: 83 coins)
- 5802 A well matched, high grade set of Standing Liberty quarters ranging in grade from VF 20 to MS 60. Only the elusive 1916 is missing. Key dates such as the 1919-S, 1921, and 1923-S grade XF 40, XF 40 cleaned, and XF 40 respectively. (Total: 36 coins)
- 5803 A complete set of Washington quarters through 1963. Everything grades Good or better including the 1932-D and 1932-S, both VG examples with a few light scratches on the reverse of the D-mint. (Total: 80 coins)
- 5804 A complete set of silver Washington quarters highlighted by a 1932-S in XF 45. Two clad pieces are at the end of the set. (Total: 85 coins)
- 5805 Washington Quarter Sets. Included are: (1) partial circulated set from 1932-54 that includes a Good-VG '32-D and S with 34 pieces total, Good-AU; (1) partial circulated set from 1932-60 with an AG-Good '32-D and S, 58 pieces total, Good-AU; (1) partial circulated set, mostly XF-AU, starting in the early '40s through 1964 (one 1934), 40 pieces in all; (1) partial set of mostly 1940-77 dates, XF-BU with heavy PVC on many pieces, 83 coins total; and (1) very partial set with only 12 scattered pieces, mostly AU-BU. (Total: 5 sets)
- 5806 Two short sets of Walking Liberty half dollars, both VG-VF; two partial sets of Franklin half dollars, one circulated missing five dates and the other mostly uncirculated (a couple of whizzed pieces are included) missing the 1949, 1949-D, 1949-S, and 1951-D; and two sets of Kennedy half dollars, one complete including proofs through 1980 and a partial set through 1973. (Total: 6 sets)
- 5807 A complete set of Franklin half dollars, almost entirely uncirculated with only the 1949-D and 1949-S grading less than MS 60. (Total: 35 coins)

- 5808 A set of Morgan dollars missing only 11 dates, the most difficult of which are the 1881-CC, 1885-CC, 1893-S, 1894, and 1895. The coins grade VG 8 or better with numerous uncirculated examples among the more common issues. (Total: 2 books)
- 5809 A mintmark set of Morgan dollars including one example from the Philadelphia mint (1921), obverse design (1921), Denver mint (1921-D), Carson City mint (1884-CC), New Orleans mint (1880-O), and San Francisco mint (1878-S). All coins grade AU 55 or better. (Total: 6 coins)

COPPER

- 5810 Colonials: 1722 Rosa Americana twopence Fine; (4) Voce Populi cents, VG-VF; 1785 Nova Constellatio VF; 1786 New Jersey VF with a couple of larger hits on each side; (13) Connecticut cents, AG-VG, several show corrosion and there are a couple of striking errors; 1795 Talbot, Allum & Lee, Fine; and a 1794 Admiral Howe token VG. (Total: 22 coins)
- 5811 Half Cents: 1803, 1808, (2) 1810, 1826, 1829, 1832, 1834, 1835, and an 1851. Condition ranges from Good to XF. (Total: 10 coins)
- 5812 Half Cents: 1803 VF 20, cleaned; 1804 Spiked Chin VG, holed; 1806 Fine 15, cleaned; 1810 Good; 1828 VG, corroded; and an 1835 VF 30. (Total: 6 coins)
- 5813 1825 half cent VF 20 whizzed; 1826 half cent XF 40 cleaned; 1828 12 Stars half cent VG 8 corroded; 1832 half cent VF 30 cleaned; 1832 half cent AU 50 whizzed; 1833 half cent VF 30 cleaned; 1835 half cent XF 40 cleaned; and three copper tokens from the mid 19th century. (Total: 10 coins)
- 5814 Half Cents: 1828 13 Stars AU 50 cleaned; 1829 AU 50 cleaned; 1834 AU 50 cleaned; and an 1835 AU 50 cleaned. (Total: 4 coins)
- 5815 Cents: 1794 VG 8 porous, light reverse scratches; 1795 AG 3, plain edge; 1797 AG 3, stems; 1797 Good 4 porous, stems; 1798 AG 3, edge damage; and a 1798 Good 4 porous. (Total: 6 coins)
- 5816 Large Cents. Included are: Dateless Liberty Cap, Lettered Edge Poor 1, heavily corroded with several digs; Dateless Draped Bust Fair 2, deeply pitted and cleaned on the obverse; Dateless Liberty Cap Poor 1, porous and copper plated; 1798 AG; 1800 Fair 2; 1803 AG; 1803 Good, porous reverse; 1807/6 AG; 1808 AG, cleaned and scratched; 1826 Fine 15; 1829 Fine 12; 1849 Fine 12, cleaned; 1853 XF 40, cleaned and pitted; and also included is a Low-89 Bucklin's Interest Tables token AG, priced in Rulau at \$200 in Good, a very scarce Hard Times Token. (Total: 14 coins)
- 5817 Large Cents: 1796 Liberty Cap; (2) 1797; 1798; (4) 1803; 1807/6; (2) 1807; 1810; (2) 1812; and (2) 1814, all in AG to VG condition, with porosity and damage on several pieces. (Total: 15 coins)
- 5818 Flying Eagles, Indian Cents, and Two-Cent Pieces. Included are: 1858 S.L. VG; 1858 S.L. VF 30; 1858 L.L. Good; 1859 Fine 15; 1859 VF 30; 1860 XF, lacquered and corroded on the reverse; 1864 C.N. XF; 1864 Bronze Good; 1879 AG; 1902 Good, dark; 1908 Fine 15; and a 1909 V.D.B. MS 63 Red and Brown. Two-Cent Pieces: 1864 Good; 1864 VF 30; 1864 VG; 1865 VG; 1865 Good; and an 1870 Fine, corroded. (Total: 18 coins)
- 5819 (3) 1909-S Lincolns VG to Fine; (2) 1911-S Fine to VF; and a 1931-S VF 20. (Total: 6 coins)

HALF DIMES AND NICKELS

- 5820 1934-D MS 63; 1937-D MS 65; 1938-D Buffalo MS 65; 1938-D/S MS 66; and 1939 PR 65, colorful peripheral toning. (Total: 5 coins)
- 5821 1938 PR 62; 1939 PR 64; 1940 PR 64; 1941 PR 64; and a 1942 Type One PR 64. (Total: 5 coins)

DIMES

- 5822 (3) 1916 Mercury dimes XF 45, MS 62 Full Bands, and MS 63 Full Bands, 1919-D dime AU 50; 1900-O half dollar VF 30; 1901-O half dollar Fine 12; 1907 half dollar XF 45; and an 1876-CC Trade dollar VF 20. (Total: 8 coins)
- 5823 1943 MS 64, deeply toned; 1952 PR 65, rich peripheral toning; and (9) 1953 PR 64 to PR 66, several exhibiting intense color. (Total: 11 coins)

QUARTERS

- 5824 Five 1875-S twenty-cent pieces all VG to Fine, one with obverse scratches. (Total: 5 coins)

- 5825 (2) 1818 Good 6 and VG 8 obverse marks; 1834 VF 30; 1844-O VG 10; (3) 1853 Arrows and Rays Good 4 to VF 20; (3) 1854 Arrows AG 3 to VF 20; (2) 1856 VF 20; (2) 1857 Good 4 and XF 45 cleaned; (2) 1858 XF 40 cleaned; 1861 XF 45; 1876 VF 20; 1876-CC Fine 12 plugged; (4) 1877 AG 3 to VF 20; and an 1877-CC VG 8. (Total: 24 coins)
- 5826 1818 Fine 15; 1831 Small Letters Fine 15; 1834 XF 45 lightly cleaned; 1835 AG 3; (2) 1837 VG 8 and Fine 12; and an 1838 VG 8. (Total: 7 coins)
- 5827 An assortment of Standing Liberty quarters AG 3 to VF 20 that consists of the following dates: 1917 Type One, (2) 1917-S Type One, 1918, 1918-S, 1919-S, 1920, 1923, 1924, 1924-S, (2) 1925, 1926, 1926-S, 1927, (3) 1927-D, (2) 1927-S, 1928, (3) 1928-S, 1929-S, 1930, and (2) 1930-S. (Total: 28 coins)
- 5828 (5) 1917 Type One VG 8 to VF 20; (2) 1917 Type Two VF 20 to XF 40; 1917-D Type Two XF 40; (2) 1917-S Type One Fine 12 to VF 20; 1917-S Type Two VF 30; (2) 1920-S VF 20; 1923 AU 50 cleaned; and a 1927 XF 45 obverse scratches. (Total: 15 coins)
- 5829 1917 Type One VF 20 porous; 1917-D Type One AU 50; 1919 XF 40; 1920-S VF 20; 1923 XF 45 reverse scratches; 1924-D AU 50; 1928-S XF 40; 1929 XF 40; and (2) 1930 XF 40. (Total: 10 coins)
- 5830 1917 Type Two XF 40; 1917-D Type Two VF 30 cleaned; 1919-D XF 45 scratches; 1920 VF 20 cleaned; 1923 XF 40; and a 1924-S VF 20 porous. (Total: 6 coins)
- 5831 Six 1932-D and three 1932-S quarters, all uncleaned AG to VG examples of these key dates. (Total: 9 coins)
- 5832 A group of eight 1953 quarters all PR 64 to PR 66, several of which display wondrous multicolored toning. (Total: 8 coins)

HALVES

- 5833 1803 Large 3 Fine 15; 1806 Pointed 6, Stem Through Claw Fine 15; 1807 Bust Right⁹ VG 8; 1807 Bust Left, 50 over 20 Fine 15; 1904 XF 40 cleaned; 1919-S VF 30 harshly clean; 1920 AU 55; 1942 AU 55; 1943-D MS 63; and a 1946-D MS 64. (Total: 10 coins)
- 5834 1812 VG 8; 1813 Good 4; 1824/4 Fine 15; 1825 Fine 12 initial in field; 1832 XF 40 lightly cleaned; 1831 Fine 12; and an 1835 Good 4. (Total: 7 coins)
- 5835 (3) 1825 VG 8, VF 30, and XF 40; 1831 VF 30 whizzed; 1833 VF 20; (4) 1834 Small Date Good 6 to VF 30; (2) 1834 Large Date Fine 15 obverse scratches and XF 40; 1838 XF 45 cleaned; and an 1834 bronze counterfeit. (Total: 13 coins)

Est. 300-500

- 6002 Greek silver lot of 8 different coins including Ptolemy I stater tetradrachm bold VF with edge flaw; **Agrigentum** didrachm crab/bird Fine; **Lydia** half stater lion & bull facing VG/F; **Miletus** Appolo/lion drachm AVF; Ptolemy II tetradrachm head/eagle Fine with scratches, plus 3 other various types VG/F. (Total: 8 coins)
Est. 200-250

- 6003 Roman Gold Aureus of Julius Caesar 44 B.C., veiled head of Pietas right/Lituus, vase & axe S-303. Nice XF and a most popular coin. (Photo)
Est. 1500-2000

- 6004 Roman Gold Solidus of Constans 337-350 A.D. Antioch bust right/Roma & Constantinopolis seated, ants below holding shield. Very scarce, bold VF/XF. (Photo)
Est. 750-1250

- 6005 Septimus Severus (193-211) Aureus, Rome, 193-194. Obverse: IMP. CAEL. SEP. SE. V. PERT AVG, laureate head facing right. Reverse: VIRT. AVG. TRP COS. Virtus, helmeted, standing facing left, holding Victory in right hand and an inverted spear in left hand. RIC. 24 var., C.751 var. Slightest flan irregularity, but virtually as struck and scarce.
Est. 10,000

- 6006 Julia Domna, wife of Septimus Severus, Aureus, Rome, 194. Obverse: IVLIA DO. MNA AVG, bust of Julia Domna facing right. Reverse: VENER. I. VICTR. Rear view of Venus, naked to the waist, facing right, holding a palm branch in her left hand and a globe in her right hand. RIC 536, BMCRE 48, Cohen 193. Virtually as struck.
Est. 10,000

- 6007 Small Collection of various Roman types and rulers. Included are denarius of Augustus 27 B.C. - 14 A.D., rev. Caius & Lucius w/shields, off-center F/VF; and domation 81-96 A.D. denarius Fine, along with 27 different copper types, all identified, with some interesting coins that average VF. A good starter lot.
Est. 200-300

- 6008 Roman Lot of 14 antoninianus of Postumus 259-268 A.D. radiant bust left with various reverses. All are Unc. with full silver wash remaining. An above average group.
Est. 225-300

- 6009 Misc. silver types including 4 Roman Republic denarius, Parthian tetradrachm (40-50 A.D.), and a late Roman antoninianus. All Fine. (Total: 6 coins)
Est. 125-175

- 6010 Byzantine gold solidus of Michael VIII 1260-61 A.D., 2 coins, and one of Andronicus 1183-85 A.D., all crude VF. (Total: 3 coins)
Est. 450-600

AUSTRALIA

- 6011 Olympic Proof set 1993 of 2 silver 20-dollars and a gold 200-dollars for the 1996 Summer Olympics.
Est. 200-300

AUSTRIA

- 6012 Kuttentberg Mines double gulden 1887 Franz Joseph I, bust right/cathedral D-33, KM-M7 (cat. \$2900 XF), only 400 struck of this beautiful issue. P-L AU. (Photo)
Est. 2000-2500

- 6013 100 corona 1915 Franz Joseph restrike BU; and Hungary 100 corona 1908 Franz Joseph standing, P-L BU restrike. (Total: 2 coins)
Est. 700-800

- 6014 Salzburg double taler klippe 1593 tower in the stormy sea/St. Rupert D-8198. A most popular early issue, VF with possible trace of old edge-mount removed.
Est. 650-850

BELGIUM

- 6015 5 francs Leopold 1853, for the Duke of Brabant's wedding, D-53. An above average, satin-surfaced BU with a hint of golden toning.
Est. 275-350

BOLIVIA

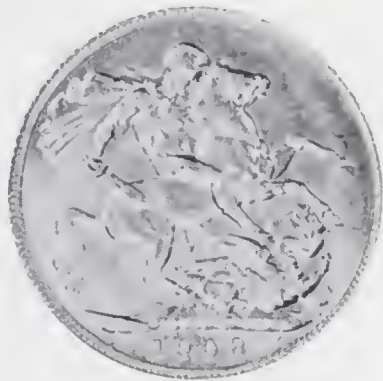

- 6016 Gold Escudo 1868 La Union es la Fuerza, value in wreath, date below/arms KM-141. The only year of issue and much more rare than catalogs indicate. Choice AU/UNC. (Photo)
Est. 600-750

BULGARIA

- 6017 Lot of 37 minors and 2 1894 5-leva, mostly all different silver and copper types, VF to UNC, purchased in the 1920s and 1930s in vintage envelopes. A fun lot from this obscure country.
Est. 125-175

CANADA

- 6018 1908 specimen set of Edward VII, 4 silver coins only. All are toned and graded SP 64 by ICCS except the 25-cent which is similar quality but ungraded. A rare and desirable set of 4 coins.
Est. 1500-1750

- 6019 **Scarce Sovereign** 1908C Edward VII, a rare circulation strike not from a proof set. This elusive coin with a mintage of only 636 pieces grades MS 62 on the reverse with the obverse AU 58. Really a tough coin to find as a non-proof, making this a real opportunity for the specialist. Est. 2000-3000

- 6020 **Rare Sovereign** 1916C George V, a very pleasing example of this great rarity. Obverse grades MS 61/62, reverse MS 63. With an original mintage of only 6,111, there are less than 40 known today since most were remelted due to lack of demand. This very desirable example has excellent potential for future appreciation. Est. 12500-17500

- 6021 Gold sovereign of Edward VII 1910C AU/UNC; Newfoundland 2-dollars of Victoria 1881 XF; and German 20-marks Prussia 1889A VF. (Total: 3 coins) Est. 400-500

- 6022 **High Grade Types** - 5-cent 1902H Edward VII original Gem-Toned BU; cent 1919 George V nice Red & Brown BU; 25-cents George VI 1947 and 1948, both unusually nice P-L BU. (Total: 4 coins) Est. 175-250

- 6023 **Specimen Dollar** 1949 Newfoundland KM-147 with letter of authenticity from J. A. Haxby at the Bank of Canada. A seldom offered item in 64/65 quality. Est. 300-400

- 6024 **Rare Arnprior Dollar** of 1951 George VI, graded P-L 63 by ICCS and none graded by PCGS. A seldom offered rarity for the Canadian specialist. Est. 1000-1500

- 6025 **Dollars and Cents** - BU dollars 1953, 1959, 1960, and 1961 (one each); 1963 (4); 1964 and 1947 (also one each). 1955 Arnprior, cleaned UNC and scarce. Also, 50-cents 1938 MS 62 ICCS; 1951 cent to 50-cents, UNC set; 28 1961 10-cents, BU; 18 1961 5-cent BU; 41 1961 1-dollar, BU; and 16 misc. 1-cent XF. Last but not least, a 1947 South African silver Proof crown, 2 1/2 shilling, 2 shilling, and shilling, all nicely toned. Est. 250-350

- 6026 Accumulation of sets and single coins including two 1920-1967 Small cent sets, avg. VF; and a Large cent set, missing only 8 dates with 1858 F/VF and others avg. VF. Nickel set 1922-1967, one date of each year; plus a partial set (no 1925 or 1926), all avg. circ. F/VF. Set of 10-cents 1938-1966 circ., plus 29 extras 1939-1966. Also included is a double-row box of Canada and world coins (mostly minors), mostly 1850-1930 with numerous Canadian provincial and token issues. A useful lot of over 200 coins. Est. 100-200

- 6027 Proof Set 1967 Centennial with 20-dollar gold; and 50-dollars 1984 maple leaf BU. (Total: 2 items) Est. 500-550

- 6028 **100 Dollar Gold** - 1977 Silver Jubilee, 1978 Unification, and 1985 National Parks, all choice Proof and popular. (Total: 3 coins) Est. 550-650

- 6029 Proof 100-dollars gold 1992 Montreal. Also, (10) Maria Theresa silver restrike talers. Est. 175-225

- 6030 **Mint Sets & Dollars** - Mint set 1938 George V toned UNC in Hollander holder; 1956 P-L set in white cardboard holder; 15 various mint and proof-like sets 1964 to 1982; 3 1976 Olympic sets of 4 coins each (\$30 face); cased dollars 1970-1978, 11 various dates; 1958 dollar BU. Other misc. items include Panama 20-balboa 1974 Proof; England 1953 proof-set with spots; Bahamas 1966 mint set; Ghana 1958 Proof 5-shilling; Cuba 1965 Souvenir peso; and 3 medallion crowns. Est. 200-300

- 6031 **Newfoundland** Large-cent of Edward VII 1909. A superb full original mint red MS 65 graded by ICCS. None finer. Est. 500-750

CHILE

- 6032 8-escudos 1751 Santiago Ferdinand VI, bust right/arms KM-3. As struck XF with soft centers. Scarce. Est. 1200-1500

CHINA

- 6033 1988 Panda gold Proof type set of 5 coins. A popular set. Est. 650-750

COLOMBIA

- 6034 8-escudos 1791 NR Charles III, like KM-62.1, a popular coin F/VF. Est. 450-550
- 6035 20-pesos 1869 Medellin Woman's Head KM-142.2 (cat. \$1500). Well struck XF for this scarce coin. (Photo) Est. 900-1200

COSTA RICA

- 6036 4-escudos 1828F Sun and Mountains KM-16, under the Central American Republic. Nicely toned VF+ and rare. (Photo) Est. 1000-1500

DENMARK

- 6037 Gold 12-marks 1757 Frederik V, crown over value and date/3-monogram F V in a circle C-28.1. The only year of issue and not a common coin. XF/AU. Est. 350-450

ECUADOR

- 6038 8 escudos 1839 M.V. Quito woman's head/sun over mountains. KM-23.1. Always a popular type coin from this remote country. Good VF. Est. 1000-1250

EGYPT

- 6039 Mint Set: King Faud I 20-piastres 1923 KM-338; 10-piastres 1923 KM-337; 5-piastres 1923H KM-336; 2-piastres 1923H KM-335; 10-mil 1924 KM-334; 2-mil 1924 KM-332; and mil 1924H KM-331, all Choice toned BU. Also, 20-piastres 1916 KM-321 XF; 10-piastres 1917 KM-319 XF+; and 13 various Egypt types AH-1255 to 1917, average VF/XF. All coins were purchased in the 1920s and 1930s in vintage envelopes. Est. 300-400

FRANCE

- 6040 Ecu Louis XIII 1652A youthful bust right/arms D-3799. Deep toned VF, purchased in 1931 from Robert Ball of Berlin. Est. 150-200

- 6041 Ecu Louis XVI 1792A angel reverse D-1335. As struck UNC with no adjustment marks and an occasional soft-struck area. Good eye appeal and a great type coin. Est. 600-700

- 6042 5-francs Republique Francaise 1849BB Hercules Y-7.2, nicely toned XF+; and Prussia taler Frid. Wilhelm III 1831A D-763 toned VF. (Total: 2 coins) Est. 125-175

FRENCH COCHIN CHINA

- 6043 10-cents 1879A Seated Liberty KM-4, only a three-year type, Choice BU and rare. Est. 175-225

FRENCH INDO CHINA

- 6044 10-cents 1898A Seated Liberty KM-9, the rare first year of issue, Choice AU (cat. \$250 XF, \$650 UNC). Est. 250-300

- 6045 20-cents 1900A Seated Liberty KM-10, a full Frosty BU for the specialist. Est. 200-250

Long Beach, California

Color plates are located on pages 93-104.

A 10% Buyer's Premium Will Be Added To All Invoices

COMMEMORATIVE GOLD

- 6203 1903 Louisiana Purchase/Jefferson MS 64. Lustrous and clean overall with a touch of light orange color and showing several very faint grease stains (as struck) on the obverse.
- 6204 1903 Louisiana Purchase/McKinley AU 50 Lightly Cleaned; and a 1905 Lewis and Clark AU 50, richly colored with a bright, almost prooflike appearance. (Total: 2 coins)
- 6205 1915-S Panama-Pacific Gold Dollar MS 65. A sparkling gem with clean, nearly abrasion-free surfaces and even color across both sides. A lofty grade for this scarce commemorative gold dollar. (Photo)
- 6206 1916 McKinley MS 62. A frosty example of this scarce and popular gold commemorative issue.

- 6207 1916 McKinley MS 65. Rich reddish-orange color and an attractive piece overall with deeply reflective fields on the obverse. (Photo)
- 6208 1926 Sesquicentennial MS 64. Even, orange-gold color and showing just a few tiny marks on either side.

GOLD DOLLARS

- 6209 1849 Open Wreath MS 62. Sharply struck and lustrous with a few scattered marks on the obverse and an interesting die break on the reverse.
- 6210 1849-C Closed Wreath VF 30. Smooth surfaces and evenly worn but slightly bent.
- 6211 1850-C XF 45. Sharply struck and pleasing but possibly removed from a mount and expertly repaired.
- 6212 1851-D XF 40. Once mounted on the reverse with light scratches. The obverse is evenly worn with no major marks.
- 6213 1852 MS 63. Fully struck with deep orange-gold color.
- 6214 1853 gold dollar AU 50, dig on the cheek; 1925-D quarter eagle XF 40, polished; and an 1881 eagle AU 55. (Total: 3 coins)
- 6215 1853 AU 58. Lustrous and well struck with a slight trace of wear.
- 6216 1853 MS 62 Prooflike. Fully struck with moderately reflective fields.
- 6217 1853 MS 62. Deep reddish color.
- 6218 1853 MS 63. Satiny and razor sharp, with a deep reddish-gold color.
- 6219 1854-D XF 40. Scarce Dahlonega issue with a mintage of only 2,935 pieces. The obverse is lightly cleaned.
- 6220 1854 Type Two XF 40. Pinched rim just below 3 o'clock.
- 6221 1854 Type Two XF 40. Sharply defined and free of obvious defects.

- 6222 1855 Type Two AU 58 Reverse Scratches. Very sharply struck throughout and showing no evidence of die clashing, there are a couple of shallow scratches in the center of the reverse. (Photo)
- 6223 1855-C VG 10. The only Type 2 one dollar struck in Charlotte. Evenly worn with full rims and no distracting marks. Trends \$700 (12/6) in fine.

Outstanding Rarity

6224 **1855-D AU 50.** The 1855-D gold dollar is one of the outstanding rarities in the gold dollar series. Probably no more than 25-30 pieces exist in all grades out of the original mintage of only 1,811, and very few examples survive this close to mint state. Contrary to the norm for this issue, this is a very sharply struck coin with complete reverse lettering and full digits in the date. There is evidence of light die clashing on each side and a few scattered marks, none of which deserve individual mention. Of the utmost importance to the specialist. Trends \$9,000. (12/6). (Photo)

6225 1855-O XF 40. Original and pleasing with some remaining luster, however one small depression in obverse field which does not detract.

6226 1856 gold dollar XF 40; and a 1914-D quarter eagle XF 45. (Total: 2 coins)

6227 1857-C VF 20. Original surfaces but one small lamination on the obverse

6228 **1857-D XF 40 Reverse Scratches.** Somewhat softly struck, as usual, and showing several scratches of unknown origin around the outer edges of the reverse. A scarce Dahlonega gold dollar. Trends \$1,850.

6229 1857-S XF 40 Rim Damage. Surfaces somewhat bright.

6230 1858-D VF 25. Struck from a typical poorly prepared planchet. One of just 3,477 pieces struck. Lightly marked. Very scarce.

6231 1858-D EF 45. Scarce date and difficult to locate in any condition. This piece is evenly worn with clean fields and no distracting marks.

6232 1859-C VF 30. The obverse is evenly worn and mark-free while the reverse is somewhat rough.

6233 **1859-D XF 40.** Very difficult date to locate in any condition. This example is well-struck and pleasing with smooth surfaces.

6234 1861 AU 50 Bent.

6235 1862 XF 40.

6236 1862 AU 50. Faint bits of luster still remain.

6237 1862 MS 60. Scuffy surfaces.

6238 1878 MS 62. Fully struck with semi-prooflike fields.

6239 1882 MS 60. Clean fields but unnaturally bright. (Photo)

6240 1885 AU 50. Mount removed and cleaned.

6241 1885 MS 63. Well defined with deeply reflective prooflike fields. (Photo)

6242 1886 MS 63. Exceptionally bright surfaces and sharply defined throughout. (Photo)

6243 1889 MS 60. Fully struck with a few field marks. Ex: 1993 ANA Sale (HNAI, 7/93), lot 5492, flip accompanies.

6244 1889 MS 62. Lustrous and well-struck with a few inconsequential marks.

EARLY QUARTER EAGLES

Exceedingly Rare No Stars Quarter Eagle

6245 1796 No Stars VF 20 Cleaned. The 1796 is one of the few transcendent rarities in U.S. coinage that is well known outside the circle of gold specialists. It has a distinctive design unlike any subsequent quarter eagle (which all have stars), it is the first date of the denomination, and it is the first coin struck with sixteen reverse stars honoring Tennessee's admission to the Union. Even in VF 20 grade it is an important coin and this piece will no doubt be eagerly bid upon by a wide variety of collectors and dealers.

The surfaces show evidence of having been cleaned at one time, but otherwise are quite unaffected by post-striking impairments considering the open fields on the obverse. There is one small area of contact in the left obverse field, and on the reverse there is a diagonal cut across the horizontal shield lines—these two features should greatly aid anyone wishing to trace the pedigree of this important coin. The golden-orange color overall is accented by a light reddish patina surrounding the devices. (Photo)

6246 1804 14 Star Reverse VF 25 Cleaned. While the 14 Star variety is the more "common" of the two varieties of this year, such a statement must be understood within the context of the Heraldic quarter eagle series. Meaning, out of a mintage of 3,327 pieces, today it is estimated that 9 of the 13 Star variety exist, and 27 of the 14 Star variety are still extant. This piece shows some softness of details in the centers and there are numerous hairlines on each side, but this is still a desirable coin that should be of interest to many early gold enthusiasts.

6247 1805 Fine 12. Quite rare as an early gold issue with a mintage of only 1,781 pieces. Although some roughness is seen about the surfaces of the present piece, it is still a decent representation.

6248 1806/5 VF 30. Stars 7x6. The 1806/5 is one of the great rarities in the quarter eagle series. Beginning with a mintage of only 480 pieces, one author doubts that as many as 16 coins still exist today in all grades. The 6/5 is tied with the 1841 for third rarest date in the entire quarter eagle series. The 1805 obverse die was annealed (heated) and a 6 was punched over a 5 in the date and this rare overdate was created. The surfaces are bright and the greenish-gold color overall shows a slight reddish accent on the highpoints of the design. Showing no mentionable defects on either side, there is only the normally encountered die crack in the field just left of (LI)BERTY at the top of the obverse. (Photo)

CLASSIC QUARTER EAGLES

6249 1836 AU 50. Sharply struck with faint reflectivity around the devices.

6250 1837 VF 30. Choice in detail with bright surfaces.

6251 1837 XF 45 Cleaned. Very well struck. Although priced similarly, the 1837 is quite a bit scarcer than earlier Classic quarter eagles.

6252 1839-C VF 30 Cleaned. Evenly worn with fairly pleasing color and no serious distractions other than the obvious cleaning. Quite scarce as a date and, of course, doubly popular with its Charlotte mintmark on the obverse.

6253 1839-C XF 40. A very scarce date with a mintage of less than 20,000 pieces. Perhaps cleaned at one time but still quite attractive. Nicely struck with sharp detail. (Photo)

6254 1839-O XF 40. A nice upper-circulated grade example of this popular issue which represents the first year in which New Orleans struck quarter eagles. Trends \$1350 (12/6).

- 6255 1839-O AU 50 Cleaned. First year of New Orleans mint production of this denomination, added with this coin's scarcity and obverse mintmark, makes for a very popular issue. The surfaces are generally sharp and somewhat granular in appearance, exhibiting a tiny obverse rim bump at 9 o'clock.

LIBERTY QUARTER EAGLES

- 6256 1840-D VF 25. The '40-D is not only one of the keys to the Dahlonega quarter eagle series, it is also one of the dozen or so rarest issues in the entire Coronet series, according to David Akers. This lower graded coin does display the often seen die breaks on the reverse, but is actually lacking the majority of problems associated with this elusive D-mint.
- 6257 1841-D VF 30 Cleaned and Possibly Repaired. The yellow-gold surfaces exhibit a dullish, grainy appearance, but are well struck throughout. A very elusive D-mint quarter eagle, one of just 4,164 pieces minted.

- 6258 1841-D XF 40 Cleaned. A very rare date that is virtually unobtainable in higher grades. Most survivors are VF or XF at best and softly struck. One expert doubted that as many as 55 pieces have survived in all grades out of the original mintage of 4,164. This piece is surprisingly well detailed with little weakness noted on the hair curls or eagle's plumage. Richly colored with noticeable brightness from an old cleaning. (Photo)

- 6259 1842 XF 40 Cleaned. A most difficult P-mint quarter eagle, with perhaps fewer than 60 pieces known from a tiny mintage of 2,823 coins. The surfaces here are free of obvious marks, but are dulled and hairlined from a not-so-careful cleaning. (Photo)

- 6260 1843-C Large Date VF 30. Very scarce as a early Dahlonega issue.

- 6261 1843-C Small Date VF 20 Obverse Scratch. Several times scarcer than its Large Date counterpart, this Small Date '43-C appears totally original and suffers only from a diagonal scratch in the portrait.
- 6262 1844 VF 30. With a mintage of only 6,784 pieces, this date is virtually impossible to locate in any grade. Several light scratches are noticeable about the surfaces of this rarely offered issue.
- 6263 1844-D VF 30. Choice for the grade aside from a few hairline scratches. Quite difficult as a low mintage Dahlonega issue.
- 6264 1845-D VF 20. A nice circulated representative of this scarce Dahlonega issue. Trends \$700 (12/6).
- 6265 1845-O VF 20. With a mintage of merely 4,000 pieces, this date represents the lowest mintage for any quarter eagle from the New Orleans Mint. An issue which is quite rare and highly sought after in any grade.
- 6266 1846-D VF 20 Brushed. Very scarce as a low mintage Dahlonega issue. Brushed at one time leaving some bright streaked areas.
- 6267 1847-C VF 25 Cleaned. Although this piece has been cleaned, it is a nice example of a very scarce Charlotte Mint issue with a mintage of only 23,226 pieces. Sharply struck with considerable detail for the grade.

- 6268 1848-C XF 40. A rare coin in any state of preservation, XF pieces are quite elusive and prohibitively rare any finer. Only 80-90 pieces are believed to exist out of the original mintage of 16,788 coins. Evenly and well struck over both sides, unlike most of this issue.
- 6269 1849-C VF 20. Evenly worn with two small marks in the left obverse field and two marks on the reverse.
- 6270 1849-D VF 20. Cleaned at one time and now starting to retone.

- 6271 1850-C VF 20 Cleaned. Very rare in any grade. Although cleaned, the present piece is a presentable representative of this rarely offered issue with a mintage of 9,148 pieces. Trends \$800 (12/6).
- 6272 1850-D XF 40. Clean surfaces and no major marks but somewhat bright. (Photo)
- 6273 1851 MS 62. Full satiny luster over both sides, with the only mentionable mark on the bridge of Liberty's nose. One of the more available early Liberty quarter eagles in mint state, but still fairly scarce at that grade level.
- 6274 1852-O XF 40 Cleaned. Sharply struck.
- 6275 1853 AU 50; and an 1861 XF 45. (Total: 2 coins)
- 6276 1854-C VF 30 Cleaned. Typically struck with pleasing detail. Very difficult as an issue with a mintage of only 7,295 pieces.

Prohibitively Rare Charlotte Quarter Eagle

- 6277 1856-C AU 55. An elusive and underrated C-mint quarter eagle, even in VF and XF grades. This piece is very well struck, exhibits virtually complete mint brilliance, and is hampered only by a couple depressed streaks in the planchet on the reverse. One of Akers favorite quarter eagle issues, particularly in higher grades where he recalls having seen "two or three that were even AU." Only PCGS has graded a mint state example of the '56-C, an MS 61, with nothing else certified above AU 53 by either major grading service. For condition rarity, an extremely scarce piece of Charlotte gold. Trends \$4,400 in AU 50, \$14,500 in MS 60. (Photo)

- 6278 1857-S AU 50 Light Cleaning. Bright yellow-gold surfaces that are very well struck and, upon close inspection, reveal a patch of hair-lines to the left of the portrait. The 1857-S is a scarce quarter eagle at any grade level, but pieces grading AU and higher are particularly elusive.

- 6279 1858-C XF 40 Cleaned. A presentable example of this rare Charlotte Mint issue. The surfaces have been cleaned and are beginning to lightly re-color. Trends \$1300 (12/6).
- 6280 1858-C XF 45 Cleaned. A relatively pleasing example without the normally encountered striking deficiencies and inferior planchet quality. Soft golden-orange accents cling to the devices. One of just 9,056 pieces struck, with a surviving population of fewer than 100 coins.
- 6281 1860-S XF 40 Cleaned. Although lightly cleaned, the present piece is a nice representation of this scarce issue.

- 6282 1860-S AU 58. An impressive grade for this scarce and conditionally rare San Francisco issue, one of 35,600 pieces struck. The surfaces are bright and lustrous, showing just a whisper of rub on the highest points. (Photo)
- 6283 1861 MS 61. Bright mint luster.

Major Rarity: 1861-S \$2 ½

6284 1861-S AU 58. A very elusive Liberty quarter eagle, the mintage of 24,000 pieces does not accurately measure this coin's scarcity. Also, in the early S-mint tradition, the few obtainable pieces are invariably low grade, usually VFs and even an XF can be classified as rare. Both sides display a pleasing, satiny luster and are a trifle weak in the tell-tale areas. As of this writing, no mint state coins have been certified by either major service and only the Bell specimen, sold in 1944, was catalogued as uncirculated. Well up on the condition census scale for this prized San Francisco date. (Photo)

6285 1862-S VF 20. With perhaps no more than 50 pieces extant in all grades combined, this is a very difficult issue to locate. Light in color from perhaps an old cleaning.

6286 1866 VF 20 Solder Removed. A very rare date in any state of preservation. The present piece has been cleaned with solder removed. Trends \$1500 (12/6).

6287 1879 MS 63. Razor sharp with a clean, satin-like appearance on the obverse and more shimmering brilliance on the reverse.

6288 1889 MS 62. Lustrous and showing one alloy spot on the lower reverse.

6289 1899 MS 62 Cleaned. Highly lustrous with only a few stray hairlines visible on the obverse.

6290 1900 MS 62. Satiny, mark-free obverse, with a more lustrous reverse.

6291 1903 MS 61. Well struck.

6292 1903 MS 63. A nice coin for the grade.

6293 1906 MS 61. Fully struck and lustrous.

6294 1906 MS 63. Choice with frosty luster.

6295 1906 MS 63. A choice uncirculated example with a considerable amount of mint frost.

6296 1907 MS 62 Cleaned. Fully struck and flashy.

6297 1907 MS 63. Fully struck with just a touch of pale lilac in the otherwise orange-gold surfaces.

PROOF LIBERTY QUARTER EAGLES

6298 1885 PR 50. Bright surfaces that, even after ten points of wear, exhibit virtually complete watery brilliance. The 1885 proof, one of just 87 pieces struck, is under considerable added price pressure due to the extreme scarcity of business strikes. (Photo)

6299 1899 PR 60 Cleaned. An unquestionable proof striking, but both sides are thoroughly hairlined to the point that the original proof brilliance is somewhat impaired. From a mintage of just 150 coins. (Photo)

INDIAN QUARTER EAGLES

6300 1908 MS 60.

6301 1909 AU 50; 1915 AU 50; and a 1926 AU 50. Lightly circulated coins, the 1909 is especially nice. (Total: 3 coins)

6302 1911-D XF 45. Bright, clean surfaces and a strong mintmark.

6303 1911-D AU 50. Moderate rubbing on the highpoints and problem-free for the grade with a well defined mintmark.

6304 1914 AU 58; verdigris adheres to the recessed devices; 1915 AU 58; and a 1929 AU 55, a few obverse pinscratches. (Total: 3 coins)

6305 1914 MS 62. There are several small abrasions that account for the grade. Otherwise, quite a nice coin for the grade.

- 6306 1915 MS 65. Fully struck with very clean surfaces for this difficult type. Nice mint luster and good eye appeal throughout. (Photo)
- 6307 1925-D MS 63. Good luster and light color, just a few tiny marks.
- 6308 1926 MS 63. Fully struck with bright, dazzling luster.
- 6309 1929 MS 62. Clean and lustrous, but the strike is noticeably soft on each side.
- 6310 1929 MS 63. A nice enough coin for type purposes.

THREE-DOLLAR GOLD PIECES

- 6311 1854-D XF 40 Damaged. Of the greatest importance to collectors of both three-dollar gold pieces as well as Dahlonega collectors. The mintage of only 1,120 pieces tells the story of this issue's rarity and its desirability to the numismatic community. However, this lightly cleaned specimen, perhaps even sharper than the assigned grade, exhibits damage and subsequent repair along the left side of the obverse. (Photo)
- 6312 1854-O XF 40. The only date of this denomination struck in New Orleans. This example has original surfaces and even wear with two light scratches in the left obverse field.
- 6313 1855 VG 8 Polished. A former jewelry piece that is destined to enter the world of cufflinks and rings again.

- 6314 1855 AU 58. A near-mint example of this slightly scarcer, early date three. Well struck in most areas with light yellow-gold color and no large or distracting blemishes. (Photo)
- 6315 1855-S VF 30 Polished. The first year \$3 gold pieces were struck in San Francisco. This example is lightly polished with some slight rim problems.
- 6316 1857 XF 45. A pleasing example with no major marks and some remaining luster.
- 6317 1857-S VF 20 Cleaned. Lightly cleaned but still an acceptable specimen.

- 6318 1858 AU 50 Cleaned. The second lowest mintage three from the 1850s, second only to the famous 1854-D, one of just 2,133 pieces struck. Unlike later low-mintage dates, the average grade on an 1858 is a fairly modest VF 35. This piece displays minimal wear and only trivial signs of cleaning.
- 6319 1860 XF 40. Attractive example with original surfaces and no problems.
- 6320 1864 XF 40 Cleaned. Scarce Civil War era coin with a mintage of only 2,680 pieces. This piece was cleaned but has no distracting marks.
- 6321 1869 VF 30. Surfaces have a few inconsequential abrasions.
- 6322 1874 AU 50. Lightly circulated with some remaining luster and a few light scratches on the obverse.
- 6323 1878 AU 58. Generally well struck with medium orange-gold color, and only showing a couple of marks in the right obverse field. (Photo)
- 6324 1880 AU 50 Cleaned. Lightly cleaned but starting to retone nicely. The surfaces are smooth with no major marks.
- 6325 1883 VF 30 Cleaned. Very tough date to locate with a mintage of only 989 pieces.
- 6326 1886 XF 45. Scarce date with a mintage of 1,142 pieces. Sharply struck with reflective surfaces and somewhat hairlined fields.
- 6327 1887 VF 20. Evenly worn with smooth surfaces and a light scratch in the left obverse field. Mount removed and expertly repaired.

PROOF THREE-DOLLAR GOLD PIECE

Lightly Circulated 1876 \$3 Gold

- 6328 1876 PR 50. An acclaimed proof-only date, with as few as 30 pieces extant from a mintage of 45 coins. The present example, impaired by a year or two in commerce, is yellow-gold in color and displays wire rims and enough watery brilliance about the devices to distinguish it as a proof without looking at the date. The collector of this popular series could affordably fill the 1876 slot with this slightly impaired specimen.

FOUR-DOLLAR GOLD PIECE

Affordable Stella

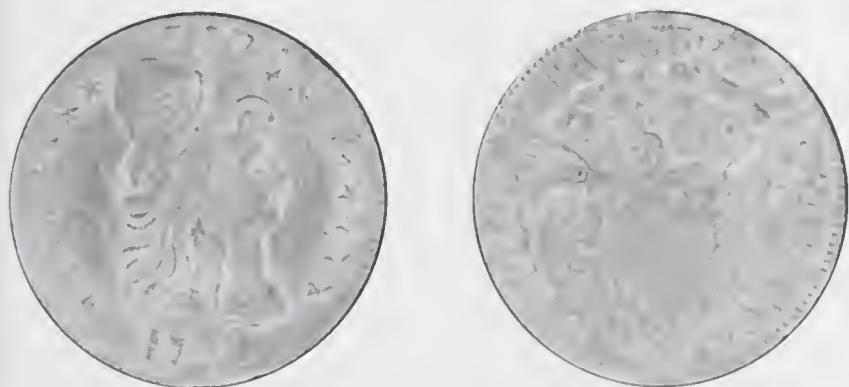

- 6329 1879 Flowing Hair PR 12 Ex Jewelry. An always popular four-dollar piece, technically a pattern (Judd-1635), designed by Charles E. Barber after his father William's half eagle model in the previous year. The surfaces are somewhat granular and more noticeably worn in the centers. Certainly an affordable representation of this most desirable gold issue, the "Stella." (Photo)

EARLY HALF EAGLES

Overdate Small Eagle Five

- 6330 1796/5 Small Eagle VF 20. Even though the mintage is not that much smaller than the 1795, the 1796 half eagle is a much scarcer issue. We would assume that the 1796 was not saved in large numbers as was the 1795. Well defined on the obverse, the reverse is softly detailed in the centers with several small planchet flakes. Bright surfaces from having been cleaned.

- 6331 1798 Large Eagle VF 35. Large 8, 13 Stars. B. 2-D. A scarce and largely underappreciated rarity among Heraldic half eagles. This piece is softly struck in the centers, and has greenish-gold color overall with small traces of mint luster still seen around the devices. Aside from the strike, the surfaces are really quite nice and show no mentionable abrasions.

- 6332 1798 Large 8, 14 Star XF 40 Cleaned, Solder Removed. A rare variety that was created when Tennessee entered the Union, the stars being arranged in the old style "arc" pattern. The rarity of this variety can be fully accounted for by the extensive die cracking seen on the reverse, which could not have been used to strike too many coins before completely giving out. There are several larger marks on the obverse and the surfaces overall are bright from having been cleaned. There are also three points on the rim where solder was removed.

- 6333 1803/2 VF 20 Polished. Detail of a higher grade but lightly polished with slightly porous surfaces.

- 6334 1805 XF 40 Digs. B. 1-A. A well defined coin that is especially sharp on the reverse (but weak on the obverse, as always) and shows a fair amount of luster remaining around the devices. The greenish-gold color overall shows scattered bits of reddish patina that gives the coin a colorful counterbalance to the numerous small digs that are peppered across each side. (Photo)

- 6335 1806 VF 20 Once Mounted. Round Top 6. There are several prominent scratches across the top of the obverse, and the surfaces overall are quite bright with a faint overlay of reddish patina on the highpoints of the design.

- 6336 **1806 XF 40 Scratches.** Pointed Top 6. B. 1-B. An uncertified example of this scarce variety. There are several scratches on the obverse that detract from the overall look of the coin, but the reverse seems free from such impairments. A bit softly struck in the centers with a light reddish accent of color around the rims. (Photo)

- 6337 **1807 Bust Right XF 40.** B. 1-A. Well struck on the obverse but a bit weak on the eagle's breast feathers and juncture of the left wing with the shield. This is an attractive and seemingly original early five whose surface distractions appear limited to a pair of tiny digs in the upper obverse field. Otherwise, a clean and problem-free piece with much reddish color in the fields.

- 6338 **1807 Bust Left VF 20 Removed From Jewelry.** The surfaces are slightly pitted and display signs of mounting on the edge at 12 o'clock.

- 6339 **1807 Bust Left VF 30 Cleaned.** Sharply struck with detail of a higher grade but lightly cleaned long ago and now starting to attractively retone. Small mark at date.

- 6340 **1808 VF 20.** B. 4-B. One of the more common dates in the series, this piece shows extensive wear over the highpoints and innumerable small contact marks in the fields from handling in the channels of commerce over the years. A low-grade, affordable early five.

- 6341 **1808/7 Fine 12 Damage.** Probably a jewelry piece at one time. This piece has been polished, has rim damage, and is slightly bent.

- 6342 **1810 Large Date, Large 5 VF 20.** The Large Date, Large 5 is one of the more commonly encountered issues in the run of half eagles from 1807 to 1812. This piece shows several pinscratches in the left obverse field and there are certainly signs of handling as any coin of this grade would show, but no other mentionable surface defects are evident. Softly struck on the eagle, there is just a bit of reddish color around the peripheries.

- 6343 **1812 AU 50 Cleaned.** Wide 5 D. B. 1-B. Well struck on the obverse with the usual softness of feather detail on the eagle. There is a good bit of luster still remaining around the devices, but this tends to be obscured by the hairlining across each side. Final year of the type and one of the more commonly seen dates of the type as well. (Photo)

Consign Your Coins To The 1994 Heritage A.N.A. Sale!

*It is never too early to
consign as space is limited.*

*Last year, many potential
consignors were turned away
because we reached the 3,500 lot
limit before their coins arrived.*

This is a once-a-year opportunity!

Landmark 1819 Half Eagle

- 6344 **1819 AU 50 Cleaned.** Wide Date, Normal 5 D. The 1819 is one of the great rarities of the entire half eagle denomination. There are two major varieties of this date and both are of approximately equal rarity. Akers estimates that perhaps 15-18 pieces are extant of both varieties, and Breen believes that only 6 or 7 examples are known of this variety. This piece is remarkably well struck and shows only the faintest field marks on each side. The surfaces are extensively abraded, however, thus keeping this coin from the choice category. (Photo)

CLASSIC HALF EAGLES

- 6345 1834 Plain 4 XF 40 Reverse Scratches. Considerable luster in the protected areas.
- 6346 1835 VF 20. Evenly worn with smooth surfaces and a slight rim bump at 12 o'clock.
- 6347 1836 XF 45. Original and very well struck with a few minor pin scratches in the fields.
- 6348 1837 Large Date, Large 5 AU 55. Lustrous with reflective fields and slight wear. A scarce and underrated date.
- 6349 1838 XF 45. Final year of the Classic Head design, evenly worn with no serious marks.

- 6350 1838-C VF 30 Cleaned. An extremely scarce Charlotte five, with added popularity as the first C-mint of this denomination. The surfaces possess the definition of an XF, but due to the cleaning and a few minor rim bruises, the grade has been kept conservative. One of just 17,179 pieces struck and the second rarest Classic Head half eagle. (Photo)

- 6351 1838-D VF 35 Cleaned. Scarce early Dahlonega issue. Sharply struck. Third rarest date in the Classic Head series, one of just 20,583 pieces originally minted.

LIBERTY HALF EAGLES

- 6352 1839 VF 30. A problem-free example, often collected as a separate design from later Coronet issues.
- 6353 1839-C VF 35. A pleasing original coin always in demand by collectors. Softly struck as typically found.
- 6354 1840-D VF 20. Comparable in rarity to the popular 1839-D. Clean and evenly worn.
- 6355 1840-O XF 45. Clean surfaces displaying wispy obverse hairlines and pleasing golden-orange highlights.
- 6356 1840-O AU 50. Greenish-gold surfaces that show considerable brightness and only minor softness on the eagle's neck and shield. Quite scarce at this grade level.
- 6357 1841-C XF 40. Evenly worn with two light rim marks on the obverse. A pleasing example of this scarce date. EX: 1993 ANA (HNAI, 8/93), lot 5632, flip accompanies.
- 6358 1842-D Small Date Fine 12. Honest wear with a few surface marks.
- 6359 1842-D Small Date Fine 12. Even wear with some surface marks and the letter "H" lightly scratched on the neck of Liberty.
- 6360 1843-D Fine 15. Good detail and surfaces.
- 6361 1845-D VF 30 Damaged. Reasonably appealing, but with some noticeable small gouges on the obverse.
- 6362 1845-O VF 20. Clean surfaces.
- 6363 1846-O VF 30. Good detail with traces of luster. Trends \$450 in VF-20, \$1,550 in XF-40 (12/6).
- 6364 1847 AU 50. Breen-6571. Blundered die, extra 7 in border. Listed as extremely rare with not over 4 reported.
- 6365 1848-C VF 20. Great detail. Surface typically rough.
- 6366 1848-D VF 30. Obverse typically weak. A generous amount of luster remains.
- 6367 1849-C VF 20 Cleaned. Decent detail.

- 6368 1850-C VF 30 Harshly Cleaned. Excellent detail.

- 6369 1851-O Fine 12 Obverse Planchet Flaw.

- 6370 1854-D Fine 15. A few small digs.

- 6371 1854-D MS 60. While one of the three or four most common dates among D-mint fives, the '54-D is, however, not a common coin in uncirculated condition. This piece has bright yellow-gold color and good mint luster. The strike is strongly defined in the centers with the only noticeable softness being on the denticles, as usual. The only mentionable defect is an angling mark in the upper reverse field above the eagle's head. (Photo)

- 6372 1855-D XF 45. Great detail. The 1855-D is rarer than most of its predecessors. At XF-45, this piece is more than a full grade above the average encountered. A great addition to any collection.

- 6373 1856-C AU 55 Lightly Cleaned. A very scarce Charlotte half eagle that is an important condition rarity as well, hardly ever being seen above XF. This piece is well defined in all areas including the eagle's leg and shows only a few small, scattered handling marks on either side. Lightly hairlined. (Photo)

- 6374 1859-D VF 20. Rare in all grades. Typically weak struck on the hair curls, so with the amount of luster this coin exhibits, bidding may well be active above the level of the stated grade. Trends \$775 in VF-20, \$1,850 in XF-40 (12/6).

- 6375 1861 MS 60. Sharp and lustrous. This coin is not important for its date, but for its type, as No Motto half eagles are in great demand in uncirculated grades.

- 6376 1861-C VF 20. A rare and historic Charlotte five, one of just 6,879 total pieces struck. 887 of those under the Confederacy. The surfaces are uniformly granular, probably the result of an old cleaning.

- 6377 1861-C XF 40 Polished. Great detail makes this last Charlotte issue desirable despite the polishing. A tough coin to acquire in any grade with the added popularity due to the Civil War connection.

- 6378 **1864 XF 40 Cleaned.** A rare date in all grades with an impressively low mintage of only 4,170 pieces, and a date that is especially difficult to locate any finer than the present specimen. We have only offered one other 1864 five in the past 15 months, that being another XF 40 in February of last year. This piece is well struck and shows no large marks, but there are myriad hairlines from an old cleaning on each side. (Photo)

- 6379 **1865-S AU 58.** Probably the second finest known, the finest known being an (NGC) MS-60 being offered elsewhere in the sale. Akers had not seen anything better than an extra fine when his book was published, and commented on the well worn nature of the issue. This coin is generously endowed with orange-gold luster and an absolute minimum of rub. Two purchasers at this sale will own coins they thought they'd never acquire. (Photo)

- 6380 **1866-S Motto AU 58.** A condition census piece. Akers noted that most pieces are VF or worse, and that only one or two uncirculated examples of this date are known. If so, they have not made it to the grading services, as only PCCS has seen an AU, grading one AU-58 and one AU-55 to date. This piece is lustrous and problem free. High point rub is absolutely minimal, and there are some light circulation marks in the fields. One might well question if this is one of the coins auctioned as uncirculated in the 1960s. Trends shows no value above XF-40, so look for bidding to be spirited among serious buyers. (Photo)
- 6381 **1867 AU 50 Cleaned.** Boldly struck and somewhat bright in appearance, with only a tiny rim ding at 9 o'clock on the obverse. The 1867 is another low-mintage rarity (6,920 pieces) that, when available, usually grades in the VF to XF range.
- 6382 **1868-S Fine 12.** One of the more affordable examples of this scarce S-mint five. There is a prominent mark on each side and a rim ding at 2 o'clock on the obverse.
- 6383 **1871 XF 40.** A rare With Motto five that is seldom seen any finer than the present coin. The mintage was a paltry 3,200 pieces. This coin has slight softness in the centers with well defined peripheral details. There is a slight reddish caste overall and the most distinctive mark is a long scratch down the face of Liberty that extends onto the neck.

- 6384 **1871-CC VG 10.** One of the rarest CC fives and a coin that is usually seen in low grades. Well, this one certainly is low in grade. In fact, it may be one of the lowest grades known (curiously, records of such coins are not usually kept like they are for finest knowns). Heavily worn throughout with some reddish color surrounding the devices, and a small rim nick at 8 o'clock on the obverse.
- 6385 **1872 F 12 Whizzed** with reverse scratches.
- 6386 **1872-CC VG 8.** A heavily worn example of this scarce CC issue. Original.
- 6387 **1873-CC Fine 12 Cleaned.** Scarce Carson City five.
- 6388 **1873-S VG 10.** A clean coin for the grade. Scarce.
- 6389 **1873-S AU 50.** A very scarce coin that is difficult in all grades and is quite elusive finer than XF. This piece has bright yellow-gold color and is softly struck in the centers with small handling marks scattered across the surfaces.
- 6390 **1875-CC VF 20.** Weakly struck, as usual, this piece is about average for the issue. Noticeably hairlined on each side. Trends \$1,600.
- 6391 **1875-S VG 10.** A rare date with a mintage of only 9,000 pieces. Well worn but original.
- 6392 **1876-CC Fine 12 Polished.** Lowest mintage among CC half eagles with only 6,887 pieces struck. This piece is about 14 points below the median grade and the surfaces are polished and porous.
- 6393 **1880 AU 55; 1885 AU 55; and a 1907-D AU 50.** (Total: 3 coins)

- 6394 **1880 MS 65.** Superb luster and light in color, this coin exudes originality. There are a few tiny specks of grease (as struck) on the cheek of Liberty and a couple of minor luster grazes here and there. Overall, a lovely example of this common type coin. (Photo)
- 6395 **1880-S MS 62.** Good color.
- 6396 **1880-S MS 63.** Prooflike and fully struck. Seldom seen any finer.
- 6397 **1881 AU 50; 1897 AU 50; and a 1912 XF 45.** (Total: 3 coins)
- 6398 **1881 MS 62.**
- 6399 **1881/O AU 50.** A bit softly struck in the centers, there is a bit of deeper orange-gold color on each side and light friction over the highpoints and in the fields. The right loop of the 0 is readily noticeable and there is just a trace of the left side of that digit. Scarce.
- 6400 **1882-CC AU 50.** A common date CC five, but somewhat more difficult in AU. Lightly hairlined.
- 6401 **1882-S MS 61, well struck with deep golden-orange color and a 1901-S MS 62.** (Total: 2 coins)
- 6402 **1882-S MS 63.** Frosty and lustrous with a minimal number of marks.
- 6403 **1883-CC AG 3.** A scarce CC five. Heavily worn and into the rims on the reverse.
- 6404 **1884-S MS 60 Lightly Cleaned.** A few faint obverse hairlines are all that keep this conditionally scarce S-mint from a point or two upswing in grade.
- 6405 **1885 MS 63.** Sharply struck with good luster and a clean cheek.
- 6406 **1885-S AU 50; and an 1886 AU 53.** A nice pair of lightly circulated half eagles. (Total: 2 coins)
- 6407 **1885-S AU 58.** Original and ever so close to new.
- 6408 **1885-S MS 62.** Lustrous and sharply struck.

- 6409 1886-S half eagle AU 55, cleaned; 1909 half eagle XF 45; and a 1907 Indian eagle XF 45. (Total: 3 coins)
- 6410 1889 XF 45 Reverse Scratches. Another scarcer P-mint with an impressively low-mintage of 7,565 pieces.
- 6411 1896 MS 63. A select example of this better P-mint issue, bright and satiny with few appreciable surface marks.
- 6412 1897 MS 60. Semi-prooflike obverse.
- 6413 1897 MS 64. Well struck with light reddish-orange color and remarkably clean surfaces overall.
- 6414 1899 MS 64. A arm's length gem, satiny in appearance and very limited in both the number and severity of abrasions.
- 6415 1900 MS 61. Boldly struck.
- 6416 1901-S MS 62. Lustrous.
- 6417 1902-S half eagle AU 50; and an 1881-S eagle AU 58. (Total: 2 coins)
- 6418 1904 MS 61. Lovely orange-gold accents.
- 6419 1904 MS 62. Deep color.
- 6420 1904 MS 63. Lustrous and well struck with deep reddish-coppery color around the rims on each side.
- 6421 1904 MS 63. A vibrant, relatively mark-free specimen.
- 6422 1905 MS 60. Lustrous and quite bold.
- 6423 1907 AU 58.
- 6424 1907 MS 62. Nearly choice with frosty luster and great eye appeal.
- 6425 1907 MS 63. A choice uncirculated example.
- 6426 1907-D MS 62. Pleasing in appearance with considerable frosty luster.
- 6427 1908 MS 61. Final year of type.

INDIAN HALF EAGLES

- 6428 1908 MS 62. Well struck with much reddish-orange color.
- 6429 1908-D MS 63. Lustrous with deep reddish color in the fields. Minimally abraded with a good "look" overall.
- 6430 1909-D MS 62. A bright, frosty example, precluded from a higher grade by scattered abrasions.

- 6431 1909-O MS 64. The 1909-O is the premier rarity of the Indian half eagle series. It has the lowest mintage in the series with only 34,200 pieces struck, and is extremely rare in mint condition. We cannot remember the last time we sold an uncirculated piece, but it surely has not been in the past year and a half. This coin has fulsome mint luster with no obvious abrasions, and a very strong strike with a well defined mintmark. The 1909-O is one of the major rarities in 20th century gold and Akers estimates that probably fewer than 10 specimens exist in even MS 60-63 condition. (Photo)

Gem Indian Half Eagle

- 6432 1909-S MS 65. A simply incredible example of this elusive S-mint Indian date. This coin has just about everything going for it: absolute rarity, condition rarity in mint state, and excellent visual appeal. The 1909-S is among the top four or five rarest dates in the Indian Head half eagle series, with Akers estimating that no more than 20 pieces exist in MS 64 or better condition. Worthy of a serious five-figure bid. (Photo)

- 6433 1911 MS 60. Clean yellow-gold surfaces.

- 6434 1911 MS 64. Sharply struck with excellent color and strong mint luster. Remarkably clean with the only area of minor abrading being in the field above the eagle.

6435 1913 MS 64. Sharply struck with excellent mint luster and showing only the smallest surface blemishes on either side. A lovely, high-end type coin of this difficult incuse design.

6436 1914 MS 63. Frosty and free of serious marks, with a decisive green-gold tint. A median rarity among Indian half eagles in select condition.

EARLY EAGLES

Circulated Small Eagle \$10

6437 1795 VF 30 Cleaned. B. 3-B. Identifiable by the apostrophe-like chip out of the die between OF AMERICA. This piece is noticeably hairlined in the fields and appears to have been struck on a slightly buckled planchet. There are no large or distracting marks and the coin is well centered on both sides. One of the more affordable examples of the Small Eagle type we have offered recently. (Photo)

Affordable 1796 Eagle

6438 1796 XF 40. Like the 1796 five-dollar, the ten-dollar also has a slightly lower mintage than the 1795 but is several times rarer. It is a very scarce and undervalued issue, of which there are only an estimated 35 to 50 survivors in all grades. This piece shows little of the usual softness seen in the centers of most 1796 eagles, and the fields have considerable remnants of a bright prooflike finish. There are numerous tiny abrasions on each side and several lint marks as well. (Photo)

1797 Heraldic Eagle

- 6439 **1797 Large Eagle VF 30 Brushed.** B. 2-B. First year of the Heraldic Eagle type, this variety is characterized by the "cross" star arrangement on the reverse and die crack through the second 7 in the date. Softly struck in the centers, the fields are peppered with innumerable tiny abrasions and the surfaces show evidence of having been harshly cleaned at one time.

- 6440 **1799 VF 20 Polished.** Large Stars. B. 5-G. Arguably the 1799 ten is the most frequently seen of all early gold coins. As such, it enjoys a constant demand from collectors as a type coin, and this piece, even though cleaned, affords the type collector a rare opportunity to purchase a more affordable example. There are a couple of larger marks on each side and a rim nick at 7 o'clock on the obverse that need to be mentioned in addition to the unnaturally bright surfaces from having been cleaned at one time.

Superb Gem 1799 Eagle

- 6441 **1799 MS 65.** B. 5-F. A scarce variety that was listed as R.8 and untraced when Breen wrote his monograph on the series over 30 years ago. Identifiable as such by the berry far to the right of the final A in AMERICA.

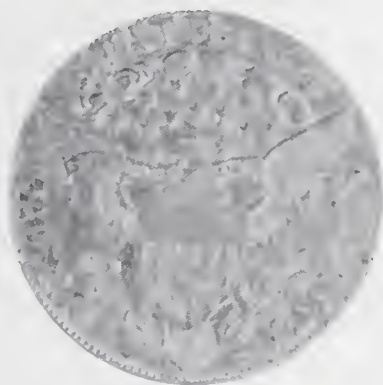

The variety aside, this is an extraordinarily lovely early gold coin. The luster is radiant with just the faintest trace of reflectivity in the fields. The strike is sharp in almost areas with just the slightest softness on the highpoints of the eagle. There are just a few luster grazes on each side and a couple of very minor marks. On the reverse one notices just the slightest accent of red around the devices. A superlative quality early ten. (Photo)

- 6442 **1801 XF 40 Digs.** Wide Date. B. 2-B. Second only to the 1799 in the number of pieces seen, the 1801 is another date that is widely distributed among type collectors who merely wish to own one early eagle of the heraldic reverse design. By degree of detail, this piece is finer than an XF 40 with intricately detailed hair strands and feathers on the eagle. However, there is no luster remaining and on each side are scattered tiny pinprick digs that unfortunately diminish the attractiveness of the coin.

- 6443 **1803 VF 30 Repaired.** B. 1-D. A scarcer variety identifiable by the placement of the arrows far to the right of the N in UNITED. Evenly worn and showing evidence of smoothing in the fields.

- 6444 **1803 VF 35.** Large Reverse Stars. B. 1-E. The 1803 is approximately twice as scarce as the 1799 or 1801, and this variety with the large reverse stars is decidedly more difficult to locate than the Small Stars varieties. This piece has a pronounced greenish-gold color overall and shows few post-striking impairments. There are, however, several adjustment marks placed diagonally in the center of the obverse. Well struck and also well centered.

- 6445 **1804 XF 40 Cleaned.** A rare early ten with a mintage of only 3,757 pieces. Of that number, Breen estimates that a little over 1% may survive today in all grades. This date is so scarce that 1801 eagles have, in the past, been altered to simulate an 1804. There is a long scratch in the lower obverse field and a couple of other smaller ones scattered on each side. Softly defined in the center of the obverse, as always, but well struck on the eagle's plumage on the reverse. Lightly hairlined on each side. (Photo)

LIBERTY EAGLES

- 6446 **1839 Small Letters Fine 12.** The second and scarcer of the two 1839 varieties, with completely remodeled portrait. An elusive issue in any grade, struck from a modest original mintage of 12,447 coins.

- 6447 **1841 AU 50.** Yellow-gold with much of the original luster intact on the reverse and boldly defined features. The 1841 is a fairly elusive issue in VF and XF grades, but specimens grading above that level are indeed rare. Trends \$3,200.

- 6448 **1842 XF 40.** Large Date. The base of the 4 slants curiously to the right. Green-gold surfaces, worn on the high points.

- 6449 **1842 AU 50.** Large Date. An uncommonly high grade specimen, as this date is most often seen in VF or XF grades. Bright yellow-gold surfaces.

- 6450 **1844-O AU 50.** Sharply defined and displaying minimal wear for this early O-mint ten, most often seen in VF condition at best.

- 6451 **1844-O AU 55.** A bold striking with ample amounts of luster surrounding the devices. Impressive quality for this conditionally elusive New Orleans issue.

- 6452 **1845 XF 40.** An extremely scarce and underrated P-mint ten, evenly worn over both sides with scattered abrasions in the fields. One of 26,153 pieces struck, with the vast majority of those either lost or melted through the years.

- 6453 **1846 VF 20.** An underrated P-mint, one of 20,095 pieces struck. Numerous small abrasions are noticed in the fields.

- 6454 **1850 Small Date XF 40.** The scarcer of the two varieties and a difficult coin in any grade. This piece is softly struck and shows pleasing mellow yellow-gold color. The most obvious marks are a pair of shallow scratches at the top of the obverse. Trends \$1,850 (11/15).

- 6455 **1852-O VF 30 Cleaned.** The surfaces have since retuned to a pleasing yellow-gold color. Very scarce in any grade, one of just 18,000 pieces struck.

- 6456 **1855-O VF 30.** Scattered reddish-gold verdigris on either side. Identical in mintage and very similar in rarity to the 1852-O.

- 6457 **1856-O XF 40 Scratches.** A very elusive date, both in terms of absolute rarity and condition rarity with very few pieces extant from a mintage of 14,500 coins. The obverse is impeded by a series of hairline scratches that cover the entire surface, making this piece much more affordable to the collector of rare date tens.

- 6458 **1859-S Fine 12.** The low-mintage (7,000 pcs.) 1859-S is best known for its condition rarity, but is also a most difficult issue in terms of absolute rarity as well. Evenly worn with no serious defects for a coin of this grade.

- 6459 **1860-S Fine 15.** An important rarity among Liberty tens, being far more scarce than even its mintage of 5,000 pieces would suggest. The occasional '60-S is usually VF in grade and the presently offered bright specimen only misses that level by an eyelash. Trends \$3,400 in VF 20.

- 6460 **1861-S XF 45.** An extremely rare No Motto ten, one of 15,500 pieces struck, that is occasionally available in lower grades but prohibitively rare in XF or better. While often weakly struck, this piece is well detailed with good definition on the hair curls, stars, and the eagle. Trends \$4,350 in XF 40, \$18,500 in AU 50. (Photo)

- 6461 **1866 VF 30.** Rare first year With Motto issue, one of a mere 3,780 coins struck. On par with the average grade for this elusive P-mint ten.

- 6462 **1868 XF 40.** Uniformly sharp with bright yellow-gold surfaces. Struck from a mintage of 10,655, the 1868 is very scarce in all grades and virtually nonexistent above XF.

Significant Carson City Eagle

6463 1871-CC XF 40. This minimally worn Carson City ten is significant for several reasons. Overall, it is quite scarce, with relatively few survivors from a mintage of 7,185 coins. But even more importantly, the 1871-CC is generally found only in well circulated condition, with a low-end VF being the average. That puts this already elusive issue near the top of the series for condition rarity. The presently offered specimen, while finely hairlined on the obverse, shows even wear and no appreciable marks. Trends \$6,000. (Photo)

6464 1874-CC Fine 15. Well balanced and original, with the only noticeable distraction being an obverse rim dent at 12 o'clock. Almost the entire population of this elusive CC eagle grades VF or less, putting it high on the list of condition scarcities as well.

6465 1875-CC VF 30. A very rare Carson City date, one of a mere 7,715 pieces struck, and an issue that seldom comes finer than the present example. Even the appearance of an XF would rank among the top specimens known. Both sides display limited marks and some rather extensive hairlining to the surfaces. An important coin for the specialist in both CC and rare date gold.

6466 1880-CC AU 50. A scarce and desirable Carson City ten, of which only 11,190 pieces were minted. This specimen is considerably nicer than most of the issue, tending to peak out in XF grade. Lustrous with only a few light, scattered abrasions. Trends \$3,250.

6467 1881 MS 61. Well struck but baggy.

6468 1882 MS 61. Frosty and fully lustrous.

6469 1882 MS 62. Lustrous but somewhat baggy.

6470 1883 MS 63. A scarce date in uncirculated and rare in the higher mint state grades, the average grade being XF-45 according to Akers. This piece exhibits flashy, orange gold luster with only its share of non-distracting light contact marks. A desirable piece for any collection.

6471 1886-S MS 62. Small marks are scattered over the surfaces.

6472 1886-S MS 62. Good luster. Has the look of a higher grade.

6473 1889-S MS 60.

6474 1891-CC MS 60 Lightly Cleaned. Boldly struck and identifiable by copper staining on the eagle's neck and shield.

6475 1892-CC VF 35. A lightly circulated piece with limited surface marks and detail that could easily pass for XF.

6476 1893 MS 62 Prooflike. An extremely flashy first strike specimen that combines unfathomable depth to the fields with well frosted devices.

6477 1893-CC XF 45. Final year CC ten, with generous luster and attractive russet highlights. Just 14,000 pieces were struck and a scarce issue in any grade.

6478 1894 MS 60 Damaged. There is a deep planchet flake out of the obverse rim at 11 o'clock and someone has harshly rubbed the area leaving numerous hairlines.

6479 1897 MS 60.

6480 1899 MS 63 Repaired on Cheek. Satiny and particularly clean in the fields.

6481 1901-S MS 62. Full strike.

6482 1901-S MS 62. Subtle coloration.

6483 1901-S MS 62. Typically flashy, with excellent color and vibrant mint brilliance.

6484 1901-S MS 63. Lustrous and well struck.

- 6485 1901-S MS 63. Light pinkish-rose color. (Photo)
- 6486 1901-S MS 63. Fully struck with bright, lustrous surfaces.
- 6487 1901-S MS 63. Fully struck.
- 6488 1901-S MS 63. Orange-gold mint luster.
- 6489 1901-S MS 63. Pale olive-green color. (Photo)
- 6490 1901-S MS 63. Flashy mint luster.
- 6491 1901-S MS 63. Bright, lustrous surfaces.
- 6492 1903 MS 62. Just a bit too baggy to grade higher.
- 6493 1903 MS 64. An arm's length gem, clean and lustrous with only the most trivial surface marks.
- 6494 1905-S AU 50. Scarcer late-date issue, one that emerges as a true rarity in mint state grades. Lustrous.
- 6495 1905-S MS 60. Fully struck with excellent luster for this conditionally rare issue, but hampered by faint obverse hairlines.
- 6496 1907 MS 61. Full mint brilliance.
- 6497 1907 MS 63. A razor sharp yellow-gold specimen, just a few discreet obverse hairlines from consideration as an MS 64 coin.
- 6498 1907 MS 63. Not as clean as the previous example, but fully defined and lustrous.

PROOF LIBERTY EAGLE

Blazing Cameo 1905 Proof Eagle

- 6499 1905 PR 64. A rare date as a proof with only 86 pieces struck 89 years ago. Of that number Akers estimates that perhaps 25-30 still exist while Breen states that some 30-35 may still be extant. High grade examples are especially elusive. This is a very attractive, high-end piece that shows a moderate amount of field to device contrast which is quite unusual for the no-contrast proofs struck during most of the early 1900s. Deeply reflective, mirrored pools of reflectivity are seen in the fields and there are only the slightest, wispy traces of contact on either side. (Photo)

INDIAN EAGLES

Affordable Wire Rim Ten

- 6500 **1907 Wire Rim XF 45.** A rare and popular transitional issue, one of a mere 500 pieces minted without intentions of circulation, technically making the Wire Rim ten a pattern (Judd-1774). This specimen, however, was used as a pocket piece, like perhaps a dozen or so of its kind that survive today. It does appear to have been lightly wiped by its long-ago owner and has since taken on a pleasing, milky patina over both sides. The feature that sets this issue apart, the wire rim, is still very much in evidence. If there is such a thing as a budget-minded collector of 20th century gold rarities, then here is the perfect showpiece for that collection. (Photo)

Virtual Gem Wire Rim Eagle

- 6501 **1907 Wire Rim MS 64.** Wire Rim tens are technically a pattern issue but like 1856 Flying Eagle cents, they were struck in sufficient numbers that regular issue collectors have considered sets incomplete without an example. As mentioned above, an estimated 500 pieces were struck, with several melted for assay purposes, the bulk of the mintage being distributed to officials and VIPs. As a result, most survivors are in mint condition and several are quite high grade. This is a lovely, high-end example that has bright, satiny luster and only the most trivial marks on either side. The usual swirling die polish lines are seen in the fields and there is just the slightest touch of light reddish color on each side. (Photo)

Lightly Circulated Rolled Edge

- 6502 **1907 Rolled Edge AU 50.** The highly elusive "hybrid" to the later reworked No Periods variety of this first year Indian ten. Originally intended for circulation, almost all of the 31,550 pieces minted were immediately melted when the design was once again modified, removing the periods before and after the wording on the reverse. Just 50 or so pieces survived, with most of those of choice quality. This coin shows only a few wispy hairlines over the surfaces and a more serious area of cleaning on the reverse along the left border. It is quite possibly the Farouk piece sold in 1954, as many of those coins suffered varying degrees of cleaning. An even greater rarity than the 1907 Wire Rim despite its much higher original mintage. (Photo)

- 6503 **1907 No Motto MS 62.** Minimally abraded.
- 6504 **1908-S VF 30** cleaned; and a **1911-D XF 40**, both scarcer, low-mintage issues. (Total: 2 coins)
- 6505 **1909-S MS 63.** Deep reddish-gold toning frames both sides of this well preserved '09-S. Scarce.
- 6506 **1910-D MS 63.** Clean surfaces but not quite lustrous enough to grade higher.
- 6507 **1911 MS 63.** Dull on the obverse but quite vibrant on the reverse.

- 6508 **1911-D XF 40.** Bright, well struck surfaces for this popular key, showing only a small pin scratch to the left of the date. One of just 30,100 coins minted.

Desirable 11-S Eagle

- 6509 **1911-S MS 64.** Satiny with orange-gold overtones and well frosted devices. The low-mintage 1911-S (51,000 pcs.) is seldom found in uncirculated grades, although the majority of those tend to be of very high quality from a small group discovered in Europe in the 1970s. This piece certainly meets the criteria of a high grade Indian ten, displaying few appreciable marks and alluring color. Quality such as this is not often available outside of a certification holder anymore. (Photo)

- 6510 **1913 MS 62.** Yellow-gold with a clean, satiny appearance.
- 6511 **1926 MS 63.** An ultra frosty specimen, bright and lustrous with pleasing, original color.
- 6512 **1932 MS 63.** Well struck and nice for the grade. Ex: Van Arsdall (B&M, 1/93), lot 2591, flip accompanies.
- 6513 **1932 MS 64.** Stunning. Creamy gold luster flows across the surfaces. The perfect representative for a gold type set.

LIBERTY DOUBLE EAGLES

- 6514 **1851-O XF 40.** Sought after as most affordable O-mint Type 1 \$20. Clean look with the normal light nicks and contact marks.
- 6515 **1851-O XF 40** Cleaned. A bright green-gold example with faint glimmers of prooflikeness in the protected areas. Popular New Orleans date.

- 6516 1851-O AU 50. The most common of the New Orleans double eagles, but in a condition that exceeds the standard fare. Lustrous green-gold surfaces with typical light abrasions in the obverse fields.

- 6517 1852 MS 60. Strongly struck in all areas with especially well defined hair curls on Liberty and complete radials on all the stars. Small, but numerous, marks are peppered across each side as one would expect from an MS 60 coin. There is also a single alloy spot on the obverse by star 11. Obviously rare in this condition, any Type One twenty in mint state is an important coin and well worth the consideration of the advanced collector.

- 6518 1852-O XF 40 Harsh Cleaning. A scarcer O-mint twenty with an unnaturally smooth appearance from an ill-advised scrubbing.

- 6519 1852-O XF 40. Light, even wear, displaying an inoffensive scuffiness in the fields and no real trace of prooflikeness.

- 6520 1854 VF 20. Small X in the right obverse field.

- 6521 1857 AU 58. A scarcer P-mint twenty that is just a whisper of rub from mint state status. The satiny surfaces exhibit complete luster and, on the reverse, appear to be fully uncirculated.

- 6522 1857-S XF 45. Generously abraded, but with considerable remaining luster.

- 6523 1859-O VF 30 Polished. The surfaces display the sharpness of an XF, but have been downgraded by the obvious cleaning. The 1859-O is the fifth rarest New Orleans double eagle, considered by Akers to be more elusive than the much lower mintage 1879-O.

- 6524 1859-O AU 50 Cleaned. A true rarity among O-mint double eagles, ranking behind only the ultra elusive 1854-O and 1856-O issues. The surfaces are rather obviously cleaned and display a few stray marks on the rims of both sides.

- 6525 1860-S XF 40. Lot 2844 from the Wallace Ralston Sale where it was described as "pale green-gold with lustrous orange peripheries. Softly struck for the date...."

- 6526 1861 AU 50. Boldly struck and quite pleasing for the grade.

- 6527 1863-S AU 50. A bright, minimally abraded specimen, considerably above-average for the date.

- 6528 1867-S AU 50 Cleaned. A few small abrasions are noted on the obverse.

- 6529 1871-S MS 60. As with most Type Two twenties, the 1871-S is a condition rarity with AU coins very scarce. Strict BUs are unquestionably rare and valuable as such. This is a well struck piece with good luster and no noticeable surface impairments. Trends \$6,750. (Photo)

- 6530 1872-CC VF 20. A well circulated specimen with traces of reddish-gold color in the protected areas.

- 6531 1872-CC VF 30 Cleaned. A few fine hairlines are most noticeable on the obverse. Very scarce and sought after as a date, one of just 26,900 pieces struck.

- 6532 1874 MS 60. A baggy MS 60, but fully lustrous. Scarcer issue.

- 6533 1874-CC VF 20. Somewhat bright with moderate abrasions.

- 6534 1874-CC XF 40. Light color overall and showing a few small marks that are consistent with the grade. A very elusive CC twenty any finer.

- 6535 1874-S MS 60. Pinkish-gold surfaces with a hint of prooflikeness to the reverse. Specimens up to and including AU 50 are not particularly scarce, but uncirculated pieces can be difficult to locate.
- 6536 1875-CC AU 50 Cleaned. A strong strike with only a modest amount of wear and minimal surface marks.
- 6537 1876-CC VF 35. Extremely pleasing for the grade, with ample prooflike qualities remaining on the reverse.
- 6538 1877-S AU 50; 1893 AU 50; and an 1895-S AU 50. Slightly better date Type Three twenties. (Total: 3 coins)

Prooflike 1878-CC Twenty

- 6539 1878-CC AU 58. A rare date Carson City twenty, struck from a mintage of 13,180 coins, that ranks fourth in overall scarcity among CC double eagles. According to Akers, "a strictly graded AU is a rarity." The surfaces are fully prooflike with appealing two-tone contrast and only a suggestion of rub on the highest points. There is a minimally distracting but identifiable hairline scratch down Liberty's neck just to the left of the lower curls. Among certified examples, only one coin, a PCGS MS 62, breaks the MS 60 barrier, so the presently offered specimen is undoubtedly condition census for this difficult \$20 Liberty. (Photo)

- 6540 1879-O VF 20 Cleaned. Light rim bumps on either side suggesting the coin was once used in a bezel. The scarcity of the 1879-O twenty is easy to comprehend, for just 2,325 pieces were struck in this final year of O-mint double eagle production.
- 6541 1883-CC XF 45. A high end XF specimen with subtle orange-gold accents.
- 6542 1884-S AU 50. Semi-prooflike.
- 6543 1888 AU 58.
- 6544 1888-S AU 50; 1893 AU 58; and a 1905-S AU 50. (Total: 3 coins)
- 6545 1889-CC XF 45, bright semi-prooflike surfaces that are free of appreciable marks; and an 1890-CC Fine 15. (Total: 2 coins)
- 6546 1889-CC XF 45 Cleaned with Reverse Stains. A median rarity Carson City issue, one of just 30,945 pieces struck.
- 6547 1890-CC XF 45. Appealing color and, except for a tiny cut below Liberty's eye, no mentionable marks.
- 6548 1891-S AU 55.
- 6549 1892 VF 35. Scarcely noticeable rim bruise on the obverse just below 9 o'clock. Very scarce as a date, struck from a miniscule mintage of 4,523 coins.
- 6550 1892-CC XF 40. A wholly original example, one of just 27,265 pieces struck.
- 6551 1892-CC XF 45. Highly lustrous for an XF coin and displaying few appreciable marks. Scarcer CC twenty, more elusive than the lower mintage '93-CC.
- 6552 1892-S AU 53, baggy on the obverse; and a 1904-S AU 53, bright and clean for the grade. (Total: 2 coins)
- 6553 1892-S AU 58. Semi-prooflike.
- 6554 1892-S MS 62. Fully lustrous with a few small bagmarks on the cheek of Liberty.
- 6555 1892-S MS 63. Lovely mint bloom with only minimal surface marks. The '92-S double eagle can be found without too much problem in average uncirculated grades, but select examples can be very difficult.
- 6556 1893 MS 63. Fully struck with excellent luster and only marred by a few minor luster grazes on the obverse. A very scarce coin in Choice BU and rarely seen any finer.
- 6557 1894 AU 58.
- 6558 1894-S MS 63. Fully struck with thick orange-gold mint luster and only showing a few minor field marks on the obverse. A scarce coin in MS 63 and seldom seen any finer.
- 6559 1895 AU 55.
- 6560 1895 MS 60. Semi-prooflike.
- 6561 1895 MS 63. A select example, formerly Lot 1617 from Stack's June, 1990 Sale.
- 6562 1895-S AU 50; 1899-S AU 50; and a 1904 AU 50, Cleaned. (Total: 3 coins)
- 6563 1895-S AU 55. Nice color.
- 6564 1896 MS 62. Brilliant.
- 6565 1896-S AU 58.
- 6566 1896-S MS 63. Quite scarce in MS 63 with only a handful of specimens in higher condition. This is quite an attractive piece with bright orange-gold luster that is minimally abraded.

- 6567 1897 MS 60 Reverse Cleaned.
- 6568 1897-S AU 58; 1904 AU 58; and a 1922 AU 58. (Total: 3 coins)
- 6569 1897-S AU 58.
- 6570 1897-S MS 60.
- 6571 1897-S MS 60; 1904 MS 60; and a 1928 AU 58, all from 1988-1990 Stack's Sales. (Total: 3 coins)
- 6572 1897-S MS 62; 1904 MS 62; and a 1927 MS 62. (Total: 3 coins)
- 6573 **1898 MS 63.** Pleasing, well frosted surfaces that display original golden-orange color. Quite scarce in select and better condition.
- 6574 1898-S AU 58. A nice slider.
- 6575 1898-S MS 62. Superior luster.
- 6576 1898-S MS 63. Blazing mint luster, characteristic to this date. Lot 1908 from Stack's May, 1990 Sale.
- 6577 1898-S MS 63. Virtually identical in color and appearance. Lot 3674 from Stack's April, 1988 Sale.
- 6578 **1898-S MS 64.** The '98-S is definitely a condition rarity in MS 64 with full gems virtually unobtainable. This piece has bright, coruscating mint luster and shows only slight evidence of coin to coin contact.
- 6579 **1898-S MS 64.** Another pleasing example of this very difficult issue in this grade.
- 6580 1899-S AU 55. Slightly marked.
- 6581 1899-S MS 60. Bright surfaces.
- 6582 1899-S MS 60; 1904 MS 62; and a 1922 MS 62. The two \$20 Libs are from 1988 and 1990 Stack's Sales and the 1922 Saint was Lot 1932 from MARCA's 1989 San Diego Sale. (Total: 3 coins)
- 6583 1899-S MS 62. Lustrous with attractive golden-olive color.
- 6584 1899-S MS 63. Rich orange-gold color but not quite fully struck up in all areas.
- 6585 1900 MS 61; 1900-S MS 61; and a 1910-S MS 61. (Total: 3 coins)
- 6586 **1900 MS 64.** Satiny and quite clean.
- 6587 1900-S AU 55.
- 6588 1902 AU 55, scarce date, one of just 31,254 pieces struck; and a 1904 MS 62, flashy mint brilliance. (Total: 2 coins)
- 6589 1903 MS 60.
- 6590 1903 MS 63. Pleasing original color. Lot 3680 from Stack's April, 1988 Sale.
- 6591 1904 AU 55. Semi-prooflike reverse.
- 6592 1904 AU 58, two pieces, a well struck pair. (Total: 2 coins)
- 6593 1904 MS 60. Bright, semi-prooflike surfaces.
- 6594 Three 1904 twenties. All grade MS 60, but one has been cleaned. (Total: 3 coins)
- 6595 1904 MS 60.
- 6596 1904 MS 60.
- 6597 1904 MS 61; 1907 Liberty MS 61; and a 1910-S MS 61. (Total: 3 coins)
- 6598 1904 MS 61.
- 6599 1904 MS 61. Several parallel marks on the cheek of Liberty prevent a higher grade.
- 6600 1904 MS 61.
- 6601 1904 MS 62.
- 6602 1904 MS 62. Well struck.
- 6603 1904 MS 62. Full strike.
- 6604 1904 MS 62. Good luster.
- 6605 1904 MS 62. Pinkish-rose color.

- 6606 1904 MS 62.
- 6607 1904 MS 62. Light orange-gold color outlines the devices.
- 6608 1904 MS 62. Full strike.
- 6609 1904 MS 63. (Photo)
- 6610 1904 MS 63.
- 6611 1904 MS 63.
- 6612 1904 MS 63. Original and above-average for the grade.
- 6613 1904 MS 64. Original with just a few light facial marks.
- 6614 **1904 MS 65.** Satiny and especially well preserved, with an original golden-orange patina across both sides. The surfaces, particularly the fields, are refreshingly clean.
- 6615 1904-S MS 60; 1910-S MS 60; and a 1924 MS 60. (Total: 3 coins)
- 6616 1904-S MS 63. Richly colored surfaces, just a few facial marks from choice. Lot 1455 from Stack's June, 1990 Sale. (Photo)
- 6617 **1905 MS 60.** A rare and highly coveted date that is very elusive in mint condition. Only 59,011 pieces were struck and most of these found their way into circulation. This coin is well struck and shows only a few smaller marks scattered across the obverse.
- 6618 1907 MS 62. Semi-reflective.
- 6619 1907 MS 62. Deep orange-gold patina.
- 6620 1907 MS 62.
- 6621 1907 MS 62. Flashy luster, just a bit baggy.

SAINT-GAUDENS DOUBLE EAGLES

- 6622 **1907 High Relief VF 20.** Light marks on the obverse border at 5 o'clock. Forty points of wear looks odd on a High Relief Saint, as if the high points have been chiseled off in a crude attempt to create a low relief coin.

- 6623 **1907 High Relief MS 60 Harshly Cleaned.** Flat Rim. A most unfortunate cleaning, as the highest points appear to have received no noticeable wear or significant abrasions. Numerous hairlines are seen in the fields, more noticeable in certain areas than in others. The collector who has always wanted a mint state High Relief could save a few thousand on this fairly pleasing, if tampered-with specimen. (Photo)
- 6624 1908 No Motto MS 60.
- 6625 1908 No Motto MS 61.
- 6626 1908 No Motto MS 62.

- 6627 1908 No Motto MS 63. NCI for grade and authenticity.
- 6628 1908 No Motto MS 64.
- 6629 1908 No Motto MS 64.
- 6630 1908-D No Motto MS 63. Well struck.
- 6631 **1908-D No Motto MS 64.** Bright, satin-like surfaces with no serious disturbances on either side. A particularly scarce issue above MS 63.
- 6632 1911-D MS 65. A razor sharp yellow-gold specimen with a slight discoloration from the alloy through a couple of the stars on the obverse. (Photo)
- 6633 1913 MS 62. Most of the small abrasions on the coin are on the reverse.
- 6634 1915-S MS 63. Vibrant luster.
- 6635 1915-S MS 63. (Photo)
- 6636 1915-S MS 63. The obverse is particularly choice on this lustrous example.
- 6637 1915-S MS 63. Another especially attractive example of this more desirable date.
- 6638 **1916-S MS 65.** A strict gem that combines great luster with a minimum of surface marks. (Photo)
- 6639 1922 MS 60; and (2) 1924 MS 60. (Total: 3 coins)
- 6640 1922 MS 63. Occasional reddish-gold spotting as struck, most visible on the reverse.
- 6641 1923 MS 63. Original with only light, scattered abrasions.
- 6642 1923 MS 64. Satiny with shimmering pinkish-gold centers. Uncommonly choice for this tougher P-mint Saint.
- 6643 1924 MS 60.
- 6644 1924 MS 62. Pinkish-gold with a light accent of olive.
- 6645 1924 MS 62.
- 6646 1924 MS 63.
- 6647 1924 MS 63.
- 6648 1924 MS 63. Lot 1227 from the 1987 ANA Mid-Winter Sale.
- 6649 1924 MS 64. Tiny reverse rim bump at 9 o'clock.

Pleasing 1926-D Double Eagle

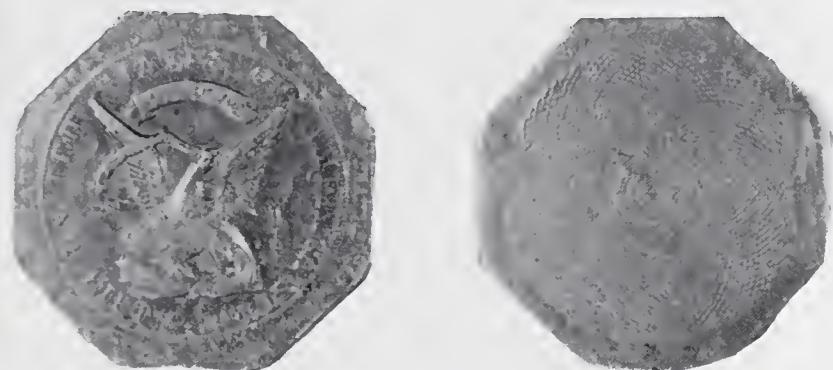

- 6650 **1926-D MS 63.** Once considered one of the two rarest Saint-Gaudens issues, this issue is now ranked in the top dozen or so dates in overall scarcity. This select example is frosty and quite well struck, displaying only a few appreciable marks on either side. (Photo)
- 6651 1926-S VF 30 Cleaned. Both sides are rough from this rather abrasive cleaning. A difficult, heavily melted issue, certain to be affordable.
- 6652 **1926-S MS 60 Reverse Planchet Flaw.** A bright, minimally abraded semi-key, easily recognized by the vertical defect down the eagle's breast and into the rays.
- 6653 1927 MS 63.
- 6654 1927 MS 63. (Photo)
- 6655 1927 MS 63. (Photo)
- 6656 1927 MS 63.
- 6657 1927 MS 63.
- 6658 1927 MS 63.
- 6659 1927 MS 63. (Photo)
- 6660 1927 MS 63.
- 6661 1927 MS 63.
- 6662 1927 MS 63.
- 6663 1927 MS 63. Lot 1811 from the Las Colinas Sale.
- 6664 1927 MS 63. Lot 785 from Stack's June, 1990 Sale.

- 6665 1927 MS 64. A high end specimen that narrowly misses gem status.
- 6666 1927 MS 64. Frosty with pleasing golden-orange color.

TERRITORIAL GOLD

- 6667 1853 Assay Office Twenty-Dollar, 900 Thous. MS 62 Rim Repair. K-18, R.2. A lovely Assay twenty that is fully lustrous and shows just a few light, scattered abrasions on either side, with none of the often seen large marks so common on these high denomination territorials. The rim repair mentioned above refers to several bumps that have been expertly smoothed. Altogether a pleasing, high grade example. (Photo)

- 6668 1852 Assay Office Fifty-Dollar, 900 Thous. Fine 15 Mount Removed. K-18, R.2. A rough looking example of this popular territorial gold coin. There are several rim bumps and numerous surface nicks, and on the reverse it appears that a mount for a buckle was removed leaving both a long and short vertical scrape where removed. (Photo)

- 6669 (1842-52) A. Bechtler Dollar, 27G. 21C. XF 40 Light Damage. K-24, R.3. Well centered with reddish peripheral color. There are several obverse marks that are deep enough to have left a raised impression on the reverse. Not problem-free but one of the more affordable Bechtler dollars one will find. Listed on page 260 of the current *Guide Book*.

- 6670 1850 Moffat & Co. Five-Dollar VF 30. K-7a, R.4. Large Eagle Reverse. Softly struck in the centers with a pronounced greenish-gold color and showing no singularly distracting marks on either side. Listed on page 263 of the current *Red Book*.

CALIFORNIA FRACTIONAL GOLD

- 6671 1865 Liberty Head Round Quarter Dollar XF 40, BG-822, R.5; 1873 Indian Head Round Quarter Dollar AU 55 bent, BG-872, R.6; and an 1872 Indian Head Round Half Dollar AU 55 reverse scratches, BG-1048, R.5. (Total: 3 coins)

PATTERNS

- 6672 1850 Three-Cent Silver, Judd-125 Original, R.4, PR 55. Radiated liberty cap obverse, palm branch reverse, struck in silver. Nicely toned after an old cleaning, with lintmarks above the date. Lot 4561 from the Charmont Sale.

- 6673 1862 Liberty Eagle, Judd-297, R.3, VG 8. Regular dies obverse, reverse similar to regular issue but with GOD OUR TRUST on the scroll, struck in copper. Bruised and retooled at the obverse border at 4 o'clock and corresponding reverse area. Formerly Lot 2220 from Stack's Mail Bid Sale in July, 1991.

CERTIFIED COINS

HALF CENTS

- 6674 PCGS 1797 Plain Edge Fine 15. Breen 2-A. Lovely olive-brown surfaces that are well struck throughout, with diagnostic die crack through top of UN in UNITED.
- 6675 ANACS 1804 half cent VF 20, crosslet 4, stems; and an 1806 cent Fine 12, evenly struck and worn. (Total: 2 coins)
- 6676 ANACS 1854 MS 62 Brown. Well struck.

LARGE CENTS

- 6677 PCGS 1793 CHAIN AMERICA VG 10. S-3, R.3. The "Leaning R" variety with irregular spacing in the letters of LIBERTY, the R being too large, high, and leaning to the right. A darkish specimen that, as always, is a grade or so higher on the reverse. The surfaces are occasionally granular, not affecting the lettering or other devices. An affordable compromise grade for the collector with a budget, but not wishing an obliterated obverse on this popular first year type.

Exceptional Wreath Cent

6678 **PCGS 1793 Wreath Cent Vine and Bars AU 55.** S-8, R.4. The so-called Triangular Bow reverse with a high, heavy bow that is almost triangular in shape. A lovely Wreath Cent that is tied with several others at the bottom of the condition census for the variety. The surfaces are exceptionally well struck and the fields have a slightly dished appearance, suggesting having been struck from polished dies. There is a delicate diagonal die crack across the reverse (as always) and faint evidence of die clashing in the right obverse field. Lustrous with glossy brown color. (Photo)

6679 **ANACS 1794 Fine 15.** S-49, R.3. Distinguished by the braided upper locks on the obverse and mated with the "tough old lady of the big cents," Reverse X. The surfaces are a uniform dark brown with minor porosity, and show a few surface marks on each side.

6680 **NGC 1794 XF 45.** S-59, R.4. A scarcer variety that is characterized by the double cutting on the left ribbon bow and a diecutter's slip on the right wreath where it crosses the ribbon. This is a lovely, well centered coin, struck on a tight, non-porous planchet. Choice for the grade with clean, virtually unmarked surfaces and even medium brown color.

6681 **ANACS 1795 Plain Edge.** Genuine-Cleaned-Retoned. We grade the coin AU 50 Cleaned. S-76b, R.1. Well defined and not showing any obvious marks on either side. However, the surfaces have an unnaturally bright sheen to them and are toned an electric blue with faint red and an overall brownish caste.

6682 **PCGS 1796 Draped Bust AU 53.** S-119, R.4. A Nichols Find variety, this piece has pleasing dark brown patina with fair amounts of mint gloss remaining. The leaves on the reverse are bluntly detailed, as always, but the obverse is well defined. There is one small spot in the bull's eye center of the obverse—this being the only mentionable defect on the coin. (Photo)

6683 **NGC 1797 Reverse of '97, Stems AU 58 Brown.** S-140, R.3. A lovely example of the variety that is well within the condition census. The surfaces show light rub on the highpoints of the design and overall the fields and devices are clean and problem-free with a good strike. The die bulge is not too advanced and OF is still clearly discernable. (Photo)

Mint State Nichols' Hoard S-135

- 6684 PCGS 1797 Reverse of '97, Stems MS 63 Brown. S-135, R.4. Another Nichols Hoard variety, this piece has lovely mint luster with medium brown patina that shows faint glimmers of red underneath. The strike is razor sharp on the obverse with fully defined hair curls, and well defined in most areas on the reverse. An exceptional early cent in virtually unimprovable condition. (Photo)

- 6685 NGC 1798 AU 58 Brown. S-173, R.4. A mid-condition census coin that appears fully uncirculated with spotty remnants of original red color still seen on both sides. The characteristic rim break is seen over RTY of LIBERTY as seen on almost all known specimens of this variety. (Photo)

- 6686 NGC 1802 AU 58 Brown. S-239, R.3+. Formerly sold in the Montgomery Collection (B&R, 2/76), lot 1074, flip included, where it was described in part as "... Light olive and magenta color interspersed with pleasing light brown. One of the finest known specimens of this issue." The Condition Census is 65+-55 (2)-50 (2)-40 (6+). A rare opportunity for the Large cent specialist. (Photo)

- 6687 PCGS 1811 AU 55. S-287, R.4. An attractive, high-grade example of this very scarce cent type. The surfaces show the usual deep brown color with much of the mint gloss still in evidence. There are no distracting blemishes on either side and in general the strike is strong in most places. If a fault must be found with the coin, it would be that the dies appear to have been out of alignment at the time of striking, leaving the left side of the coin weak while the right side is very strong. (Photo)

- 6688 ANACS 1814 VG 8, minor corrosion; 1821 VG 8; and an 1857 Braided Hair XF 40, N-2. (Total: 3 coins)

- 6689 PCGS 1814 XF 45. Crosslet 4. Deep chocolate-brown surfaces, struck a trifle off-center to the right. Final year of the Classic Head design and a difficult type to locate in minimally worn, problem-free condition.

- 6690 ANACS 1834 MS 62 Brown. Attractive light brown color and well defined overall. There is a delicate die crack outlining most of the obverse stars.

- 6691 PCGS 1838 MS 60 Brown. Glossy, even brown surfaces.

- 6692 NGC 1842 AU 50 Brown. There are a couple of slide marks across the face and left obverse field.

- 6693 NGC 1845 AU 58 Brown. A few marks on the obverse.

- 6694 ANACS 1850. Genuine-Cleaned. We grade the coin AU 58 Cleaned. Bright surfaces with a deep blue patina accenting the highpoints of the devices.

- 6695 PCGS 1851 MS 64 Red. Well struck with exceptional color, just showing a little bit of light carbon flecking on each side.

- 6696 PCGS 1852 MS 65 Red and Brown. The obverse shows almost full mint red while the reverse is slightly mellowed a few shades. A very attractive and original Braided Hair Large cent.

- 6697 PCGS 1853 MS 65 Red. Lovely, original color—even, unmellowed mint red—the luster sparkles over the surfaces of the coin. Well struck and problem-free. (Photo)

6698 PCGS 1853 MS 66 Red. An impeccable frosty specimen, pinkish-gold in color with only the tiniest speck of discoloration on Liberty's cheek. One would be hard pressed to locate a finer example of this otherwise fairly common issue. Population: 11 in 66, none higher. (Photo)

6699 ANACS 1854 MS 63 Red and Brown. Well defined throughout with brown color in the fields and original red outlining the devices.

6700 PCGS 1854 MS 66 Red. The surfaces on this newly graded example are absolutely pristine, being incredibly void of noticeable abrasions and carbon staining. We are fortunate to offer two Braided Hair cents at this lofty grade level, with this coin the first of the date so graded by PCGS, none higher. (Photo)

6701 ANACS 1855. Genuine-Cleaned. We grade the coin AU 55 Cleaned.

FLYING EAGLE CENTS

6702 ANACS 1856 Cleaned, Ungraded. We grade the coin AU 58. The hairlining is only evident on the obverse and the passage of time has tended to mute the effects of the cleaning somewhat. Fully struck in all areas, and showing a subdued brown with golden undertones, with no obvious surface impairments other than the cleaning. (Photo)

6703 PCGS 1857 MS 63. A razor sharp strike, golden-tan in color with splashes of deeper reddish-gold toning across the obverse.

INDIAN CENTS

6704 PCGS 1861 MS 63. A high end example of this scarcer copper-nickel date, very well struck down to the tips of the feathers.

6705 ANACS 1870 AU 55. Some mint red still remains.

6706 NGC 1870 MS 65 Brown. Glossy and struck in full, with obvious remnants of mint red adhering to the devices.

6707 NGC 1874 MS 65 Red and Brown; and an 1878 MS 65 Red and Brown, both well struck and exhibiting a mottling of the original golden-orange color. (Total: 2 coins)

6708 PCGS 1875 MS 64 Red. Fully defined with only some trivial smudging seen on the reverse. Scarce. Population: 16 in 64, 16 higher.

6709 PCGS 1902 MS 64 Red. Very well struck with a curious and obvious lump of metal just below the eye. Interesting and also very nice quality.

6710 PCGS 1908 MS 65 Red and Brown. Vibrant color and luster, with a mottled "woodgrain" appearance to the obverse.

6711 PCGS 1909 MS 63 Red and Brown, deep mottled surfaces; and a 1937 PR 63 Red and Brown, minor obverse spotting. (Total: 2 coins)

6712 NGC 1909 MS 64 Red, 3 Pieces. Colors range from red to red-gold. (Total: 3 coins)

6713 NGC 1909 MS 65 Red. Fiery red gold luster sets off this fine example of the last year of issue.

6714 NGC 1909 MS 65 Red. Rich, creamy luster rolls across the surfaces of this popular type coin.

LINCOLN CENTS

6715 PCGS 1909-S VDB MS 64 Red and Brown. Original, unmarked surfaces that would require a bit more luster to reach the gem level. The traditional Lincoln key, always in demand.

6716 NGC 1912 MS 67 Red. The first in a mini-run of spectacular Lincoln cents. Virtually flawless and struck with incredible sharpness, right down to the last whisker on Lincoln's beard. In fact, there is little one could find fault with on this exceptional cent. One look and you'll see why. Population: 1 in 67, none higher.

6717 PCGS 1915 MS 67 Red. Pristine in every respect, exhibiting razor sharp definition and gloriously preserved surfaces. Here's a 1915 Lincoln that would never require upgrading. Population: 1 in 67, 1 higher.

6718 PCGS 1918-D MS 67 Red. An incredible gem with blazing luster and flawless surfaces. The only coin graded so high by either service with none graded higher! Well known among specialists as a date which is quite rare in red uncirculated grades. Truly a rare coin.

6719 PCGS 1919 MS 67 Red. One of only 5 graded as such by PCGS with none higher. An incredible blazing gem with immaculate color and fields. Certainly among the finest known to exist.

6720 PCGS 1919-D MS 67 Red. An amazing coin that features fiery reddish-orange color, intense mint luster, and almost perfectly preserved surfaces. With a mintage of over 50 million pieces, it is hard so say with real certainty that this is the finest known 1919-D Lincoln, but here goes. I bet this is the finest 1919-D on the face of the earth. Period. Population: 1 in 67, none higher.

6721 PCGS 1927 MS 67 Red. One of only 2 coins graded so high with none finer. This amazing gem has light overtones of attractive golden color over the original red surfaces.

6722 PCGS 1955/55 Doubled Die MS 60 Brown. Quite pleasing for this modest grade, with suggestions of faded red about the devices.

6723 PCGS 1984 Doubled Die MS 67 Red. A superior quality specimen, identified most easily by the doubled ear on Lincoln.

TWO-CENT PIECE

6724 PCGS 1867 MS 66 Red and Brown. Satiny and struck with incredible sharpness, displaying lovely rose overtones. One of the nicest we've seen for the date. Population: 1 in 66 (4 in 66 Red), none higher.

PROOF TWO-CENT PIECES

6725 NGC 1868 PR 63 Red. Bright surfaces with one noticeable spot on the reverse.

6726 NGC 1870 PR 65 Red and Brown. Well mirrored surfaces with speckled overlays of green and orange iridescence.

6727 NGC 1872 PR 65 Brown. Glossy with outlines of faded mint red about the peripheral devices.

THREE-CENT SILVER

6728 PCGS 1851-O MS 61. Silvery-gray with hints of golden color at the borders.

Glorious 1855 Trime

6729 NGC 1855 MS 66. One of, if not the finest example of this key date Type Two issue known to exist. The luster on this incredible coin is nothing short of scintillating, being fully brilliant and white, showing as much vibrancy as we have ever seen on a three-cent silver of this type. Equally impressive are the strike and surface quality, with only minor die clashing noticed on the reverse. Population: 1 in 66, none tied or higher by either service. (Photo)

Superb Type Two Three-Cent Silver

6730 NGC 1858 MS 67. An awe-inspiring, untuned example that is made even more eye appealing by its heavily frosted devices. The backdrop for these utterly white features are highly lustrous with an almost semi-prooflike sheen and display wispy die polishing on either side. The obverse lettering, as if most often the case with the Type Two design, is a trifle soft. We could hardly imagine a finer, fully brilliant three-cent silver. Population: 4 in 67, none higher.

6731 NGC 1859 MS 67. First year of the Type Three design and what an impressive way to start off this sensational little group of type. As with the 1855 and 1858, a brilliant example, this piece exhibiting shimmering, satiny luster and well frosted devices. The obverse shows a trace of muffled die clashing about the star and only the slightest frost break near the tips. As a date, the 1859 does show up in MS 64 to MS 65 condition, but superb gems are of the utmost rarity. Population: 2 in 67, none higher.

- 6732 **PCGS 1865 MS 66.** An unquestioned business strike with repunching plainly evident on the 165 of the date. Additionally, although the fields show heavy die striations, there is little actual reflectivity. Fully struck and showing die clash marks on each side. There is a lovely overlay of olive-green, red, and golden toning on each side with some grayish-brilliance showing in the center of the reverse. Unknown as a business strike until 1956, and still very scarce today. Population: 1 in 66, only 1 finer. (Photo)

PROOF THREE-CENT NICKELS

- 6733 **PCGS 1876 PR 64.** Deeply reflective with overlays of milky golden-gray patina.
- 6734 **PCGS 1879 PR 64.** Well frosted on the obverse and quite close to gem quality.

- 6735 **PCGS 1881 PR 67.** An outstanding three-cent nickel that would be the perfect type coin. The surfaces are brilliant and the fields deeply mirrored with not even the smallest surface imperfection visible to the unaided eye. Population: 20 in 67, 3 finer. (Photo)
- 6736 **PCGS 1883 PR 65.** A flashy, deeply mirrored specimen, with streaks of reddish-gold toning on either side. (Photo)
- 6737 **PCGS 1884 PR 65.** The obverse is toned in a deep shade of autumn-gold.
- 6738 **PCGS 1886 PR 65.** Hairline and spot free with a touch of golden color on the portrait. Proof-only date.
- 6739 **PCGS 1888 PR 65.** Attractive two-toned obverse.

SHIELD NICKEL

- 6740 **NGC 1883 MS 65.** A later die state with numerous die breaks, but super luster for a nickel product.

PROOF SHIELD NICKELS

- 6741 **NGC 1869 PR 66.** The flashy mirrored surfaces show much brilliance overall with a slight bit of light gray patina in the center of each side. A lovely proof. (Photo)
- 6742 **PCGS 1870 PR 64.** Toned in somewhat irregular shades of gold, blue, and rose, with strong underlying mirrors.
- 6743 **NGC 1876 PR 65.** Lovely sky-blue and golden pastel toning. (Photo)

LIBERTY NICKEL

- 6744 **PCGS 1901 MS 64,** delightful blue and gold toning; 1911 MS 64, semi-prooflike; and a 1912 MS 64. (Total: 3 coins)

PROOF LIBERTY NICKEL

- 6745 **NGC 1907 PR 67.** Superb quality in a proof Liberty nickel and a good match for the 1881 three-cent nickel and the 1913 Type One proof in the same grade, all of which are from the same high quality proof type set. This piece is also deeply mirrored (like the 1881 three-cent) with much underlying brilliance, and is toned in magnificent shades of deep blue with lavender-golden accents on the obverse and pale golden on the reverse. Population: 3 in 67, none are finer. (Photo)

BUFFALO NICKELS

- 6746 **PCGS 1913 Type One MS 62;** 1929 MS 63; and a 1935-D MS 63, typically struck but lustrous. (Total: 3 coins)
- 6747 **PCGS 1930 MS 64;** 1930-S MS 64; and a 1935-S MS 64, all nicely toned examples. (Total: 3 coins)
- 6748 **NGC 1937-D Three-Legged AU 55.** Fairly well defined with a clean, glossy appearance and subtle rose coloration in the protected areas.

Choice Example Of Mr. Young's Blunder

- 6749 PCGS 1937-D Three-Legged MS 63. It is rare when an error in U.S. coinage can be traced to the individual who was responsible for creating that error. In 1937, a Mr. Young, who was then new to the mint and under pressure to complete a quota of coinage, took an emery stick and ground off evidence of die clashing from a pair of dies. But in his haste he also inadvertently ground off part of the foreleg of the bison. Only one pair of dies was so affected and mint state examples are very rare although lower circulated coins are always available for a price. This piece is well struck, but not fully so, with untuned surfaces that have a pleasing satiny appearance and evidence of only slight bagging marks. Population: 90 in 63, 52 finer. (Photo)

- 6750 PCGS 1938-D nickel MS 65, golden toned; 1940 dime MS 66, pale color; 1942-D dime MS 65 Full Bands, untuned; 1943 dime MS 65 Full Bands, brilliant; and a 1945-D dime MS 64 Full Bands, lustrous. (Total: 5 coins)

- 6751 PCGS 1938-D/S MS 65. Sharply defined with concentric shades of golden-violet and blue on the reverse.

PROOF BUFFALO NICKEL

Stunning Proof Type One Buffalo

- 6752 NGC 1913 Type One PR 67. This is the third and final piece in this magnificent type set of nickel coins, all graded PR 67, which also contains a three-cent nickel and a Liberty nickel. This coin has riveting, original color—concentric rings of rainbow toning around the peripheries with monochromatic centers. There is very light fly-specking evident on each side, but this has little effect on the overall beauty of the coin. Population: 5 in 67, none are finer. (Photo)

PROOF JEFFERSON NICKEL

- 6753 ANACS 1939 nickel PR 63, hazy patina; 1941 nickel PR 63, also hazy patina; and a 1950 half MS 63. (Total: 3 coins)

EARLY HALF DIME

- 6754 NGC 1794 Fine 12. V-1. R.7. The scarcest variety of this first year of regular issue for the half dime series. Even wear, the silvery-gray surfaces show a slight rose colored tinge on the highpoints. There are a few shallow adjustment marks on the lower obverse but these detract little. This rare variety was absent from the generally definitive Norweb Collection.

BUST HALF DIMES

- 6755 NGC 1829 AU 58. V-12, R.2. Much mint luster remains. The variety is distinguished by the tiny spine over S3.
- 6756 NGC 1829 MS 61. V-3, R.1. One of only three varieties to show three pale gules on the reverse shield. Bright fields with deep bluish-golden toning.
- 6757 NGC 1830 MS 61. V-3, R.4. Semi-reflective surfaces, with dark toning.

6758 NGC 1830 MS 61. V-3, R.4. Showing the die crack around star 1 as sometimes seen on this variety. Die clashed on each side with some of the shield showing in the area of the ear of Liberty. Tawny gold toning with hints of light blue.

6759 NGC 1831 MS 62. V-1c, R.1. Extensively cracked on the reverse and showing both the top and bottom of S2 filled. Deep golden-rose toning.

6760 NGC 1832 MS 64. V-8a, R.2. With glittering, jewel-like visual appeal, this coin has deep blue peripheral toning with golden toward the centers.

6761 NGC 1833 AU 58. V-4c, R.2. Subdued steel-gray and blue toning.

6762 NGC 1834 MS 63. V-4, R.1. Well struck with pale iridescent blue on the obverse that contrasts boldly with the splendid rose-gold covering the reverse.

6763 NGC 1835 AU 55. Large Date, Large 5 C. V-4, R.3. Steely gray-brown.

6764 NGC 1836 AU 58. V-2, R.2. Deep iridescent blue toning with hints of light gold at the rims.

6765 NGC 1837 MS 63. Large 5 C. V-1, R.1. Well defined with deep gray and blue toning that is well balanced on each side. Marred only by a scratch in the left obverse field.

SEATED HALF DIMES

6766 NGC 1837 No Stars VF 35. Large Date. Unlisted in Valentine. Pleasing, glossy blue-gray surfaces.

6767 NGC 1837 No Stars XF 45. Large Date. V-1. Strongly repunched on all of the digits in the date and triple punched on the 8. Rich blue-gray toning tinged with gold.

6768 NGC 1837 No Stars AU 55. Small Date. V-6a. Attractive golden-russet toning and quite appealing. One of the scarcer varieties of Small Date 1837 half dimes.

6769 NGC 1837 No Stars MS 62. Large Date. V-2. Deep speckled blue-green toning with rich golden-rose accents at the margins.

6770 NGC 1838 No Drapery AU 50. V-1. Deep, original patina.

6771 NGC 1838 No Drapery MS 62. V-8. Solid, chunky stars, sharply struck with warm gold and charcoal toning.

6772 NGC 1838 No Drapery MS 63. V-6. Struck from a reverse that was first cut for 1837 coinage. Well defined with subdued pink and charcoal-gray toning.

6773 NGC 1839 No Drapery XF 45. V-2. A colorful coin with mottled blue and gold toning. Popular as a three-year type.

6774 NGC 1839 No Drapery AU 55. V-1. Toned and nice for the grade.

6775 NGC 1840 No Drapery AU 50. V-4. Well struck on the figure and rims. Steel-gray toning tinged with brown, blue, and gold.

6776 NGC 1842 AU 58. V-4. Attractively toned and well struck.

6777 NGC 1844 AU 58. V-3a. Much luster remains and the surfaces show a flush of champagne-golden toning.

6778 NGC 1844 MS 64. V-3. Sharply defined with bright mint luster and showing scattered golden toning in the centers with patches of deeper blue at the margins. A lovely early type coin. Population: 24 in 64, 20 finer.

6779 NGC 1845 AU 55. V-4. Original, deep toning.

6780 NGC 1849/6 MS 63. Breen-3053, unlisted in Valentine. Close examination shows the loop of a 6 inside the 9. Electric blue with a deep violet tone in the center of the obverse, the reverse shows a light golden center.

6781 NGC 1850 MS 63. V-2. Well struck, bright overall with mottled blue and golden toning.

6782 PCGS 1850 MS 65. A dazzling semi-reflective example, displaying full brilliance on both sides and struck with nearly complete sharpness. Certainly not a rarity among Stars Obverse half dimes, but gems can be considered quite scarce. Population: 10 in 65, 3 higher.

6783 NGC 1851 MS 64. V-1. Deep blue and reddish-golden toning, this is an original piece with bright underlying mint luster.

6784 NGC 1853 No Arrows MS 66. A bold, wonderfully preserved specimen, each side colorfully framed in vivid shades of blue, rose, and reddish-orange. The 1853 No Arrows is a heavily melted issue due to weight reduction later in the same year. A small, but relatively high grade group of survivors are in collectors hands, but these generally peak out at MS 64 grade. Superb examples are very elusive. Population: 3 in 66, none higher.

6785 NGC 1853 Arrows AU 58. V-2a. Silvery-gray with slightly deeper color at the margins.

6786 NGC 1853 Arrows AU 58. V-4. Deep silvery-gray toning with blue accents on the devices.

6787 **NGC 1853 Arrows MS 66.** Deeply, but not quite as colorfully toned as the superlative No Arrows issue just offered, with both sides layered in somewhat irregular blue and golden-violet hues. The underlying surfaces are free of visible marks and struck with unusual boldness. Population: 10 in 66, 1 higher.

6788 **NGC 1854 Arrows AU 58. V-1.** Lovely pastel toning with good remaining luster.

6789 **PCGS 1854 Arrows MS 65.** Extremely sharp and lustrous, with a delicate layer of speckled violet toning primarily across the obverse. While minted in substantial numbers and not too scarce in lesser grades of uncirculated, gems of this date are surprisingly difficult. Population: 7 in 65, 1 higher.

6790 **NGC 1855 Arrows MS 61. V-2.** Well struck with variegated toning.

Awe-Inspiring 1855 Arrows Half Dime

6791 **NGC 1855 Arrows MS 68.** For those who have submitted large numbers of coins to the major grading services, it comes as no great surprise that an MS 68 in anything, be it a common date Mercury dime or a proof Kennedy half, is awfully hard to obtain. But for a nearly 140 year-old silver type coin to receive an MS 68 rating, now that's a headline story. The coin being discussed here, of course, borders on perfection and exhibits full mint brilliance throughout. The devices are as frosty as one could ever hope for and are set against sparkling fields. Final year of this three-year design and a coin that is destined for a finest only collection. Population: 1 in 68, none equal or higher for the entire type by either PCGS or NGC! (Photo)

6792 **NGC 1856 AU 55. V-1.** Speckled golden and russet toning.

6793 **NGC 1857 MS 62. V-9.** Soft, silvery luster. Struck from a worn die.

6794 **NGC 1858 AU 58. V-3.** Iridescent blue and russet toning.

6795 **NGC 1859 MS 64.** The 1859 half dime was Assistant Engraver Anthony Paquet's first work to reach actual production. This remodeling of Gobrecht's original design is most often noted for the hollow centers in the stars, a design element not found on any other U.S. coin. Perhaps because the figure of Liberty itself was not well executed, or because he did not wish another engraver doing his work, Chief Engraver James Longacre remodeled the half dime again in 1860, after only 340,000 pieces of the Paquet design had been struck at the Philadelphia mint. A lovely golden toned specimen with tremendous luster left over from the dies initial usage to strike the proofs of this year.

6796 **NGC 1860 MS 61. V-1.** Struck from clashed dies, the surfaces are suffused with blue and gold color.

6797 **NGC 1860 MS 63. V-3.** Subdued matte silver surfaces. Valentine states that proofs were struck from this die pairing, perhaps explaining the crisp detailing on this piece.

6798 **NGC 1861 AU 55. V-1.** Deep blue, gold, and violet toning. A popular Civil War date.

6799 **NGC 1861 AU 58. V-2.** Steel-gray toning.

6800 **NGC 1871 AU 58. V-1.** Struck from heavily clashed dies, deep blue-gray toning over both sides.

6801 **NGC 1871-S AU 55. V-1.** Deeply toned with a couple of small marks on the upper obverse.

6802 **NGC 1872-S AU 58. Mintmark Above Bow. V-2.** A reasonably limited, late date mintage of 362,000 pieces and the presence of two distinctive mint mark types give S-mint half dimes of this date added popularity. Muted red-gold and gray toning.

6803 **NGC 1872-S MS 63. Mintmark Below Bow. V-3.** Frosty silver with a blush of peach-gold. A well struck and somewhat prooflike S-mint half dime.

6804 **PCGS 1872-S MS 65.** A gem example of this popular type coin. Quite lustrous under attractive original green and blue toning.

6805 **NGC 1873-S AU 58. V-1.** This coin presents a subtle, satiny, silvery glow and is lightly toned. Final S-mint half dime.

PROOF SEATED HALF DIMES

6806 **NGC 1859 PR 62. V-1.** The reflective fields display a steely gun-metal toning with subdued gold at the denticles. A one-year type coin, redesigned by A. Paquet with hollow stars and a slightly altered figure of Liberty. An underrated coin as a proof.

6807 **NGC 1863 PR 64. V-1.** One of only 460 original proofs struck in this Civil War year. A mere 18,000 business strikes were produced, making collector demand for all proofs quite intense. This near-gem shows a melley of blue-gray, deep rose, and pale gold over its deeply mirrored fields.

6808 **NGC 1873 PR 64.** Evidence of light die clashing is noted in the reverse fields; the strike is generally sharp except on the upper left portion of the wreath, and there is little evidence of coin-to-coin contact. Brilliantly mirrored under rich, clear, red-gold toning that verges on purple for arresting beauty. Final year of issue for the denomination.

EARLY DIME

6809 **ANACS 1798/97 16 Stars on Reverse VG 8.** Medium-gray with sharper definition on the reverse than on the obverse. A few insignificant marks are seen across the shield.

BUST DIME

6810 **NGC 1827 MS 63.** Highly lustrous under a blend of antique-gold and steel-blue toning. The strike is sharp in some areas and somewhat weak in others, such as the eagle's right wing and adjoining area of the shield. Population: 10 in 63, 24 higher.

SEATED DIMES

6811 **PCGS 1848 MS 65.** A silvery-gray nearly white gem, a bit more satiny on the reverse than on the lustrous obverse. All details are quite sharp, although just short of full. The 1848 dime is elusive in all grades of uncirculated and gems can be considered truly rare. Population: 2 in 65, none higher.

"Snow White" 1853 No Arrows Dime

- 6812 NGC 1853 No Arrows MS 67. Superb quality in this scarce issue. Most old tenor silver was melted in 1853-54 because of the higher silver content. As a result, even though the mintages do not reflect it, the pre-Arrows issues are quite scarce in all grades. This is the only MS 67 certified as of December, 1993 and it is exceeded by one other piece at the MS 68 level. The surfaces appear immaculate and snowy-white, being completely untoned throughout. Fully struck in all areas with thick, frosted mint luster.

Fantastic 1853 Arrows Dime, Tied For Finest Known

- 6813 NGC 1853 Arrows MS 68. A scintillating, flawless Arrows dime. This piece has bright, frosted surfaces that appear to be completely devoid of post-striking impairments. The only ripple in the fabric of this coin are the die clash marks seen in the fields on each side. These, of course, are not flaws in the technical sense as they were transferred onto the coin at the time of striking. Every nuance of detail is fully brought up on each side of this immaculate coin. This piece is tied for finest known with one other coin, a PCGS MS 68. (Photo)

- 6814 **PCGS 1854 Arrows MS 66.** Unlike the first year of issue 1853, the 1854 dimes were not saved in larger numbers at the time of issue, the newness of the altered design apparently having worn off. At the MS 66 level this coin is tied for finest known honors with 1 other PCGS coin and 3 NGC pieces. This is a lustrous, fully struck dime that is light in the centers with deepening violet-russet toning toward the rims and no mentionable flaws on either side. A lovely example of this scarcer date within the Arrows type. (Photo)

- 6815 **PCGS 1858 MS 67.** A satiny, blemish-free specimen that is outlined on both sides in soft golden-rose toning. Moderately scarce in all uncirculated grades and, of course, very rare in such superlative condition. Population: 2 in 67, none higher. (Photo)

- 6816 **NGC 1859 MS 67.** The surfaces on this amazing coin are as white as a freshly minted specimen, with shimmering fields and ultra frosty devices. There is a bit of delicate die polishing about the outer portions of the obverse. The relatively few mint state pieces of this issue are generally of high quality. Yes, others this nice are known to exist, but must be considered very elusive. Population: 5 in 67, none higher, 2 higher at PCGS. (Photo)

PROOF TWENTY-CENT PIECES

- 6817 **PCGS 1876 PR 62.** A bright, razor sharp example with overlays of blue and gold most evident on the reverse. (Photo)

- 6818 **NGC 1878 PR 64.** Final year of issue for the series, and a rare, proof only issue with only 600 originally minted. This piece has deep, watery proof mirrors and there are only a few wispy hairlines in the fields. Lightly toned on each side, this is definitely a strong, high-end example of this rare date. (Photo)

EARLY QUARTER

- 6819 **PCGS 1805 quarter Good 6,** original and showing only slight wear into the rims on the left sides. Otherwise a solid VG; and an **ANACS 1795 half dollar Good 4, O-125, R.5.** Steel-violet in color with partially worn stars and lettering. (Total: 2 coins)

BUST QUARTER

- 6820 **PCGS 1818 quarter Fine 15,** original gray surfaces; **1941 half dollar MS 64;** and a **1962 half dollar PR 67,** cameo obverse. (Total: 3 coins)

SEATED QUARTERS

- 6821 **PCGS 1839 No Drapery MS 64.** An exceptionally attractive example of this scarce, short-lived type. The fields show evidence of having been struck from heavily polished and striated dies, which have imparted a pronounced reflectivity to the coin. Lightly toned and generally well struck except on the eagle's leg. Many times rarer in this condition than the 1838 No Drapery. A must-see 1839 with broad, squared off rims and loads of eye appeal. Population: 2 in 64, only 1 finer. (Photo)

- 6822 **NGC 1850-O MS 64.** Deeply toned on both sides in a mixture of pinkish-gold, gray, and blue-green, with full underlying frostiness. The few mint state survivors of this New Orleans issue is usually of average quality and are very scarce like this. Population: 3 in 64, none higher. (Photo)

Splendid 1853 No Arrows Quarter

- 6823 NGC 1853 No Arrows MS 66. An essentially mark-free specimen with deep, satiny brilliance and a near absence of color. The devices are struck with razor sharp detail. The 1853 No Arrows was minted early in the year, before weight reduction and most pieces soon reached the melting pot. A small, but high quality group of this issue survived, most grading MS 64 or higher. Still, in this outstanding grade a No Arrows quarter must be considered of the utmost rarity. Population: 1 in 66, 1 higher, also 1 higher at PCGS. (Photo)
-

Superb 1854 Arrows Quarter

- 6824 NGC 1854 Arrows MS 66. A stunning type coin, satiny in appearance and nearly void of toning. Just a couple of microscopic contact marks are noticed on the obverse while the reverse borders on perfection. Population: 6 in 66, none higher. (Photo)
-

- 6825 **PCGS 1855 Arrows MS 66.** Intense satiny luster in the fields are set against well frosted devices. Both sides are framed in soft rose toning and only a couple of inconsequential frost breaks on Liberty's portrait holds this beauty back from even a higher grade. Unlike the 1854 Arrows issue, the 1855 is fairly scarce in all grades of mint state. This incredible piece is certainly among the finest known. Population: 1 in 66, none higher, 1 higher at NGC. (Photo)

- 6826 **NGC 1889 MS 68.** Spectacular one-of-a-kind quality in a Seated quarter, boasting a colorful mixture of orange and bluish-green iridescence. The surfaces, even upon magnification, come temptingly close to perfection. On top of all that, the 1889 enjoys tremendous popularity with its modest business strike mintage of just 12,000 pieces. Population: 1 in 68 (for the date and for the 25 year type), none higher! (Photo)

BARBER QUARTER

6827 PCGS 1898 MS 62. Satiny with a hint of peripheral toning.

STANDING LIBERTY QUARTERS

Popular 1916 Standing Quarter

6828 PCGS 1916 MS 62 Full Head. Well defined throughout with light grayish patina and golden undertones. Excellent luster and considerable eye appeal if one can only overlook the scratch on the shield. (Photo)

Choice 1916 Full Head Quarter

6829 PCGS 1916 MS 63 Full Head. Light in color with matte-like surfaces that show no obvious or distracting blemishes. A rare, key date in the series with a low mintage of only 52,000 pieces, all struck in the latter part of the year. (Photo)

6830 PCGS 1917-D Type Two MS 62 Full Head. Lightly toned.

6831 ANACS 1917-S Type Two MS 64 Full Head. Light color.

6832 ANACS 1918-D MS 61 Full Head. Light peripheral color.

6833 NGC 1919-S AU 55 Full Head. A lightly circulated example of this scarce, early date. Mild peripheral color.

6834 PCGS 1920-D MS 64 Full Head. A lightly toned example of this rare, early Standing Liberty quarter. The 1920-D is a lower mintage issue that is very scarce with a fully detailed head on Liberty, only 13 pieces have been so graded with 19 finer.

- 6835 Hallmark 1920-S MS 64 75% Full Head. Lighter peripheral color with one darker spot on the upper reverse.
- 6836 ANACS 1924-D MS 62 Full Head. Pale patina.
- 6837 PCGS 1924-D MS 63 Full Head. Excellent luster.

- 6838 Hallmark 1924-D MS 64 Full Head. A very scarce Standing Liberty quarter with complete head detail, weak strikes are the norm for this issue. This piece is intricately detailed on the head of Liberty and the surfaces overall are clean and unaffected by any but the most trivial abrasions. Light golden toning.

- 6839 Hallmark 1926-S MS 60. "Teardrop Die Cud." Bright surfaces with a bit of light toning on the right half of each side. Accompanied by a certificate, dated October 2, 1992, from "J The Beard," J.H. Cline, which states in part, "To my knowledge, as of this date, this is the only one encapsulated in mint state condition. It is an excellent example of this unusual variety with the extra metal at Miss Liberty's left leg."
- 6840 PCGS 1927-D MS 65. Superb luster with icy-blue color.
- 6841 PCGS 1927-D MS 64 Full Head. An arc of pale rose can be seen on the rim above the head of Liberty.
- 6842 PCGS 1927-D MS 64 Full Head. Light toning.
- 6843 PCGS 1928-D MS 63 Full Head. Obverse peripheral toning.
- 6844 PCGS 1928-D MS 63 Full Head. Deeply toned.
- 6845 PCGS 1929-D MS 63 Full Head;and the following Washington quarters: PCGS 1937-D MS 64, brilliant; PCGS 1937-S MS 64, pale color; NGC 1939-D MS 63; and a PCGS 1939-S MS 65, lustrous. (Total: 5 coins)

WASHINGTON QUARTERS

- 6846 PCGS 1932 MS 64; 1934 MS 64, deep peripheral toning; 1935 MS 64, light hazy color; and a 1936 MS 65. (Total: 4 coins)
- 6847 NGC 1952-S MS 68. Awe inspiring color on the obverse, featuring shades of bright rose, green, and orange.

PROOF WASHINGTON QUARTERS

- 6848 PCGS 1938 PR 64; NGC 1939 PR 64; and a PCGS 1940 PR 64, hazy toning. (Total: 3 coins)
- 6849 PCGS 1939 PR 65, hazy; (2) 1941 PR 65; 1954 PR 65; and a 1955 PR 65. (Total: 5 coins)
- 6850 NGC 1951 Cameo PR 67. A pristine gem, fully brilliant with appealing field to device contrast.

EARLY HALF DOLLARS

- 6851 PCGS 1795 Fine 12. O-103a, R.5. A scarce die state that is easily distinguished by the heavy break over (AME)RICA. The gray-olive surfaces are accented by an occasional splash of light blue toning here and there on each side.

- 6852 PCGS 1795 Fine 15. O-105, R.4. A scarcer variety that is characterized by the unique 10-7 berry arrangement on the reverse. This is a pleasing coin for the grade that has deep charcoal-gray color in the fields and recessed areas and sharply contrasting grayish-brilliant highlights on the devices. There are a few shallow field marks that do little to affect the overall appeal of the coin.
- 6853 PCGS 1803 VF 30. Large 3. Original golden-gray surfaces that are well balanced and free of defects. A most pleasing type coin.

BUST HALF DOLLARS

- 6854 NGC 1812 AU 50. O-109a, R.2. Quite lustrous for the grade with the die defect ridges very apparent above and below the eagle's left wing.
- 6855 ANACS 1820 AU 50. O-103. Small Date, Curl Base 2; and an 1820 AU 50, O-106. Large Close Date, No Knob on 2. Both are virtually untoned. (Total: 2 coins)
- 6856 ANACS 1824 XF 40. O-117. Original gray-gold color; PCGS 1825 AU 50, O-106a, R.3; and an NGC 1836 Lettered Edge AU 55, lustrous with soft reddish-gold peripheral toning. (Total: 3 coins)

SEATED HALF DOLLARS

- 6857 PCGS 1839 Drapery AU 58. Fully struck and just a whisper of rub from mint state, displaying hints of gray-gold toning about the central devices.

Magnificent 1854 Arrows Half

6858 **PCGS 1854 Arrows MS 66.** A remarkably well preserved Arrows half dollar, displaying occasional reddish-gold toning across both obverse and reverse. The frosty features are struck with definition that is very close to complete and only a couple really trivial milling marks are noticed on the obverse. Faint die clashing, visible on both sides, is not to be confused with post minting impairments. Spectacular quality for this issue and a very important type piece. Population: 2 in 66, none higher, 2 higher for the type. (Photo)

6859 **NGC 1871 MS 62.** Semi-prooflike with deep russet and blue toning about the peripheries. A difficult date in mint state. Population: 2 in 62, 9 higher.

6860 **NGC 1876-S MS 64.** Mostly brilliant with glittering semi-prooflike qualities to the fields. Sharply struck and just a few minor scuffs in the obverse field from gem quality.

WALKING LIBERTY HALF DOLLARS

- 6861 **PCGS 1934 MS 64,** a touch of peripheral obverse color; 1943 MS 65, brilliant; and a 1961 PR 66, dazzling brilliance. (Total: 3 coins)
- 6862 **NGC 1939-D MS 66.** An especially vibrant, mark-free specimen framed in attractive golden toning.
- 6863 **PCGS 1941 MS 62; 1943-S MS 63; and a 1944-S MS 64.** All are toned. (Total: 3 coins)
- 6864 **PCGS 1941-D MS 65; and a 1946-D MS 65.** Both show just a touch of light color. (Total: 2 coins)
- 6865 **PCGS 1941-S MS 64.** Well struck and flashy.
- 6866 **PCGS 1942 MS 65; and a 1944 MS 65.** Both are fully struck and mostly brilliant. (Total: 2 coins)
- 6867 **NGC 1944-S MS 65.** White and creamy with an above average strike for this popular S-mint.
- 6868 **PCGS 1947-D MS 65.** Fully struck with satiny luster.

FRANKLIN HALF DOLLARS

- 6869 **PCGS 1948 MS 65; 1951-S MS 64; 1953-S MS 65; 1957 MS 65; and a 1958 MS 65.** All are toned to some extent. (Total: 5 coins)
- 6870 **PCGS 1949 MS 66.** Superb surfaces with gorgeous mint set toning.

PROOF FRANKLIN HALF DOLLARS

- 6871 **PCGS 1950 PR 64; 1951 PR 65; 1952 PR 65; 1953 PR 65; and 1954 PR 66.** Each coin is untoned and displays a light to moderate cameo contrast on both sides. A great starter set for the cameo collector. (Total: 5 coins)
- 6872 **NGC 1950 PR 66.** Unusual purple, gold and orange toning highlight this top-flight example of the first Franklin proof.
- 6873 **PCGS 1954 PR 66.** A flawless gem with light, hazy gray patina over the surfaces.

EARLY DOLLARS

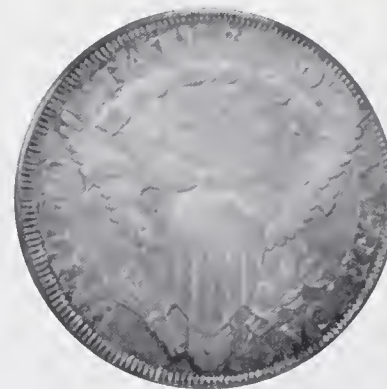

- 6874 **PCGS 1795 Flowing Hair Fine 15. B-1.** A lovely Flowing Hair dollar that is well centered, has very attractive multicolored toning, and shows no adjustment marks on either side. In other words, a perfect type coin for the grade. Sure to be of interest to many bidders because of its problem-free nature.

Borderline Uncirculated Draped Bust Dollar

- 6875 **PCGS 1795 Draped Bust AU 50. B-15.** An attractive coin that has impressive deep golden-gray patina around the rims and lighter colored centers. The striking details are sharply defined on both sides and there is a fair amount of mint luster still remaining. A few scratches and marks are noted, but these really have little impact on the overall visual appeal of this original early dollar. Without these scratches, this coin may very well have been graded mint state. (Photo)

- 6876 **PCGS 1798 Large Eagle Fine 12. B-23.** Untoned and softly impressed in the centers. There are a few adjustment marks in the central part of the reverse and there is a green spot on the obverse rim at 6 o'clock.

- 6877 **PCGS 1799 AU 50. B-7.** A lovely example of this variety. The surfaces show light golden centers that deepen noticeably toward the rims and are accented there by an occasional streak of sea-green. Well defined in most areas and showing two scrapes on the reverse shield and several minor horizontal planchet rifts on the neck of Liberty. Much original luster remains. Well within the condition census which is listed in the Bowers' reference as (58-55-50-50-50-45). (Photo)
-

GOBRECHT DOLLAR

Prohibitively Rare 1839 Dollar

- 6878 NGC 1839 Gobrecht Dollar PR 64. Restrike. Judd-104, Die Alignment IVa, Breen-5422, Julian-27. A later striking, probably 1858 or later, that shows evidence of the dies having been extensively repolished with myriad die striations on each side, and several minute die cracks around the outer legends on the reverse. Almost all of the Proof-60 or better examples known of this date are from this die alignment. This is a magnificent coin with glittering proof fields that show only the faintest contact marks, none of which are worthy of individual mention. The interior of each side has a light speckled golden patina and is surrounded by deep blue at the margins. Of great importance to the collectors of this fascinating series. Population: 1 in 64 with only 1 finer. (Photo)

SEATED DOLLARS

- 6879 PCGS 1840 VF 35. Original charcoal-gray surfaces. A scarcer Seated dollar.
- 6880 PCGS 1856 XF 40. Originally toned, but softly detailed in the centers, as always. A nice, problem-free example of the date.

- 6881 PCGS 1870 MS 62. Quite frosty with splashes of orange-gold toning over both sides. The strike is basically sharp and the majority of tiny marks are confined to Liberty's portrait. Population: 8 in 62, 16 higher. (Photo)
- 6882 PCGS 1871 VF 35. Original light gray patina with some underlying gold and rose. A couple of small marks are noted on the reverse.
- 6883 ANACS 1871 XF 40. Deeply toned with a few small marks on each side.

- 6884 PCGS 1872-CC AU 55. Exceptionally attractive with deep blue and violet toning and much underlying brilliance. The 1872-CC, one of just 3,150 pieces struck, is of true rarity when compared to Carson City Morgan dollars. Only four mint state examples have been graded by PCGS, none above MS 62, ranking this high grade specimen among the top dozen or so known pieces. (Photo)

PROOF SEATED DOLLAR

Very Rare Proof 1855 Seated Dollar

- 6885 **PCGS 1855 PR 63.** Somewhere between 40 and 75 proofs were struck of this year, a tiny mintage to be sure, but this date is actually rarer than even that mintage would indicate. Breen estimates that some 50 to 60 proofs survive, but Bowers believes the number to be significantly lower because of the number of deceptively deep mirrored prooflikes known of this date. This is an attractive proof dollar that has more eye appeal than its grade might indicate. The fields are deeply mirrored and both sides show a rich golden-rose toning in the centers with blue margins around the rims. There are a few hairlines in the fields, greatly subdued by the toning, and no mentionable marks on either side. This is certainly one of the highlights in this splendid auction. Population: 1 in 63, 5 finer. (Photo)

TRADE DOLLARS

- 6886 **PCGS 1874-S AU 50.** Brilliant except for a small spot of light golden on the reverse.
- 6887 **PCGS 1875-S MS 63.** Lustrous and sharply struck with just the slightest blush of pale golden color on each side. A nice type coin with very few marks. (Photo)

MORGAN DOLLARS

- 6888 **PCGS 1878 8TF MS 62; 1879-O MS 62; 1882-CC MS 62; 1884-CC MS 62; 1885-O MS 62; 1891-CC AU 50; 1901-O MS 62; and a 1922-D MS 62.** (Total: 8 coins)
- 6889 **PCGS 1878 7TF Reverse of 1878 MS 63; 1878-CC MS 63; and an 1881-CC MS 61.** (Total: 3 coins)
- 6890 **PCGS 1878 7/8TF Strong MS 64.** Untoned with the majority of light abrasions in the reverse fields.

- 6891 **PCGS 1878-CC MS 61; 1881-S MS 64 Prooflike, multicolored toning along the obverse edge; 1898 MS 65; and a 1922 MS 63.** (Total: 4 coins)
- 6892 **PCGS 1878-CC MS 64.** A near gem specimen that more than qualifies on the all-important obverse.
- 6893 **PCGS 1878-S MS 63 Prooflike; 1879-S MS 64 Prooflike; and an 1886 MS 63 Deep Mirror Prooflike.** (Total: 3 coins)
- 6894 **PCGS 1879 MS 63; 1883 MS 63, golden-orange highlights; 1890-O MS 63, sharp strike; 1898-O MS 63; 1899-O MS 63, golden peripheral toning; 1900-O MS 63; 1903 MS 63; and a 1926-D MS 63.** (Total: 8 coins)
- 6895 **PCGS 1880-CC MS 64.** Clean and original with light roller marks in Liberty's hair.
- 6896 **PCGS 1880-CC MS 64.** Satiny with a blush of silvery-gray patina.
- 6897 **PCGS 1880-S MS 66.** A brilliant, blemish-free example.
- 6898 **PCGS 1880-S MS 65 Prooflike.** 0 over 9, VAM 11.
- 6899 **PCGS 1880-S MS 65 Deep Mirror Prooflike.** Brilliant, cameoed, and flashy.
- 6900 **PCGS 1881-CC MS 64.** Frosty with a dash of golden color on the reverse.
- 6901 **PCGS 1881-S MS 64, toned obverse; 1885-O MS 64, toned; 1886 MS 64, bright orange-gold accents; 1889 MS 64; 1897 MS 64; and a 1904-O MS 64.** (Total: 6 coins)
- 6902 **PCGS 1881-S MS 65.** Brilliant.
- 6903 **PCGS 1881-S MS 65; and an 1883-O MS 65.** (Total: 2 coins)
- 6904 **PCGS 1881-S MS 65, attractive end-of-the-roll obverse toning; and an 1883-O MS 65, semi-prooflike.** (Total: 2 coins)
- 6905 **PCGS 1882 MS 63 Prooflike; and an 1884-CC MS 63 Deep Mirror Prooflike, pleasing coppery-gold toning about the obverse periphery.** (Total: 2 coins)
- 6906 **PCGS 1882-CC MS 64; 1884-O MS 64; 1886 MS 64, blue and orange obverse color; 1896 MS 64; 1898 MS 64; and a 1904-O MS 64.** (Total: 6 coins)
- 6907 **PCGS 1882-CC MS 65.** Highly lustrous with clean central devices.
- 6908 **PCGS 1882-CC MS 64 Deep Mirror Prooflike.** Untoned with intense black and white contrast.
- 6909 **PCGS 1882-S MS 67.** Mildly prooflike and, of course, exceptionally clean. Brilliant.
- 6910 **PCGS 1883-CC MS 65.** Vibrant, satiny luster and only the most trivial surface marks.
- 6911 **PCGS 1883-S AU 53.** An original, fully lustrous example that would fit nicely in a high grade set.
- 6912 **Hallmark 1883-S MS 63.** Well struck with excellent mint luster and a bit of light peripheral golden toning. Somewhat baggy on the cheek of Liberty. Still, an important offering of this scarce, semi-key Morgan issue.
- 6913 **PCGS 1884-CC MS 65.** Fully struck with a hint of pale golden toning about the margins.
- 6914 **PCGS 1884-O MS 63; and an 1885-O MS 64.** Both are satiny and brilliant. (Total: 2 coins)
- 6915 **PCGS 1884-S AU 50.** A trifle scuffy on the obverse, but with full breast feather definition on the reverse and ample luster.
- 6916 **NGC 1884-S AU 58.** A well struck slider AU example of this rare, key date dollar.

- 6917 **PCGS 1884-S MS 60.** Fully struck with bright mint luster and soft golden-brown toning over both sides. A cleaner example than one might expect, and the surfaces show no trace of friction as normally encountered on this issue. A rare coin in strict mint condition and a worthwhile addition to an uncirculated dollar set.

- 6918 **ANACS 1884-S MS 60.** A bit softly struck in the centers, but fully lustrous and showing attractive speckled toning over both sides. The several small to medium sized marks one would expect from a coin of this grade, are fairly well concealed by the toning. Scarce.
- 6919 **PCGS 1885-CC MS 63.** Brilliant on the obverse with light color on the reverse.
- 6920 **PCGS 1890-CC MS 63 Deep Mirror Prooflike.** Sharply cameoed with light hazy gray patina on the reverse. (Photo)
- 6921 **PCGS 1891-CC MS 63.** Frosted mint luster and showing just a slight bit of color.
- 6922 **PCGS 1892-CC MS 63.** Brilliant with flashy mint luster.
- 6923 **PCGS 1892-CC MS 62 Prooflike.** Light slate-gray and golden toning on the reverse.
- 6924 **PCGS 1892-CC MS 62 Deep Mirror Prooflike.** Untoned. (Photo)
- 6925 **PCGS 1892-O MS 63.** Lustrous.
- 6926 **PCGS 1893 MS 62.** Dull gray on the obverse with a deeply toned blue-gray reverse that shows much golden-rose in the fields.
- 6927 **PCGS 1894 AU 53.** Toned on the reverse.
- 6928 **NGC 1894-O MS 62.** A stronger strike than most of this conditionally elusive date, with dashes of rose-gold toning clinging to the outer devices.

- 6929 **ANACS 1895-O MS 60.** This rare, key date issue has bright, satiny luster and is well struck on both sides. There are a number of small marks peppered across the surfaces, but none are singularly distracting. Very rare in mint condition and of obvious importance to the Morgan dollar collector. (Photo)

- 6930 **PCGS 1896-O MS 62.** Untoned with exceptionally bold definition in the centers. Only a few minor frost breaks on the obverse preclude an even higher grade.
- 6931 **PCGS 1899 MS 64.** Minimally abraded with only a few luster grazes on the obverse, the reverse is easily of gem quality.
- 6932 **PCGS 1899-S MS 64.** A flashy, upper-end example of this scarce date that is sharply struck and devoid of almost all color.
- 6933 **PCGS 1900-O/CC MS 62.** Light color. The undermintmark is quite pronounced.
- 6934 **PCGS 1901 AU 50.**
- 6935 **PCGS 1902-O MS 66 Prooflike.** A strongly mirrored, no-contrast prooflike that shows exquisite mottled golden and blue toning over both sides. A very rare condition in which to locate an '02-O, only 3 pieces have been so graded and none are finer.
- 6936 **PCGS 1903-O MS 64.** Brilliant.

PROOF MORGAN DOLLAR

- 6937 **PCGS 1900 PR 63.** This glittering, deeply mirrored proof is toned a rich golden-rose over both sides, presenting a well balanced look overall. An affordable and attractive example of this popular turn-of-the-century issue.

PEACE DOLLAR

- 6938 **PCGS 1923 MS 63; and a 1924 MS 63.** (Total: 2 coins)

COMMEMORATIVE SILVER

- 6939 **NGC 1893 Isabella Quarter MS 64.** Soft golden toning accents underlying frost.
- 6940 **NGC 1893 Isabella Quarter MS 64.** Medium toning.

- 6941 **PCGS 1893 Isabella Quarter MS 66.** Pristine surfaces, toned a milky gray on the obverse and bluish-green on the reverse. Flashes of blue iridescence are seen along the obverse edge. A very desirable silver commemorative in such a high state of preservation. (Photo)
- 6942 **ANACS 1936 Albany MS 63; 1936 Elgin MS 63; and a 1936 Gettysburg MS 64,** the first piece brilliant and light golden toning on the final two examples. (Total: 3 coins)
- 6943 **NGC 1936 Albany MS 66.** Original luster with super clean surfaces.
- 6944 **ANACS 1937 Antietam MS 64,** blazing mint luster; **1934 Maryland MS 63; and a 1936 Lynchburg MS 63.** (Total: 3 coins)
- 6945 **NGC 1937 Antietam MS 65.** Mostly white and appealing.
- 6946 **ANACS 1938 Arkansas PDS Set grading MS 64, MS 65, and MS 63 respectively,** all mostly brilliant examples. (Total: 3 coins)
- 6947 **NGC 1936-S Bay Bridge MS 64.** A clean, if a bit lackluster specimen, toned in a mixture of steel-violet and gold.
- 6948 **ANACS 1935/34 Boone MS 64; ANACS 1918 Lincoln MS 63; ANACS 1936 Long Island MS 64; ANACS 1934 Texas MS 64; ANACS 1953-S Washington/Carver MS 65; and an NGC 1953-S Washington/Carver MS 65.** (Total: 6 coins)
- 6949 **PCGS and NGC 1937 Boone PDS Set MS 66.** The P and D mints are toned in light golden and silvery-gray hues while the S-mint, graded by NGC, is somewhat prooflike on the obverse and similarly toned on the reverse. (Total: 3 coins)

- 6950 ANACS 1936-S Columbia MS 65, specks of golden-russet toning about the lettering; and a 1946 Iowa MS 66, pale lilac overtones. (Total: 2 coins)
- 6951 ANACS 1892 Columbian MS 61; ANACS 1934-D Oregon MS 64; and an NGC 1921 Pilgrim MS 64. (Total: 3 coins)
- 6952 NGC 1892 Columbian MS 65 Prooflike. A sparkling, untoned example with modest reflectivity in the fields and no obvious distractions to the unaided eye.
- 6953 NGC 1892 Columbian MS 65. Lightly toned with hints of blue and violet.
- 6954 PCGS 1892 Columbian MS 66. A glorious semi-prooflike example that, on both sides, is toned in a blend of steel-violet and iridescent-blue. Most Columbian half dollars ended up in the hands of the general public, so the appearance of such a pristine example is anything but common.
- 6955 NGC 1893 Columbian MS 65 Prooflike. Boldly struck with full mirrors under a light silvery-gray patina. An early striking that has been very well preserved over the past century. Much rarer in gem prooflike than the 1892 Columbian.
- 6956 ANACS 1928 Hawaiian MS 63. Light toning graces clean surfaces.
- 6957 NGC 1935 Hudson MS 63. A milky-hued example of this tough, low-mintage silver commemorative.
- 6958 PCGS 1918 Lincoln MS 65. Mostly brilliant with light iridescent toning.
- 6959 PCGS 1920 Maine MS 64. Shimmering luster overlaid in milky hues of lilac and yellow-gold.
- 6960 NGC 1937 Roanoke MS 65. A strict gem example with vibrant luster and a hint of streaky golden toning on the obverse.
- 6961 PCGS 1936 Robinson MS 65. Speckled russet and apple-green toning enhances this obviously original example.
- 6962 ANACS 1935 Spanish Trail MS 61. Bright surfaces with a few stray hairlines visible on either side.
- 6963 PCGS 1935 Spanish Trail MS 65. Mostly brilliant with only a couple of insignificant marks in the vast open areas of this popular design.
- 6964 NGC 1925 Vancouver MS 63. Fully brilliant with excellent luster.
- 6965 NGC 1946-D Booker T. Washington MS 66. Superb multicolored toning with bright mint luster.
- 6966 NGC 1946-S Booker T. Washington MS 66. Muted multicolored toning with strong underlying mint luster.
- 6967 ANACS 1949 Booker T. Washington PDS Set MS 64, MS 65, and MS 65. A well matched, highly lustrous trio. (Total: 3 coins)
- 6968 NGC 1936 Wisconsin MS 66. Another superb example, tinted a delicate gold across both obverse and reverse.

PATTERN

Superb J-1574 In Copper

- 6969 PCGS 1878 Five-Dollar, Judd-1574, R.7, PR 66 Red and Brown. William Barber's design that shows the head of Liberty wearing a band inscribed LIBERTY incused with E PLURIBUS UNUM around the margin. The reverse has an erect eagle with raised wings. Struck in copper with a reeded edge. The surfaces are bright and there is a deep outline of cherry-red around the devices with steely-blue. A magnificent Barber pattern and quite rare as such. (Photo)

COLONIALS

- 6970 1652 Oak Tree Shilling VF 20. Noe-5. 4.51 grams. This variety features a legend that begins at the lower left and normal letter Ns. Struck on a slightly buckled planchet, the obverse is well defined but the oak tree is indistinct as a result. Unusually bright in the obverse fields with deeper charcoal color surrounding the devices, the reverse has a natural light gray patina. More porosity is evident on the obverse. Listed on page 18 of the current *Guide Book*.

- 6971 Undated (1672?) Elephant Token XF 40. Thin Flan. Breen-187. 7.87 grams. The elephant side of this token is nice looking with a rich chestnut brown center that is surrounded by deep peripheral color. The reverse, however, shows evidence of corrosion and irregular color. A popular Colonial issue. Listed on page 25 of the 1993 *Guide Book*.

- 6972 Undated (1682) Saint Patrick's Farthing VF 30. 6.97 grams. Medium brown color overall and fairly well centered. The brass insert is slightly off-center to the left of the king's crown. Listed on page 20 of the current *Guide Book*.
- 6973 1723 Rosa Americana Twopence AU 55. Nelson-14. 15.85 grams. A lovely, high grade example of this popular early Colonial issue. The surfaces are nearly mark-free and show light brown patina on the obverse with a strong intermingling of olive on the reverse. Well struck.
- 6974 1723 Hibernia Halfpenny MS 65. Nelson-8. 7.96 grams. A regular issue of the Hibernia halfpenny and a coin that is immaculately preserved. The surfaces overall are a slightly subdued reddish-brown with the devices outlined with flaming, original red. Well struck except on a few of George's hair curls. The coin is very attractive and devoid of any meaningful contact marks, just a few small specks of carbon on either side. Listed on page 24 of the 1993 *Guide Book*.

- 6975 1779 Rhode Island Ship Token XF 40. Breen-1139, *vhugtende* scraped off coin. 8.76 grams. This popular satirical token was struck to commemorate the departure of Admiral Howe and the British navy from Rhode Island in 1779. The first tokens struck had *vhugtende* at the bottom of the reverse, meaning "fleeing," referring to Howe's fleet. Subsequently, *vhugtende* was scraped off the die. The exact reason is unknown but Breen speculates that perhaps the makers feared British reprisals. This coin is struck from those altered dies. The coin is a well struck XF with traces of mint luster still evident in some places and showing a few scratches, most notably on the upper obverse. Listed on page 29 of the current *Guide Book*.

- 6976 1786 New Jersey Cent VF 20. Maris 24-P. 8.69 grams. A light reddish-brown example of this common variety. One mark on the horse's head and a long, curved staple scratch across the lower shield.

- 6977 1787 Fugio Cent XF 40. Pointed Rays, STATES UNITED. 8.69 grams. Well centered and well struck, the medium brown patina shows significant underlying lime-green and rose iridescence that adds considerably to the overall attractiveness of the coin. Listed on page 63 of the 1993 Red Book and showing a vertical die crack at the same spot as the second coin photographed on that page.

- 6978 1787 Fugio Cent AU 50. Pointed Rays, UNITED STATES. 10.21 grams. Well centered on the obverse and only slightly out of register on the reverse. Medium brown color and well struck except on the upper reverse which is slightly soft on a few of the rings. Die clashed on both sides and showing a couple of light grease stains (as struck) on the obverse. One small carbon spot is noted on the upper reverse. Listed on page 63 of the current *Guide Book*.

- 6979 1795 Talbot, Allum & Lee Cent MS 63 Prooflike. 9.59 grams. Formerly sold as lot 5624 of the Chris Schenkel Collection (B&M, 11/90), flip accompanies, where it was described as, "A lovely example with deep, original toning. Usual edge device. Toned in light blue, deep golden-brown, and pale brown shades. The obverse and reverse surfaces are fully mirrorlike, and this piece has, in the past been called a 'Proof.' Here is a lovely example, destined for inclusion in one of the finest cabinets of early American issues."

- 6980 Undated (1796) Kentucky Token MS 65 Red and Brown. Large LANCASTER edge. Struck on the Tower standard, 9.37 grams, and rare as such. A lovely and original example of this popular Colonial issue. Nearly "as struck" with bright mint luster surrounding the devices and glossy brown in the fields. Well struck with CAUSE IS readable but weak, as is almost always the case. Listed on page 55 of the 1993 *Guide Book*.

- 6981 1795 Grate Token AU 50. Baker-29. Large Buttons, Reeded Edge. 9.38 grams. The obverse is a deeper shade of brown with olive undertones, while the reverse still shows a noticeable outline of mint red surrounding the devices. Just a few little pinprick marks on Washington's face, otherwise, a clean coin with seemingly carbonless surfaces. Listed on page 61 of the current *Guide Book*.

- 6982 Undated (mid-19th century) Washington Success Medal XF 40. Small Size. Reeded Edge. Brass. Baker-265. Light in color with tinges of rose and blue. There are a couple of scratches across each side that are worthy of note. Listed on page 62 of the 1993 Red Book.

HALF CENTS

High Grade, Popular 1793 Half Cent

- 6983 1793 XF 45 Retoned. B-1, high R.3. The earliest die state, plainly showing the recutting in the top of the 9 and the period after CENT, and rare as such. Well centered with only a couple of small surface marks. Glossy surfaces with chocolate brown color and some steel-blue interspersed.

- 6984 1793 AU 50 Porous, Obverse Fields Retooled. B-3, R.3. Even, dark brown color and well defined throughout. The surfaces are somewhat porous and show several deep scratches in the left obverse field that have been smoothed. Still, a significant and valuable type coin.
- 6985 1795 Lettered Edge AG 3 Corroded. B-1, R.2. Heavily worn, showing several rim bumps, and just barely attributable.
- 6986 1795 Plain Edge Good 4. B. 6a, R.4. Heavily worn into the rims with the date barely identifiable. Struck on a slightly buckled planchet, the obverse is slightly concave and the center of the reverse has no details on HALF CENT.

- 6987 1795 Plain Edge VG 8. B-6c, R.2. Struck from a cut-down Talbot, Allum & Lee token with portions of the token evident on each side. There are three subvarieties of B-6, representing the three planchet stocks used, and curiously the overstruck tokens are the most common of the three. Light brown color overall and nice for the grade. The weakness at the lower obverse and upper reverse is diagnostic for this variety.

- 6988 1797 Plain Edge Good 6. B-1a, R.2. Glossy dark brown on the obverse. The reverse shows no detail in the center and there are several vertical scratches that look like adjustment marks.

LARGE CENTS

Pleasing Chain Cent

- 6989 1793 Chain Cent XF 40 Porous. S-3, R.3. The Leaning R Variety, easily distinguished by the high tilt of the R in LIBERTY. The surfaces are slightly porous and show a light brown color overall with speckles of a much darker brown splashed across each side. Well detailed throughout with stronger definition, as always, on the reverse. (Photo)

- 6990 1793 Wreath Cent Electrotpe of S-9 AU 55. 11.94 grams. Possibly not intended to deceive as the reverse is rotated 180 degrees, there is no sonority to the coin, and the off-metal filling is obvious in the center of the reverse. When you place your bids, keep in mind that this is an electrotpe.

- 6991 1793 Wreath Cent Lettered Edge Good 4 with the detail of a VF in some areas, but damaged and corroded. S-11c, R.3-. The date is worn away but the sprig shows plainly. There are several deep planchet flakes on each side, rim bumps, corrosion, and heavy wear into the rims.

- 6992 1794 Fine 15 Corroded. S-65, R.1. Heavy porosity softens much of the detailing on each side, but still easily identifiable as a Shielded Hair variety. Dark throughout with slightly better details on the bottom of the obverse and top of the reverse, probably from the dies having been out of alignment at the time of striking.
- 6993 1794 VF 30 Porous. S-65, R.1. The Shielded Hair obverse and the most common variety of 1794 cents. The surfaces are porous as stated and the reverse is rather weakly defined, making attribution somewhat difficult, but the die cracks cinch it. Darker spotty surfaces with a rim bump on the obverse at almost 3 o'clock.
- 6994 1795 Plain Edge Good 6. S-78, R.1. Tan over most of the surfaces with some subtle underlying iridescence. Weakly defined along the left and right sides on both obverse and reverse.
- 6995 1797 Reverse of '96, Plain Edge VG 8. S-121a, R.7. An extremely rare cent variety, of which some 13-15 pieces are known. S-121 coins have a gripped edge, but a few are known with a plain edge, and these are the S-121a pieces. Sheldon says that of the dozen or so coins are known with a plain edge, "Two or three of these coins show clear evidence that their edges were turned down, probably on a lathe, to remove the grip marks." We can find no evidence of any such tampering on this coin, nor do we see any signs of the grip marks—the removal of which would surely have been evident.
- The coin is well worn and dark with considerable porosity. In EAC terms it would probably net grade a 5, and as such would be tied for third finest known with three other pieces. An unusual opportunity for the copper specialist to acquire this very elusive variety. Listed in the 11th edition of CQR at \$2,500 in Good 5.
- 6996 1797 Reverse of '97, Stems Fine 15 Porous. S-137, R.3. Identifiable by the sprawled ribbon ends on the reverse, this is a difficult variety above Fine with the finest coins known being AU. Struck slightly off center and weakly defined in the central portions of each side. The obverse has a natural appearance with deep brown color, while the reverse has a high gloss finish.
- 6997 1797 Reverse of '97, Stems VF 30. S-126, R.3. Medium brown color with several crisscrossing scratches on the obverse.
- 6998 1801 Fine 15. S-221, R.2. The "corrected fraction" (100 over 000) variety. The surfaces are a trifle dark, but original in every respect and overall pleasing.
- 6999 1802 VF 20 Dark. S-231, R.1. A few small marks on the obverse, but not a bad looking coin for the grade.
- 7000 1802 XF 45. S-237, R.2. Struck just slightly off-center and well defined in most areas with darker brown color overall accented by an occasional bit of light brown.
- 7001 1803 XF 40. S-254, R.2. A nice looking coin with lighter color surrounding the devices on each side.
- 7002 1803 XF 40. S-261, R.2+. Somewhat porous and light in color, there is a tiny rim nick at 8 o'clock on the obverse and a deep planchet lamination on the edge that extends into the reverse rim at 2 o'clock. Well struck.
- 7003 1805 VF 35. S-269, R.2. A nice coin for the grade with medium brown color and no problems.
- 7004 1806 XF 40. S-270, R.2. Deep brown color and well struck on the obverse. Scarcer date.
- 7005 1807 VF 30. Dark. S-276, R.2. Uniform charcoal gray color covers both sides. Softly struck at the top of the obverse and corresponding area on the reverse. A couple of shallow planchet flakes are noted in the left obverse field.

- 7006 1807/6 Small 7 VF 30 Rough, Porous Planchet. S-272, R.5+. An exceptionally rare late date Draped Bust cent. Only 15-20 of these pieces are known with no more than a half dozen above Fine. This piece should fall somewhere in the mid to lower range of the condition census for the variety, but its value will most likely be somewhat less because of the surface roughness. Most of the known specimens are low grade and porous. In the past this coin has been sold as corroded, but we believe its surface texture has more to do with porosity than corrosion. The piece is a glossy, even brown over both sides and there are no distinctive marks.
- This is an impressively pedigreed coin. Ex: Newcomb Collection (James MacAllister and Wayte Raymond, 2/7/45), lot 464; Sheldon Collection (Boston, 1948); Bitler Collection; and Loring Collection (8/12/78), but no flips accompany.
- 7007 1807 VF 20. S-271, R.2. An early die state of the "Comet" variety but showing just the faintest evidence of the diagnostic die breaks. Struck slightly off-center with deep brown patina with some olive overtones. A few small to moderate sized marks are noted on each side.
- 7008 1811 XF 45 Dark, Slightly Porous. S-287, R.2. Crisp definition in the centers and on the right sides, but weak on the left portion of each side, no doubt from the dies having been misaligned at the time of striking. Dark, but then most Classic cents are.
- 7009 1814 Fine 15. S-294, R.1. Darker fields with contrasting light brown devices. One rim nick is noted at 2 o'clock on the reverse.
- 7010 1816 AU 55. A Choice AU piece and so described as lot 71 of Quality Sales 3/20/72 auction (no flip accompanies). Sharply struck throughout with rich mahogany brown color and reddish accents on the highpoints of the design. A Randall Hoard variety.
- 7011 1820 MS 63 Brown. Sharply struck with glossy brown surfaces.
- 7012 1820 MS 64 Brown. Bright, glossy mint luster beneath the chocolate brown and steel-blue toning. Only a couple of tiny carbon specks can be seen on the obverse, the reverse looks like it is carbon-free.
- 7013 1845 MS 64 Red and Brown. Well struck throughout with faint bits of original red still in evidence around the devices.
- 7014 1845 MS 64 Red. Lovely mint red color, just mellowed a bit overall, but still full of much fiery glow. Sharply struck with a few scattered specks of carbon on the obverse. This is a much more difficult coin in mint condition than one of the truly common dates from the 1850s.
- 7015 1851 AU 58 Brown. Well struck.
- 7016 1853 MS 64 Red and Brown. Sharply struck in the centers with attractive color.
- 7017 1856 MS 64 Red. Excellent mint color with a couple of marks on each side and light carbon flecking.

FLYING EAGLE CENTS

- 7018 1858 MS 63. Large Letters. Fully struck with even golden-tan color. Just a few light specks of carbon are evident. A nice coin for the grade. (Photo)
- 7019 1858 MS 64. Large Letters. Bright honey-tan surfaces with excellent luster. Not completely struck up on the obverse and showing one obvious spot in the field below the eagle's head.
- 7020 1858 MS 64. Large Letters. Sharply struck with light color on the obverse and a couple of tiny spots. The reverse is somewhat deeper in hue. (Photo)

INDIAN CENTS

- 7021 1859 MS 64. Fully struck with light olive and rose color and a few small spots of carbon.
- 7022 1859 MS 64. Well struck except at the tips of the feathers of the headdress. Light, pleasing color being a golden-tan with rose undertones. No carbon is noticeable to the unaided eye.
- 7023 1864 Copper-Nickel MS 64. Well struck with bright, lustrous surfaces and light color. Only marred by a number of small carbon spots on the obverse.
- 7024 1864 Bronze MS 64 Red and Brown. Sharply struck with just a bit of mellowing of the original red color.
- 7025 1864 L On Ribbon MS 64 Red and Brown. Slightly mellowed color and showing one noticeable carbon spot in the center of the obverse.
- 7026 1867 MS 63 Red. Well struck with even color.
- 7027 1869 MS 64. Dipped.
- 7028 1869/9 MS 60 Red and Brown. Fully struck. On the reverse there are several larger, darkly toned areas.
- 7029 1869 MS 60 Red and Brown, Cleaned; 1870 AU 50, light color; and an 1872 AU 55, sharply struck. (Total: 3 coins)
- 7030 1873 Open 3 MS 64 Red. Even, light color on the obverse with much cherry-red on the reverse.
- 7031 1874 MS 65 Red and Brown. Just slightly mellowed off of full red. A nice example of this scarcer early Indian cent.
- 7032 1877 AG 3. There are several small, circular planchet flakes out of each side. Original.
- 7033 1877 AG 3. Heavily worn into the rims on the obverse. Certified by ANACS for authenticity only, 3/9/82, on certificate E-3419-2.
- 7034 1877 Good 4. Well worn and original. A problem-free coin for the grade. ANACS certified for authenticity only, dated 11/19/82, on certificate E-0515-Y.
- 7035 1879 MS 64 Red and Brown; 1901 MS 63 Red and Brown; and a 1905 MS 63 Red and Brown. A nice looking group of coins. (Total: 3 coins)
- 7036 1905 MS 63 Red, light flyspecking; and a 1908 MS 63 Red and Brown, uniformly mellowed color. (Total: 2 coins)
- 7037 1909-S Indian cent VF 20, ANACS certificate for authenticity only, 3/9/83, certificate E-3420-Z; 1914-D Lincoln cent VG 8, "Cleaned," ANACS certificate for authenticity only, 8/15/83, certificate F-5885-B; and a 1922 Weak D Lincoln cent VG 8, ANACS certification for authenticity only, 8/7/81, certificate E-9187-J. (Total: 3 coins)

PROOF INDIAN CENTS

- 7038 1866 PR 63 Dipped. Somewhat spotty on the obverse.
- 7039 1871 PR 64 Red. Bright surfaces.
- 7040 1873 PR 65 Red. A flashy proof with color that is undiminished in intensity or brightness by the passage of time. The only noticeable blemish on either side that we see is a small carbon spot on the reverse at the top of the T in CENT.
- 7041 1879 PR 66 Red. The carbonless surfaces are unmarked and show a lovely reddish-orange color.
- 7042 1886 PR 65 Red and Brown. Type One. The scarcer of the two varieties of proofs this year, this piece shows subdued blue patina intermixed with cherry-red on each side.
- 7043 1894 PR 64 Red. Deeply mirrored with only slightly subdued red color.

LINCOLN CENTS

- 7044 1909-S VDB VF 20 Polished. ANACS certified for grade and authenticity, 8/15/83, on certificate F-5884-B.
- 7045 1909-S VDB VI: 20 Edge Damage. Iridescent color from an old cleaning. ANACS certification for authenticity only, 11/19/82, on certificate E-0516-Y.

- 7046 1909-S VDB XF 45. Dark gray-brown color on the obverse with a mahogany-brown reverse. Well struck and clean.
- 7047 1917 MS 64 Red, remnants of a fingerprint on each side; 1919 MS 64 Red, fingerprinted on the reverse; and a 1928 MS 64 Red, light iridescence. From our 1993 Early Spring ANA Auction, lot 799, flip accompanies. (Total: 3 coins)
- 7048 1937 Reeded Edge cent AU 58; and a 1937 Reeded Edge nickel MS 63. An interesting pair of coins with edges that are reeded where normally no reeding is seen. Supposedly either 100 or 104 sets were produced and were first offered for sale at the 1941 ANA. It is unknown whether they were privately produced or actually struck in the mint. (Total: 2 coins)
- 7049 1944-D/D MS 64 Red. ANACS color certificate as an MS 64/64, PPP021.
- 7050 1972/72 Doubled Die MS 63 Red and Brown. Light color with some spotting on the obverse.
- 7051 1972/72 Doubled Die MS 63 Red and Brown. A nice coin for the grade. Ex: Coin Galleries (11/10/92), lot 2880, flip accompanies.
- 7052 1972/72 Doubled Die MS 64 Red. Superb iridescent color. One cut on the highpoint of the cheek prevents a gem grade.
- 7053 1972/72 Doubled Die MS 65 Red. Great color and carbonless surfaces. (Photo)
- 7054 1922 No-D Strong Reverse VF 30. A perfect coin for the grade with light color and even wear. A very pleasing example of this rare and highly sought out error.

PROOF LINCOLN CENT

- 7055 1950 Proof Set. All the coins grade PR 60 or better. (Total: 5 coins)

TWO-CENT PIECES

- 7056 1864 MS 63 Red and Brown. Well struck with much deep color on both sides.
- 7057 1864 MS 64 Red and Brown. Sharply defined with a slight brownish overlay of color.
- 7058 1864 MS 65 Red and Brown. A nice, lustrous coin that has almost all the mint red still intact with only the slightest mellowing evident. This near carbon-free coin is sure to bring a strong price. (Photo)
- 7059 1864 MS 64 Red. Bright reddish-orange surfaces with a few specks of carbon here and there.
- 7060 1872 MS 65 Red and Brown. The cherry-red surfaces show a few small splashes of blue at the margins. Bright on the obverse with a somewhat subdued reverse. (Photo)

THREE-CENT SILVER

- 7061 1853 MS 63. Formerly sold as lot 420 of the Wallace Ralston Sale (Ivy, 5/83), flip accompanies, where it was described in part as, "Deep gold toning on the obverse; rose-gold pastel reverse."
- 7062 1853 MS 64. Well struck and virtually untuned with frosted surfaces.
- 7063 1858 MS 64. Prooflike Obverse. Well struck and lustrous with slight reflectivity in the obverse fields. The obverse has a golden tone while the reverse is a muted light gray. A problem-free example of this scarce type.
- 7064 1861 MS 63. Lustrous and well struck with light patina over both sides.
- 7065 1861 MS 64. Sharply struck on the obverse with deep multicolored toning in concentric rings on each side. A nifty looking type coin.
- 7066 1861 MS 64. Good luster with silver radiating through moderate toning of gold, russet and purple. An attractive piece with some claims to higher grade.
- 7067 1861 MS 64. Sharply defined with light silvery-gray color over both sides.
- 7068 1861 MS 65. Superb luster glows beneath the wide streaks of gray toning that cover most of each side. Sharply struck and free from any detracting surface impairments.

PROOF THREE-CENT SILVER

- 7069 1860 PR 60 Cleaned. Light color. Weakly struck on the reverse.
- 7070 1865 PR 64. Deeply reflective fields with light blue and slate-gray toning.
- 7071 1867 PR 64. Brilliant with flashy, reflective fields. Ex: Worth Hill/Lanting (HNAI, 12/84), lot 653, flip accompanies. (Photo)
- 7072 1870 PR 65. Deeply reflective proof fields with rich, multicolored toning draped across each side. (Photo)

THREE-CENT NICKELS

- 7073 1865 three-cent nickel MS 62; 1892 nickel MS 63, fully struck and lightly toned; and a 1926 nickel MS 65, superb luster and pale color. (Total: 3 coins)
- 7074 1888 MS 63. Toned.

PROOF THREE-CENT NICKELS

- 7075 1866 PR 64. Gorgeous white cameo proof. Only a few tiny spots keep this coin from a higher grade.
- 7076 1876 PR 63. Nicely mirrored with light color.
- 7077 1880 PR 65. Light golden-lilac color. The only apparent distraction is a tiny planchet flake on the neck of Liberty. (Photo)
- 7078 1880 PR 66. Superb surfaces with just a touch of light color. Only moderately reflective in the fields with a bit of cartwheel intermixed. (Photo)
- 7079 1888 PR 63. Hazy gray patina.

PROOF SHIELD NICKELS

- 7080 1872 PR 65. Shallowly mirrored fields with dynamic rose and lilac patina.
- 7081 1876 PR 64. Bright multicolored toning.

- 7082 1881 PR 67. A dazzling proof with surfaces that appear to be flawless to the unaided eye. There is much original brilliance that shines beneath a pale layer of light golden patina. Unimprovable quality. (Photo)

LIBERTY NICKELS

- 7083 1883 No Cents nickel AU 55, toned; and an 1882 dime MS 63, brilliant. (Total: 2 coins)
- 7084 1883 With Cents MS 64. Deeply toned.
- 7085 1884 MS 63. Toned.
- 7086 1897 MS 65. Sharply defined with strong luster radiating beneath deep rose and olive toning.
- 7087 1903 MS 65. Well defined with icy-blue toning over both sides.
- 7088 1905 MS 64. Lustrous and toned.
- 7089 1912 nickel MS 63, bright golden toning; 1875-S twenty-cent piece XF 40; and an 1875-S twenty-cent piece XF 45. Both twenty-cent pieces are toned. (Total: 3 coins)
- 7090 1912-D nickel AU 58, originally toned; 1915 quarter AU 58, well struck with moderate color; and a 1908 half AU 55, dusky gray-olive surfaces. (Total: 3 coins)

PROOF LIBERTY NICKELS

- 7091 1883 With Cents PR 63. Golden toned.
- 7092 1883 With Cents PR 64. Nicely mirrored with attractive pastel toning.
- 7093 1889 PR 63. Weak peripheral detail. Toned.
- 7094 1893 PR 63. Light in color with small flecks of carbon on each side.
- 7095 1893 PR 65. Nicely mirrored with light, even toning.
- 7096 1911 PR 63. Nicely mirrored with light color and a spot on the obverse rim at 12 o'clock.

BUFFALO NICKELS

- 7097 1913 Type One MS 66. Possible Proof. An outstanding Type One nickel that is toned a light golden over both sides. The strike is intricately detailed, the rims squared off, and the edge shows no beveling. We leave it to the buyer to determine the status of this coin.
- 7098 1913 Type One MS 66, untoned with superb luster; 1919 MS 64, untoned with slight softness of strike and a couple of small reverse spots; and a 1931-S MS 63, light color. (Total: 3 coins)

Rare, Lightly Circulated 1916/16 Nickel

7099 1916 Doubled Die Obverse AU 50. A completely original example of this very rare Buffalo nickel variety. Light gray patina overall with a diagonal streak of golden color across the reverse. Well detailed, the only detracting feature is a tiny rim nick on the obverse at 11 o'clock. Very rare and sure to be of interest to many advanced collectors of this popular series. (Photo)

7100 1916-D MS 63. Fully struck and nicely toned. Looks better than the stated grade.

7101 1920-D MS 65. The '20-D is a very scarce coin in all grades, but its reputation for rarity rests mainly on the unavailability of fully struck, high grade mint state pieces. This coin is well struck on both sides with strong details on the Indian's braid, and almost full hair on the buffalo's head. The thick, satiny luster is covered with light lilac and golden-olive patina, evenly matched on both sides. A lovely, well balanced, and sharply defined example of this scarce early Buffalo nickel.

7102 1925 MS 64. Original and free of marks, but just a trifle weak to obtain a gem rating.

7103 1926 nickel MS 64, light rose color; 1884-CC dollar MS 63, toned; and an 1885-O dollar MS 62, untoned. (Total: 3 coins)

7104 1926-S MS 64. Attractive golden-orange toning overlays the uncommonly bold surfaces. The low-mintage '26-S is among the more difficult Buffalo issues to locate in mint state, with most of those grading MS 63 or less.

7105 1927-S MS 64. Semi-prooflike beneath overlays of blue, rose, and golden toning. Scarce in near gem condition and hardly ever seen finer.

7106 1937-D Three-Legged MS 60. A sharply struck example of this scarce error. Good mint luster with a few smaller surface marks and pale golden color. Difficult to locate in mint condition. (Photo)

7107 1937-D Three-Legged MS 60. Formerly sold as lot 228 in the October 1985 Long Beach Sale (HNA1, 10/85), flip accompanies, where it was described as, "Pretty pink and green peripheries. More than just popular, legitimately scarce in mint state." (Photo)

PROOF BUFFALO NICKELS

7108 1913 Type Two PR 65. The obverse is toned in blue and rose pastels while deeper golden hues are seen across the left side of the reverse. (Photo)

7109 1915 PR 65. A bright, fully struck matte proof, one of just 1,050 pieces minted. Delicate golden highlights are visible on the obverse and sky-blue patina on the reverse. (Photo)

EARLY HALF DIMES

7110 1795 VF 20 Cleaned. V-2, R.7. Light gray patina covers the evidence of an old cleaning. There are a few adjustment marks on the reverse and a couple of medium sized abrasions on each side. Scarce variety.

Choice BU 1795 Half Dime

7111 1795 MS 63. V-4, R.4. A lovely mint state example of this scarce and important early silver type coin. The obverse is well defined, with especially good details on the hair, but the reverse is somewhat soft on the eagle, as is often the case. The fields are bright and glimmer when held beneath a light, being little affected by the cobalt-blue toning seen in the central portions of each side. (Photo)

- 7112 1797 VG 10. 15 Stars. V-2, R.3. Light silvery-gray surfaces with a few marks on each side and several prominent die cracks. Popular two-year type.

- 7113 1797 VF 30. 15 Stars. V-2, R.3. Deeply toned and showing even wear over the highpoints. Scarcer than the 1796, but not as recognized a date because of its status as a second year of issue. Trends \$1,675 in VF 20, \$2,350 in XF 40.
- 7114 1801 Fine 12 Damaged. V-1, R.4. This brilliant coin shows several planchet flakes and noticeable marks in addition to a couple of areas around the rims that appear to have been struck with a heavy, blunt instrument.
- 7115 1803 VF 25 Slight Corrosion. V-2, R.3. The deep toning subdues the effect of the numerous small marks that pepper each side. Struck on a slightly buckled planchet.

BUST HALF DIMES

- 7116 1832 MS 63. Prooflike Obverse. V-1a, R.1. Lightly toned and deeply reflective in the obverse fields. Struck from the early, unclashed state of the V-1 dies.
- 7117 1832 MS 64. V-1c, R.1. Superb mint luster glows beneath the rich russet toning seen in the centers that is framed by aquamarine at the margins.
- 7118 1835 MS 63. Large Date, Large 5 C. V-3, R.2. Well struck with multicolored toning.
- 7119 1835 MS 64. Large Date, Small 5 C. V-10, R.4. A clean example that is sharply struck and shows a muted golden-gray toning over both sides. (Photo)

- 7120 1837 MS 62. Small 5 C. V-2, R.3. The only die of this year with the small 5 C. denomination. Gray patina overall with much underlying iridescence.

SEATED HALF DIMES

- 7121 1838 No Drapery AU 55. Fully struck with attractive toning and a couple of field marks on the obverse, one of which merges with a die break.
- 7122 1838 No Drapery MS 64. Fully struck with scarcely any color and showing bright fields that were apparently struck from striated dies.

- 7123 1838 No Drapery MS 65. Large Stars. Fully struck with excellent mint luster. Toned on both sides, but in differing hues—the obverse being a rich golden-brown and deeper toward the rims, while the reverse has a pronounced russet tone. A couple of shallow marks are noted on each side.
- 7124 1843 MS 64. Fully struck and deeply toned in several shades. A long, heavy die crack traverses the lower obverse from rim to rim.
- 7125 1849/6 MS 63. Boldly repunched southeast with the loop of the 6 plainly showing. Well struck with deep, multicolored toning on both sides.

- 7126 1851-O MS 64. A scarcer half dime, this '51-O is strongly detailed on each side and covered with a smoky-gray patina with strong mint luster beneath.
- 7127 1854 Arrows MS 64. Lustrous under a hint of steely-gold toning, with noticeable die clashing on either side.
- 7128 1855 Arrows MS 63. Well struck with good luster and extensive die cracks and clash marks.
- 7129 1858-O MS 63. A slightly better date that rates a R.3 in mint condition. This piece is deeply toned around the peripheries and a scratch from the wrist of Liberty to star 10 accounts for the grade.
- 7130 1861 MS 63. Satiny with outlines of blue and green-gold pastels.
- 7131 1861 MS 65. Lustrous with just a bit of light gray patina over each side. Well struck except on the upper left portion of the wreath.
- 7132 1871 MS 64. Well struck and lustrous with steel-gray patina.
- 7133 1872 MS 65. Much of the original brilliance still remains, but each side also shows significant areas of deep russet toning about the peripheries. Good luster and generally strongly struck except on the upper left portion of the wreath.
- 7134 1873 MS 63. Multicolored toning on both sides.
- 7135 1873 MS 64. Sharply struck with splashes of violet on each side.

PROOF SEATED HALF DIMES

- 7136 1863 PR 63. Excellent reflective surfaces with light gray and orange toning.
- 7137 1866 PR 65. Deeply reflective, shimmering fields and a problem-free coin in all respects with light steely-gray patina over the surfaces. A scarce date as a business strike, making the proofs all the more desirable. (Photo)
- 7138 1872 PR 50. A circulated proof with just a touch of color. ANACS certified, 5/25/82, on certificate E-4126-T.

EARLY DIMES

- 7139 1796 Good 4. V-1, R.3. Recognizable as a V-1 by the diagnostic die cud by star 1. This heavily worn coin is almost untuned with traces of rust color in the fields. A popular first year of issue.
- 7140 1807 VG 10. Heavily worn with some of the peripheral details missing or weak, the surfaces are a light gray with light pinkish-orange overtones.

- 7141 1807 AU 53 Planchet Flaw. Much of the original mint luster still remains and gives the coin a glossy sheen beneath the even medium gray patina that covers both sides. Strongly struck in the centers with irregular detailing elsewhere. The surfaces are quite free from blemishes. The most noticeable defect is a deep planchet flaw that affects both sides of the coin and is seen at 10 o'clock on the obverse rim, this flaw gives the coin a "pinched" appearance. (Photo)

BUST DIMES

- 7142 1824/2 MS 64. JR-1, R.3. A scarce date early dime that is seldom available in this lofty condition. This piece is weakly defined in the centers but shows strong peripheral details. On each side there is a circle of rich violet patina that is surrounded by sea-green at the margins. There are no obvious marks and the coin has an attractive appearance overall. Surely one of the finest 1824/2 dimes extant.

- 7143 1831 MS 64. JR-3, R.1. Light gray patina over both sides with sharply defined features, the coin has a good "look" overall and is surely one of the finest pieces known of the variety. (Photo)

SEATED DIMES

- 7144 1861 MS 63. Well struck but rather dull with hazy steel-gray surfaces.

- 7145 1869-S MS 65. A scarce issue, especially in high grades. This is a clean coin with good luster and light golden toning. The strike is generally good but does show some localized weakness on the upper left portion of the wreath.
- 7146 1870 MS 65. Ahwash-1. This is a tough call whether the coin is a business strike or a proof. But since it was struck from the Ahwash-1 die pairing, it must be a business strike as proofs were all struck from the A-2 dies. The strike is complete which is unusual for this variety and there is just a bit of cartwheel in the fields. Light pastel toning.
- 7147 1873 Arrows MS 62. Fully struck with dull steel-gray surfaces.
- 7148 1876 MS 64. The cinnamon-brown centers are surrounded by a deep blue patina at the margins.

- 7149 1876-CC MS 65. A razor sharp strike with partial wire rims about both obverse and reverse. The surfaces are bright and satiny, being tinted a delicate gold.
- 7150 1889 MS 63. Boldly defined with a vibrant, satiny appearance and only occasional toning at the rims.
- 7151 1890 MS 65. Original and quite frosty, with occasional antique-gold toning on both sides.
- 7152 1891-O MS 64. Gray-golden toning over both sides and showing some softness of highpoint details. A slightly better date.

PROOF SEATED DIME

- 7153 1873 Arrows PR 62. Bright obverse toning on this scarce, short-lived type.

BARBER DIMES

- 7154 1896-S MS 63. One of the most difficult S-mint Barber dimes, with a small but rather evenly dispersed range of mint state pieces surviving. This coin is especially frosty and displays some mottled toning about the portrait. (Photo)
- 7155 1904 MS 65. A brilliant and fully struck coin that has bright satiny mint luster and no obvious or distracting surface marks.
- 7156 1907-D MS 63. Lightly toned.
- 7157 1911 AU 58. Deep concentric rings of color.
- 7158 1913 MS 64. Lustrous and light in color.
- 7159 1914 MS 62. Light in color with a couple of areas of softness.

PROOF BARBER DIMES

- 7160 1894 PR 60. Dull gray toning.
- 7161 1897 PR 63. Hazy gray patina.
- 7162 1911 PR 64. A brilliant cameo with thick mint frost on the devices and deeply reflective fields. (Photo)
- 7163 1915 PR 64. Light peripheral color is noted around both sides.

MERCURY DIMES

- 7164 1916-D AG 3. Heavily worn into the rims, but original and uncleaned.
- 7165 1916-D Fine 12. An original coin with gray and golden toning in the fields and recesses of the design.

Key BU 1916-D Dime

- 7166 1916-D MS 62 Full Bands. Brilliant overall with superb mint luster and a slightly granular texture. There are no mentionable impairments on either side of this scarce and highly regarded key date issue. (Photo)
- 7167 1917-D MS 60 Full Bands. Retoned.
- 7168 1917-S MS 64 Full Bands. A smidgen of golden toning is seen on each side. Lustrous.
- 7169 1918-S MS 65 Full Bands. One of the scarcest of early Mercury dimes with split bands. This piece shows a strong separation of the middle bands and there are almost no abrasions on either side. Lightly toned on the reverse with significantly deeper reddish color on the obverse.
- 7170 1919-D MS 63. Lustrous with attractive, original patina over both sides.

- 7171 1919-D MS 64 Full Bands. Rich rose and lilac toning covers both sides of this scarce, early Mercury. Just a couple of marks on the obverse prevent a higher grade.
- 7172 1942/1-D VF 20. The diagnostic doubling on the 4 is obvious, but the underdigit is barely visible. Light color. INS certified for authenticity only, 4030 E.

TWENTY-CENT PIECES

- 7173 1875-S AU 55. Light steel-gray color.
- 7174 1875-S MS 63. Light golden-rose toning covers both sides of this popular type coin. Reasonably well struck with some loss of definition noted at the top of the eagle's wing. (Photo)

- 7175 1875-S MS 64. A well defined example of this popular, short-lived type. The brilliant surfaces show bright, one might almost say, dazzling mint frost. There are several delicate die cracks connecting the outer legends on the reverse and a tiny spot at the peak of the eagle's wing. Good quality overall. (Photo)

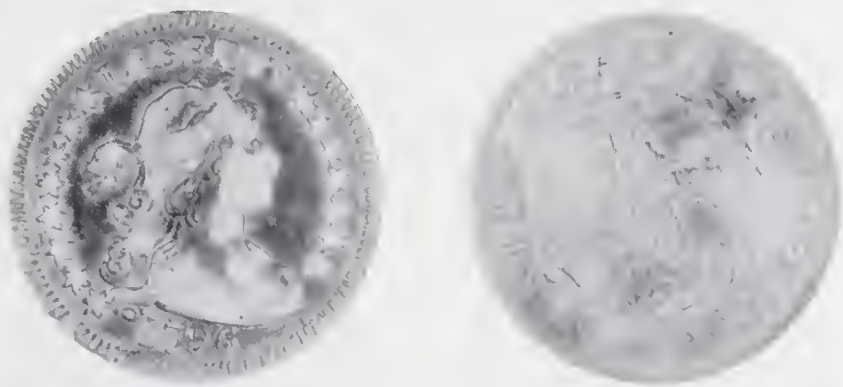

- 7176 1876 MS 63. Lustrous and fully struck, the fields have a bright, semi-prooflike sheen. The obverse shows a speckled multicolored array of coloration, while the reverse is almost entirely brilliant. A nice coin for the grade. (Photo)

PROOF TWENTY-CENT PIECE

- 7177 1876 PR 63. The depth of the blue and rust colored toning partially obscures the mirrored flash from the fields. (Photo)

EARLY QUARTERS

- 7178 **1796 VF 25.** Formerly sold as lot 492 of the 1988 Fall Long Beach Sale (HNA1, 10/88), flip accompanies, where it was described as, "Dullish steel-gray surfaces with deeper iridescent overtones in the recessed areas of the obverse. Evenly struck and worn, showing only minor reverse weakness, characteristic of the date. A tiny obverse rim bump at 12 o'clock is scarcely discernible. Medium grade examples of this eminently collectible one-year type are the exception and not the rule."

- 7179 **1805 MS 63.** Formerly sold as lot 494 of the 1988 Fall Long Beach Sale (HNA1, 10/88), flip accompanies, where it was described as, "Flatly struck in the centers (a situation typical on many of these early quarter dollars), but with unusually bright, prooflike surfaces. Also struck from heavily clashed dies, with most of the evidence of the contact occurring on the reverse. A delicate layer of iridescent steel-gray and olive toning has formed over the years, adding further to the already impressive appearance of this coin. Mint state quarter dollars of this type are quite rare; this lovely piece is no exception." (Photo)

- 7180 **1807 VF 20.** Original, deep gray-golden toning with no troubling surface damage.

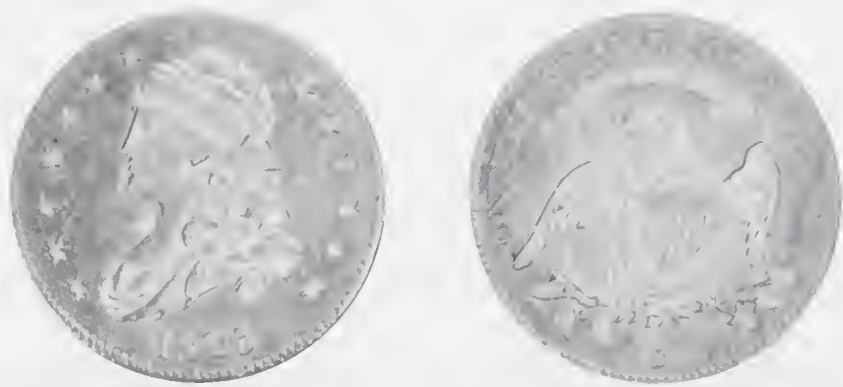

- 7181 **1807 MS 63.** A lovely mint state early quarter and a fine looking type coin. As usual, the strike is somewhat irregular, but generally quite strong in most areas. The centers have a russet-golden covering of color that shade to a sea-green at the rims. There are no major or mentionable impairments on the surfaces, but perhaps not quite lustrous enough to grade higher.

BUST QUARTERS

- 7182 **1818 AU 50.** The deep golden toning in the fields is framed by blue at the margins with untuned highpoints on the devices. A scarce type coin and much needed by type collectors.

- 7183 **1819 AU 50.** Light in color with generous portions of luster still in evidence surrounding the devices. An attractive type coin.

- 7184 **1825 MS 62.** Proof Surfaces. This is an intriguing coin. Two varieties of proofs are listed by Breen for 1825 quarters. One is from the B-2 dies, i.e., 1825/4/3. The other, 1825/4. This coin is of that second variety, a good starting place for proof determination. The one coin Breen saw of this variety that he concluded was a proof he listed in his 1977 work as, "one seen, not traced." The coin itself presents a compelling case for a special striking. The fields are uncommonly deep in their reflectivity, much more so than coins struck in the next decade from polished blanks or dies that are obviously not proofs.

The area of cartwheel luster in front of the neck presents a problem that, taken by itself, could be explained away as a weak (depressed) area in the die that did not take the polish when applied to the rest of the die's fields. However, the small bits of luster surrounding the eagle would seem to indicate an incomplete polishing of the dies. The striking quality does not itself present any evidence of non-proof status as strikings from screw presses were regularly inconsistent, even in the best of circumstances. One has to also wonder, however, why a proof would have been struck from such a late die state. And this may hold the answer to this coin's status. Proofs were usually struck from newly prepared dies and rarely show die cracks or any other signs of die deterioration. It appears that the dies of this coin were vigorously reground to remove some of the evidence of die deterioration, such as clash marks. The regrinding, where done, was of sufficient force that the resultant coin(s) have at least the appearance of proofs. An interesting study coin. (Photo)

- 7185 **1835 XF 40.** Softly struck on the highpoints with deep, speckled toning.

SEATED QUARTERS

- 7186 **1853 Arrows and Rays MS 63.** Sharply defined in all areas with excellent mint luster and none of the deep, oppressive color often seen on this issue. There is just the slightest bit of golden patina on each side and the surfaces show only light abrasions and a few minor luster grazes. An attractive example of this scarce and popular one-year type. (Photo)

- 7187 **1855 Arrows MS 62.** Fully struck with sea-green peripheral toning. Marred by a horizontal scratch in the field above the eagle.

- 7188 **1859-O AU 50.** A scarcer O-mint issue that is considered an R.4 in XF/AU condition. This piece is light in color with no large marks and shows some softness of highpoint details.

- 7189 **1861 MS 64.** Sharply struck with golden-brown toning and strong mint luster beneath. A common date No Motto quarter.

- 7190 **1874-S Arrows MS 64.** The frosted mint luster shows just a bit of gray patina on the obverse. A flashy, near-gem example of this scarce and popular two year type. (Photo)

- 7191 **1875 MS 63.** Lustrous and sharply struck with attractive, and apparently wholly original, toning.

- 7192 1876-S MS 64. Completely detailed, the coin was struck from striated dies, and as a result the fields are semi-prooflike. A lightly toned and very attractive Seated quarter.
- 7193 1876-S MS 65. The mint luster is overlaid with a light layer of reddish-gray patina and the strike is generally strong, with only a couple of scattered areas of softness noted. (Photo)
- 7194 1877-CC MS 62. Well struck with attractive light obverse toning.

- 7195 1889 MS 65. Sharply struck with superb mint luster. Both sides are toned a rich aquamarine with grayish-lavender centers. A superior type coin and an unusual find today outside a holder. (Photo)
- 7196 1890 MS 64. Superb mint frost and toned golden-rose on the obverse with dazzling brilliance on the reverse.

PROOF SEATED QUARTERS

- 7197 1860 PR 64. Light, steely-gray toning with good depth of reflectivity in the fields. A popular pre-Civil War No Motto date.
- 7198 1871 PR 63. Both sides are layered in gray and iridescent toning, highlighted in shades of rose and yellow-gold.
- 7199 1872 PR 63. Brilliant with a mild contrast between fields and devices.
- 7200 1872 PR 64. The center of each side of this stunning proof is untuned but is surrounded by deep gray-lilac and cobalt-blue color toward the rims. Highly reflective in the fields. (Photo)
- 7201 1873 Arrows PR 62. Deeply mirrored and nicely toned. A scarce and much needed type coin.
- 7202 1875 PR 64. A slight overlay of light gray patina on each side. A couple of tiny contact marks in the upper left obverse field prevent a higher grade.
- 7203 Withdrawn
- 7204 1885 PR 64. A few wispy hairlines are noted in the fields and there is just the slightest bit of color on the obverse.
- 7205 1887 PR 60 Cleaned.
- 7206 1888 PR 65. Deeply reflective mirrors in the fields, both sides are toned in multicolored, rainbow shades of toning which differ slightly from side to side, but are concentrated mostly around the rims. (Photo)
- 7207 Withdrawn

BARBER QUARTERS

- 7208 1893-S MS 64. Fully struck with rich golden-rose toning. (Photo)
- 7209 1894-S MS 63. Well struck with attractive multicolored toning. Slightly scarcer issue.
- 7210 1895-S/S MS 60. Fully struck. According to David Lawrence the repunched mintmark is worth a 50% premium.
- 7211 1914 MS 64. Superb luster and brilliant on the obverse with light color on the reverse.

PROOF BARBER QUARTERS

- 7212 1893 PR 64. The nicely reflective mirrors in the fields are covered with a hazy gray patina.

- 7213 1912 PR 65. Deep multicolored toning on the obverse contrasts sharply against the snow-white brilliance of the reverse. Unfathomable depth of reflectivity in the fields with a light layer of frosting on the devices. An attractive gem proof Barber quarter. (Photo)

STANDING LIBERTY QUARTERS

- 7214 1916 VF 20. Wear is evident on the highpoints of the design; untuned except for a bit of light golden color at the rims.

Splendid 1916 Standing Quarter

- 7215 1916 MS 65 Full Head. A rare gem example of this first year of issue. Only 52,000 coins were struck of this date and very few uncirculated pieces were saved by the public. As a result, this date became an almost instant collectible with mint state pieces always commanding a hefty premium. This coin has good mint luster and is toned a pale golden and lilac on the obverse, while the reverse is a speckled rose and blue. A rare opportunity for the specialist. (Photo)

- 7216 1917 Type One MS 60.

- 7217 1917 Type One MS 65. Light golden toning is seen over both sides. Well defined throughout with the usual matte-like surfaces.
- 7218 1917 Type One quarter MS 63 Full Head, dull; and an 1893 Columbian MS 61, deeply toned. (Total: 2 coins)
- 7219 1917 Type One MS 64 Full Head. Bright rose and lilac toning with the usual matte-like surfaces.
- 7220 1917 Type One MS 64 Full Head. Attractively toned with matte-like surfaces.
- 7221 1917 Type One MS 64 Full Head. Light gray centers with golden-russet peripheries.
- 7222 1917-D Type One MS 60.
- 7223 1917-S Type One MS 62 Full Head. Mostly brilliant.
- 7224 1918 MS 64 Full Head. Good luster, just slightly toned.
- 7225 1918-D MS 65. Attractively toned with strong underlying luster.

- 7226 1918-D MS 64 Full Head. Superb luster with light color, evenly matched from side to side, and well defined throughout. Scarcer early issue, especially with a full strike.
- 7227 1918-S MS 64. Well struck with light, dusky toning.
- 7228 1920-D AU 50; 1924-S AU 50; and a 1927 XF 40, all lustrous specimens that would fit nicely in a high grade set. (Total: 3 coins)
- 7229 1921 MS 64 Full Head. A fully struck example of this scarce, low mintage issue that shows beautiful pinkish-rose toning over both sides and strong underlying mint luster. An outstanding example that is just a couple of tiny contact marks from full gem status.
- 7230 1923 MS 65. Thick mint frost and mostly untuned with a strong strike.
- 7231 1923 MS 65. Excellent mint luster and covered with light pastel toning.
- 7232 1924-D MS 60. Typically soft on the obverse, most noticeable in the top half of the date.
- 7233 1924-D MS 63. Bright luster beneath light gray toning.
- 7234 1924-D MS 64 Full Head. Superb luster and lightly toned.
- 7235 1924-S MS 65 Full Head. Blazing mint luster and fully struck throughout with heavy die striations evident in the reverse fields.
- 7236 1928-D MS 65. Mostly untuned.
- 7237 1929-D MS 63 Full Head. Light color.
- 7238 1930 MS 64 Full Head. Fully struck with bright rose-violet toning.
- 7239 1930 MS 64 Full Head. Nicely toned and well balanced from side to side.
- 7240 1930 MS 64 Full Head. Brilliant.

WASHINGTON QUARTERS

- 7241 1932-D AU 55. Bright, almost untuned surfaces and clean as a whistle. Scarce.
- 7242 1932-D MS 63. Just a couple of milling marks on the neck of Washington and toned a bright golden-olive on the obverse with barely any color on the reverse.

EARLY HALF DOLLARS

- 7243 1795 Fine 12 Scratches. O-125, R.5. On the obverse there are three scratches behind the head of Liberty and two more in an X-shape over the ear. Otherwise, just honest wear and a number of adjustment marks on the reverse of this scarce, early half.
- 7244 1803 XF 45. Large 3. O-101, R.3. An evenly struck, steely-gray example, hinting of gold about the reverse lettering. The surfaces are wholly original and free of adjustment marks or other post-striking impairments. Formerly lot 469 from B&R's Hettrich Sale of January 1982, flip accompanies.
- 7245 1807 Draped Bust XF 40. O-102, R.2. Well struck for the date with medium density gray patina over both sides and a bit of golden patina surrounding the outer devices.
- 7246 1807 Draped Bust XF 45. O-105, R.2. Well struck with slate-gray toning and slightly darker hues around the devices. Bright reverse fields.

BUST HALF DOLLARS

- 7247 1809 MS 60 Minor Corrosion. O-115, R.2. Attractively toned with good mint luster. There is evidence of slight corrosion around the left obverse stars.
- 7248 1813 MS 60. O-108, R.4. Attractively toned with an even look from one side to the other. Double profile on Liberty.
- 7249 1827 MS 60. O-119, R.4. Sharply struck with attractive golden and lavender toning.
- 7250 1827 MS 63. O-112, R.3. Very well struck throughout with strong mint luster and light toning. Just a few small marks prevent a higher grade. (Photo)
- 7251 1828 MS 60. O-120, R.1. Well struck with even golden-rose toning.
- 7252 1829 MS 60. O-115, R.1. Light golden toning.
- 7253 1830 MS 60. Medium 0. O-119, R.1. Dusky gray-lilac toning and considerably darker around the peripheries. Softly struck in the centers.

- 7254 1830 MS 64. Small 0. O-113, R.2. Bright, lustrous surfaces and deeply toned in shades of blue, violet, and golden-brown on the obverse, and paired with a light golden reverse. Well struck with sparkling mint frost. The edge has a lettering error from the Castaing machine reading FIFTY CENTS OR A DOLLAR. (Photo)
- 7255 1832 MS 62. O-115, R.1. Deeply toned.
- 7256 1833 AU 50. O-104, R.1. Lightly toned and softly struck.
- 7257 1833 AU 58. O-113, R.2. Well struck and toned with bright, satiny surfaces.
- 7258 1837 Reeded Edge MS 61. Sharply struck with light, even color across both sides. An attractive and more affordable mint state example of this scarce type.

- 7259 **1837 Reeded Edge MS 64.** Fully struck in all areas and light in color with just the faintest bit of light reddish patina on each side, the coin basically presenting as untoned. Just a few small marks and a grease stain (as struck) in the left obverse field. (Photo)

- 7260 **1839-O AU 50.** A scarce and valuable Reeded Edge half; the only mintmarked issue in the series that is obtainable in a non-proof format. This piece was struck from extensively cracked dies, and over the years it has taken on a deep gray patina with a lighter accent of color on the highpoints of the devices.

SEATED HALF DOLLARS

- 7261 **1858 MS 62.** Brilliant and well struck except on the uppermost stars but fully defined on the head of Liberty. Good luster with a few small marks.
- 7262 **1861 MS 63.** Fully struck and lustrous with light toning over both sides.
- 7263 **1873-S Arrows AU 50.** A scarce coin in any grade and especially elusive in choice condition. This piece is deeply toned on each side and shows strong striking details and no detracting marks. Trends \$800 (10/18).
- 7264 **1874 Arrows MS 63.** Fully struck with a hazy gray patina that shows considerable underlying iridescence. A scarce type and always in demand.

- 7265 **1875-S MS 65.** One of the more common dates of the type, the '75-S is always an attractive, well struck coin, and often is the choice for a high grade type set. This piece is light in color and fully struck with only a few minor field marks on the obverse. (Photo)
- 7266 **1876 MS 60.** Deeply toned.
- 7267 **1876-S MS 64.** The devices on this near gem specimen are frosty and sharp, with the recessed areas more satiny in appearance and lightly toned in the protected areas. (Photo)
- 7268 **1880 MS 64.** Semi-prooflike with russet and blue peripheral toning. One of the low production dates from the 1880s, one of just 8,400 business strikes issued. (Photo)
- 7269 **1882 Fine 12.** Original surfaces. Scarce in all grades as a business strike.
- 7270 **1891 MS 62.** Deeply reflective prooflike fields. Toned.

PROOF SEATED HALF DOLLARS

- 7271 **1861 PR 64.** Light in color with deeply mirrored fields and a noticeable contrast between the fields and the frosted devices.
- 7272 **1862 PR 64.** Deeply mirrored with light frost on the devices and mild color. There are a few hairlines in the fields that account for the grade. (Photo)

- 7273 **1863 PR 64.** Deep, mottled, multicolored toning covers both sides of this near-gem proof half. (Photo)

- 7274 **1865 PR 65.** Mottled rose-violet, golden, and steel-gray toning over sparkling two-toned surfaces. Only 500 proofs were originally struck, with precious few gem pieces extant. (Photo)
- 7275 **1870 PR 64.** Bright, flashy surfaces and deeply mirrored in the fields with just a hint of light peripheral color.
- 7276 **1888 PR 63.** Peripherally toned with a hazy gray obverse center, but bright and flashy on the reverse.
- 7277 **1888 PR 64.** Mostly brilliant with appreciable contrast between fields and devices. A very flashy specimen, just a few wispy obverse hairlines from gem quality.

BARBER HALF DOLLARS

- 7278 **1899 MS 62.** Good luster and almost untoned.
- 7279 **1906 MS 64.** Fully struck with superb mint frost and a covering of olive-green patina over both sides.
- 7280 **1908 MS 63.** Light in color, but a bit too dull to grade any higher.
- 7281 **1908-O MS 64.** The thick, satiny luster shows very pale color in the centers but deepens considerably at the margins. Minimally abraded.
- 7282 **1912-D MS 62.** Boldly defined and essentially untoned.
- 7283 **1914 MS 63.** Most appealing for the grade, with original golden toning clinging to the frosty devices. The low-mintage 1914 brings a premium in all grades and is especially scarce in uncirculated.
- 7284 **1915-S MS 64.** Superb mint frost and dazzling mint brilliance give this coin an immediate eye appeal. (Photo)

PROOF BARBER HALF DOLLARS

- 7285 **1906 PR 63.** Light, hazy toning.
- 7286 **1906 PR 63.** Watery surfaces, uniformly toned in a milky golden-steel hue.
- 7287 **1909 PR 62.** Deeply toned over most of the surfaces.

WALKING LIBERTY HALF DOLLARS

- 7288 **1916 AU 55.** Brilliant with matte-like surfaces.
- 7289 **1916 MS 64.** The bright, satiny luster shows just a hint of golden patina on the obverse but the reverse is a pleasing, monochromatic rose tone. An attractive and well struck example of this scarce first year of issue. (Photo)
- 7290 **1916-D AU 58.** Much underlying brilliance still shows but there is just a bit of color on each side also. Just the slightest bit of rub from mint condition.
- 7291 **1916-D MS 63.** An original coin that is well struck and shows deep charcoal-gray color on both sides. Scarcer issue. (Photo)
- 7292 **1916-S MS 62.** Brilliant with a pronounced granularity to the surfaces. (Photo)
- 7293 **1917-D Obverse AU 58.** Sharply struck and nearly brilliant.
- 7294 **1917-D Obverse MS 60.** Untoned with strong definition in the centers and typical satin-like brilliance.
- 7295 **1917-D Reverse AU 58.** Sharply struck, matte-like, and showing only the slightest peripheral color.

- 7296 1917-D Reverse MS 62. A vibrant, essentially untoned specimen that, at first glance, appears finer. Only a touch of softness on the high points limits the grade.
- 7297 1917-S Obverse AU 50. A couple of larger, dark spots are noted on the obverse.
- 7298 1917-S Reverse AU 58. Light toning.
- 7299 1918-S AU 50. Bright, mark-free surfaces with golden-russet toning peripherally.
- 7300 1919 XF 40 Cleaned.
- 7301 **1919 MS 63 Questionable Toning.** Sharply detailed for this elusive issue, with few appreciable surface marks. The toning in question, while perhaps not original, is really not detracting to the viewer.
- 7302 1920-D XF 45. Untoned.
- 7303 1920-S AU 50 Cleaned.

- 7304 **1921 XF 40.** A solid collector coin that is infinitely more salable than many of the generic coins touted today. Light grayish color over both sides with a few tiny marks here and there.
- 7305 1921-D VF 20. Pale gray patina.
- 7306 1921-S VF 30. Generally untoned except for a faint bit of color on the reverse.
- 7307 1923-S MS 62. Brilliant with an above average strike for the issue. (Photo)

- 7308 **1923-S MS 65.** Superior quality, this is a stunning example of this very elusive date. In addition to the strong mint frost and paucity of surface marks, perhaps the most compelling feature on this coin is the strength of the strike. The obverse is fully brought up in all areas and the reverse shows just a bit of softness in the center of the eagle. Look for this coin to bring a strong price from floor bidders. (Photo)
- 7309 1927-S MS 62. Slight gray patina with a better than average strike. (Photo)
- 7310 1927-S MS 62. Lustrous and very well struck under a layer of golden-rose toning. An appealing specimen, free of obvious surface marks. (Photo)
- 7311 1928-S MS 61. Generally untoned and flatly struck in the centers, as usual. (Photo)
- 7312 1929-D AU 55.
- 7313 1929-D MS 60. Fully struck with dull gray surfaces.
- 7314 1929-S MS 62. Slight peripheral toning. (Photo)
- 7315 1933-S AU 55. Brilliant.

- 7316 1934-D MS 65. Flashy luster.
- 7317 1938-D AU 50.
- 7318 1941 MS 67. A spectacular common Walker, exhibiting dazzling untuned surfaces that offer razor sharp detail and an almost total absence of noticeable blemishes.
- 7319 1941-S half dollar AU 58; and (2) 1924 dollars MS 63. All are brilliant. (Total: 3 coins)
- 7320 1941-S MS 64; and a 1942-S MS 64, both very well struck for these scarcer "short set" issues. (Total: 2 coins)
- 7321 1941-S MS 65. Brilliant and very sharply struck. A good looking, well balanced example of this scarce issue.
- 7322 1942-S MS 65. Superb mint luster and sharply defined throughout. One of the finer '42-S halves we have seen in some time.
- 7323 1943 MS 65; 1946-D MS 65; and a 1946-S MS 65. All are fully struck and only the '46-S does not show some light color. (Total: 3 coins)

PROOF WALKING LIBERTY HALF DOLLAR

- 7324 1938 PR 66. Superb surfaces with just a bit of pale spotty color on the obverse and one darker spot on the back of the skirt. Flashy.

FRANKLIN HALF DOLLARS

- 7325 1949 MS 61; 1951 MS 63; and a 1951-S MS 64, the first two pieces being deeply toned. (Total: 3 coins)
- 7326 1952 MS 64; 1953 MS 64; and a 1954-S MS 64. All are beautifully toned. (Total: 3 coins)

PROOF FRANKLIN HALF DOLLAR

- 7327 1950 PR 63. Deep, spotted toning.

EARLY DOLLARS

- 7328 **1795 Flowing Hair VF 30 Reverse Scratches.** B-1. Light gray patina over both sides. On the obverse there is a band of porosity from improper preparation of the planchet and there are several deep, crisscrossing scratches on the reverse. (Photo)
- 7329 1795 Draped Bust AG 3. B-15. One of only two Draped Bust varieties of the year, this one is distinguished by the bust being well centered. Heavily worn into the rims but showing a clear date. Light in color.
- 7330 **1795 Draped Bust VF 20 Light Scratches.** B-15. Deep gray and blue toning around the devices with lighter gray in the fields. There are a number of scratches on the obverse and a dig in the field below the E in LIBERTY.
- 7331 1796 Fine 15. B-5. Large Date, Small Letters. Original medium-gray surfaces with a few adjustment marks seen along the left obverse edge. Diagnostic die lump between IC in AMERICA.
- 7332 1798 Large Eagle VF 20 Reverse Counterstamped. B-20. Original golden-gray surfaces with a few minor adjustment marks on the shield. What appears to be a die cud is found at the base of the reverse. In the stars above the eagle are the letters GEE, a counterstamp of unknown origin.
- 7333 1798 Large Eagle VF 25. B-15. Pointed 9. Light gray surfaces with subtle gold accents on either side. Free of adjustment marks, but a couple of minor rim bruises on the reverse detract very slightly.

- 7334 1798 Large Eagle VF 30 Damaged and Repaired. B-8. A hole was pierced through the top of the L in LIBERTY and has been filled in, but is still apparent. Gray and olive-green patina can be seen scattered over the surfaces. The lack of detail on stars 5 and 7 are a result of die failure, not damage.
- 7335 1798 Large Eagle VF 35. B-8. The surfaces are a uniform golden-steel and gray-blue, displaying a series of short adjustment marks in the center of Liberty's hair.
- 7336 1798 Large Eagle VF 35. B-29. A most pleasing, original example that features prominent die breaks below and through the date, extending to the bust and star I. Medium golden-gray color, deepening about the devices.
- 7337 1800 XF 40. AMERICAN variety. B-11. A popular variety that was created by a slip of an engraving tool in the mint, causing damage to the die that resembles the letter I. Light, almost brilliant, overall with just a touch of pale golden around the devices. There are a few small marks on the reverse and a couple of scratches in the obverse fields.
- 7338 1800 XF 40. B-5. Gray-rose toning overall with an occasional splash of deep blue on each side. There are several small marks in the center of the obverse, but these have little effect on the overall look of the coin.
- 7339 1802 VF 35. B-6. Close Perfect Date. A borderline XF specimen highlighted in olive-green and gold. Remnants of luster are most evident on the reverse. Two minor marks to the right of the bust.

- 7340 1803 AU 50 Possibly Retoned. B-4. Well defined with only the slightest softening of details on the eagle's breast feathers. Deep cobalt-blue toning with unusually bright surfaces beneath the patina. Well centered with no major or distracting marks.

SEATED DOLLARS

- 7341 1841 MS 60. Highly lustrous with milky gray patina covering the fields and no serious abrasions. There is an area on the left reverse border that appears to have been filed long ago. Scarce in mint state.
- 7342 1843 Seated dollar XF 45, well struck with gray-golden patina; 1871 Seated dollar XF 45, gray toning surrounds the devices; and an 1873 Trade dollar XF 40, a trifle bright but showing some light color. (Total: 3 coins)
- 7343 1846 Seated dollar XF 45, light, even gray color; 1871 Seated dollar XF 40, bagmarked obverse; and an 1873-S Trade dollar AU 55. (Total: 3 coins)
- 7344 1846 AU 50. Well defined with clean, gray-brilliant surfaces.
- 7345 1846 MS 60. Mostly brilliant with dazzling cartwheel luster and only the slightest friction in the open areas. While fairly common in lower grades, uncirculated examples of this date are indeed scarce. (Photo)
- 7346 1847 Fine 15, light gray with only a couple of stray marks on the obverse; and an 1871 Fine 12, hairlined from an old cleaning but toning back nicely. (Total: 2 coins)
- 7347 1848 AU 55. Murky gray surfaces with much of the original luster intact and minimal abrasions. Only 15,000 pieces were struck for the year and the number of survivors in AU and better condition is extremely limited, perhaps 100 or fewer coins.
- 7348 1859-S VF 35. A scarce issue with only 20,000 pieces struck. This coin is well defined for the issue and is remarkably free from abrasions. Medium gray patina.
- 7349 1860-O XF 45. Quite bright overall with several small specks of color on each side. Softly detailed on the head of Liberty.

- 7350 1863 MS 61 Cleaned. Clean and lustrous beneath a whisper of golden color, with particularly sharp features. Just a few dozen mint state examples of this Civil War era issue survive from a business strike mintage of 27,200 coins. The light cleaning, while perhaps inhibiting certification, detracts relatively little.

- 7351 1868 MS 60. A scarcer date in mint condition, this piece has fully brilliant prooflike fields beneath the light gray and golden toning that covers both sides. Well struck in most areas with just a touch of softness on the highest portions of the design. Trends \$2,500.
- 7352 1870 AU 50. Hazy steel-violet surfaces, boldly struck throughout.
- 7353 1870 AU 50. The obverse surfaces, light gray in color, are finely hairlined from an old cleaning.

- 7354 1872 MS 63. The surfaces are vibrant and satiny with just a suggestion of golden color about the edges. Well preserved for this With Motto issue. (Photo)

PROOF SEATED DOLLAR

- 7355 1871 PR 62. Glittering golden-hued surfaces, displaying only wispy hairlines and full proof brilliance. (Photo)

TRADE DOLLARS

- 7356 1875-S MS 62 Light Obverse Scratches. Both sides are layered in mottled golden and soft violet toning.
- 7357 1875-S MS 63. Very well struck beneath a hint of milky golden patina.

- 7358 1875-S MS 64. Light golden color on each side with superb mint luster that was enhanced by die polishing in the mint, the evidence of which can be seen in the fields on each side. Well struck in most areas with only slight softness at the top of the obverse.

- 7359 **1876 MS 64.** A shimmering, untoned specimen that, on the reverse, exhibits a flashy semi-prooflikeness in the fields. Tiny rim bump on the obverse just before 12 o'clock. (Photo)

MORGAN DOLLARS

- 7360 1878 7/8TF Weak MS 63, golden toned; 1887-S MS MS 63, slight color on the obverse; and an 1890-S MS 63, lustrous with deep peripheral color. (Total: 3 coins)
- 7361 1878 8TF MS 64. Brilliant with pleasing semi-reflective fields.
- 7362 1878 8TF MS 63 Prooflike. Fully brilliant and just a few wispy hairlines below Liberty's chin from an even higher grade.
- 7363 1878 7TF Reverse of 1878 MS 63 Deep Mirror Prooflike, two-sided reflectivity with golden-orange toning covering the reverse; and an 1878-CC MS 63, scattered obverse abrasions under a layer of reddish-gold toning. (Total: 2 coins)
- 7364 1878 7TF Reverse of 1879 MS 64 Prooflike. A flashy, minimally abraded specimen, well frosted on the devices. Scarce with this combination of quality and PL surfaces.
- 7365 1878 7/8TF Strong MS 63. VAM-38, Doubled Motto. Brilliant.
- 7366 **1878 7/8TF Strong MS 65.** Mostly brilliant with unusually clean surfaces for this first year variety.
- 7367 1878-CC MS 63; 1899-O MS 63; and a 1925 MS 63, all original, attractively toned examples. (Total: 3 coins)
- 7368 1878-CC MS 64. Untoned with vibrant mint luster.

- 7369 **1879-CC MS 64.** Perfect Dies. An exceptionally attractive example of this very scarce Carson City dollar. Both sides of this exquisite Morgan are splashed in irregular splotches of bright, multicolored toning that are enlivened by a thick underlying layer of mint luster. The only detracting feature on this coin that we find is a slight softness of strike in the centers. (Photo)
- 7370 1879-O MS 60, steel-gray surfaces; 1886-O MS 60, sharply struck for this tough O-mint date; and a 1921 Peace MS 60, highly lustrous. (Total: 3 coins)
- 7371 1879-O MS 62; 1881-O MS 63 Prooflike, dullish toning on the reverse; and an 1888-O MS 63. (Total: 3 coins)
- 7372 **1879-O MS 65.** Sharply struck with just a whisper of golden color over minimally abraded surfaces. A remarkably nice '79-O, generally found in MS 63 condition at best.
- 7373 1879-S MS 66. A pristine, frosty white example.
- 7374 1880-O MS 63. Radiant luster.
- 7375 1880-O MS 63, deeply toned; and an 1884-O MS 64, satiny with color on both sides. (Total: 2 coins)

- 7376 1880-O MS 64. Frosty and exceedingly lustrous, with a full gem reverse.
- 7377 1880-S MS 63; 1884-CC MS 63, dull gray patina with one obverse spot of color; and an 1891 MS 63. (Total: 3 coins)
- 7378 1880-S MS 64; 1884-CC MS 64; and an 1891 MS 64. (Total: 3 coins)
- 7379 1880-S MS 65. A clean and frosty specimen, brilliant except for a dash of russet toning at the date.
- 7380 1880-S MS 60; and an 1881-CC MS 63, frosty. (Total: 2 coins)
- 7381 1881-O MS 64. Lustrous, well struck, and virtually untuned.
- 7382 1881-O MS 65. Fully defined in the centers and virtually untuned.
- 7383 1881-O MS 65. Clean, semi-prooflike surfaces that are also very well defined over Liberty's ear and on the eagle's breast.
- 7384 1881-O MS 63 Deep Mirror Prooflike. A well mirrored example, boldly struck in the centers and displaying appreciable field to device contrast.
- 7385 1881-S MS 65; 1897-S MS 62, reddish-gold and green obverse highlights; and a 1900-O MS 62, original golden-orange toning. (Total: 3 coins)
- 7386 1881-S MS 65; 1883-O MS 64 Deep Mirror Prooflike; and a 1921-D MS 63, mildly reflective. (Total: 3 coins)
- 7387 1882 MS 65. Attractive golden toning is noticed here and there on both sides.
- 7388 1882-CC MS 64; and an 1889-CC Good 6, an affordable key with light silvery-gray color. (Total: 2 coins)
- 7389 1882-CC MS 65; 1883-CC MS 65; and an 1884-CC MS 65. An original and pleasing group of these common dates. Ex: 1993 ANA (HNAI, 7/93), lot 7781, flip accompanies. (Total: 3 coins)
- 7390 1882-CC MS 65. A bright, semi-prooflike example with a couple of reddish-gold toning streaks down the obverse adding to the eye appeal. (Photo)
- 7391 1882-O MS 64. Fully struck and brilliant with semi-prooflike fields. Sharp looking coin.
- 7392 1882-O MS 64; 1884-CC MS 64; and an 1887-O MS 64, all brilliant, sharply struck examples. (Total: 3 coins)
- 7393 1883-O MS 64 Deep Mirror Prooflike, three pieces, all choice and highly reflective. (Total: 3 coins)
- 7394 1884-S AU 55. Highly lustrous for this conditionally rare issue, with mottled golden-gray obverse toning. A couple of notches above the typical AU 1884-S.
- 7395 1885-CC MS 65. Brilliant. Ex: 1993 ANA (HNAI, 7/93), lot 7791, flip accompanies.
- 7396 1885-CC MS 65 Deep Mirror Prooflike. Lightly toned on the obverse with unfathomable depth of mirrored reflectivity. (Photo)
- 7397 1885-O MS 66. Fully struck with smooth, satiny surfaces.
- 7398 1885-O MS 66. A real blazer with brilliant, frosted surfaces that are fully struck and show no objectionable bagmarks.
- 7399 1885-O MS 66. Pale gray patina on the obverse with a dazzling, brilliant reverse. Sharply struck and very clean overall.
- 7400 **1885-O MS 67.** What a nice example of this otherwise common O-mint. Both sides offer an original satiny brilliance and are nearly void of even the slightest blemish.
- 7401 1885-S MS 65. Brilliant with intense luster and sharp central details.
- 7402 1886 MS 64, lovely obverse toning and sharply struck; and an 1887 MS 64, brilliant. (Total: 2 coins)
- 7403 1887 MS 65 Prooflike. Brilliant with minimal surface marks.
- 7404 1888-S MS 63. Both sides are attractively toned in a blend of pinkish-gold and blue-green. This low-mintage issue is on many want lists in both circulated and uncirculated grades.
- 7405 **1889 MS 66.** Remarkably well preserved for this high mintage date, with shimmering brilliance and an almost total absence of surface marks.

7406 1889-CC Fine 15. A pleasing, defect-free specimen with light to medium gray surfaces that deepen in the most protected areas.

7407 1889-CC VF 30. A highly collectible example of this popular key. The surfaces are a natural medium-gray color and totally free of distractions.

7408 1889-CC AU 50 Cleaned. The surfaces are a milky gray color and show a great deal of underlying prooflikeness in the fields. By far the scarcest Carson City Morgan, particularly in grades above XF.

7409 1889-S MS 65. Fully struck and mostly untoned but the obverse is muted slightly by a thin overlay of color. A clean example of this scarce Redfield date.

7410 1890 MS 62, toned somewhat; 1899-O MS 64, weak strike; and a 1924 MS 63, light color. (Total: 3 coins)

7411 1890 MS 65 Prooflike. Strong reflectivity in the fields that border on DMPL status. The surfaces exhibit minimal distractions and a dash of golden color through the date and lower stars. Quite scarce.

7412 1890-O MS 64 Prooflike. A borderline gem example that is incredibly sharp and shows just the slightest golden tint about the peripheries. (Photo)

7413 1891 MS 64. Lustrous and well struck with only a bit of grease staining (as struck) on each side to mar the otherwise brilliant surfaces.

7414 1891-CC MS 63. Satiny and untoned, displaying razor sharp detail in the centers.

7415 1891-CC MS 60 Prooflike. Deeply reflective with traces of golden peripheral color.

7416 1892-O MS 63. Typically struck in the centers, but free of any meaningful marks and handsomely toned in golden-orange and blue shades.

7417 1893-CC XF 40, light gray surfaces beginning to tone on the obverse; 1921 Peace AU 50, faint scratches in the fields; and a 1928 VF 30, a clean, silvery-gray example of this low-mintage key. (Total: 3 coins)

7418 1893-O AU 55. Highly lustrous, exhibiting ample frost on the devices that show slight scuffiness. A tough date in honest borderline uncirculated condition. Ex: 1993 ANA Sale (HNAI, 7/93), lot 7820, flip accompanies.

7419 1893-S Good 4. A problem-free example, suffering only from good, honest wear. The obverse is light gray in color while the reverse is toned a mottled steel-violet, suggestive of residence in an album for many years. Nearly full rims, with no wear into the stars and lettering.

7420 1893-S XF 45 Whizzed. The effects of the whizzing are greatly subdued by the deep charcoal patina that covers both sides of the coin. Well detailed with no large marks. The diagnostic die scratch in the top of the T is evident under magnification.

7421 1894-O MS 62. Mostly brilliant and displaying better-than-average sharpness over Liberty's ear and on the eagle's breast. A conditionally scarce New Orleans date that emerges as a rare (and expensive) item in grades higher than the present example.

7422 1894-S AU 58. Just a bit slippery on the obverse. Because of this date's high demand, a coin that should approach MS 60 money.

7423 1894-S MS 62. Struck from heavily striated dies and semi-prooflike as a result, the details are strong on each side, and there is a bit of light color on the obverse. The most affordable issue in this difficult year for dollars.

7424 1894-S MS 61 Prooflike. Watery surfaces that were probably overzealously dipped in the past and display a couple of toning spots on the obverse edge. Quite scarce as a prooflike.

7425 1894-S MS 65 Prooflike. While the '94-S is the most available of the three issues from this year, it is a decidedly rare coin in gem condition and with prooflike fields. This is a mostly brilliant coin with just the barest trace of golden peripheral color around the denticles. The fields have exceptionally heavy die striations that impart a prooflike finish to both sides. The only mark of note on this coin is one on the lower back portion of the jawline of Liberty, but this is a minor consideration all things considered. A significant offering for the dollar enthusiast.

7426 1894-S MS 64 Deep Mirror Prooflike. Fully brilliant with sparkling luster in the fields and sharp central details for this scarce and popular S-mint. Highly elusive with DMPL qualities.

7427 1898-O MS 64 Prooflike, three pieces, all boldly struck and modestly reflective. (Total: 3 coins)

7428 1898-O MS 65 Prooflike, three pieces, all clean-checked specimens displaying considerable sparkle in the fields. (Total: 3 coins)

- 7429 1898-O MS 63 Deep Mirror Prooflike, three pieces, two layered in milky golden patina and the third mostly brilliant. (Total: 3 coins)
- 7430 1898-O MS 64 Deep Mirror Prooflike, three pieces, all choice examples that range from lightly toned to brilliant. (Total: 3 coins)
- 7431 1898-O MS 65 Deep Mirror Prooflike. The best example in this mini-hoard of PL and DMPL 1898-O dollars. The surfaces are quite clean and solidly reflective.
- 7432 1899-O MS 64, two pieces, both are satiny with light color; and a 1901-O MS 64, sharply defined. (Total: 3 coins)
- 7433 1899-S MS 64 Deep Mirror Prooflike. A very scarce dollar with deeply reflective fields, and also a difficult coin to locate in high grade. This brilliant piece has only one detracting area, that being several small bagging marks on the lower cheek of Liberty.
- 7434 1900-O MS 63, light peripheral color; 1901-O MS 63; and a 1925 MS 63. (Total: 3 coins)
- 7435 1900-O MS 64 Prooflike, pale, hazy patina on the obverse; and a 1900-S MS 64 Prooflike, only slightly marked with good flash in the fields. (Total: 2 coins)
- 7436 1900-S MS 64 Deep Mirror Prooflike. Brilliant and quite well struck over Liberty's ear and on the eagle's breast. Like all late-date Morgans from the San Francisco mint, the 1900-S is very elusive in full DMPL condition.
- 7437 1901-O MS 65. Exceptionally clean surfaces overall, and covered with a dullish gray patina that tends to subdue the bright mint luster on the coin. Not quite fully brought up.
- 7438 1902-O MS 64 Deep Mirror Prooflike. Lightly tinted and displaying unusual depth to the fields for this late-date New Orleans issue.
- 7439 1902-S MS 64. Quite clean for this tough, later-date San Francisco issue, with blushes of violet and gold toning across the obverse.
- 7440 1903-O MS 62. Brilliant.
- 7441 1903-O MS 64. A brilliant example of this once-rare O-mint, minimally abraded with semi-prooflike fields.
- 7442 1903-O MS 64. Satiny and well struck.
- 7443 1903-O MS 66. An absolutely pristine '03-O, well frosted about the peripheries and about as clean for the date as we have seen in quite some time.

- 7444 1904-S MS 65. Semi-Prooflike. Brilliant and problem-free overall with only the slightest bit of softness evident over the ear and on the eagle's breast. The fields have a vague glimmer of reflectivity, more pronounced on the obverse than reverse, and there is just a bit of chatter in the fields. Very scarce as such.

- 7445 1904-S MS 64 Deep Mirror Prooflike. A rare dollar with deeply mirrored fields, especially so in high grades. This piece was struck from heavily polished dies and shows numerous die striations in the fields. Light in color, in fact, almost brilliant in most areas with very few marks on either side. (Photo)
- 7446 1921-D MS 66. Fully brilliant and displaying the kind of luster one expects so see on an early S-mint, but certainly not on a 1921-D. Just an outstanding example of the date.

PROOF MORGAN DOLLARS

- 7447 1878 8TF PR 60. An obvious proof, this piece has dullish surfaces and there are several staple scratches on the face of Liberty as well as a couple of scrapes at the top of the breast feathers on the eagle.

- 7448 1879 PR 64. Dazzling proof brilliance with hints of gray-gold toning about the peripheries. There are no singularly distracting hair-lines, just a few wispy lines here and there in the fields.
- 7449 1881 PR 60. Toned.

PEACE DOLLARS

- 7450 1921, two pieces, one a lightly toned AU 55 the other a brilliant MS 62. (Total: 2 coins)
- 7451 1921 MS 60. Brilliant.
- 7452 1921 MS 61. Mottled russet, gold, and green toning is splashed across the obverse.
- 7453 1921 MS 62, attractive golden-rose obverse toning; and a 1927 MS 62, lustrous and essentially untuned. (Total: 2 coins)
- 7454 1921 MS 64. Silvery-gray in color with no serious marks and an adequate strike in the centers.
- 7455 1921 MS 64. Showing the usual softness of details in the centers, but highly lustrous beneath the golden-brown toning that covers both sides.
- 7456 1922-D MS 65/64. Mottled iridescent toning adorns the obverse. A few light marks are visible about the eagle's head.
- 7457 1922-D MS 66. Both sides are layered in a light milky patina and are nearly totally void of distracting marks. Lofty quality indeed for a 1922-D.
- 7458 1923 MS 64; and (2) 1925 MS 64. All show light toning. (Total: 3 coins)
- 7459 1923-S MS 63. Light obverse color.
- 7460 1924 MS 66. Delicately tinted about the borders with vibrant mint brilliance.
- 7461 1924-S MS 63. Pale color on the reverse.

- 7462 1925 MS 66. Lustrous with an even layer of gray-golden patina and an irregular sprinkling of deeper color across both sides.
- 7463 1925-S AU 58; 1927 MS 63; and a 1928 AU 50. (Total: 3 coins)
- 7464 1926-D MS 65. Fully struck and showing good satiny luster with just a bit of color on the obverse. Scarce in gem condition.
- 7465 1927-D MS 60; 1927-S MS 62; and a 1934-D MS 60, all brilliant. (Total: 3 coins)
- 7466 1928 MS 63. Well struck and lightly toned. Scarcer issue.
- 7467 **1928 MS 65.** The first of two gem specimens of this low-mintage key. Both obverse and reverse are splashed in milky olive-gold toning.
- 7468 **1928 MS 65.** A bit lighter than the preceding coin, being tinted in streaks of light gold primarily across the obverse.
- 7469 1934-D MS 63. Quite frosty with overlays of silvery-gold toning.

COMMEMORATIVE SILVER

- 7470 1893 Isabella Quarter MS 60. Mostly brilliant.
- 7471 **1893 Isabella Quarter MS 65.** The obverse is especially choice, being layered in hint of milky gray-gold patina.
- 7472 **1893 Isabella Quarter MS 65.** A second gem specimen, with both sides overlaid in golden-violet and soft bluish-green toning.
- 7473 **1893 Isabella Quarter MS 65.** Lovely steel-violet and greenish-gray toning with hints of reddish-gold at the borders.
- 7474 1900 Lafayette Dollar AU 58. Traces of golden-brown and sea-green toning about the peripheries.
- 7475 1900 Lafayette Dollar MS 60. A well balanced coin with lovely lilac and pinkish-rose patina and showing only a few small marks in out-of-the-way places.
- 7476 1900 Lafayette Dollar MS 60 cleaned. Both sides are toning back a light milky golden color.
- 7477 1921 Alabama MS 63, lustrous with just a touch of light color on each side; 1923-S Monroe MS 63, mostly brilliant; and a 1927 Vermont MS 62, light color. (Total: 3 coins)
- 7478 **1935-S Arkansas MS 66.** Essentially untuned with an original, frosty appearance and an almost total absence of surface marks.
- 7479 1939-S Arkansas MS 63. Most of the coin has a silvery-gray caste with deep russet accents around the rims and reverse devices.
- 7480 1936-S Bay Bridge MS 64. Nicely toned.
- 7481 1935/34 Boone MS 64; and 1935 Boone MS 63, both displaying specks of obverse toning. (Total: 2 coins)
- 7482 1936 Boone MS 64, just a trace of obverse color; and a 1936 Delaware MS 64, lightly toned. (Total: 2 coins)
- 7483 1937-S Boone MS 66. Near flawless surfaces with muted gray centers that give way to a ring of bright golden at the rims.
- 7484 **1938-D Boone MS 66.** A bit of mottled iridescence is seen across both sides of this superlative final year issue, one of just 2,100 pieces struck.
- 7485 1936 Bridgeport MS 65. Untoned and as frosty as this issue comes.
- 7486 1936-D Cincinnati MS 65. Deep speckled toning covers the obverse. A premium coin with good luster.
- 7487 1936-S Cincinnati MS 65. A "dirty" original specimen, toned on the obverse in mottled shades of russet and subtle green while the reverse is layered in a milky original patina.
- 7488 1936 Columbia MS 63; 1920 Pilgrim MS 63; and a 1927 Vermont MS 63. A well matched trio, each of which is mostly untuned. (Total: 3 coins)
- 7489 1936 Columbia MS 67. Milky golden-gray and sky-blue patina blankets both obverse and reverse of this nearly blemish-free example.
- 7490 1892 Columbian MS 65. Deep, original toning with clean, problem-free surfaces.
- 7491 1892 Columbian MS 65. The obverse displays suggestions of golden-orange toning while the reverse is brilliant.

- 7492 1893 Columbian MS 65. Both obverse and reverse are liberally splashed in blue and orange iridescence.
- 7493 **1893 Columbian MS 66.** A pristine specimen, toned a light golden-gray in the centers and shading to a deeper bluish-green color peripherally.
- 7494 1935 Connecticut MS 65. Blazing mint frost.
- 7495 1936 Elgin MS 65. Frosty and essentially untuned.
- 7496 1928 Hawaiian MS 63 Lightly Cleaned. The unnaturally bright surfaces have taken on a layer of light toning that helps tame the overall brassiness of the coin. No obvious contact marks to speak of.
- 7497 1946 Iowa MS 64, light color; 1936-D San Diego MS 64, golden toned; and a 1936 Wisconsin MS 64. (Total: 3 coins)
- 7498 1934 Maryland MS 65. Speckled golden-orange obverse color, lightening to a yellow-gold on the reverse.
- 7499 1934 Maryland MS 65. Deep multicolored toning over both sides.
- 7500 1921 Missouri 2x4 MS 60. Untuned.

- 7501 **1923-S Monroe MS 65.** A lustrous and exceptionally clean example of this conditionally scarce commemorative half dollar. Light in color and showing no obvious or detracting blemishes on either side. One of the finer non-certified Monroe halves we have seen recently.
- 7502 1936 Norfolk MS 65. Pale lilac and rose toning.
- 7503 **1936 Norfolk MS 67.** Splendid multicolored toning outlines both sides, complementing the near flawless surfaces.
- 7504 1926 Oregon MS 63, lightly toned with deeper streaks in the center of the obverse; 1938 Oregon MS 64, untuned; and a 1938-S Oregon MS 64, untuned and dull. (Total: 3 coins)
- 7505 1926-S Oregon MS 66. Attractive peripheral toning in shades of orange and bluish-green.
- 7506 1933-D Oregon MS 65. Superb luster with just a hint of light color.
- 7507 1936-S Oregon MS 64, untuned; and a 1937 Roanoke MS 60, cleaned. (Total: 2 coins)
- 7508 1938-S Oregon MS 66. Clean surfaces accented by iridescent gold, orange and russet toning throughout.
- 7509 1915-S Panama-Pacific MS 62. A well toned example of this scarcer early commemorative that, from a surface mark perspective, appears to grade finer.
- 7510 **1915-S Panama-Pacific MS 64 Satin Prooflike.** Essentially mark-free with an unusually bold strike and just the slightest silvery-gold tint.
- 7511 1920 Pilgrim MS 65. Good luster with light, original toning. Showing just a bit of chatter in the left obverse field near the face of the Pilgrim.
- 7512 1937 Roanoke MS 65. Just the faintest blush of color can be detected on each side.
- 7513 1926 Sesquicentennial MS 64. One of the sharpest strikes we've seen on this low relief issue, with only a few light specks of toning on either side.
- 7514 1935-D Texas MS 65. Silvery-gray with an almost prooflike sheen in the obverse field.

- 7515 1935 Texas PDS Set MS 64 with Original Box of Issue. The coins are uniformly toned with golden-brown color on one side and a lilac-olive patina on the other. Obviously original and accompanied by the original holder of issue. Much of the original silver foil has chipped away over the years, but otherwise the box is in fine condition. (Total: 3 coins)
- 7516 1937 Texas PDS Set. The P-mint grades MS 65, the D-mint is MS 63, and the S-coin is MS 64. Light, evenly matched color. (Total: 3 coins)
- 7517 1938 Texas PDS Set. The P and D coins grade MS 64 and the S-mint is MS 60. Light in color. (Total: 3 coins)
- 7518 1925 Vancouver MS 65. The bright satiny luster has just a touch of russet patina in the fields.
- 7519 1927 Vermont MS 65. Deeply toned with strong underlying luster.
- 7520 (3) 1952 Washington/Carvers, one grading MS 63 and the other two peripherally toned MS 64 examples. (Total: 3 coins)
- 7521 1952 Washington-Carver PDS Set. The P-mint grades MS 63, the D-mint is also MS 63, and the S-coin grades MS 64. The P-mint is brilliant and the other two are lightly toned. (Total: 3 coins)
- 7522 1936 Wisconsin MS 64. Light in color and nice for the grade.
- 7523 1936 Wisconsin MS 66. Soft golden and rose toning clings to the devices.
- 7524 1936 York MS 64. Lightly toned with good underlying luster.

MISCELLANEOUS

- 7525 1943-S Cent Struck on a Silver Planchet. 2.5 grams. The coin grades VF 30 but is softly struck on a thin planchet. Formerly sold in Kagin's 331st Sale, GENA (1/83), lot 1525, flip accompanies, where it realized \$400. It was described in that sale as a "remarkable off-metal error," and indeed it is.
- 7526 1983 Off-Center Cent MS 60. A zinc core cent struck approximately 25% off-center. Full red color with traces of the zinc core showing on the reverse. The coin has a pronounced dished appearance.
- 7527 Washington Pieces, Listed in Baker. Included are: Baker-2 Good; B-30 Plain Edge VF; B-91 Bronze PR 63; B-113 Tin XF; B-204 Bronze VF; B-224 VF; B-243 Ch. XF; B-246 AU; B-279 Bronze Proof; B-279 Bronze, an unlisted piefort, Proof; B-325 Bronze, Ch AU; B-363 Copper XF; B-372 Tin XF; B-395 Copper Proof; B-580 Copper VF; and a B-651 AU, holed. (Total: 16 medals)
- 7528 Washingtonia, Not Listed in Baker. This is a wide ranging group of 40 medals and tokens. Some celebrate the centennial of his death, several are from the centennial of his inauguration, the bicentennial of his birth, and so forth; there are even three Civil War tokens with his likeness on them. Condition is generally high and there may be a couple of better pieces here that we were unable to attribute. An interesting lot. (Total: 40 pieces)
- 7529 Feuchtwanger Cents. A lot of (2) pieces of this scarce and popular experimental coin. One grades VF 20 and has bright surfaces, the other is a VF 35 but has been holed and none too expertly repaired.
- 7530 1837 Feuchtwanger Cent VF 30. Original surfaces with deep charcoal-gray color within the devices. Slightly off-center and showing several delicate die cracks around the head of the eagle. Listed on page 285 of the 1993 *Guide Book*.
- 7531 1837 Feuchtwanger Cent XF 40. Original surfaces that show a light gray patina in the fields with much deeper color within the recesses of the devices. Slightly off-center.
- 7532 Hard Times, Civil War, and other Tokens. Included are: Hard Times Token Fine 12, Low-48. Civil War Tokens: Fuld-225 CL-1a, Fine, 5-10 known; Fuld-620H-1a, VF, common; Fuld-630 BM-1a, XF 45, very common; Fuld-700D, reverse married with what appears to be a #1099 obverse, unlisted die pairing in Fuld, VF; Fuld-890B-20b, AU 50, common; and a Fuld-967A-1b, Fine, common. Also included are: 1836 Steam Press Token MS 60; (2) Pony Express medals, one copper and one silver, MS 63; and a 1909 Lincoln medal struck in silver and designed by Bela Lyon Pratt, PR 63 with much darker color in the fields and the recesses of the devices. (Total: 11 tokens)

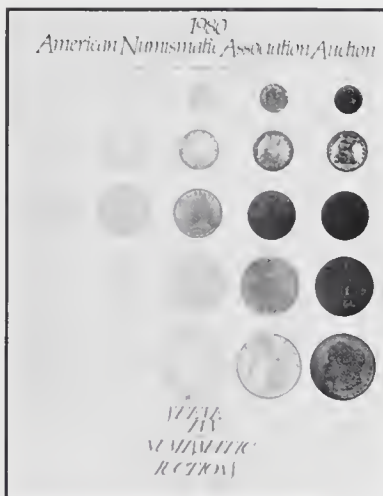

- 7533 M. A. Abrahams Token, Independence, Missouri. Miller MO-40, brass. Rare merchant token from the 1840s that was struck for the western outfitter M. A. Abrahams. Abrahams owned a store in Independence, at the head of the Santa Fe trail, that contained virtually every item a westward bound pioneer could need. This piece is Fine in condition with a flan crack at 4 o'clock on the obverse and deeper mottled color. Very rare with only 5-10 of the Independence pieces believed to exist today. Ex: Chris Schenkel Collection (B&M, 11/90), lot 4375, flip accompanies.
- 7534 M. A. Abrahams Tokens from Weston, Missouri. Miller MO-41, brass. Group of (4) tokens, one of which is struck 30-40% off center. The three centered pieces grade AU, and the off-center token is a VF 30. Quite scarce with an estimated 25 tokens in existence today. (Total: 4 tokens)
- 7535 Civil War Store Cards, Etc. Included are: (6) Oliver Boutwell tokens, Troy, NY, Fuld-890B, XF-Unc.; (1) Lingg & Bro. Jewelry Centennial Token, Philadelphia, PA, plain edge, BU but spotted; (1) New York and Albany Steam Boats Token, Fuld-630 BD-1b, brass, Red and Brown Unc.; (1) Goodrich & Gay Hardware Token, Grand Rapids, MI, Fuld-370D-3b, brass, spotted AU; (1) S. W. Whited Sutler's Token, ILQ-10C, bronze, VF; and (1) 1723 Hibernia Farthing VF 20. (Total: 11 tokens)
- 7536 Medal and Token Dies. An interesting lot of six obverse dies. One was used to strike a Masonic medal for New Jersey Chapter No. 7 and is similar to illustration number 174 of E. A. King's 1926 edition of *Masonic Chapter Pennies—The Albert M. Hanauer Collection*. The other five were used to strike "beer chips." These were popular in the 1910s and were widely used in saloons as "good for" tokens. These five dies are from various taverns in Illinois. All are in good condition, a couple show evidence of mild rusting.
- 7537 Lafayette Medals. Included are: Low-86, A FRIEND TO AMERICA AND FREEDOM, Fine 12; 1876 copper medal issued for the unveiling of his statue at the Centennial that summer, 31 mm., a Choice Red and Brown Proof with only a couple of tiny spots; copper medal from the French Patriots Collection, commemorating his command of the Parisian National Guard in 1789, 1796, and 1791, 34.5 mm., VF 30; and an undated uniface brass medal issued by Whitehead and Hoag, Choice Matte Proof. loop at top. (Total: 4 medals)
- 7538 Francophile Medals. Included are: 1824 (date on truncation of bust) Lafayette medal, copper, 46 mm., from Wayte Raymond's collection, Brown Proof; and an 1833 Franklin/Montyon medal, copper, 41 mm., Brown Proof with one noticeable spot at the top of Montyon's hair. (Total: 2 medals)
- 7539 Lincolniana. Included are: Lincoln/Johnson campaign token, copper, 19 mm., XF, cleaned; Stephen Douglas token, issued by H. Upmeyer/Jeweller/Milwaukee, copper, 19 mm., XF; 1860 Anti-Slavery Token—Millions for Freedom/Not One Cent For Slavery, brass, 23 mm. PR 60, spotted; and an undated Lincoln cent that has a three-quarters bust of Lincoln pushed through the image on the coin. (Total: 4 tokens)
- 7540 Confederate Cents, Bashlow Restrikes. A three-piece set with coins struck in bronze, "goldine," and probably zinc. Struck in 1961 by Robert Bashlow from transfer dies, making these "second restrikes." (Total: 3 coins)
- 7541 Centennial Medal, PR 60. Bronze, 76 mm. Cleaned at one time but now the brightness is somewhat subdued. Showing a few spots on each side. Awarded by the U.S. Centennial Commission. This is an unrepresented medal, lacking any engraving around the rim. Always a popular medal with collectors of Americana.
- 7542 Centennial Medal, PR 60. Silver, 37 mm. Hairlined in the fields and flatly struck on the highest portion of the obverse design. Mostly brilliant with just the slightest bit of peripheral color.
- 7543 Gold Medal, presented to Charles C. Lindsay, 54.65 grams, 42.5 mm. A superbly crafted medal with Lindsay's bust facing left on the obverse, outlined at the margins with the legend INSTITUTION OF ENGINEERS & SHIPBUILDERS IN SCOTLAND/FOUNDED 1857 INCORPORATED 1871. On the reverse is the inscription AWARDED TO Mr CHARLES C. LINDSAY. C.E./INSTITUTION MEDAL/SESSION 1877-78/FOR HIS PAPER/ON/THE DESIGN AND CONSTRUCTION/OF PARTICK BRIDGE. Extensively hairlined with several contact marks in the fields. The rims are high and squared off and have tiny denticles.
- 7544 Two Medals. Included are: Warren G. Harding memorial medal, bronze, 76 mm., shows some browning on the highpoints; and a 1904 French medal, Societe d'Aviculture de Lyon, copper, 50 mm., with farm poultry featured on the obverse. (Total: 2 medals)

- 7545 Miscellaneous Medals. Included are: 1835 French medal of J. E. Chaponniere, copper, 41 mm., spotted Brown Proof; modern silver medal of Thomas Jefferson, 33.5 mm., Choice Proof; Undated (1945?) FDR/Atlantic Charter medal, silver, 30 mm., BU, toned; and a UNITED WE STAND US/UK medal with Saint George slaying the dragon of Naziism, brass, 37.5 mm., Gem Matte Proof, holed at top for suspension with loop. (Total: 4 medals)
- 7546 Fort Bridger Military Token. An XF token from historic Fort Bridger, Wyoming. Listed in Curto's 1970 edition of *Military Tokens of the United States 1866-1969*, page 111, F30-50. Struck in brass, 33 mm. The obverse reads W. A. CARTER/POST TRADER/FORT BRIDGER, and the reverse reads VALUE/50 cts. A plain token in appearance with traces of red on each side and a couple of parallel die marks on the lower right of the obverse. Unpriced in Curto, listed only as "RARE."
- 7547 Wells Fargo Miscellanies. Included are: Undated uniface travel insurance token for \$50, 34.5 mm., obviously cast and not made of precious metal; money order for \$27, dated September 16, 1908, VF with a couple of internal tears and folds; Wells Fargo frank on a three-cent stamped envelope, addressed to Senator W. Ransom, "Washington City"; and another Wells Fargo frank on a three-cent stamped envelope with a three-cent stamp attached, addressed to John Baker, also of "Washington City. (Total: 4 items)
- 7548 Encased Postage. North American Life Insurance Company. 3-Cents. VF 30. The case shows several darker spots on the reverse as well as green within the lettering. The mica shows three scrapes at the top; the stamp is somewhat faded.
- 7549 Alaskan Tokens. Included are: 12 1/2 cents native copper token, VF 30, GB-38, Rulau Sew-15 (1907-20), listed in Rulau for \$110, one corrosion spot on the reverse; 12 1/2 cents token from the D. D. Club-Anchorage, copper, XF; 25 cents token from the Pioneer Hotel in Fairbanks, brass, XF; 25 cents token from Olsen Bros.-Bethel, aluminum, XF; 50 cents token from Olsen Bros.-Bethel, aluminum, bright AU; and a \$1 token from Olsen Bros.-Bethel, aluminum, XF 45. (Total: 6 tokens)
- 7550 Original Commemorative Holders. An interesting lot that includes: Albany five-coin holder, several bends and slight browning; Bridgeport three-coin holder, a pristine box with fresh color; (10) Columbian Expo. tickets, all mint condition, in a Caxton Company envelope; New Rochelle five-coin holder in the original envelope from the committee; Norfolk five-coin holder in the original envelope from the Norfolk Advertising Board; Oregon Trail three-coin board, penciled in "38 PDS"; Roanoke five-coin holder; York five-coin holder with tissue insert, excellent condition and scarce. (Total: 17 items)
- 7551 Toy Money. This has been one of the favorite lots around the office, and we hate to see it go. Housed in the original box this "United States Educational Toy Money" was made by Milton Bradley & Co. and has a patent date of March 20, 1877. Includes: (11) 1872 "cents;" (9) 1867 "two-cent pieces;" (15) 1870 "Shield nickels;" (14) 1875 "dimes;" (11) 1876 "quarters;" (5) 1875 "halves;" (5) 1878 "Morgan dollars;" (2) 1853 "quarter eagles;" (1) 1862 "three-dollar;" (1) 1883 "half eagle;" (2) 1880 "eagles;" and (2) 1873 Open 3 (!) "twenties." Obviously, none of the money is real, it is printed on cardboard and the overall condition is quite nice.
- 7552 Sheets of Modern Currency. Included are: (2) 16-subject sheets of 1981-B \$1 notes; and (1) 16-subject sheet of 1976-A Star \$2 notes. All CU and housed in the black cardboard holders of issue. (Total: 3 sheets)
- 7553 Books. An interesting lot containing: *Eaton's New Primary Arithmetic*, 1878, average condition; *Motor Trips*, New England edition, 1924, still bound but just barely; *Rand-McNally Vest Pocket Map of Massachusetts*, undated, circa 1915, disbound and taped at spine; *Matthews-Northrup Up-To-Date Map, New York*, 1893, good condition; *The Official Maps of New England*, undated, circa 1915, by The National Survey Co., heavily worn cover but internally good with only minor discoloration; an untitled picture book of prints featuring Union and Confederate generals with lengthy biographical sketches, undated, circa 1910, original cover is long gone and a second cover is now separated from the contents; an untitled picture book of the Jamestown Exhibition and surrounding environs, 1907, average condition; *Springfield, Mass.*, a picture book published by the Third National Bank, 1910, fine condition; *The Hudson River*, a picture book by L.H. Nelson Co., 1907, fine condition; *Rocky Mountain Views*, by Van Noy Inter-State Co., 1917, waterstained, but the colored photos are unaffected. (Total: 10 books)
